

· MIGHTY HERCULES' DISCOURSE ·

August 6, 1938.

(Private Dictation)

SAINT GERMAIN:

BLOVED ones, you might have sometimes wondered whether I would fulfill all My Promises. We shall see! In the need of the world to-day, to-night I shall try to have you understand why I have called so earnestly for such Complete Harmony within those of your immediate association. This which We have planned for to-night, We have been waiting to do for four months. The need for the Messengers and the need for This Work, is a natural release of Power, which only as you saw from Our Standpoint would I be able to make it clear to you, because words just don't do it.

The Great Cosmic Being, whom We have called Hercules, is the Presence which you are feeling, to-night. Presently He will give to you the Dictation. I would suggest that all of you here, before you retire to-night, make an absolute, firm, definite call for the release of all that the Cosmic Light plans for tomorrow during the Dictation and Broadcast. (During Minute Men's Meeting.)

Such definite Power is going into action that We want to make the most of It. While the classes in Oakland and Seattle will be very wonderful, by the time you reach Chicago, this Power releasing to-night, will have reached Its Apex and by this, We expect to reach into the feeling world of the individuals not familiar with This Work, who will be drawn into the classes, to enter with a complete acceptance in their feelings.

The forces of darkness know absolutely that this Power is Real. They know We are Real, and therefore never in the history of the earth has such a fear been thrown into destructive forces, as is being done right now. When that begins to react upon some of these individuals still embodied, it will be pitiful to behold.

Again I say to you, beloved ones, there is no possible means of knowing just what can be done, until the release of the energy thru individuals actually takes place. Then you can know definitely what you can do with it. Last night and to-night, while the group of individuals is small in numbers, a Power is released, which were you to see it, you would scarcely believe your own eyes. That is what it means by the gaining of momentum.

This charge which Hercules is bringing to-night, is in answer to your long call. I want you to see, if you will, how the impulse within the feeling speaks with such Mighty Truth and Power; and again see how unailing is your answer, how unailing is your call.

This is the first time this Great Presence has come forth into the human octave in three hundred twenty-six thousand years, exactly. If you saw the calendar — I mean by that the eternal calendar which We have as the accessory of time held within the human octave, you would see it is exact to the day.

I do not mean that this is just because of its being the answer to the call of a few individuals. It means that the Light within the individuals acting thru the Higher Mental Bodies of each one, has responded to the Cosmic Impulse — which causes these calls to be made with sufficient intensity for it to be amplified so as to draw forth this Great Presence. You will never know, until you are with Us, what this has meant. You see the various Ones have been called forth, each One doing His or Her own specific Part; but the need among the students, to-day, is for a greater Power and Energy.

Now notice this carefully! I shall use the two expressions, because both are included in it. The refusal of the students to

give heed to the earnest call, to hold Harmony in the feelings, and their feeling of inability on the other hand to give that obedience, has made this demand necessary; for the students must have — and I mean by that, greater Natural Power of Protection. Therefore, these Beings who are the Authority for that particular thing must come forth to give It full release and if there were no other proof before us, that the Great Cosmic Law was going to compel the fulfilling of that which was thrown on the Cosmic Screen in the Teton, at the Messenger's first visit there, then this would be it.

One by one, the call of mankind has brought forth these Great Beings. Could you who are gathered here, fully understand and comprehend your power in your call at this time, you could transform almost any condition at once, whether it was in the government or industry. I almost hesitate to say this, because when you have so much to do in the outer I don't wish to impose more upon you; but after to-night, when there is some urgent need, if you who are here can be gathered together and for thirty minutes issue a Mighty Decree for the adjustment of whatever might be required, you would be amazed at the result.

I do not want you to feel obligated in any sense at this suggestion, but from time to time between now and the time you leave Chicago, you will find that there will be opportunities; but if you cannot be gathered in this manner, then notify each one and let it be done in their respective places before you retire at night. You see really the matter of your physical bodies being together in a group this way, while it is helpful, it is not always imperative. I have always hesitated to speak of it, lest in your rush of work, you feel in some way a sense of strain in doing it; for that is what I want you to get away from absolutely—any sense of strain—because when you really FEEL the Presence doing what is required, there cannot be any strain. It is only when you unknowingly in the feelings, feel too much responsibility in the outer that you begin to use your outer energy too much; because your call to the Presence will release and cause to flow thru you, every particle, every ounce of energy you require for use.

I would suggest, Lotus, that as soon as these transcriptions are finished or while they are being finished, try not to feel any outer strain or pull; but when they are finished, try to take just an easy steady preparation of the material for the magazine and for your future transcriptions so that there never is a feeling of rushing or taking any of your outer energy.

I would suggest that from the time you leave here, you would regulate things, so that it does not make any difference what the outer requirements are, you get on an average of seven hours sleep.

Tremendous Power and Energy will be released and We want you to feel at ease and rested, physically speaking, as much as possible during this time. A tremendous Power will be released in the Oakland class, to reach deep into the heart of that frightful, destructive thing which is gathering there because of the discord among those students and the heart of the focus there. The reason for holding the class in Oakland was not so much on account of a place, as it was to keep you out of that vortex or focus which has been gathering in San Francisco, because it does not reach across the water there.

I sometimes marvel that the students, after all that has been said, don't realize when these forces begin to touch or act thru them, that they don't stop, realize what is happening and see the force that is acting. Then, in refusing to give any response to it, stand guard over the power of the currents of energy drawn—but they have not done it. I say frankly, if it had not been for our blessed Mr. and Mrs. ———, that sinister thing would have brought great destruction into San Francisco, but seeing that they would hold the balance, I have not mentioned it before.

Oh, isn't it pitiful that people because they cannot have their human whims satisfied, turn into such destructive beasts? Really, I say that advisedly, because they become little less than beasts when they release such destructive desires and feelings just because they cannot have their human way. I am determined before the end of the Oakland Class, to annihilate that thing in San Francisco or know the reason why. That thing shall not destroy all that has been done there, or in the city either, which would very quickly follow, if that destructive force were unleashed there.

I say to you as the Staff and those not of the Staff who are present: Dear people, as you value your future existence, stand guard over any slightest sex desire that touches the world. Annihilate it instantly because, I tell you frankly, that sinister thing has become so diabolical that you must absolutely stand on guard in every way. If you will always, at the first intimation or prompting of disturbance of any kind, stop physically and call the Presence into action to annihilate cause and effect of it, then call to the Ascended Masters to amplify all the "I

AM Presence" releases, you will have absolutely no trouble in dismissing anything that touches your world – any discord or disturbance, and it is imperative because you are calling forth Great Powerful charges of Energy, so don't, please don't, allow them to be wrongly qualified.

Hercules is ready. I thank you, beloved ones, one and all, for your willingness to give the obedience. Oh, precious people, you may not quite see why I plead so earnestly for Absolute Harmony and Obedience, but it is not long until you will see and understand why I have pled so earnestly. (This was only a few months before the last of the black magicians were taken from the earth.) There must be a Focus wherein this Greater Power can be released, and there is no other place to do it. Won't you put aside forever any personal feelings for any reason that might be acting? Put them aside forever, that This Service may be rendered to mankind and the earth.

It is the application of mankind and the students which is needed, beloved ones. You have no idea how much that continued dynamic application is needed. I do not mean with any strenuousness at all, but just with great calm determination give the call. It does not make any difference what you are doing, you can make that call once an hour, if you will remind yourselves of it. It won't interfere with your regular activities in the least, for it only takes a moment to make that mighty call.

I do thank each one with all My Heart for your kindly cooperation and willing obedience. This release, to-night, has brought so much for which We had scarcely even hoped that I feel with your general activity and that of the Groups everywhere, We can accomplish what We desire. Do not be the slightest concerned about these individuals who spread falsehoods or discord. Just have no thought, except to know they have absolutely no power in any way. I will speak to you again at the close.

MIGHTY HERCULES

Beloved Children of the Light! in having come forth from the Great Power-house of the Universe, and you being a Part of Myself – of My Great Energy – in the fulfilling of the Law of the Incoming Golden Age, it will become My first and Mighty Duty to release My Power and Force thru the students who are loyal to the Light. I speak of it as a Duty, but it is really My Joy to render this Service and to show to the whole world that Students of the Light serving with Honor, Purity and Justice, are no longer subject to the viciousness of the destructive forces generated by mankind; as We shall endeavor in a comparatively short time to prove to the whole world.

With your recognition and acceptance, as a Focus of this Great Power which it is My Privilege to release, I will release a Courage, a Strength, a Determination and an Energy into and thru the students, which will brook no interference by destructive opposing forces.

Take notice of this: for wherever you have the opportunity, remember, you will be My Out-posts to carry this Help wherever you can to the young people. This is the point: wherever you have the opportunity, put forth that it is My Command, because of the need of the earnest sincere Students of the Light, that their calls be fulfilled! I have come forth to release My Courage, Strength, Power and Energy into their worlds, so they may be the Fulfilling of the Law in their service and call to the Light and stand before the whole world, as an example of the Victory of the Light.

I want more of the students to stand forth that Victory of the Light! The Messengers have proved this Law and Truth to the whole world! We have been working to this point thruout the Class Work; and now, to-night in this small way, you will understand why I have pled so earnestly and why I had to do certain things, beginning in West Palm Beach, to bring about the needed Harmony to come to this point, wherein this Help could begin to find action in the world of the "I AM" Students.

Dear ones, please, if you have ever had in your mind any question of the Reality of this Great Law or of Our Presence and Reality, dismiss it forever! This Law is Mighty. It is Real and you are acting only the Great Truth—the Mighty Law of Life. Ere long, as you come into the greater understanding and explanation of this Great Law, all these greater Powers will become just as natural to you, as writing your name or going into the kitchen and preparing your food, or whatever it may be. I hope it is not long, until you won't even have to do that.

In those ages before, mankind lived in such great Freedom because of their Great Purity of thought and feeling. Think what it means for your food and clothing to only formulate into what you require and it is there before you. It is all natural. It is a part of your Life and the Substance is always about you. Perhaps that is not quite correct. It is not always about you, if you are feeling great inharmony, so I should qualify that statement; but where there is complete harmony within the feelings, that Substance is always about you, ready to come forth at your service.

Look about you, at the Great Assistance you have to-day in the Great Friends that you have acquired who, in the interim, might be quite willing to serve you. I served those who came to the Cave of Symbols and the Rayborns. Why wouldn't I be just as willing to serve others? At those times, there was absolute Harmony manifest. There could not be a mistake made by any wrong qualification because there was no desire for discord or allowing it to manifest. Then, do you not see why it was possible for all that was accomplished to be done for the Rayborns and Bob, whose Life was one of happiness and Harmony? Even in his contact with the outer things in college and school, still the Harmony was great enough so that there was no thing in the outer world which could over-rule the Out-pouring of Light from his Inner world. There was nothing to anchor to that which would later become an activity of inharmony within his world.

You are all now coming rapidly to that point where you are entering into the identical same vibratory action which they were in at that time. So, it would be well to be patient until the fulness of that arises; and as these things begin to take place, well, just as it was with the Messenger, all these greater manifestations will be perfectly Natural as the other things you are accustomed to—for when you have observed one manifestation or you have experienced a thing twice or three time, it becomes a perfectly Natural activity to you.

For instance, in using a Light Ray with power to drill a hole in solid granite is the same Power, the same energy, that all human beings are using daily, only brought into a more concentrated focus just as you take a reading glass and focus the Sun's Rays upon a piece of paper and set it on fire. If you move the glass around, you won't do it.

Now to-day, you are coming into this Reality of Life in which you, thru your physical body, become that focus of concentrated energy called forth from your Presence, just as the reading glass represents to the conditions of the outer world in their constant shifting, changing activity. Don't you see, beloved ones, the reason instantaneous manifestations do not constantly occur, is because of the constantly shifting feeling — like that? It does not hold steady long enough to let the Power and energy act.

When you hold the human attention upon a concentrated point of activity, you steadily and surely build that mighty focus, which when you want to call it into a point of action and hold it there, will give obedience; but it takes many times

a tremendous recalling, recalling and recalling of a Focus by that power of your attention, before it will stay there steady enough to let this Power flow forth and do the thing which means the instantaneous manifestation.

You are at the point where you can just as well have it as not, if you will just maintain Absolute Harmony in the feelings. Oh, don't be concerned what somebody else does or says. It is not important at all, but it is important to maintain harmony in YOUR feelings.

I say to you, and beloved ones of the Staff, this is for your real great encouragement: "Never in two hundred thousand years have any human beings called forth the respect and Love which today is given the Messengers and the Staff. If that is not the proof of the Great Power of Divine Order and Justice and the right use of energy, then I do not know what could be done to produce a greater. The Messengers have built up, formulated and proved to the whole world — the Universe for that matter — that their application has produced these gigantic results. When you can produce these results, then any one of you, thru your application, can produce the same identical result; but you have got to be as obedient, happy, willing and determined as they have been.

Remember, ever since the Messengers returned from Honolulu, this point has been stressed and brought forth: when you have served the Light enough, and that means by Harmony maintained long enough in your feelings, then the Power of Light turns and begins to serve you. Then, as you call Its Mighty Power of action forth again, again and again, you retain — well let us put it at a very low average — you retain at least 60% of the energy which you call forth for any given objective, many times much more. That is sufficient to give you an idea. Now the word "momentum" sounds quite ordinary, doesn't it? but don't you see that in every call you make, you retain the greater part of the energy released? You do not see the outer manifestation of it always, but out of that Mighty Energy called forth, you are retaining let us say 60% of it. Don't you see in every call added to that, you have soon gained a momentum in your Life Stream of activity which makes you an Invincible Being? Do you not see how all this is a Natural Law, going forth — just your own Life? There is not a thing unusual about it.

You have got to take the human into firm command and simply take your stand with your human self — that "now you are finished! Henceforth you are going to do what I tell you

to do. Remember that I AM the 'I AM' '! When you say: "You are going to do what I tell you to do," it means that the "I AM" is asserting Its Authority and Dominion in your world and the human must subside and give way to It. That is where the Great Victory comes so quickly. That is how your answers will come more and more instantaneously, which will give you the courage and confidence that it has always done.

I tell you once individuals realize what Complete Harmony means, constantly flowing just like that (motion of hand) all the time thru your body and world, there won't be anything in all creation which will ever disturb It. You know the human all thru the ages, has tried to assume authority and of course it never had any. It is just an assumption of authority; but when the Harmony within the feeling world comes to a certain point, then the call comes into action and the "I AM Presence" becomes the Authority. Always maintain humbleness toward the Power, but a greater positiveness toward the human qualities and conditions.

That will be so, as you have observed in the Messengers. The fulness of that Power will withhold Itself until It sees that you have taken command enough of the human qualities, so they are subject to your command.

The various Ones who have been charging Their Qualities forth into the feeling world, have prepared — Oh, let Us say 70% of the sincere students. That is why We were formulating the lines and Currents of Energy to-night before We began, so that while I am talking to you, this will reach into the feeling world of 70% of these students in America and the world. Do you realize what that means and how far reaching it is from this point — your seeming little humble Focus in the world of the human octave — and what it means to the whole earth?

Now to your opponents that would sound like egotism, silly nonsense, but it is they who are unfortunate. How pitiful and how unfortunate are those individuals who try to oppose this Light or the Messengers! They are the most pitiful beings on the face of this earth to-day. Try to feel that and be at peace and rest, concerning anything they might try to do and in that will come the complete release in your feeling from any disturbance.

Jesus said to Us only today: "To think that of all the vast number of mankind who claim to represent Him and to preach in His Name — when the Truth, the Light, comes forth — that they could be so insanely vicious;" but He said, "Still some of these individuals opposing this Light, to-day, are the same ones

who caused My crucifixion two thousand years ago." They are the very same individuals come again, and when there comes such violent opposition as these two unfortunate individuals have poured out here, you can be sure that comes from a long gained momentum. However, to-day, with great speed their accumulated energy is being exhausted and they will never gain or gather any more.

So in this, you see how the old statement that evil really destroys itself is very true because the Light really never destroys anything. It draws Itself in battle array and the destructive qualities return upon their creator and the creator is dissolved. That is the Great Law of Life, but remember even before the sinking of the last remnant of Atlantis, when the whole Province sat at their tables and received their food and clothing without human effort, still they did not have the Understanding you have to-day, because it could not be given forth.

Don't you see, beloved ones, unless this Chart of Life came forth, it was impossible to give the explanation of the Fulness of the Presence of Life to hold the balance and anchorage of the Power of Life, within the feeling world and human form? You could not do it otherwise. Nobody can! No one ever did! No one ever will! Only when the Cosmic Light commanded that This Ascended Master Instruction of the "I AM" come forth, did the people have permanent help because your Beloved Saint Germain was the Lord of the Seventh Ray, compelling Him to be the Spokesman for the Incoming Perfection when it came forth.

It was not that any One of the Seven Representatives of the Seven Rays might not have done the same thing, but His Ray compelled Him to be the One to bring in this Light. He knew this long ago, even long before His Ascension. He knew that He was Lord of the Seventh Ray and He knew whatever came forth into earth at any given point, must come thru Him; but little did He dream — you might take Me to task for this statement — little did He dream at the time of Washington, that it was possible for this accomplishment to come forth to-day.

Again, I say to you, that until individuals have proven themselves, you cannot tell what the human of them will do. He knows that very well. He would not say this to you, but I shall: Can you imagine His disappointment when at various times, He has drawn you to a certain point, then some little inharmony or disturbance in some one or more of you, prevented His doing the thing He had planned at the time? This should not be depressing, but it should be of the greatest Joy,

encouragement and strength to you, to stand in firm command of your feeling, so the fulness of all He requires can be released at any time. It is magnificent.

Oh, dear ones, there is nothing to be unhappy or depressed about because you have made a mistake once in awhile. You have made a lot of them in the past and they are so much less now that every mistake should be the greatest encouragement to be firmer so you do not make any mistakes again. That is why to-day, in all which confronts you, it should be the greatest, most joyous achievement. Suppose you make another mistake or two more, what of it? It should be the greatest prompting and encouragement, to arise in firmer determination and do not make the mistake again.

Thus do you become so easily and quickly Master of yourself and your world. That means the control of the energy which flows into and thru your world. Oh, just think of it! THAT ENERGY IS ALL-POWERFUL TO DO YOUR BIDDING; ALL-POWERFUL TO PRODUCE ANY EFFECT IN YOUR WORLD, IF YOU WILL SO DECREE, DETERMINE AND STAND UPON IT. OH, DO YOU NOT SEE WHY? YOU ARE STILL HUMAN BEINGS YET, BUT IN YOUR COMMAND AND SCEPTER OF POWER, WITH ALMOST ONE WAVE OF YOUR HAND, IT WOULD SET YOU FREE IN FULL DOMINION. YOU ARE AT THAT POINT, ALL OF YOU.

Oh, surely there is not anything of the human that would be in a single instance an incentive to hold on to it, in the face of this Great Joy, Happiness and Perfection which you are ready to step into, take command of and use with Infinite Power. Oh, it is so very wonderful!

To-night, as I am charging into your world My Strength, Determination and Limitless Energy, remember — truly, It comes thru your Presence, but wholly apart from your individual effort; for in your co-operation with My Effort, there should not be one thing in your world which would ever disturb or irritate you again. Now this is being offered and it is up to you to co-operate and hold that dominion or not. I have no desire to compel you to do it but it is offered with so great a Kindness. Not only that, but with My definite Assurance and with your co-operation definite results are a fact, as powerfully and perfectly achieved as if you put one foot before the other.

Just think of it! There is not a person drawn into human embodiment who does not have something which is his or her

specialty, in which by accumulated energy that one may excel. Then as you go forward focusing upon some one definite thing, before you scarcely know it, you have become the Master of all.

Look at your Beloved Saint Germain to-day, Who is a Perfect Being. He can be the most Perfect Musician! He can be the most Perfect Artist! He can be the most Perfect Business Man! He can be the most Perfect Diplomat! It only means His focusing His Attention upon the thing required for action and there it is. Now you have the same privilege to-day, in perhaps a lesser degree of course; but in a Sufficient Degree, that would make you the Commander of the energy you call forth in your world to produce a given effect for you.

Beloved ones, remember that as this Cosmic Light comes forth and transforms the tragic desires of mankind into the desire for Great Perfection, the Perfection of art and music will be in such demand for the whole world will be craving it because of the transformation which has taken place in mankind's feeling world. Then the Beauty of the Ascended Masters, the Beauty of face and form, the Beauty of landscape and the reproducing of those beautiful places which are in the Higher Octaves, will come forth. Their likeness will be on canvas before the world to draw the attention of mankind to the Perfection that it is possible for them to attain.

Would you believe Me when I say to you, that under the present conditions, as it seems to-night, that before ten years are past, the modern art will be almost forgotten. The jazz music will be a forgotten thing, and this is one thing which might be well to do in your Decree Work. It is not so imperative, just now, but when you think of it, formulate your Decrees for the dissolving and consuming of the cause, effect, record and memory of all jazz music. It would be a very great service rendered and would help mankind to forget more quickly the conditions which they have passed thru (meaning the viciousness of the black magicians imposed on mankind for centuries past). I say "passed thru" because they largely have.

In the Perfection of the musical instruments which will come forth, there will come the qualities that will harmonize the people much more quickly. All strain in the feeling world of individuals will be dissolved, as you have found in your vibraharp, by the great soothing healing power which that particular vibratory action holds. This will be so in the music! These songs which the Messenger has brought forth, all contain that same vibratory action, which is Healing, Soothing,

also Purifying and Freeing because the qualities there, become the purifying activity by the vibratory action released.

Do you realize, dear ones, how you in your greater attunement, have become a tremendous focus for the Out-pouring of these wonderful qualities of Life which have been pushed back thru the centuries? Think how many individuals have tried to pour this Perfection thru, getting only a fragment; and they have had to give it up, because of the inharmony within their Life Streams.

I tell you, beloved ones, surely there is not anything more pitiful in the whole world, than when you stop to realize and think how long Life has been waiting to pour Its Great Perfection out thru Its Outposts – human farms – and because of too great inharmony, It just had to give it up, wait again and try again. Sometimes it did temporarily bring forth results.

Now this might sound – I am sure to your ministers, it would sound – sacreligious; but I call your attention to both masculine and feminine elements in your earthly pilgrimage where in childhood, they have held close contact with their Great Presence, even with the Angelic Host. Yet as soon as they were married and drawn away from that Ideal, the contact vanished. I presume almost every one of you knows some instance in your experience where that has been the case. Now that should not be; but if there is not complete harmony between individuals, then the result of the inharmony will crush the Light out of the individual who is not strong enough to stand against the accumulated energy charged with discord or whose Light is not strong enough to control the other.

Oh, I could show you thousands and thousands of instances in Life – to-day in this embodiment – where individuals, both masculine and feminine, have come forth with that Great Ideal of the Light surging forth. Yet, when the attention was drawn downward, the energy was released and all of the Light vanished just for a few years of human sense gratification. It is not worth it, dear hearts! It is not worth it! To think of all the Perfection mankind is deprived of, because of the human sense gratification! Yet, the human element of the world is battling as for its Life, against the Ascended Masters' Qualities of Purity, coming into the experience of mankind to-day; but it might as well acquiesce, because the Cosmic Light is COMPELLING It to come forth! Mind you, that is acting within the Life Stream of the individual, amplifying and intensifying whatever Ideal is there within the individual, with a Power which will give It the Victory.

Q. Is there not a great Cosmic Being, called Purity?

A. Yes, and by these calls, We are hoping it will enable Her to come forth! She has long, long wanted to come forth! Ever since the beginning of the decline of the Second Golden Age, She has remained in the Great Silence and has not come forth in a single instance. Her disappointment was so great, when mankind began to turn their attention down and away from the Great Glory and Perfection of producing their kind thru the projection of the Light Rays — that proof will have to be given that a few of mankind are ready to return to the original Perfection, before She would ever come forth again, but that is possible!

Once, She can be shown that this is again taking its manifestation on earth, then She will gladly, readily and willingly come forth and of course from that time on, great would be the Glory upon earth. That proof cannot be given from the Ascended State, **IT HAS TO BE GIVEN FROM THE HUMAN STATE.**

Q. Can't we call for that?

A. Yes. How you beloved ones have touched the Great Harmonies — the great Heart Throbs, within the Great Silence to-night! Oh, hold it, beloved ones, let Its Great Power flood your being and world with Its Happiness, Joy and Perfection. Just think of it! From your small humble focus there has gone forth these Mighty Currents to-night, all over the earth and here you sit in comfort and the enjoyment of each other's company. To the outer, it might even seem incredible that such a gigantic thing could be done in this quiet and unassuming presence and atmosphere. How little the outer knows, and yet, when ready and willing to give the obedience necessary, how gigantic becomes the Inner Action which will one day bring you into the full Consciousness of Its Activity and Inner Vision of It!

Q. Why can't we give a mass Decree to consume all mankind's disobedience thru calling to the "I AM Presence" of each one?

A. That would be a very fine thing to add to your Decree Groups. I think you do cover it in some way more or less but to make some specific Decree to dissolve and consume all mankind's disobedience, would be a very splendid thing. Call for the consuming of the cause, effect, record and memory, for that is important in all your Decree Work because to take one part of the Trinity is not the fulness of the Activity of Victory. You see it is always cause, effect and memory, which is the Trinity

of action that runs thruout all things. To dissolve one of the points of the Trinity, would not be complete Freedom.

You have watched in your own progress, how at first, you took up one angle, then you took up two, now you are using cause, effect, record and memory, which is the completion of the thing and it is so far reaching. You do not really comprehend only in a small way what is actually being done every day NOW in this Mighty Decree Work. Take these various activities of dissolving cause, effect and memory, well it means that all of the accumulation of that thing has met its complete annihilation.

I tell you, dear ones, try to feel and understand the Great Privilege that is yours to-day — the greatest of centuries. Again, I say to you, our orthodox friends would be wailing and gnashing their teeth; but Jesus Himself said it only to-day — that your work is so far surpassing that which He did, that there is no comparison; because at that time He could reach so few people, but to-day, because of the marvelous transportation which people now have, you can go in a few hours from one part of the United States to the other to be present at the classes.

Oh, dear ones, think! — there attached to your own physical heart is the Greatest Power, the Greatest Power-house in the Universe — ready to release into your world all the money you want! To go about and be where you please! Do what you please! Then to think mankind still do not believe that they have the Power to call that forth when there It is anchored within your own physical heart — the Power which does it.

The Great Divine Director was speaking to-day of the changes in your fruits and vegetables which are already coming forth into manifestation to some degree. Great will be the changes and not only that, but when your America enters into its semi-tropical activity, your fruits — for instance, your peaches, plums and cherries and, Oh, many other kinds of fruit, will become twice or three times, sometimes five times their present size and with a lusciousness that is unknown to-day because there will come forth an element which will spread over the ground as a fertilizer and no vermin of any kind will come near. This is already beginning to come forth. Then, there will be nothing to disturb the Perfect growth and production of vegetables and fruits. It is a wonderful thing!

Blessed ones, just think even in the past ten years, of the transformations that are taking place of which the average individual is wholly unaware. Only you, to-day, who are becoming more alert, are taking notice of these changes of con-

ditions. They are going on with great speed. Saint Germain has told you about many of them and called your attention to them.

This is the transforming age, for the Power of Light is taking Its Dominion! As you have been told so many times, the Power of Light knows no battle nor resistance. It just moves into action and with your call in the acknowledgment of It — how marvelous, how magnificent becomes your part! Then, you become a focus for that Perfection producing Its Perfection in your world — aside from the general activity to mankind and thru Nature.

Do you think Nature would be forgotten in the Perfection mankind are calling forth for themselves individually and for the nation? Do you think that Nature does not understand and rejoice at your blessings which you call forth upon It, just the same as an Individual? Don't make any mistake about that! You are almost ready for Its Out-picturing; but what do you think the Four Elements will do for you, when They find that you are staunch and unyielding in calling forth Perfection for those elements? Don't you think they will turn and serve you with all Power, and **THEY ARE ALL-POWERFUL IN THEIR OWN ELEMENT.**

Oh, that you could see and understand what it has meant in your call to Oromasis, Prince of the Fiery Element; how the attention of all the Beings of that Element have been drawn to you — as a Focus, in calling forth the Perfection of Life. When you need something from Their Element, ere long, They will offer it.

Of course, I see you do not, but try to comprehend the tremendous statement which you have all uttered so many times: "All comes forth as a Glad Free Gift of Love from the Ascended Masters." Do you realize the Power of that? All IS a Glad Free Gift of Love to mankind in your service to mankind. One day you will realize this, when you fully comprehend what that means! It is Life. That is Life acting in Reality, because Life produces all, as a Glad Free Gift of Love.

Mankind have said: "I am the owner; I am the possessor; I am the custodian; I am this and that of all that Life has produced for the blessing of all." Oh, the day that mankind understand this which I say, what a great transformation will take place! As you give all to Life, Life will give ALL to you. That does not mean mankind shall sell their houses and lands of which they are custodians and go out with a beggar's bowl. It means nothing of the kind! but it does mean giving back into

service which is required, the Pure Energy Life has given forth uncontaminated by human qualities. Then, mankind will have fulfilled the Law of Life and the return for their service to Life will be in the amplification of the energy thru the call of mankind. They will find Its immediate release of Protection and Perfection in their Life and all their Streams of Life contain. It is the most Natural Wonderful Thing in the world.

Now when you awaken in the morning, watch your thought and feeling. Do not let one FEELING say to you: "That sounded all very well last night, but my application of it might not be so easy." Enter into it! and see whether it will be easy or not! FEEL on awakening in the morning Our Great Joy and Enthusiasm, and your ability to call forth that same Power and produce exact results in whatever you want to have come forth! DO NOT LET ONE FEELING YIELD TO ANY-THING ELSE. You are Master of yourself and your world.

You know the old statement which was so often given forth in half faith to encourage mankind: "Every cloud has a silver lining." I say every cloud that has crossed your pathway has a golden lining! It is so wonderful, beloved ones, that you are coming to understand a little of why gold was placed within the earth and why mankind have fought and shed blood — each other's blood, for gold. They did not know why they were doing it but it was because gold represented the Perfection of all Life to them! In the density of their human consciousness, they felt it as a possession for commercial reasons. They felt a great impelling force, but they did not know what it was or how to govern the acceptance or recognition of the Purity which it brought to them. Thru distortion and requalification of that great impelling force, their feeling became depravity instead of the purity which was the Inner urging Power that drove them forward to possess gold.

I suppose I shall need to be held in check, too, for I long to sweep everything into action, to produce the change in your architecture, in the Perfection of everything that could be so quickly and easily done with mankind's sufficient response. You do not realize — pardon Me if I say it — how we feel, when We have the Power, the Willingness and the Readiness to just roll back all that imperfection which has been folding its mantle about you and the world's limited activity and make you forget that limitations and destruction ever existed. Then unroll that Great Scroll of Life into action, carrying with It the fulness of all that Great Joy, Perfection, Strength, Power and

Energy mankind have always craved, but because of their in-harmony could not have. Yet, the Ascended Masters represent to you the fulfilment of all that Perfection!

How can mankind know the Perfection of which the Ascended Masters are the embodiment to-day? How could the world ever know of such a thing, except thru Someone who was manifesting it? Because unfortunate ignorant individuals do not understand that certain Laws of Life must be complied with for the visibility of these Great Perfected Beings to come again into their midst, is it the fault of Life or the fault of the individuals? Of course the fault of the individuals, because they have not been willing to harmonize themselves enough to have it.

How do you suppose your Beloved Ascended Master, Jesus, feels when He sees what the people are doing? While this time, He will not permit such a thing to take place just exactly as it was two thousand years ago, His so-called representatives — were He to come forth — would be the first ones to deny Him but such are the human qualities of mankind!

Do you not consider yourselves most fortunate to be getting out of human qualities? Dear ones, think how near you are to-day, to the point where We could stand you one by one on the floor and have others observe the change into Perfection which would pass into the human form, there before your eyes. Oh, do you not see in that human structure those magnificent Glorious Points of Light within the cells of your physical bodies? The Light Pattern which was placed there to produce Perfection, Beauty and Symmetry, you have clothed by discord in the feelings, until the Light in the cells is shut in. Yet to-day, there should be the greatest rejoicing on the face of the earth because you have become aware of the Law of Life — why the darkness clothes those Points of Light and how you can now remove it! Oh, there is nothing in the world to be sad about. There should be the greatest rejoicing in the world, because you have come to know the Law of why and how to remedy the conditions in every way. Oh, It is so magnificent.

Now remember, My Presence to-night, is MY COMMAND for My Energy, Strength, Joy and Dominion to take Its Place in the feeling world of each one, so It holds such complete obedience of the human that the fulness of this Great Out-picturing of Perfection must come forth speedily.

Q. Do you form a Triangle with Arcturus and Cyclopa?

A. To some extent, yes. The Beginning of My Work will be independent for the present, yet We do formulate from the

Cosmic standpoint a Triangle to the earth. For nearly four hundred thousand years within the Great Silence, the Great Cyclopea and Myself have co-operated in the release of the Mighty Currents of Energy, which you here in the human octave would call precipitation. In Our Octaves of Light, It is the natural flowing Projection of Life; for in Our Buildings and Our Grounds — I am using your own expressions here — such Beauty and Perfection as are almost inconceivable to your present comprehension, exist there just as naturally as you breathe. It is all just the Law of Life, Its Perfect Understanding and Use. All in the Universe would be of no avail, if it were not of use. So it is with you to-day.

Your energy released, if undirected, does not produce any definite results. If you had a spot on fire out here, and you turned the hose on it to put it out, if you took the hose like that (motion of the hand) and sprayed the water all around, you probably would not put out your fire. When you turn the full force of the hose upon the focus of the fire, it would go out. It is the same thing with your energy. It has been flowing forth undirected, when you could take hold of it and say: "You come here and you remain concentrated there until this thing is accomplished, is completed; and don't you dare leave it"! The energy would remain there in action to accomplish at the point of achievement, that which you desire but the fluctuating of the human attention is so inconceivable.

Mankind have always been using this Great Stream of Life but it is just as if your human self takes hold of your Life energy and spreads It broadcast. Here you are, the Blessed Presence, but where am I, the little human self? Depleted, exhausted! Because you have scattered your energy broadcast like sowing seed in the springtime. Yet here is this Great Stream of Life, the Power of the Universe, which you could direct as easily as you point your hand upon a given objective and hold it there, until the achievement is attained. It is just as natural as you sit down to the table and eat your meal; but because your attention has been let to run wild and YOUR ENERGY WITH IT, you think you cannot do it. Nonsense! Abject nonsense! You can start in to-morrow morning, you can focus your energy upon an objective, hold it there, and compel it to stay there, until its achievement is completed.

For instance, if one of you in this room would stand on the floor to-morrow morning and say to all these individuals, speaking directly to them: "Cease your power of destructive activity! Cease your falsehood! Cease it I tell you and be

silent!" it would be so, if you realized the Power of your energy released thru your command and it would be quiet.

I tell you, beloved ones, everyone of you must put down all feeling against each other. If one does something the other does not agree with, what of it? Pour forth only Great Love and kindness to each other and great thoughtfulness and consideration to each other, as you value your progress. It means everything to you.

You might think I am presumptuous; you might think Me undignified, but I say to you: "You have received a Cosmic bath, and a very efficient one; but this Cosmic bath, it will not be necessary to repeat as often as your physical ones. You may be sure, when you have utilized this which has been released to you to-night, that your Power will be permanent. You perhaps don't quite understand Our Cosmic baths, but We always supply the Garment to wear after the bath; so that has been done to-night.

When they told Me as I came forth, that there were those two beings in human form to whom I could flash My thoughts and have them repeated in the language of the outer world to-day, I thought for a moment, they were joking with Me. It is many long ages since this has been able to be done in this manner. I congratulate you, beloved Lotus and beloved Godfre, on being able to give the obedience necessary to come to this point. I congratulate you, beloved Staff for being willing to give the obedience necessary to belong to this Great Focus of Light. How you should rejoice! and those friends who are present who are not members of the Staff, you are to be congratulated to be the friends of the Friends of Light.

What a glorious word is that word in the human vocabulary—True Friendship! It covers the greatest scope in the Universe. True friendship in which there is no selfishness, no jealousy, no condition but just the Outpouring of Divine Love and Blessings, one to the other. The greatest thing in the experience of mankind is Friendship; Friends of the Light; Friends of Its Purity and Perfection; Friends of the Great Desire for Perfection, which brings Its Limitless Reward to all.

I cannot tell you how incredible it sounded to Me, after waiting so many hundreds of thousands of years, to think that such a Focus had been formed on earth and yet, I found all that had been said to Me was True on My arrival; and may I be a part of this happy earthly family, to render the Service of the Light to your fellow man?

All that has been done to-night, is beyond description. Oh,

the humbleness of Life! From here there has gone forth one of the greatest Blessings yet poured out to mankind; because the combined forces of the Ascended Masters and the Cosmic Beings have gathered here to render this Service to the earth and mankind for the protection of your America. Your calls have not been in vain. Aside from the Blessings which have come to you individually, I am sure this will always be a great memory to all who are here! May each heart rejoice forever, and may I be of such service to each one, as to give you the full consciousness of your Victory and Freedom at once!

I say adieu to you, but not good-bye! Try to feel how great My Love, My Satisfaction is, to find this condition upon earth. I shall try to come, as opportunity offers, to continue to expand this begun to-night. Possibly We can meet once a month to carry on this which We have started to-night.

Saint Germain wants to say a few more Words to you.

SAINTE GERMAIN:

Beloved ones, I shall leave it to you, to hold the Sacred Memory of this beautiful night. With a powerful telescope lens camera, I am sure that you would be able to make visible the Radiance about this place to-night! For a radius of fifty feet around this place, there is a Blazing Light, which was the Light drawn forth by this Great Presence.

May I offer one more suggestion? As you retire to-night and awaken in the morning, will each of you make a definite practice of projecting the Mighty Power of Light before you and so harmonize, take command of all conditions about you and your world, and hold such complete obedience of all qualities, that not a discordant thing can find expression in your world? Begin to practice the projection of this Mighty Light Ray before you, which will hold Its Dominion and Perfection that you are no longer subject to the discordant things of the outer world which can just as well be dissolved before you reach them, as to have to experience them thru the physical body. **REMEMBER! YOUR APPLICATION MEANS EVERYTHING! THE LAW DOES NOT ACT WITHOUT IT!**

As you keep calling forth the Great Power of the Light, the Mighty Light Rays to go before, cleanse, harmonize, perfect and take full command of all your activities, then will you find yourselves moving in a charmed world of Harmony and Perfection; and the discordant things which would other-

wise contact you thru human beings, will find it impossible to act. While in the Radiance of your Presence, all will experience only Perfection and act only harmoniously, giving you Divine Order and Divine Justice. It is right at this time, that you should begin to draw forth this definite action.

Remember, beloved ones, you are no longer plodding children of the earth, but shod with the "Winged Sandals of Light" which carry you forth with this Limitless Energy which produces Perfection everywhere.

I congratulate and thank you for this opportunity, in behalf of Myself and all the Great Ones; and I am grateful that you are now beginning to comprehend what the Victory of the Light really means to you. It is very beautiful and wonderful.

Refrain as much as possible from ever referring to destructive individuals or personalize them, for they are powerless. Hold such dignity in the Constructive Activity of the Power of Light and Life, that it commands the greatest respect of every individual, even your so-called enemy. There is nothing to battle! Call forth the Power of Light and It becomes Its own Victory everywhere!

You to-day, who have become the Bearers of the Light, have your homes everywhere. The Great Presence of Life and the Power of Divine Love welcome you everywhere and the homes are open to you everywhere. Is it not a beautiful thought? Is it not a beautiful Reality, that all Beauty and Perfection in the acknowledgment of the Great Presence of Life, have become yours to enjoy, and it is so with all of you? As the greater and greater Harmony has come into your Life, so does Life begin to flood your world with Its greater and greater Beauty, Perfection and Abundance in every way.

You may find, that I am a rather Desirable Grand-papa. I thank you beloved ones, and in the Fulness of that Light which is your Perfection, your Dominion, yours to command, I bid you good-night. May the fulness of all Peace, all Joy, all Happiness, the Limitless Supply of all good things, the Limitless Supply of all money which you require for use, be yours at once in the Power of your Almighty call to the Treasure-house of your Presence.

Ere long, I am quite sure, you will all come to know what it has meant to make the call that "Ascended Master Friends" be raised up everywhere to bless you.

Good-night and Our Blessings enfold you always to your Perfection.
