Ascended Master Youth Breakfast—Washington, D. C.

May 30, 1939

BELOVED Sons and Daughters of Light, for I refuse to accept you as anything else, all of you are Ascended Master Youth of America and the world.

You have observed the joy which has filled your being this morning. Saint Germain and Eriel, My Godfather, have requested that I become more a part of this Mighty Constructive Activity which is the Freedom of the world.

Great Joy has been given Me by the Ascended Masters who have rendered such service in China and as you know Eriel brought Me from that almost forgotten country and now I am Free. In the Joy and Happiness which has been Mine thru these years, I convey It to you. In the future, I will move among the student body, especially among you who have chosen to style yourselves the Ascended Master Youth of America, for really all of you are that.

Remember, beloved ones, you cannot hold your attention upon the Perfection of Life without Outpicturing It when you remember that you are dealing with the Law of Life and Its Mighty Perfection. There is no opposition to that Power and Perfection for It is Life. It is Light which knows no opposition.

Now, as you have received these Currents, hold this Happiness within you, and I mean by that, the continuous acceptance of your own Stream of Life which is Happiness. Why do you think that My Being has become so filled with Joy? Because Eriel so decreed it, when He brought Me to His Magnificent Focus of Light and taught Me from an infant these Laws; for when I was only twelve years old, I could perform many of these so-called miracles and it has been very wonderful.

While I do not wish to say anything that would mar this Happiness, yet we must face the Truth of Life and there is no occasion in doing so to be unhappy. I say to you fellow-students, if you allow the facing of Truth to make you unhappy, then you are unfortunate! You should rejoice more than anything in the world to have the Truth put before you, that you may correct within yourselves whatever is necessary. Why go on, beloved ones, when you know this Great Truth, allowing qualities to act within you which make you unhappy or make you miserable? Isn't it childish and foolish? Just because of the stubbornness of the human self which is filled with self-pity and self-justification, it goes on feeling hurt and peeved. You notice, I am quite familiar with your language, far more so than I am My own. While born in China, I am a real American.

You, to-day, who are having this Great Privilege—the greatest Opportunity of all the life-times you have ever lived, my dear ones, don't miss the slightest thing in this Opportunity. Every time something is shown within you to be corrected, rejoice more than if you had a million dollars placed in your hands because it is worth a great deal more. You might have all the money you could use, all the surroundings of comfort and even harmony in the outer world; but what would it amount to, if you did not use it to attain the Goal and Victory of Life?

Look! your beloved Lotus was once, in those long forgotten times, a daughter of our land when it was beautiful, when everything was the Glory of the Light. You will remember, she said to you recently in referring to our land that the use of dope imposed upon our people had been the down-fall of China; and you, beloved ones in America, have been informed that the same thing has been attempted, not only in your America, but thruout the world.

You will pardon the language I use, but I must convey to you that which We know definitely, so you may be on guard. You know, there have been renegades from every nation of the world and many have committed crimes so they cannot stay in their own country any longer. If they can get out, they go somewhere else and, because of the momentum gained, they carry only destructive forces wherever they go. Those individuals who have been criminals and escaped are the ones who have been the instigators of the traffic in dope, spreading it thruout the world. It is curious but very true, that all destructive forces which are acting can find individuals who succumb to destruction for a few dollars.

I could take you to a thousand places in your beloved America, to-day, in which individuals are lending themselves to this nefarious traffic because they are gaining a few dollars when the same energy spent turning to their Presence of Life and calling It into action would provide, thru the Power of Perfection, ten times, perhaps a thousand times what they gain in those destructive activities.

Now, beloved students, that which you have been informed of as being the sinister force, is but destructive humanly accumulated energy. You are up against the most subtle conditions, perhaps, of human suggestion. Do you know, beloved ones, that unless you harmonize yourselves enough and call your Presence to establish this Tube of Light about you which the Messengers have so often—in fact daily—called to your attention, you are subject constantly to the catapulting of human suggestions, not always intentionally directed, but they are being charged constantly into the atmosphere?

I say that you do not realize the importance. With you as students, it is quite different, beloved ones, than with the person of the outer world who knows nothing

about this Light. You cannot hold your attention upon the Presence without becoming more and more sensitive. It must be so, but that is not a quality you should not want, in fact you should desire it very greatly; but at the same time, as you grow more sensitive you must be more determined to manifest Self-control because you must hold balance by Self-control in the sensitiveness to which you have attained because when you reach a certain point that sensitiveness becomes the Scepter of Power, my beloved ones.

Eriel tells Me that I am one of the most peculiar Beings, for I have the most Infinite Power of sensitiveness; and even before My Ascension, I went with Him thruout the world and I would sense things seventy-five percent of the time before He did. He would say to Me: "Son, how is it that you, in your preparation for your Freedom, have this?" He said this many times and so, finally, one day I said to Him, when He made that remark: "Can We not find out?" He said: "Yes We can." Then He did, but I cannot take time to go into that this morning. It came thru long past experience, due to the position in the service to Life which I held and curious enough to say, I continued that thru the many embodiments in which I had lived, rendering almost exactly the same service. That is why the sensitiveness became so powerful.

As I was standing here and the Messenger was talking to your beloved she sensed My Presence. As you hold your attention to the Presence, you will become more and more sensitive, more and more alert, until you will know clearly and definitely everything that is before you; then knowing it, you instantly become its master. If it be discordant, you say to it: "Be thou gone hence forever! Return no more to touch my world," and it obeys. If it be something beautiful that expands your Light say: "I welcome you in the Name and Power of Light."

You do not realize, my dear ones, how your calls are charging your world, expanding your Light; and Oh, with just a little more Self-control and the dismissing of all self-pity and self-justification, how it would open your doors, just like when Saint Germain threw the doors open in Paris. Like that, your door would open and the Flood-light of Eternity would flood your Being and the world and your struggles would be over. It is very wonderful. The opportunity before you is very great!

I am quite sure that all of you who are privileged to attend this class are feeling it, understanding it, more than ever in your experience. You have already noticed how during the classes, many many questions are answered. Well how is it that your demand for Light and Understanding is always answered? By the Wisdom which is acting in the class room, and Oh, not only the spoken word, but do you realize Our Currents of Energy are Wisdom charged into your feeling world? It is not just Substance, it is not just Light, for when you are calling to your Presence, Love, Wisdom and Power are acting in balanced form and you cannot have anything but balance in your physical body if you would hold yourselves harmonized and Free from human disturbance.

After all, my dear ones, what does it matter concerning your human desires when you know your Goal? If you do not know your Goal now, it is just too bad. The Messengers have made it so plain to you—that your Goal is the Ascension. It stands before you an Open Door beckoning you thru to your Eternal Freedom. If you cannot accept that, if you cannot do everything Life requires of you to have this Freedom after hundreds and thousands of embodiments which have brought you to this point, well would you blame anyone but yourselves, if you compelled yourselves to

pass thru the second death? That would be a long, long, long journey to retrace.

You heard this Messenger the other day when he so dynamically asserted that Mighty Truth. My dear ones, I want you as earnest students to realize what this Light means. It is not a matter of persons, places and conditions, it is a matter of the Law—because We are speaking of the Law of Light, not personalities.

If you knew what the people who have had the opportunity to touch this Light and then turned aside must go thru, my dear ones, you would never wish to see that which they must meet. That is not a matter of human opinion. It is not concerning a person, place or condition. It is the Action of the Law which they confront; because when you have gone thru hundreds and thousands of embodiments working up to this point; when your Beloved Saint Germain has brought this Release of Light to the world; and then individuals thru any reason whatsoever allow human stubbornness and viciousness to throw them aside from this Light, they will want it a long time before such another opportunity is offered. One of the reasons is, because you are at the culmination of the ages and that is a wholly different activity from anything which has ever before acted upon the face of this earth. This is the only time in four and a half million years when this point has come into action for the people of the earth.

That is why, to-day, I wish you to understand as never before, that you cannot afford to let a single human quality act within you which would cause you to feel self-justification. There is no such thing. When you are at this point seeking Light, there is only one thing—keep your attention and vision fixed upon that Presence of Life and say to all human qualities: "Stop that action now and forever."

My dear ones, because of a little foolish childish selfishness or peevishness, would you allow yourself

to be deprived of your Ascension in this embodiment? This is Real, dear people! It is not somebody's imagination; but when Saint Germain has prepared the way and has given you the Knowledge, Understanding and reason for it, my dear ones, don't miss this opportunity!

May I call your attention to two activities? An activity of the acceptance of the Truth of Life thru the Power of Harmony and thru the Power of Force. I may surprise you considerably. Do you know, that up until recently, the Power of the action of Harmony had to be used within the student body by the Power of Force, in order to cut them free from the binding powers of their own creation and that which is human suggestion about them? Do you know that many hundreds of times, the Messengers drew into themselves the conditions of the students, to protect them from the dangers of the moment? Life will not permit that any more. So you are being given more and more powerful promptings as to how to govern yourselves; but if you don't want to do it, should anyone else be worried about it?

Oh, you should know your own world. You are the decreer of your own world and remember shortly, there will be no more promptings. Never in the history of the earth has Life been so generous to its creation; because it is allowing promptings that the Great Beings of Light governing these activities thru-out the world have never known.

May I tell you just a little secret of the Inner Activities which has not been mentioned to you? You will remember at the beginning of This Work and the first Conclave at which the Messengers consciously visited the Royal Teton; and the Mighty Victory issued that Mighty Fiat for the world—dismissing forever the old occult methods for the earth; what do you think happened following that? A delegation of five hundred

people was sent to Him demanding He retract that Fiat. He said: "You foolish people! Have you grown so arrogant in your own human conceit as to think that you can dominate this earth and bring about the misunderstanding of the occult laws to govern them any longer or to drag mankind down into the degradation of human creation?" He said: "Now delegation, listen to Me! I issued that Fiat thru the Authority and Power of Life and you or all your cohorts shall not change it. Do you understand Me? Now then, since you have come here to Me, you shall remain, until you understand This Law; and you shall not leave My Presence until you change, until you see this Truth and why I have given It forth; until there is cleansed from your own mind and feeling world, the arrogance of the dominion of certain occult laws which have been distorted. Do you think that I would issue a Fiat contrary to the Laws of Life with the Wisdom which is Mine, and you people in embodiment subject to human limitations, come to Me and say to Me: 'Change Your Fiat?'"

My dear ones, you in the outer world have your problems, Victory had His, but it was of short duration I assure you. Now do you understand what that has meant to the earth and why I am calling it to your attention to-day? Because then and there, the Mighty Victory stopped one of the most nefarious activities which was at that time attempting to take hold of the old occult method of which those five hundred were absolutely innocent; but if they had kept up any further authority, that force which had determined to seize upon them would have wiped most of the people from the face of the earth.

These are conditions to which your attention is sometimes called, but do not think it idle talk. These are Great Laws, Great Truths which are brought to your attention so in the call to Life, you may render what-

ever assistance your heart tells you to give in this which the earth requires.

Oh, my dear ones, you are not only working for your Freedom, but you have been shown the way which is absolutely certain, if you will follow what Saint Germain has asked. There is no more question about your Ascension than that you are sitting here this morning in this embodiment, if you will follow what He tells you; but if you do not follow it, blame no one but yourself. You know the Law and if you will not abide in It, then you alone are to blame. Therefore, I say to you dear ones, as you value your Freedom, put down every human feeling within you. If you don't you will find yourself out in the wandering maze of human creation, and then your cry for help will come too late.

The things which I am saying might seem very serious to you, but I am saying them to you in the Joy of Life because it should be the greatest Joy in listening to this Truth and how to bring yourself into Our Glory of Eternal Freedom. That is why I prefaced My Words as I did.

You cannot change Life, my dear ones, but you can change yourselves by giving the most glorious obedience to Life. Then your bodies become Perfect, your world of action becomes that of Harmony and the Glory of the Victory and Dominion of the Light as It moves before you into your world of action, gives you such happiness as it would be impossible to convey in words, for in this Stream of Light which beats your heart is all happiness. It is only the stopping of human qualities which allows that happiness to take its dominion within you. Then the little things in the outer world will give you such great happiness and when you are able to say a kind word to someone how your being will thrill with happiness. When you are able to withhold from someone some destructive force of which even they might not know, how your being will

thrill with happiness. Then every service to Life will become a constant thrill, a Power of Happiness.

That is why I am the embodiment of happiness and it is why I must convey to you that which I AM to-day because I cannot prevent it having a reaction upon you. Now you are seeing as you never did, the necessity of freeing yourselves from any quality of human stubbornness, self-pity and self-justification which might still be within you. If you do not do it you are lost. You have come to the time when you cannot waver longer. You must decide whether you are going to serve the Light or the shadows.

When you see the pictures upon the screen tomorrow night, I shall be there and will you give the closest attention you ever gave? When those thought forms go on that screen, will you know that those thought forms are what has been the binding power of mankind thruout the centuries? While they are called "thought forms," they are really feeling forms because they are created by feeling. Of course you can make your mental pictures, but unless they are charged with feeling, they are of little consequence; but when those forms are charged with very intense feeling, they can grow to the power of destroying your human form.

I shall say something else of which you have not been informed, because you are now where you must know these things. There is a certain percentage of the change of so-called death, which has come about wholly by individuals' thought or feeling creation. That is a part of them, and when it comes to a certain point, it can shut off your heart action; it can shut off any function of your body just as surely as it determines to do it because it is your energy, your intelligence which is acting. Not understanding this in the human consciousness nor feeling your power to change it, it has the power or energy of Life with which you have charged it and it becomes your dominator.

That is how people many times cannot control their temper, cannot refrain from constant criticism, condemnation and judgment and all those things which are so destructive.

I say to you as the Messenger said to you last night, blessed ones, if you do not balance your calls to the Presence by Self-control in your feelings, how can you expect the Victory? You cannot do it, you are just wasting your time and energy. You may call with all the earnestness of your intellect; but if you continue to refuse to hold the necessary control over your feelings, many times you will intensify the condition which you are trying to get rid of, instead of helping it, because you are calling forth more energy; but there is no excuse for that. You have had it explained to you so many times, but you see Life is demanding your Self control, my dear ones.

Do you understand? Please listen carefully. Do you understand that when your Life Stream demands something of Us, We must speak it? Nothing is intentionally said to hurt your feelings and if it does, it is just unfortunate; because Life is demanding, every one of your Life Streams is demanding now your obedience, your Self-control because It is offering you your Eternal Freedom at the close of this embodiment. Why wouldn't It demand something of you? Remember that it is the first time in the history of the earth that your Life has demanded anything of you; but when you have come into this Light and you have sworn your allegiance to It—don't you mean it? Is it from the neck up as Lotus says? You had better get its action in your heart, if that is the case. When you promise something to Life, Life will compel you to fulfill it.

Oh, my dear ones, how I rejoice that you are seeing the Truth of My Words to-day. It is My first voicing to you of My Humble Efforts. Again, it is a great reminder that within Joy is comprehension. Have you

thought of it, that within Harmony is Understanding, within Victory is the feeling which brings the Trinity of Action?

To-day, is one of the Memorable Days, one of the Cosmic Days in which comes the Great Great Glorious Release; and as you enter class to-day, there will not be one of you who will not feel that great Freedom and that great Up-lift; but I prompt you now, when you begin to feel It in the class to-day, instantly grasp It like that; as if you were grasping It so It could not leave you. Then hold It and command It to be sustained and all-powerfully expanding in you and your world.

This is the beginning, to-day, of a certain Cosmic Activity which I am not permitted to explain to you; but It is a Dispensation called forth for the student body of America. This will not reach beyond the sincere students. That Cosmic Light knows whether you are sincere or not, and all who are earnestly sincere and willing to maintain Self-control, will daily become Its Action within the world of the student. In every class, henceforth, this Activity will be one of the outstanding Activities thruout the class; and in Los Angeles, It will reach a Tremendous Power, because of the volume of the energy released by the great body of students who will be there.

I trust every one of you does realize, and from the Light within your hearts you surely do, that this is an Opportunity never before given on this earth. Watch, watch, watch, my dear beloved ones, and guard yourselves against human suggestions from people who are vicious toward the expansion of this Light. If you do not guard yourselves and become firm and unyielding, you will be tripped up and turned aside. We cannot prevent it. We can tell you what to do and how to guard yourselves, but if you do not do it, the fault

would be yours. Many have recently been at very dangerous points, and as the Messenger and I think Saint Germain Himself said to you: "Observe! Those dear ones who turn aside from this Light now in the crisis of the world, will meet the greatest unhappiness ever known in human experience because they will have closed the door upon the 'Light of God that never fails'."

Do you not see what your attitude does, dear people? You might say to Me: "Well Fun Wey, don't you think you are just over-stepping yourself a little? I have my Presence, how can I turn away from It?" Shall I tell you? When you turn away from the tremendous effort, which has brought the Light and the Truth of the Ascended Masters Who have opened this door, even to the knowledge of where your Presence is, you cannot have your Freedom. Why did you not have the Perfection of your Presence before? Because you had forgotten It. Well, if you had forgotten It, how were you going to have Its Assistance?

That is one thing in which Life took no part. It just waited, but when you have had the opportunity, have contacted, and your attention has been drawn to the Presence of Life, the "Mighty I AM," then you willingly turn aside, it shows to Life that you defy It, and you defy obedience to Life. That is why you shut your door and it will not be opened. That is why those who have turned aside have closed their doors and in many instances, they cannot be opened. For some it can be.

I want you to understand, my beloved students, it is nothing to fear; but the vicious individuals who have become vicious toward this Light are people who are seeking channels into which they can come and stir up the feelings against this Activity of Light and against the students. One of those is
I prompt you unless you guard yourselves against

that activity or anything else wherein the conductor of it remains in darkness, you should know at once that it is no good.

There have been many Christian Scientists who have become so bitter against This Light that they have shut off the expansion of their own Light because they have turned to vicious channels to try and obstruct This Work. They cannot do it dear ones. This is the Power of Light and has the Cosmic Light at Its back. Anyone who would try to oppose the Cosmic Light is so childish and foolish. They won't believe that, but they will pay the penalty just the same.

The Great Divine Director gave the Christian Scientists in America a very timely prompting. Many did listen, but many refused. That is not saying anything against the Christian Science movement. It is the vicious individuals who are in it, who have really turned aside from it believing they can obstruct This Light. That would be wholly destructive and they must pay the penalty whoever they are.

Life is no respecter of your devotion to your avenue or whatever it is. We have no feeling toward the avenue of devotion people have to the God-head but wherever viciousness exists, it is destructive and they pay the penalty. How unhappy that they do not see it. You as Students of the Light, in the various times your attention is called to these points, should remember that if you do not retain them, if you do not abide in the Light, how can We help you? Clearer and clearer and clearer comes the understanding, the explanation. Of course, the explanations have always been clear, but it has taken time to clear the creation about individuals.

Right at this point, I am going to bring to your attention one of the things I have observed which has not been drawn to your attention. Why do you suppose the intellect of individuals becomes so stubborn?

Now observe, because this is so vital and you are at the point where you should know it. Here in the brain structure is where the energy is drawn from you or thru your solar plexus. Some day, We will show you how the direct current goes there. Saint Germain said it should not be explained yet. From your open door of the solar plexus, thru which discordant feeling comes into your world, the energy goes to your brain. While you have a force-field around your body from the top of your shoulders up and around your head, it becomes the concentrated force of substance and energy because your mental power is tremendous, and especially so when you get disturbed as a great feeling goes into it. That is why, it has taken sometime to clear the atmosphere from the student body.

You will observe why more attention is being given to the individual student in this class than in other classes in the past—because enough must be cleared of this obstruction around the brain and around the head, so that you can grasp these things more clearly and be more alert to the conditions that you are contacting which so subtly come into your feeling.

Now, dear ones, only as you become alert enough, can you know this which I am going to say; but there are individuals who outwardly are so loving, so kind, who have a creation back of them which is very destructive. They have enough Self-control to have pushed it back, but when others contact those individuals, sometimes they take on that which is in the creation around the individual. If they are unaware of it that force begins to drive into their own feeling world and they begin to experience what that creation would try to express thru the other individual.

Now do not begin to condemn each other, when I say this or think this, that or the other person has some force you do not want to be around. Do not do that, but when you are around some individual and you

begin to feel irritated or disturbed, take your warning and prompting and say nothing, but move out. Move away from that individual. Then say: " 'Mighty I AM Presence' you clear that out of my world," and the Presence will do it immediately; because what does not belong to you, can be very easily erased and cleared out; but if you let it gain a revolving momentum in you, it will make you the most miserable creature in the world for no reason at all. Therefore, in giving you these promptings, will you be reminded to stand guard over yourselves and your worlds? The Messengers have become very alert to this.

So to-day, since We have covered the vital, important points, let us now turn wholly away from that and give our attention to the Exquisite Beauty and Perfection of these Great Ones, your Friends. Let Me call to your attention the Mighty Victory, the Mighty Archangel Michael, the Goddess of Light, the Goddess of Liberty, the Goddess of Peace, the Goddess of Purity, the Goddess of Justice. Those are Beings wielding Mighty Cosmic Power. It is independent from that which I just referred to, as released into the world of the student body to-day.

I wish you could see with Us—pardon Me, if I use the term—the almost violent Effort that is being made to assist mankind to their Freedom, and only recently of course was the reason touched upon. Dear ones, it is so vital for every one of you, and you are earning as the language of the Llama says: "great merit." In our oriental language, peculiar terminology is used; for when We have done something worth while We have gained merit. You might call it in your western language a jewel in your crown; but I say to you, you are becoming Jewels of Light, and how I love to think of you in that way. How I love to look into your Light and call you My "Jewels of Light," for such you really are.

Oh, my dear ones, you are not those forms. You are the Light. Don't let yourselves believe that you are those forms. They are just the garment you are wearing. You are the Beauty, the Perfection, the Dominion of this Light which beats your heart. That is the Real You.

When I first began to be able to expand that Light around My tiny form, for I was a very tiny infant, then I knew the Power of that Light. I have grown a great deal and I am taller than your Beloved Messenger, very slender true, but in this Light as the Beloved Chananda informed you, is the Power, Strength and Glory of Eternity. So beloved ones, when you require strength and added energy, remember it is here waiting to pour Itself forth into your use thru your human hands and feet to render the service to Life.

How can you feel limited knowing this Presence of Life is ready to pour Its Magnificent Energy, Its Wisdom, Its Power forth thru your hands and feet and by Its Radiance going out from your feeling world, becomes dominion of everything you touch thru the Power of Divine Love and Harmony? Oh, is it not wonderful!

The first time I began to expand the Light under Eriel's direction, until I began to see It Myself, I thought how wonderful that is and I said to Him: "Eriel, is that coming from Me?" I thought it surely must come from Him. He said: "Observe! It comes from you. Now, you try to expand that a little more intensely, then watch It, and you will see It is coming from yourself." Sure enough, I began to see and what a joyful time I had. Every time He was not around I began to try it. One day, I felt that He was going to ask Me—"How about the expansion of your Light," and I said: "Eriel, please don't ask Me to-day," because I was gaining wonderfully and I wanted, as I thought, to surprise Him; but all the time He had been watching Me. That was one point where My sensitiveness did

not reach. Then He laughed heartily and said: "Fun Wey, is it possible you still think that I do not see what is going on within My World?" I said: "I apologize, but I thought, I was going to have a surprise for you." He said: "You know in the World of Perfection there are no surprises." That was the first time I was aware of that.

So to-day, beloved ones, you are in store for many surprises unless you become that World of Perfection where there are no surprises. Remember, you were prompted to never be off guard, lest you do be surprised. Well, some surprises are very good and some are not. Certain kinds of surprises are not good for your health. So be sure, if you are surprised, that it is a joyful surprise.

Shall I say something which gives Me much rejoicing? In spite of all that it has been necessary to call to your attention, there is the most glorious Radiance of Happiness emanating from your feeling world. So, I see that I have not done any harm to you in calling your attention to these things.

Another thing that is extremely beautiful, since the Maha Chohan was here and rendered this service, do you notice, have you observed, how your flag moves in the gentle breeze? Just so, waving in its prismatic colors from you, is this Radiance and to-day for the first time, It has gone into definite action. I rejoice with you and for you because that means a steady outpouring, a steadily increasing balanced activity of the Power of Life which is the primastic colors of Light.

You know thru the crystal prism, Life pours Its correct colors and it is a very slight change from that into the perfect colors of the Ascended Masters' Octave; but the difference is so slight, it is hardly a point of consideration.

So to-day, in your feeling of the expansion of this Light, go forth; and I do urge you—may I?—to call forth

this Light every night before you retire and every morning before any thought begins to revolve in your mind. Call forth this Power and charge your being, your mind, body and feeling world with Its Mighty Radiance. Charge It to go forth more powerfully each hour until that fragrance from your Presence which pours from your mind, body and feeling world becomes the dissolving Radiance.

Remember that the Archangel Michael set the dissolving Power of Divine Love into the action of the Violet Consuming Flame which makes the completed action. When It becomes powerful enough, you could quickly charge It into action with sufficient power so everything that touched your world would be dissolved instead of entering your world and irritating or disturbing you. I think every one of you are at the point now where you should really do this.

Then, outside of Its Effect in your protective Tube of Light, you would pour forth such a great Radiance. Do you not see that Radiance would go thru your Tube of Light, because It would be the same Power of Perfection? There would be no obstruction to It, neither would It interfere with your Tube of Light. It would go thru and radiate from It and make It many times more powerful than you could imagine. Therefore, It is a definite power of action, my dear ones.

Observe! If the Messenger took the nozzle of a hose here in his hand and began to let the water thru gently, then he increased the opening it would become a power or great force, according to the water pressure of the city, would it not? Well, this is the same identical example. As you call the Power of the Radiance of your Presence forth, It will increase with the same intensity that you would increase the opening of the hose and let the intensity of the water flow; but if you do not do this dear ones, how can you have It?

I say to you, many of you who have been so irritated and disturbed by your own human feelings or that which you have accepted from something outside: if you would do this, and dismiss all personal feeling, that Radiance would go forth and dissolve everything within you, then keep dissolved and repel every discordant feeling which would otherwise come in and disturb you. That is your privilege. If you won't do it, you cannot have it, because everything these days depends upon your attention, your qualification and your Decree for what is going to act there.

Really be very cautious, beloved students, because We have observed some who are decreeing for certain requirements and it is not wholly obedient to the Law. Decree for Perfection to fill your world, and if there is money supply you require, then decree for it. Watch out that you do not try to interfere with some other Life Stream or Service to the Light, when you are decreeing for something. Remember your Life Stream, if you call forth Perfection, will see that the right thing is provided for you but don't decree for some individual to obey your command. **THAT WOULD BE A VERY GREAT MISTAKE!**

You know, when you come up to a certain pitch, you sometimes forget that you might interfere with somebody else. So be careful and on guard. If you call for Perfection, you can be sure the Presence of Life will provide It; but if you call for something that you want and it would interfere with the Life Stream of another, then you might get something in it you do not want. All of Life is so Majestic, so simple when you look to Life in Its Perfection.

Now in closing, let Me say to you, your Beloved Master Jesus, how We love Him, said to you so long ago: "Seek ye first the Kingdom and all else is added." Now It comes to you to-day by your Saint Germain with a Glorious Activity: "Seek ye first the Presence

of your 'Mighty I AM' and truly all things are added"; because your Presence is the Kingdom, but in the greater understanding of your Kingdom as your Presence, you find there an All-powerfully active Intelligence, not just a Kingdom to act, but the Intelligence directing that Kingdom which is quite necessary in regulating Its forces.

I thank you for this very wonderful visit. May I have a little corner in your heart? You can have as large a corner in Mine as you like. Just say the word and I will expand My Heart to encompass you all. Great is the Joy of Life in living the Perfection of Life. Oh, my dear ones, once again as you are steadily nearing your Goal of Eternal Freedom, may I plead with you, let no human quality interfere with that Glorious Eternal Freedom—the Victory of the Light and your Ascension. I thank you.

GREAT DIVINE DIRECTOR

I urge each of you to stand guard over your human feelings. While it is right and wonderful to be kindly and loving to all whom you meet, yet allow no undue attention to be given any one in particular; that you may hold that great calm serene balance within your feeling world which keeps destructive qualities from intruding.

Dear ones, do you not realize that the gowns or suits you wear, are substance and will take whatever charge you give them; just the same as one day, you will find you can mold the atomic structure of your body immediately into whatever you choose?
