

- GODDESS OF LIGHT'S DISCOURSE ·
- *Washington Class—December 3, 1939* ·

BELOVED ones of the Light, I come to you to-day perhaps the happiest hour of My entire experience. You might wonder why since We are, as Ascended Beings, the fulness of Happiness. Is there any limit? Is anything ever complete? Not until you have become a Being within the Great Central Sun and a Director of Forces and Currents of Light and Power which govern Systems of Worlds. Then can you feel that you have reached a point or Centralized Focus of Infinite Wisdom and Power.

We may always draw to Us what We require, but when We, too, have great achievement, which We know means everything in the world to mankind, then have We not a right to have a

little greater Rejoicing? That is just what I feel to-day and that is why I am here to thank every student who is sincere throughout this land for each one's gigantic assistance in this which We have accomplished. Such a thing would have been completely impossible without those Mighty Decrees and Calls from the student body of earth. Certain Dispensations that were granted would have been impossible without them.

Try to follow Me for just a moment. I know it is a long reach, but try. Here We were operating within the earth's sphere, dissolving, consuming and forever removing the viciousness in those who are inhabitants of the psychic or astral plane, which was the destructive force generated and created by mankind thru more than two and a half million years. That is only a part of it. Now then, in one great leap, stand with Me in the Radiance of the Great Central Sun, looking upon this the lowest vibratory action in any system of planets—for be assured of this, there are no planets existing which have a lower vibratory action than this earth. That is the reason why this preparation had to be made, for the release of these unfortunate beings who had been caught and held in the psychic plane for—Oh, my people, that you only knew how long! Do you know some of those people caught in the astral and psychic world had not embodied in thousands and thousands of years? You cannot imagine what their condition was! How could progress be made where there was no opportunity? To remain forever upon this earth with no change of vibratory action would finally mean inertia. To remain in any other sphere of activity in one vibratory action, means so far as the height or depth of that

vibratory action is concerned, that it would become inertia.

Pardon Me if I digress just a moment. You precious "I AM" Students of America who have felt your authority and ability to call the Presence into action and supply you and enable you to travel from one point to another in America, have accomplished a splendid thing. It is one of the greatest things, dear people, in your experience. The change which that brings in itself means more than you will ever know. As true as I am telling you, you cannot stay in one room or one environment year in and year out and progress. You have got to get out. You have got to change your vibratory action, and that is why it has been necessary in order for your Light to expand.

You remember in the early part of our America, the home life of the people in many respects was very wonderful. It was at one time quite the same in South America. At that time there was seldom disturbance reaching into the country. Because of lack of change in environment at many points, the people became almost fanatical; for they lived and dwelt upon one idea, revolving, revolving and revolving it, until it became an absolute law, whether it was right or wrong. It became a law to those individuals and that action was not correct.

To-day in the change which is going on, you will see wonders of the air. I trust now that this clearing away has been done, there will be permitted to come forth ere long for your great blessing, the aerial navigation which is all ready. There are air planes that cannot have an accident. Those planes have been known for thou-

sands of centuries, but the Ascended Masters will not allow them to come forth until still further changes take place. What do you think destructive forces would do with planes of that kind? Do you not see, precious people, the Wisdom of Life? Will you please abide in the Wisdom of these Great Ones and of your Great Presence Who know so well what is right? How can the finite know, except at intervals of perfect attunement? How can people know the fulness of the Wisdom of Life?

May I offer one very kindly suggestion, because there is now and then one who falls into this habit? Do not say to your fellow-students that every move you make, you are directed by your Presence. That could not possibly be true in our present state; because you are constantly contacting vibratory actions of the outer world which you do not yet quite understand how to ward off. Therefore, making a statement of that kind opens you broad-side many times to ridicule, because your actions do not fulfill your statement! If you were under the Direction of your Presence every moment, you would do the Perfect Thing every moment, you see. So be careful in making statements that you may be free from criticism which you call upon yourself.

I think I shall tell you something— I am sure neither of them will object. One day this Messenger said (in referring to some things in his early life and limitations): "Saint Germain, why in creation did I have to go thru all that?" Saint Germain looked at him, smiled and said: "Well you created it, why wouldn't you? You are no different from anyone else. If you create a thing, you have to experience it." It is quite true. Blessed

people, Life will never impose one single atom of anything upon you for which you are not responsible. It would be impossible. On the other hand, Life wants to give you every good thing every moment, but your human qualification and refusal of obedience prevent it—not always intentionally, for many times it is because you have not known. Nevertheless, these are the actual Simple Laws that exist and unless you understand them, determine to abide in their Wisdom and obey them, you will go on making these mistakes and having these conditions to handle.

Now I tell you frankly—this is a tremendous statement to make even to this number of people, but if every one of you here in this room this afternoon would do exactly what you know you should do, in thirty days, there would not be a solitary thing that would bind you; because you know you should stand guard over your feelings. You know you should not accept any suggestions and you know you should keep yourselves harmonious. Those are the **THREE PRINCIPAL THINGS** that would keep you so ready for the Out-pouring of the Gifts of Life to you that you would not want for a single thing; and not only that but you would know the exact thing to do at all times.

Can you imagine what this would mean? Just take one of you out of this audience. Even from the state you are in to-day, if you would suddenly be aware in every call you make for Wisdom, that It is there directing you so powerfully no human element even of your own qualification could interfere with it, you would move in every step or activity in the Wisdom of Life. Can

you conceive with Me for a moment what a transformation that would be? I tell you, my dear people, for you who are here to-day, it is possible. Be firmer and more unyielding to outside things. Try, try, try!

My dear ones, may I speak to you ladies for a moment? You know you sometimes feel quite a struggle in house-cleaning time or in the spring and fall when you must adjust to the seasons. My house was much larger. It had to be cleansed and purified. My Home is America. When the Authority and Opportunity was here, I rejoiced that at last My Opportunity had arrived and I acted with all the Joy and Power of My Being, which was limitless. I used all I could call forth in that great achievement which was accomplished in so short a time.

These are the things We are doing for you, because you love the Light, because you love the Messengers. I am going to say something now with full Force and Power. Let no student in this land or anywhere else expect Us to give Assistance who does not love the Messengers. They will have no Assistance from the Ascended Masters I assure you. When these two blessed children have stood against the forces that would have destroyed a planet, then those who cannot love them shall not have Our Assistance. These Messengers have given miracles of proof without number to the world of this Law.

With all Saint Germain's glorious intent, without them you would not have this Great Light and Law to-day. Their patience has been Infinite. Therefore, remember, beloved students, in the closing of these classes, it means a great step forward in the Freedom of every sincere student in

the land; and it is only a short time, until every one who is not sincere will take himself or herself out of this Great Light. It is a Law and when the force of It comes to a certain point such individuals will always reveal themselves quickly.

My dear ones, let Me say this: In every walk of Life whether it be in your homes, your business, your industries or your nation, deceit is the most fiendish thing known to man because it opens the individual to every other destructive force there is. Watch your precious intellect, watch your feeling world, so there is never a desire to deceive anyone. You do not always have to tell somebody who is brazen, the Truth, because such an one asks you questions that are none of his or her business; but you will find as We have often said, that when you are firm and let people know you will not tolerate their viciousness or their gossip, then it will soon disappear—but as long as somebody will listen, it will keep up. That is what plays havoc with mankind. It stirs up their feelings and opens them to all kinds of forces which up to this time were watching to prevent the people's Freedom. This force will continue to watch, but with no more influence.

I want some of you to comprehend this now clearly, otherwise I would not mention it. You have been at the circus, most of you I think, at least as children, and you have seen the cages of wild animals. When there is a little disturbance, you have seen how they are all on their feet, alert, roaring and having a noisy time. Well that is only a slight comparison to the condition of the places these forces are in from the astral world where they are compelled to look upon the earth and see how they may no longer influence and

drag the children of earth into the mire and depth of their own filth. They are worse than those caged animals, but after a time they will subside for they will be compelled to listen and be taught some portion of each day. When the Ascended Masters come around them, they are absolutely still. Their hatred is terrible to behold, but they know they cannot touch nor harm the Ascended Ones. Therefore, they have to listen to what They say, and one day This Truth will find an inroad and even that frightful condition of millions of years standing will be annihilated from the earth.

That is why, to-day, I want you dear people to understand that this Law is Almighty. It is Infinite and according to your determination, your obedience to Life, your willingness to stand by your Decrees and calls, will you find Life charging and filling your world with all the Good Gifts Life holds and they are without limit.

Think of it in all those hundreds and hundreds of years I lived in that Perfected Body, I never had to think of food or raiment of any kind. All I had to do was desire something and it was there by My side—Perfect. Is that not a far more desirable way to live Life, than to struggle in human existence for food, shelter and raiment to wear?

Do you know, I think you would be interested in this very much; that it is only since the great cataclysm of eighty thousand years ago that black and red were known to mankind. It never existed in this world before that time. Many have resented our precious Lotus' fiery admonition for the discontinued use of those colors; but you should thank her on your knees for her fiery determination to have you see the Reality.

Why do you think in many of the early centuries—for it still continued in use in the great Inca Civilization, also on Atlantis and in the Seventy Thousand Year Civilization of which Saint Germain has told you—that Those Great Beings always wore certain colors here (solar plexus) and here (spleen), according to the condition in which They were called Upon to act? Usually the material was pliable metal which was powerfully charged. What a heavenly blessing to mankind to-day, if they but understood that! As you have been told so many times, only thru your solar plexus can the viciousness of mankind enter. Sometimes it enters thru the spleen, but more often thru the solar plexus. It never enters thru the intellect, because your solar plexus is the doorway to your feeling world. That is why any sudden disturbance affects the stomach, even in causing you to vomit. That is Law dear ones.

Will you not please, now to-day, determine to say not a word to anyone? Think these things out for yourselves. Determine to give this obedience. Determine to make your application with such power and authority that the answers to all you desire must come quickly.

Do you think you who have stood by enabling this great achievement to take place, are going to be forgotten by any of Us? Oh, my dear people, if you knew how We Love and Bless you for the strength which you have, which has enabled you to render this service! It is wonderful!

Therefore, to-day, in this most heavenly of classes, may I offer you My Hand in loving thanks and gratitude for all your application for America, for mankind, yourselves and otherwise? May you feel that Hand Grasp, Our constant Pres-

ence, Radiance and Light Rays by your side, to hold you steady on the Pathway until the quick recovery from all the conditions of the past and the Glory of the future, brings you into Our Perfect Attunement of Life? There Wisdom alone speaks Its Mighty Fiats thru your voice and the Mighty Radiance and Power of the Light, comes forth thru your feeling world, to hold everything in your world in complete and Perfect Obedience to Life. I thank you.

· GEMS OF LIGHT ·

To-day, you who are resting so serenely in this Majestic Circle in which the Messengers are held, have no idea what it would be to go back into the outer world, out of this Circle. Only by Assistance from the Great Ones could you possibly endure it. I repeat again, you have no idea how you are lifted and held within this Mighty Radiance. (Great Divine Director)

Whenever it is necessary for a thing to be discussed, determine before you start the discussion, that it shall not reach into the atomic structure of your body or your feeling world. Each one of you begin training yourselves to do that. No matter what it is necessary to discuss, determine not to allow it to register in the atomic structure of your body or your feeling world at any time. Remember this—What enables you to have determination? The Intelligence and Energy of your Presence. (Great Divine Director)
