

RIENDS of America and fellow-students, remember to-night "I AM" the Power that beats your hearts!

"I AM" the Light that your Higher Mental Body directs to give you Life and action within your human forms!

"I AM" the Energy of the Universe which you can call into action at any moment to render you whatever service is required! Will you make the call and free yourselves, or refuse to make it and remain in the limitations and chains of your own creation? Remember, nothing in the world can chain or bind you but yourself.

Remember, friends of America, the time of hypnotic force from one human being controlling another has ceased upon this earth! Observe this! Profit by it and remember when a suggestion of hypnotic domination is given to you, it is not true. You are free from all hypnotic suggestion from any human being on the face of this earth and henceforth! Therefore, you have the authority to call your "Mighty I AM Presence" into action to project Its Mighty Light Rays into your world of action and have there the Glory of Its Harmonious Presence and the Dominion of the Light which brings happiness, strength and courage to you to move forward in the Pathway of that Ray of Light and where you move, find the harmony of that Light waiting you. In individual conditions in the Power of Life, you become the Dominion of that Light.

Think of it, friends of America! No longer need mankind move in the conditions which they have created about themselves of limitation, of discord and privation; for to-night, I say to you: every human being on this earth who will make the call to the "Mighty I AM Presence," your individualized Presence, your Source of Life, will bring that Dominion forth and quickly!

Therefore, friends of America and beloved students, listen! Assert that Dominion as you never did in your Life before. Remember there is no single thing which stands between your human form and your "Mighty I AM Presence," the Governor of this Universe. See the Power of Its Light! Feel the Power of Its Light going forth! Then BE the Dominion of that Light in your world of action!

We move in the Power of Light, Oh children of earth! We stand in Its supreme Dominion! We walk in the security of Its Mighty Power, free forever from human opinion! We speak with the Authority and Power of Life! We go straight on to our Goal, the Heart of Light—Our Treasure-house there, and Our glorious Ship knows no shore. Filled with the Glory of Light, filled with the Power of the "Mighty I AM," It sails and carries you serenely on in the Glory of your heart's desire; and the one who lives in the "Mighty I AM" with the vision and attention fixed there, will find his world so glorious and free, filled with all that is fair, filled with the Glory and security of everything one can demand and live in the Perfection of Life sustained in the Glory of God's Command.

Oh, friends of America, to-night beloved students, in the Glory of all that is, see and feel the Supremacy of the Life that beats your heart.

Your call is sufficient! Your Power of Light in you is the Dominion of your world! Let It assert Itself and hasten It by your harmony and co-operation with your call to It. Then see how quickly discord and limitations will cease from your world; for "I AM" the Light that moves forward and asks no human opinion.

"I AM" the Light that moves into action, sweeping every discord from your world.

"I AM" the Light, the Torch of Eternity, beckoning mankind to their Goal! See My Light, Oh friends of America with your eyes focused upon Its Unfed Flame following in Its Glorious train of Light to your Goal! Find your jewelled Home in the Octave of Light! Such is your privilege, Oh friends of America, Oh fellow-students!

To-night, may you enter into that Pathway of Light looking neither right nor left and move forward in Its Mighty Impelling Glory, until you stand there forever free.

Mankind has so long believed, visioned and felt they were held within something from which they could not extricate themselves. I say to you, to-night: There is not one condition existing in the world in which your call to the "Mighty I AM Presence" of Life and Light will not quickly free you and by the Power of Harmony!

Mankind have not learned how to use the Power of Harmony, but they are beginning to know. They are beginning to understand and soon mankind will in the Power of Light, refuse to see the offence of officials. Instead by calling the Powers of the "Mighty I AM Presence" into action, will move in Its Glorious Pathway into the Goal which knows no obstruction of any kind.
