

- MR. RAYBORN'S DISCOURSE ·
- *Minute Men—Oakland, Calif.* ·
- *August 20, 1939* ·

GENTLEMEN of the Light, Minute Men of Saint Germain! the Messenger is very kind in referring to Me; but as I see it, I am not deserving of any special credit, for Harmony was just natural within Me all My Life. No matter what someone tried to do to Me financially or otherwise, I never felt unkind. I never knew why, until his coming into My Home and Saint Germain's appearance there. Then, for the first time, I began to understand the Laws that were operating, quite naturally, thru Me.

I say to you, gentlemen thruout America, We have made some special investigation concerning this during these five years. There are a great many magnificent men in America who are loyal Americans, who have within them naturally that same great harmony which was Mine. This is one of the great things We are depending on now and in the future for the requirements of America.

Did you observe in the papers this morning—of course We watch the newspapers, but it does not take Us long to read them—but did you notice what the Dies Committee is doing, in calling for the revoking of the charters of all German Bund activities in America? (applause—audience rising) Thank you gentlemen! We shall never let up until that is achieved (applause) and this is why. Only a small percent of those people are inveigled—you will notice the word—are inveigled into that false belief. How? By absolute false promises and those promising know such things can never be fulfilled to those people. Groups and individuals are inveigled into the Bund by various individuals and thru claws to bring disturbance into America.

Well I am a fiery American, even though I am Ascended! Remember We do not forget that which enabled Us to reach the Goal of Life and if you love your Saint Germain, how much do you suppose I love Him, as well as Mrs. Rayborn and Our Blessed Children? Do you realize that Our whole Family became Ascended thru His Assistance and thru the Messenger whom Saint Germain sent there coming into Our Home. Why did He send the Messenger to My Home? Because unbeknown to Me, Mrs. Rayborn had already made the Ascension; and when the Messenger came, it was revealed that She had.

Gentlemen, you who have longed to meet Saint Germain in the Tangible Body please get My *Feeling* now! Shortly after the Messenger came into My Home one morning about five o'clock, I awakened out of a sound sleep and there stood Saint Germain in His Tangible Body, looking at Me as I awakened! He was just as tangible as

yourselves. Well, I am frank to say, for a few moments I had just a little palpitation, but I know He assisted Me in quieting that down; for in a few minutes I felt quite at ease with Him and that conversation for two hours or more which took place was ONE never to be forgotten in eternity. Saint Germain has never permitted Me to give that conversation to the Messenger, but I am still asking for the privilege—for you know it is said, if you keep after a thing you finally get it and when it is granted, you will rejoice quite as much, I think, as the Messenger. These are close magnificent touches of Life! (Won't you be seated?)

Recall how many times when someone to whom you feel very harmonious or whom you like very much comes into your midst, just what takes place in your feeling world. Recall the happiness and rejoicing. Well that is exactly—only greatly intensified—what is coming into your feeling world with VERY GREAT INTENSITY.

We have talked about it before, but I want to touch upon it again to-day so you may, if you will, feel what it means to you when you have of your own volition chosen to style yourselves the "Minute Men of Saint Germain." Feel ALL that means! Do you understand in doing so, it compels a special activity into action in everyone of you and that you become a closer part of His World of Perfection? I am mentioning this, because I want you to feel it is a responsibility—there is no question about that—but it is a thousand times worth any responsibility it might seem to be to you.

I think to-day that within six months, Saint Germain will give into the use of the Minute

Men some things which will bring you right up-standing in the joy of your ability to do this and also in that which will be for your personal use. Try to feel as I speak these Words that it is not just an expression. Not only is your "I AM Presence" your Treasure-house, but you have entered the Treasure-house of America and Saint Germain, in having joined the Minute Men gladly and willingly. Now this is not in any way an inducement for men to come into the Minute Men's Activity for they must come because they love to render a service; but I say to you who are rendering this service: Remember one day when you find how really generous Saint Germain is and that He is the Treasure-house of the Universe from which to draw, you will know Him as He really is.

You see how generously He has provided for the Messengers to carry on this Light. When certain things are achieved, He will turn a large portion of His Attention and Power to the blessing and supply of the Minute Men.

Gentlemen, I want to tell you this morning—Please do not forget to keep up your constant application in gaining the momentum and please do some very definite work each day on your money supply. There is a reason of which We shall tell you later but your call is imperative. You, as individuals must specialize in some things. You may not be the judge of that, but since you are needing (shall we say?) a limitless financial supply to render the Service to the Light which you might desire; then it is just the MEANS by which you have the RIGHT to call forth your limitless supply.

Remember you can do it now—positively! It only means you are going on and on in your

application, as a matter of expression, looking neither right nor left. You are going steadily forth toward your Goal, making your constant application with no anxiety as to when it is going to produce those results because sometimes in the anxiety as to—"well why don't I get the result right now?" or "Oh, why doesn't that result come forth immediately?"—you throw a feeling into your call which in a way repels it, at least for the time. It is your obedient part to accept the things you want, for that brings their speedy release to you.

You know it is very wonderful and very easy for Me to understand these Laws as applied to the commercial world because I involuntarily used so many of them in My Own experience. I love very much to talk to the Minute Men because I am able to convey into your feeling world My Glory and Victory of commercial achievement. Does it sound strange to you, that being wholly free from those things, I would still have an interest in them? Well, if so, you do not quite grasp the Law. If the Ascended Masters were not interested in you, in Divine Order and in Divine Justice for the commercial world, how would the people of earth obtain it? You see you cannot gain it thru just human effort. Without the knowledge of the "I AM Presence" which gives you the encouragement, how can the Power in the One Intelligence and Light go forth and be held sustained to bring it about?

It is one thing to call and then enter into action, gentlemen, for thousands of people with but little knowledge can call a thing into action; but to hold it sustained is a far different thing and your Presence is the only sustaining Power there

is in this Universe. Even your momentum is not sufficient without the constant sustaining Power of your "I AM Presence." That is one point I want you to get, if you will this morning because if you do not see that, you will repeatedly at intervals recede from the attention and conscious acknowledgment that your "I AM Presence" is the One and Only Sustaining Power, for Its action comes about at your call.

Now let us use our blessed Mr. Sindelar as one illustration in the activity of the Magazine. Not only does he have to make the physical effort in getting it out, but there must be the releasing from the "I AM Presence" of the Power of Light to regulate conditions so as to hold an almost involuntary Stream of Its Energy steady, steady, steady upon one objective. That is why the undivided attention to the Presence thru your calls releases the Power of the Presence into action which is positively incredible, until you compare the two ways of doing a thing and see the difference. Now, our blessed Charles is coming into that vibratory action where more and more, almost involuntarily, there is coming a steady flow of Power from the Presence of Life thru the activity of the Magazine in its more and more perfect coloring and artistic work and in the flow of Its energy into the conducting of the business.

Remember gentlemen, Life never criticizes nor condemns you. The Ascended Masters never criticize nor condemn you. Sometimes in certain things, the human must be held in obedience until Self-governing power takes it place; but that is not criticism, nor is it condemnation. If you will understand this, you will see how great

a mistake it is to allow yourselves to criticize persons, places or conditions for any reason whatever because you are charging your world with the quality which you are criticizing and that is the most dangerous thing against your success. You cannot afford to do it. It does no good and on the other hand, it does release terrifically tragic things at all times. In fact it does harm at all times, and according to the intensity of it, is it more or less powerful.

Suppose someone does you actual harm. Although you might like to humanly retaliate, the Wisdom of the Law is to call on the Law of Forgiveness for his mistake and give praise and thanks, that you remain untouched and unaffected by it.

I ask you to observe this among the vast student body. I have never seen such a magnificent thing in My entire experience. Ninety percent of this great student body of America and the world are absolutely happy and willing to give obedience to what the Messengers ask—obedience to Life—because that is all that is asked so all may more quickly reap the Perfection they desire. It is an unheard of thing and yet it is done.

The very small percent who resent giving the obedience to Life which is necessary for their harmony, is hardly worth considering. You are so happy and willing to give whatever obedience to Life is necessary and as you keep yourselves harmonious, so your call goes forth with more and more intensity, more and more speedily and powerful does the momentum come forth which will one day sweep into action and the whole of what had seemed to obstruct your way, will have vanished over night. With some, it will vanish grad-

ually, with others the momentum constantly rushes into action and the thing is done at once, but this application is the assurance of your Victory.

That reminds Me of insurance. Do not misunderstand Me, but your real sincere attention to your "I AM Presence," is the greatest insurance in the Universe. Yet it is only wisdom to keep insurance on your cars, because to some degree, if you are off guard, they become subject to the conditions around other individuals. Then, if somebody runs into you in spite of your application, you have something to replace the damage.

You see gentlemen, this Law is the most practical thing ever known in this Universe when correctly understood. It is the same thing many times in physical conditions, if individuals have not yet gained the momentum to quite cope with a situation and sometimes outer assistance is needed, have it. That need not in any way detract from your application, unless you allow it to do so.

If you were out here in the street and you needed information which you were not familiar with and I came along and gave you the information, would that detract from the application which you were naturally making? Of course not. That is why and how you want to be practical in all this Instruction of the Ascended Masters. Keep your feet on earth and your head on the Breast of your "Mighty I AM Presence." Gentlemen, that is not less manly. Do you know what you can do when anxiety has beset you? You can lay your head on the Breast of your "Mighty I AM Presence," like a child who is tired and goes to its mother; and in that stillness such

complete release will come! Just feel that Love from your Presence! Visualize It! It is your *physical* sight in action within.

In the secret of our hearts and in adoration to that Presence, let us be children again. Such Love and adoration to your Source of Life does not interfere with your positiveness to the outer world as you go forth into action; but to that Great Presence of Life which is the Intelligence and Energy acting thru your human form, feel so sweet and kind to It. You cannot feel such Love to your "Mighty I AM Presence" without the feeling of great harmony. In such great harmony, Its Powers will release so tremendously to you that you will find it well worth while.

During the time when I saw among the commercial activities the conditions then existing, I thought what a wonderful thing it would be, if some day, something would come about so mankind would all feel harmonized—for in the conferences of the commercial world, such tragedies took place. Do you know in the conferences with other men of the commercial world such a thing never once occurred in a conversation where I was present? I marveled at it time and again. I had not the slightest idea and could not have accepted then that I was the cause of it; but the Light of My "I AM Presence" flooded forth thru My Natural Harmony and compelled all in the Radiance of it to become harmonious. That Power of Harmony is exactly what you can make yourselves in your calls to the Presence. You can be such a Power, such a magnet of harmony that as the Radiance goes forth from your Presence thru your physical body, no one coming into Its Radiance will want to be inharmonious.

That requires a momentum gained to a certain point. All of you are rapidly approaching that point now where you can begin to bring this forth and if you will do as the Messenger has asked so many times, whether the need seems to be there or not, you will be victorious. When you stand on your feet call the Presence to charge your mind, body and feeling world with Its Limitless energy, with Its Mighty Directing Intelligence, qualified with the Ascended Masters Consciousness in all you do. You will gain a momentum of that and is there anything which could interfere with It? Observe how impossible such a thing would be.

You are entering into the most powerful, mathematically accurate, definite Law known in this Universe, which is the Law of your own Life. It does not make a particle of difference what somebody around you is doing, *if you do not let it get your attention!* Everybody around you may make mistakes, but if you will stand steadfast in your "I AM Presence," you will find yourself no part of those mistakes.

I say again, I often see individuals requiring a certain amount of money to successfully go forward to an achievement. Gentlemen, believe Me, your "I AM Presence" Who beats your heart, is the Treasure-house of all you can ever require. If you will keep calling and calling It into action and say: " 'Mighty I AM Presence' release thru Divine Order and Divine Justice the money supply I require to carry this work on successfully! You see that I make no mistakes," It will answer. If it is in mining, you can have this help. Since I am very familiar with mining, I speak of it and I ask you to remember what Saint Germain did for me, or caused the Messenger to do.

Remember the Ascended Masters want to help you and if you are in a position where you need specific Directing Intelligence say: " 'Mighty I AM Presence' release this Ascended Master Directing Intelligence right now, which I need," *and you will have it.*

Suppose you were interested in mining and there were rich spots on your land, you can say to your Presence: " 'Mighty I AM Presence' direct me to the richest spots here, so I may save time and expense." Well, why would you not be answered!

I ask you to observe that amazing experience referred to in the "Magic Presence." A freak of nature had occurred and the engineers of the world would have said it was impossible to find gold at that point. Yet, Saint Germain seeing, knowing, directed Me to the exact number of feet I was to drift in to reach it and I found the ore body to the exact foot that He indicated. Blessed Bob when He saw Me start this work, thought I was positively a little bit off because his technical training had taught him that such a thing was impossible. He wanted to say to Me so badly: "Oh Mr. Rayborn, don't waste your money." I felt it as plain as could be, but He did not venture to voice it. When he watched—I have not asked Him since, but I do not think he slept during that time. Daily his anxiety became greater and greater, as to whether it was going to work out or not. When it did He almost collapsed.

Gentlemen, that was only the Wisdom of Life acting, untouched by human qualification. Saint Germain IS the Perfection of Life and seeing and knowing clearly that the gold was there, meas-

ured just as accurately as you measure with your tape line the number of feet between because He could see thru the walls and perceive the distance between.

There is no reason in the world why anyone who will attune himself or herself to the "I AM Presence," cannot see thru and know the Goal from the beginning. It is what every one of you, one day, will come to do. Would that not remove all anxiety as to achievement? Of course! Every time something occurs in your human feeling to make you anxious, doubtful or question the Wisdom, the Authority or Power of the Presence to direct you, silence it and say: "'Mighty I AM Presence' silence this thing! I don't want it! I won't have it!" Then, "'Mighty I AM Presence,' You take charge here! Replace this human quality with Your Perfection and see it is sustained." Then, you will dismiss that condition and go on in the Freedom and happy harmonious activity of achievement.

If you had been with these Messengers, you would have seen the thousands of times in which an almost terrifying thing suddenly would loom up in front of them and yet, with a few dynamic calls to the Presence the thing was silenced and disappeared never to return. To-day, you are in the same position to do the same as they do. That is the point to which you are being raised.

Please do not let so many years over your head make you feel you are less capable, less dynamic. That is not a Reality. That which imposes age or inability on you is not true! It is human creation and human consciousness imposed upon the individual. That is outer scientific knowledge, if you care to look at it that way. It is your re-qualifica-

tion of your own Life's energy by accepting the suggestions of the mass of mankind which still impose the feeling of age and inability. You have the same Life, the same energy within your body as you did when you were young if you assert it. Not only that, but you have the Wisdom and Power of your Presence NOW which you can call into action to charge your body with Its Limitless energy.

I would not be surprised if the Messenger is not as old as anyone in the room, but does he lack energy? That is why gentlemen. His contact with Saint Germain removed the mass suggestion that was starting to impose age upon him and that is the reason it will never grow any more than it is to-day. Instead less and less. Such is the Perfection which your calls to the Presence should produce in your physical body. First, a stoppage of all sense and feeling of age. Then the reversal of the condition which returns you to more youthful activities, instead of going on subject to the mass suggestions of all mankind.

Now remember, it is the accumulation of the ages, of the mass suggestion of age, which mankind has to contend with; and you have to be very positive against it, that you do not accept it. Involuntarily, I repelled the human sense of age. I looked always at least twenty years younger than I really was. I made no effort to attain youth, but the natural harmony within Me did sustain it, in spite of all conditions about Me. This is the point you are coming to in your application, for the Light will naturally repel such suggestions. If you will make the call to charge your body, you will find you are able to charge it with the limitless energy of your "Mighty I AM Presence."

Now I must touch upon one point. By nature, by natural desire, I never had any desire to waste My sex energy, except to use it in the bringing forth of our two children. The thought was seldom within Me. The condition of mankind, to-day, is that in having wasted so much of their energy they do not find it easy to replace it; but if the students and the Minute Men understand the imperative need of that, they will call the "Mighty I AM Presence" into action, to take out of them all such desires and re-establish the supply of energy which is the strength of their Presence that they require.

We know quite as well as you do what the doctors recommend. A great many of them, not all, say it is a mistake not to do it. They are wholly mistaken gentlemen! If people continue to believe that, they will go down thru the shadow of so-called death. You cannot waste that energy, which you need to reach out to the Presence, in order to gain your momentum and have Its Perfection.

A great many, both men and women, have rebelled so furiously and become violently vicious because the Truth was told them about this Law—but every one is wholly free to obey It or not. We know what is necessary for mankind to gain their Freedom! We must tell them! Then, they must decide whether they are going to utilize It or not, but We know positively this is imperative for your Freedom.

Gentlemen, since you can have your Ascension at the close of this embodiment! Who of you can tell Me to-day, when the close of this embodiment is for you? Can any one of you tell Me? Then, why is it not worth making every effort in obey-

ing the requirements of the Law of Life so you may be ready for the Assistance which Saint Germain and We can give you, when it comes to your otherwise passing, to draw you into your Ascension forever free from these discordant, destructive and limiting conditions of earth? Such Freedom and Victory can be for every one of you, if you will believe it and give the obedience necessary.

I tell you, if you ask the Presence deeply and sincerely to take any undesirable desire out of you, it will be done. Then you do not battle! Then you do not feel that you are being deprived of something! After all a few years of obedience to Life, is so little effort to give you your Eternal Freedom. Think, those few moments of gratification, or a whole life time of it is absolutely nothing, in comparison to *one hour* of feeling the Glory of the Currents from your "I AM Presence" flow tangibly and freely into you. That is why your privilege to-day, is the greatest ever known to man and you have your Saint Germain to thank for it!

I thank you for your presence, for your attention, and trust that I may have been of some benefit, in helping you to understand and grasp the great simplicity of these Laws, to lift you into your Glorious Eternal Freedom and your Ascension in this embodiment.

Thank you so much.
