

SANAT KUMARA

After two and a half million years, many times in various parts of the earth, humanity did reach a very high state, but no civilization, no people, can ever have a permanently sustained attainment, until they have known the "Mighty I AM Presence," which gives Life to the earth. Those various civilizations did NOT know that as you are privileged to know It to-day. May the full Power of My Feeling enter into your Being to-day, into your feeling world and not only dissolve all human creation which is there, but cause you to FEEL your association with Me.

SANAT KUMARA

Oh, that you might all understand clearly that the atomic structure of your body will obey your Divine Orders as quickly and completely as you would mold dough into any form. It is only because mankind have felt that it was difficult and thru allowing the atomic desire, which has grown within the atomic structure of the body, to hold its dominion, mankind have thought they could not govern it. That is a mistake. Just as soon as the atomic structure sees you are master and will not yield to it, it will obey you instantly. That is what you need to know!

SANAT KUMARA

Chananda gave you such a Magnificent Idea. I hope you will hold It and keep contemplating It, until you get the full power and significance of It. When you call the Light into action in and thru your body, It just sweeps out every imperfection of every kind. Then as the imperfection is swept out, of course the Light will naturally replace it in the atomic structure of your body with the Self-luminous Intelligent Substance which is wholly Perfect.

SANAT KUMARA

Do you know that in the contemplation of your "Mighty I AM Presence," thru your Higher Mental Body, your discrimination and comprehension is set into action which will be the Only Acting Presence within your physical forms and within your brain structure? That is why in the attunement of the brain structure, it must be rarified in order to catch the finer vibratory actions and get them clearly.

This means certain definite discipline is absolutely imperative! That is why you have been urged to follow Saint Germain's Directions because the Ascended Masters know just what you require. If you will continue to follow those Directions unerringly, the Fulness of that achievement will be very quickly attained; but if there is rebellion in the feeling, even unknown to you, then it delays the Perfection coming forth. So, I urge you to call your "Mighty I AM Presence" to take out every feeling, known or unknown, which would in any wise act upon your outer attainment. That is important, because there is so much of which you are outwardly wholly unaware.

SANAT KUMARA

It is so important to remember that the Light as It floods forth into the world, knows no struggle or battle. It just moves into action and everything before It unlike Itself, just ceases to be. That is the feeling I wish to convey to you to-day. As you call your "Mighty I AM Presence" into action that is the exact activity which takes place. There is no battle! There is no strain! There is no anxiety! It just moves into action and all unlike It disappears. If you can feel that with great earnestness, you will find it can only bring a Real Peace within you which lets the Powers of the Presence flow thru without re-qualification.
