

· BELOVED ERIEL'S DISCOURSE ·

Denver Class—March 19, 1939

GREET you, to-night, in the Name of Happiness, beloved students. How We have watched through the years the ever-expanding happiness which has been yours and how from one step to the other, you have advanced until so many to-day, to Our great joy, are finding themselves untouched by conditions that were only a short time ago terrifying to them.

Remember, the appearance world, my beloved ones, is not an eternal thing. Appearances are not permanent. That which has frightened and terrified you in your own individual experience, could not harm you, if you were not afraid of it. Oh, fear is the only terrifier there is. Fear may come from a thousand causes, but your Presence of Life, the "Mighty I AM" *can* dismiss it forever. Your Presence of Life will dismiss all fear, when you give It the opportunity and the Authority. You might say to Me: "Well, should It not already have the Authority"? Oh no, you are beings of free will, you must choose what is going to act in your world.

Therefore, in My training of hundreds of individuals through many centuries, it has been quite wonderful to see that in no single instance did the general condition of the individuals vary but slightly. Almost every one had similar conditions to overcome and of which that one had to become the master. My adopted son, Fun Way, with whom the Messenger acquainted you, gained his Freedom quickly. Having taken him when an infant, he absorbed My Radiation from the beginning. He gave instant and complete obedience to

all that I required and in the shortest time I have ever known, he gained the mastery.

You to-day are so privileged. When your Beloved Saint Germain sent the Messenger to Tucson, Arizona to restore happiness and Perfection to those whom I loved very much and whom I had protected, it was My Joy to meet the Messenger; but the Great Law of Life did not see fit to bring Me into this Assistance until now. Why do you think it was not before, since there was a direct contact in the beginning? Because of this dispensation that was given to-day by those Great Ones who obtained it.

My dear ones, you have no idea of all that is being done for you, all that is being given to strengthen, to sustain, to help, to bless you in this Mighty Victory which must come. Does that sound rather authoritative? I say to you, beloved students of America, I firmly believe that already there are enough whose attention has been called to this Ascended Master Instruction of the "I AM" who will stand firm, issue these Decrees and who will be sufficient to render this service which is required. I have not observed the conditions as others have, having been otherwise occupied but now I enter into this Mighty Activity. By the way, Denver, for the present My Activity will be largely in your city. (applause) Therefore, if you do not mind I shall make Denver My Home for awhile. (applause—audience rising) So, if unexpectedly you find yourselves in some difficulty, remember I am not far away.

How I love the beloved students! To find blessed loyal people who are ready to stand fearless and dauntless by the one thing in the world which can set them free, your Presence of Life, the "Mighty I AM." Oh, beloved ones, stand by It if the heavens

fall and you will find you would come out untouched. Your Presence is the Greatest Intelligence and Power in the Universe—do not forget It! Do not let your attention upon the outer world make you doubt that Power which is Infinite to raise you out of all conditions at any time!

Oh, will you not accept the Power of your Presence of Life which stands ready at every moment to give you limitless Assistance in all you require? Try to understand that you are always dealing with Life which is limitless and whether it be supply, health, Directing Intelligence, happiness, harmony or other conditions, Life has Legions It can call into action upon the moment which represent the Power of Harmony under the Guardianship of the Mighty Master Harmony Whom you have come to know.

I say, you are free beings—NOW! if you will only accept it, if you will only make your application to sustain it. One of the greatest activities I have ever seen taking place within a group of human beings, has taken place during the days of this class. (applause)

Because you have not seen some miraculous out-picturing or something sensational, do not question My Authority when I say this for all comes from within out in the acknowledgment of your "I AM Presence." This Great Perfecting Activity is taking place within you far greater than you often comprehend, but We know it. We know it to be True, and when We mention these things, it is for your encouragement and sustaining power. So please accept it. Then let Us go on doing for you what you cannot quite yet do for yourselves. Under all circumstances you can always make your call to the Presence of Life, the "I AM Presence" of you, and do not fail to do it,

my dear ones. Don't fail to do it! Don't forget it! Don't let your attention be held on outer things so you forget the Presence of Life, the "Glorious I AM" not one hour of the day. That does not mean, you must keep your attention on the Presence with a disturbing of your business activities of the day but you can turn your attention for a moment to the "I AM Presence" once every hour; then you will keep Its stream of Light flowing clear into action in your body and into your world.

You have heard the Messengers speak so many times about vibration and substance. My dear ones, that is about all you are. Do you realize it? Certainly you have a Mighty Intelligence directing that, but you physically speaking are substance and vibration; if you were not you could not move.

Try to feel a great intense joy in all you do, for that is the Great Motor of Life, and when you charge your feeling world with joy, you will find it so much easier to laugh at conditions which would otherwise disturb you. Remember, as the expansion of your Light depends upon it, do not let persons, places or conditions disturb your feelings! It is tremendous, when you find that you *can* control your feelings. You have the Infinite Assistance, Power and Intelligence of Light, and why should you not? Just determine to do it, that is all it requires.

When you are determined enough to do anything, you will do it. You know that, dear ones. When you get angry enough, do you have any trouble in releasing energy and vibration? Then, you are only using the human element, which is a limited quantity of energy; but when you call to the Presence of Life in the happiness and joy

of Life, you *can* release limitless energy to do your bidding and to follow your command. That is what you want to do. That is how you can produce happiness and Perfection for yourself and others. That is why it *is* necessary to maintain harmony within your feelings.

I observe that you have gained such a tremendous comprehension and anchorage of some of the fundamentals which I think you had been overlooking. Now, you are becoming so anchored in the Light that I am sure you will not have trouble in the gaining of the Mastery of your feelings and over conditions.

You know I have been a very close neighbor of yours for a long time. In fact I was a neighbor of yours before you were here. I have seen the activities in the mountains surrounding you here and still remaining in those mountains is the wealth of nations. If mankind would become harmonized enough, the Presence of Life would take individuals to those places and release it; but Life will not, until mankind is harmonized and the selfishness has been consumed. When you want to bless your fellow-man instead of depriving anyone of anything, then will all that you require and a thousand times more be at hand always for your use.

To-day, Oh there are avenues of supply that are limitless and which could be released into your use within a week; but it will not be done as long as mankind has such selfishness within them that they do or desire to destroy each other. What do you think would happen even to-day, if the destructive individuals of America and the world had all the wealth at their command they wanted? How long do you think your America would be out of turmoil?

I have lived a long time in your America, even before she was known as your America. I have been one of the Arms of its Light, but silent. This is the first time I have come into the outer world to take action. What do you think is acting within your beloved land to-day? The claws of destructive forces want to get a civil disturbance started within America, that other nations may send their legions upon you. This contemplated attempt to seize America is one of the most tragic things among her people. It is only a means to hold the attention of the people from the real tragedy to release it here.

Don't be deceived, my dear people by pretense and false promises. The Power of Light is the Giver of all. No human being nor group of them on this earth in your America, are going to give you or supply you according to the promises they have made. Not one human being living knows what he can promise to-day—not one! Therefore, don't accept promises fabulous or otherwise which will take you from that which you know and your heart tells you is right.

Anything that touches or tries to change the form of your government, its Perfection, happiness or freedom is dangerous in the extreme. Don't become a part of it. Oh, great and loyal hearts have been drawn into such mistakes by the false promises of financial freedom. There is only one thing in this world that can give you financial freedom and that is your attention to the Presence of Life, your own "Mighty I AM Presence," the Giver of all. Don't make any mistake about it! Individuals can promise anything, but to fulfill that promise is another thing. Therefore, I urge you, be not deceived.

No group of mankind are going to give you three days a week's service, three weeks a month. That thing shall never take place in your America! (applause—audience rising) Now let Me tell you why. Mankind in their present attitude of consciousness who do not know this Great Presence of Life must have their minds occupied. The division which Life has granted mankind is eight hours service, eight hours rest and eight hours recreation, and who could ask more? Who should want more? In those hours of recreation is the power of study which will lift you into the Goal of your Eternal Freedom by this Application.

Therefore, do not be misled my dear people. Mankind have got to have service, have got to have a means of releasing their energy. If they did not, they would not exist ten years in an activity like that. I tell you, dear ones, human ideas have little wisdom; but could you see the cause, the action and reaction or effect of those things as We do, you would know how great was that mistake.

While you are standing now, will you be kind enough to accept the release and charge of the energy which They have drawn for your Blessing? This Life-raising Power will one day answer your call to your Ascension. Friends and "I AM" Students, please understand that your Ascension, which the Messenger has described to you and has witnessed is yours, if you choose to have it. It is not a thing unusual. Why do mankind say that the Ascension could not be for them or that the idea is ridiculous when it is the most natural thing, as natural as your breathing? Since you are not the authority in your physical bodies, you but make the call and there above you is the Wis-

dom, the Power and the Presence of Life which does render the service. Is there anything unusual about what the Presence of Life can do for individuals? Since the Ascension is the Goal of all mankind, I say in the Name of Life, why can one not accept that idea the same as you accept other ideas and then let the Presence of Life work it out?

You cannot command through just your physical qualities and say: "I am going to have the Ascension," but you *can* say to your Presence of Life: "'Mighty I AM Presence' see that I make the Ascension in this embodiment." Then you have complied with the Law of Life, but just to physically say: "I am going to make the Ascension," without giving obedience to Life is childish and foolish.

I say to you, to-night, in the Radiance which has been released in this class, there is not one of you who has been in this class room—it does not make any difference if you have been here only once—there is not one of you who could not, in decreeing it, have Our Assistance at the close of your Life time and have the Ascension. Is that not promising? I say to you, my dear beloved people, is that not promising? Am I not great enough to stand by a promise? (applause) If you do not believe Me, then I ask you to make the call as I have just directed. When the close of your life period comes, see whether I am right or not. That is a challenge, if you care to have it. (applause) *We* do not waste time and energy! We mean business, you business people. You call yourselves business people, do you not? Well, Our business is much greater than yours. Will you not agree with that? (applause) Is not Our business in giving you the Assistance and your Freedom greater than yours?

You know the story your beloved Lotus tells you about the little doggie and the flea—the dog bites the flea and the flea bites the dog and they are still together. Well, if you do not care to accept this promise, you could go on in the wheel of birth and rebirth for a long time and you probably would not even remember this promise because next time you came forth you probably would have forgotten all about it, but when We make a promise to you, We mean it.

Notice! that is a Stupendous Thing I said, and you who probably do not believe it is true, why don't you take up My challenge? I say to you ladies and gentlemen, take up My challenge. That counts, does it not? You never heard that before, did you? If you don't think I mean business, then try it out! I know a great deal more about you than you do yourselves. That is the reason why I am doing this; because I am going to stir you up! (applause) I am going to stir you up by the Power of Harmony!

Some months ago your beloved Saint Germain said: "One day, you will find that We have really gone into action." Well We have to-night. (applause)

Beloved ones, Oh there are such a lot of things that I should love to say to you, but time does not permit, nor does Wisdom. Oh, if I could say some things to you, you would know what it was to be on fire. You know you have anticipated things and you got considerably on fire about it. Well that would not be a comparison to what I might say to you which could start that conflagration. Believe it or not My beloved ones, mankind needs a violet conflagration. (applause) The beauty of it is, mankind are getting it whether they want it or not. (applause) For instance,

your beloved city, what a conflagration it has had these eight days. Why? Because of what it must be in the future.

A lady wrote the Messenger—you will notice I have been observing—reciting the dreadful conditions of Denver. The Messenger smiled when he read it and thought: "What a pity that that individual would use her Life-force to amplify any destructive condition which might be here," instead of saying to that condition: "Why it has no power"! In the call to Light, all of that must be wiped out.

Do you remember the entities that have been taken from your city? Ladies and gentlemen, will you recall just a few years ago the condition which existed in your city? I may not voice it, but you know what I mean, and how that has largely disappeared. I tell you friends and citizens of Denver, make your call to Life as if your Life depended upon it, for the Perfecting conditions of your city which you as its citizens require. Call for Ascended Master Friends to be placed in every official position and you will find it will be done—possibly much quicker than you could anticipate. How shall you know how rapidly the Powers of Light will act at your call, in these days when so much is being done, which the outer does not comprehend?

Really when I see your loyalty, when I see your determination and your receptivity to these Laws of Life with which you are not familiar, it is an encouragement and joy that is indescribable. You may look upon Me or the Messenger, or whoever it is talking—of course the Messenger is talking, but he is talking what I want him to talk. Whatever your idea may be about it, you will find it is Mighty Real, and you will find it

has taken hold of your Life, of your heart and you cannot get away from it.

Oh, my dear ones, to think to-day the opportunity which is yours! After all the conditions which have existed you can be free in so short a time! Oh, I thank you and bless you forever for your receptivity to the Light, for your determination to have the Light and to let It be the governing Power of your Life.

I tell you ladies and gentlemen, never in the world will you forget these days. Never in the world will you again feel yourself slipping. (applause) You will stand your ground. You will stand in the Light and draw to yourself your own, and do not forget those words! Those are My Words with which I trust to help you! You will stand in the Light and draw to yourself your own! (applause)

The far-reaching Power of the Light released in this class has reached every point in these United States and Canada. (applause) Therefore, rejoice in the part you have been of this; and remember when the Messengers come to you again, there will be such a Power released in your city, there will be such freedom as you have never believed possible to exist.

The momentum is gaining where We can begin to make definite Plans. Since I believe in action; since I do not believe in delays, knowing the Powers of Light which act, then I insist that We have action! You know in your moving pictures, when they get ready for business they say: "Action"! To-night I say: "Action! in the mighty feeling world of every one of you; the action of Light; the Power of Light and the action of Harmony which holds the flow of Life steady through

mighty directed attention and action; to render that service of Perfection to you in mind, body, feeling world and world of affairs. Accept it! (applause) Let Its full Power clothe you in Its Mighty Light hold you in Its Mighty Arms of protection and bless you with the fulfilling of your call instantly. Keep it up until you do have it!

Waver not in the great call to Life. Life never wavers and if you will stand as unyielding to It, then all will be clear in your world and the Power of Light take its command, to release the supply, energy, strength, health, power of attention and everything you require.

Oh, how I long for that day when mankind will seek their homes again. When mankind will have their little cottages, in beauty and Perfection and stop seeking the cities—except those who are required for service there. Oh, it is soon to return, beloved ones. You will have your homes and you will have your gardens. You will have the happiness and peace which every home should have.

Oh, when I have seen the homes disintegrating and the desire of mankind to congregate and pile on top of each other to thirty and forty stories, what a mistake! You know mankind it seems must have their fling and afterwards they see what sack cloth and ashes it is. All your human desires bring you to sack cloth and ashes. It has done it in embodiment after embodiment. To-day in the seeking of Light, the "Mighty I AM," the Presence of all Life, it has changed that. Instead of a garment of sack cloth and ashes, you will be clothed in Raiment and Jewels of Light. That is your position to-day; and many of you are weaving by your attention to the Presence of Life,

through obedience, your garments, your seamless Garments of Light. Wear them, and give obedience to Life, which Life clothes you forever in those Jewelled Garments of Light. Remember in that is not vanity! Human qualities then are left behind in the Beauty of Life, in Its Magnificent Splendor in which We live. Just see what mankind might have!

Do you wonder when We see an encouraging opportunity that We spring into action with the Fire of Life; and that you, too, may become the Fire of Life which burns out every imperfection?

Then, in your Ascended Form of Splendor, you render Service to earth which We are rendering.

Feel that all of this is yours. To-night in the release of this Great Power, Infinite Power of Light, enfold each one; the Power of the Unfed Flame encircle and clothe each one in that Purity, that Perfection; hold that Mighty action sustained which compels obedience to Life by the human. Then, as the discord and imperfection disappears, clothe mankind of the earth in the Beauty and Perfection of Life forever. I thank you.

• DECREE •

“Mighty I AM Presence” make and keep me awake, alert, alight with the Light of the Christ, the “Mighty I AM Presence,” in Victory’s Victory of the Light and the Power, Power, Power of Harmony, instantly manifest and eternally sustained.

This which we have called forth for ourselves we charge into every human being on earth and hold it eternally sustained until the moment of their Ascension.
