

· MIGHTY VICTORY'S DISCOURSE ·  
*Minneapolis Class – September 10, 1939*

THANK you, beloved students and friends, and I do congratulate you on all that has been achieved for your state and for you; and to-night I shall once again invite you into My Garden.

Won't you be seated, and no matter what I say that might arouse your enthusiasm, will you remain as quiet as possible and remain seated so We can do for you all that is intended?

You who may not know it, remember that in thousands of centuries I have never known anything but Victory in My slightest effort. Therefore, it is My Intent to convey some part of My Victory into your feeling world and world of action, to help sustain and possibly govern some conditions which you will meet in the coming months. You do not imagine to-night what you may meet before one year is over your heads.

Therefore, this visit of the Messengers to your city has been very delightful, as you will observe in time to come. If you comprehend a small part of what My Words mean, you will see how there is established, to-night, in your feeling world the Confidence, Courage, Power and Strength which is the Power of Victory in your call to the Presence of Light, which is the dominating Power of the future in the world of America and all that is. I say, "the world of America," for without America, there would shortly be no world of the human octave.

In all that has been said by the Messengers and the Great Ones, mankind go serenely on believing that naught could happen to this beloved land of America, but don't be too sure. Let not one opportunity pass you, to call these Powers of Light into action to do for you what humanity cannot do for itself. This is imperative. We know well enough, much We may not even intimate to you, but the Power of Light is the Victory of Freedom held sustained in your America, if you will continue to make the call.

We are trying, your Beloved Saint Germain is trying, to prevent the third episode in that marvelous Vision which the Goddess of Liberty gave Washington. When We are successful, then We shall tell you some things which you will remember thruout eternity, but We may not until then.

In the Garden of My Heart, is the Victory of Light. In the Radiance of My Garden, is the Illumining Power which shall one day take Its Dominion thru mankind in this beloved America.

Let us now be so alert and so sure of our calls to the Presence of Life, that we hold sustained the Perfection which you have thus far attained here; and let the remodeling process be done at the discrimination of the wisdom acting thru human forms, instead of thru cataclysmic action.

Birds are messengers and when you see them suddenly and shall we use the term, drastically, change their course of action after one hundred and fifty years, you may be sure those messengers are being directed to draw mankind's attention, for those who will see.

Why do you think that again there is being revealed in Siberia, the condition which any intelligent person can see must have occurred at once? How do you think that which was once a semi-tropical land could become suddenly a field of ice? Those things have been done and they stand before the outer scientific world to-day, but the scientists will not explain them, because they know not the cause. We do know the cause, and in time will reveal it all.

There is so much, beloved ones, that it is not wise for mankind to become aware of at this time, since they have so much fear within them from various causes. Analyze your own feelings, your own experience of the past five years — every one of you, and see if I do not speak the Truth. Has not some very great fear beset you from some cause? Then, it is fear which must be removed from the mental and feeling world of mankind, and your Great Friend, the Cosmic Being, Ray-O-Light, who visited you to-day, shall render a Service to the student body, incomparable in helping to remove that fear. I ask you who are here to-night to follow your feelings for thirty days and then silently tell Me, whether you have not had less fear in your being than ever before.

Many people are asking for evidence. If you are alert and will observe, you will have all the evidence of Our Reality and Our Promises to you, that you can ask for. We do not believe in phenomenon — just producing a manifestation which takes your interest for a moment and to-morrow is forgotten — which in many instances produces greater doubts and fears within mankind. When We produce something, We will produce something that is permanent which you can look upon and not forget it. Then, the human which would doubt would be very unwise, but that is your condition to-day, children of earth. Your doubts are depriving you hourly of the great Perfection of Life.

Oh, I am not speaking just of this Light, but I am speaking of the conditions which you face daily. You doubt this, you doubt that, you doubt your ability, you doubt the very Life that beats in your heart. How can you do it, when there is flowing thru your being endless, Limitless Energy which you might have so qualified to have brought Perfection into your world long ago, but you did not know that? Since you have been advised of it now by your Great Friend, Saint Germain, why not utilize it? Why idly think of these things and then let your human feelings question and doubt whether this might be true or not. Why don't you take hold and try It out? Then if It does not produce Perfection for you, forget It. That is the only way. Do you go into your office or business and say: "I wonder if I am going to have any customers to-day," "I wonder if I will succeed"? If you went into your business with that feeling, your business or the thing would fail in thirty days, you all know that. You have to have confidence in something. Have confidence in your Life which is the Power and Strength of the Universe that brings you here and takes you into your Ascension one day, by the Power of this Light which is beating your heart every moment of the day.

That is why, dear people, you cannot afford to allow doubts and fears to deprive you of the power which is here, brought as a great Gift of Love, Light and Life to bring you into the Glory of your Freedom and Ascension. That is why I say to you beloved ones, he who doubts in these days is indeed lost.

Think of it! I ask you to review for a moment the homes of America. How many in a home of five people trust each other, have confidence in each other and who do not doubt some one or all of each other? Think of the poisonous breath that has entered homes by vicious gossip and started the feeling of doubt in one mind or the other or all; and then one begins to suspect and question the integrity or morality of the other. Then, the first thing you know a conflagration has started and the greater each one doubts the other, the quicker is their home which was once beautiful, shattered.

So it is with you and Life. When Life has brought to you Its Magnificent Glory and Power, Its Almighty Understanding in Its simplicity and the application which is dynamic and powerful to produce results, then you doubt It and will not use it, or will not apply it, can you expect Life to longer give you opportunities, after more than two and a half million years in which Life has said: "children, run along, you have a

long time before you to make up your mind"? Then Life did not prompt you after long, long periods of disobedience; but now the Great Cosmic Light from the Central Focus of all Life to this system of planets has said: "No longer children of earth may you play with Life. No longer may you misuse and wrongly qualify Life, since you have now become intelligent beings."

I wish to say something perhaps very strange to you, and may sound to some unpardonable; but do you know the only intelligence that is Real Intelligence, is when you have come to know your Great Presence of Life, Its whereabouts, and you are sure of It? Then True Intelligence begins to act thru your being. Observe and see if I am not right! Every student in this land will bear Me out in saying, that he or she never had begun to live, until that one touched this Real Understanding of the "Mighty I AM," and had the full confidence in Its Presence which beats each heart.

In the Light of My Garden, to-night, is not the trickling rivulet, but the River of Life flowing to you from My Garden of Light in releasing this Mighty Victory into your world of action — take notice, "into your world of action!" Too long has Life within you been dormant because you did not know how to give assistance to allow It to become dynamic and to call a Power which is within each one of you to release like that (motion of the hand) the Force of Light and Power which will go forth, shatter and dissolve the discordant things, the limiting conditions which have obstructed your way.

That is why We came to you, beloved children of the earth, because you are not able to give the assistance to yourselves which you need. You feel quite efficient when you have plenty of money and everything is going well; but do you *feel* as efficient, when things have all gone from you, and you feel that you are forsaken in the world of chaos?

Shall I become rather mathematical for a moment? How many do you suppose are living in your America to-night who are in the despair of failure; who have gone from one thing to another finding false promises, sack cloth and ashes, then after a rest try again a repetition of it?

Saint Germain has brought to you this Eternal Fountain of Life, the "Mighty I AM Presence," and thru It you have Beauty and Perfection and the Limitless Out-pouring of supply of everything you require to live happily and serve Life abundantly. That is why, beloved ones, We have come forth; for do you think all We who are assisting your Beloved Saint

Germain, would have come forth without His having opened the way?

You might be interested in knowing, the Great One Leonora, who invented the radio which is in the Cave of Symbols—the only one existing in which They talk to Us on Venus as readily as you talk from Minneapolis to Chicago — is how My first contact with Saint Germain came about. I thought when the first contact was made — “Is it possible on that darkened planet, that there is such great Wisdom as has been able to call forth in mechanism that which will annihilate space”? No sooner had I thought those words, than back came the answer: “Yes, Our Friends upon Venus, the earth is not all so dull as you think. Great Wisdom is here on this earth. It needs encouragement and strength. Would you like to give Assistance”? Without a moment’s hesitation I said: “With great Joy,” for feeling His Mighty Vibratory action and that Positive Voice, I knew He was One who would win His way, even among the jungles of human creation.

Precious people, you think of the jungles of your unexplored land as dangerous, do you not? Yet there are those who venture there continuously and return. I say to you, that which is human creation, which you know as the astral and psychic world, is so much more dangerous than the jungles in your unexplored land that there is no comparison. We are protecting mankind from that, and when the last discarnate entity has been taken from your state, I hope every one of you in Minneapolis who hear these Words, will in the fulness of your heart appreciate all that it means to you all.

Remember thru your great Friend, means have been provided to insulate each state from which the discarnates have been removed, that they may not re-enter. (applause) To some this sounds like childish prattle, but let Me tell you, one day you will find out that it is no childish thing. Is it not strange? Can you not think with Me for a moment and see that in spite of all the doubts, criticism and condemnation of the Great Powers of Light by the ignorance of human beings, how We still go on offering them protection and release from the conditions of their own creation? Have you any friends among you who would do that? Have you any friends who if you perform a depraved act, would not condemn you and shun you? Show Me any of your friends who would not do that. Then We, Pure Beings, come and offer you, who have made these mistakes, Our Assistance; and then sometimes, with a great smirking smile people tolerate us for a few minutes. If you invited a

very Great Being into your home would you go behind the door and smile in ridicule of your guest? If so, you would indeed be a very depraved host or hostess.

When We offer to mankind these Great Blessings, which are Real beyond their fondest imagination, would it not be well for them to consider kindly at least Our Offer, since they do not know what We can do? They do not know or believe the extent of Our Powers. The critical individual would say: "Why don't you show Your Powers'?" and I could say to you: "None of your business! When Our Wisdom directs Us to use Powers, We use Them and not until then. We are quite as independent as you are! Therefore, don't try to advise Us," and We have learned that from you!

You know, dear ones, that once We offered Help so kindly and so gently; and friends will remember that in New York, when I invited the beloved ones into My Garden, it was as gentle as the summer evening breeze; but My Garden has become more dynamic because, here and there in the gentle offer of My Presence, there were those who thought I was an imaginary Being or that the Messenger had had a happy flight. Well, It is a very happy Flight, but It is Mine, not his!

Therefore, beloved ones, it is well, very well if you would be able to accept the blessings offered and then see their out-picturing in your world. It would change your joy into one of Eternal Ecstasy, when you have before you these Great Laws. Beloved ones, the Messengers' return to your city will depend upon your stabilizing and application of the Law which has been given!

Remember, and I say this to America; the people of America henceforth are going to want these Messengers, if they have them. In your city, not so long ago, there was a great repelling force, working deliberately to prevent their coming, but they came! Do you know that their five years is almost up? Beloved students, do you know that? In October, they will be given another opportunity. What if they should take it! What would you think? Would you think, that they should go on struggling and taking the ridicule of mankind in offering the greatest thing that Life has ever offered to the world of mankind? Now what would you think about it? How would you feel? Would you want to go on doing that? Think of it a few moments. It would be difficult for you to decide, wouldn't it? But since they were the only ones at the time who had the courage to give obedience to Saint Germain, in all He required to win the Victory for the people of America, thus far,

then it is some worthy record to have served for five years.  
(applause)

Do not be frightened at what I am going to say, but I sometimes think, it would be a wonderful thing for the people of America to think they had gone for a while and then see the difference which there would be in the vibratory action of the people of America. You may think I am talking in riddles, but I am leaving you to read between the lines.

Oh no, no, no, dear students, don't be dismayed, they are still here, yet; but I want you for a few moments to think seriously what their absence would mean. I want you to feel it. You may have encouragement, for I think I know them quite well. (applause) Remember Saint Germain, your Great Friend, has used very great Wisdom and will you observe that the cycle of five years is ending, just after the conflagration in Europe has begun? Do you understand the significance? Do you know what that means? You will pardon Me, won't you, but I am trying to put you in a certain train of thinking and feeling to-night; for I must do it in order to accomplish what I wish for you. That is why I want you to be so alert, in the alertness of your "Mighty I AM Presence" of Life.

My dear ones, I congratulate you faithful beloved students of Minneapolis and St. Paul and those who are visiting here. Oh, I congratulate you, you cannot know how much, for your staunchness, your stability to the Truth in all that you have faced, in all the doubts which those opposing the Light have endeavored to instill in your minds. Yet you have warded them off and you have gone on, in your great service to the Light.

Think what the State of Minnesota owes to you, beloved students. They probably would not pay you in so much money, but nevertheless Life is very generous and Life will compensate you in ways that your state could not do. Be assured of that; and remember! Go on, and on, and on, beloved ones of the Light, and let the Glory of your Light become so Almighty, so Powerful that Its Radiance, as you call It forth, will spread and dissolve and annihilate every particle of discord that attempts to touch your world.

Remember, there are those in this audience who have a great desire for certain achievements. Why not have them? Have you not the understanding of your Presence of Life and Its whereabouts? You know, you are connected with that Presence and that Its Wisdom and Intelligence are All-powerful

to flow instantaneously thru your body and your activity for successful achievement. Well, why not let it flow? Why look around for other human beings, when It is the governing Power of your achievement? If you allow It to have Dominion in your achievement, Its Wisdom and Discriminating Intelligence will bring into your association the people who will be Ascended Master Friends to bless you.

I marvel to-day, that individuals sometimes having very marvelous ideas and some things which are very Real – when if they would call the Powers of their “Mighty I AM Presence” into action to make the things a successful activity, still they hesitate!

My dear ones, please turn to your Presence for advice! Stand determined, unyielding, unwavering until Its clear Direction comes forth; and then you can move in Its Great Intelligence and human mistakes will cease; achievements will be at hand and without limit.

Therefore, remember in the Glory of that Light which beats your heart, is the fulness, the means by which Life will pour every good thing into your physical hands and use, by your call to that Great, Great Wisdom and Light.

Will you understand, if I repeat again to-night, and make it an anchored Power in your Life and consciousness forever – that the Greatest Wisdom, the Greatest Light, the Greatest Power in the Universe is beating your heart and giving you Intelligence with which to act? Then why not let the Fulness of It go forth? Why not be willing to give the obedience, and that means to harmonize yourselves, until there is no longer re-qualification of the energy? Then Life will pour it forth!

Everything from your Life Stream which has limited and obstructed you will be quickly dissolved, but you must stand by until this is done. You cannot tell whether it takes a day, a week, a year or ten years; but suppose it took ten years – since you have lived in mistakes for two and a half million years, wouldn't it be quite a speedy achievement?

I am trying to have you see so clearly, to-night, that the Greatest Jewel ever known to man is placed in your hands in this great and glorious Understanding, which your Beloved Saint Germain has brought to you. Cherish that Jewel, for It is within your heart! Let It expand Its Radiance, until Its Great Powers become a magnet of Life to draw from the Great Treasure-house of your Presence for all Eternity, the Glory of your Freedom and Blessing to earth and your Ascension. I thank you.
