

May this song bring His Presence so close to all who love and accept Him that He will be able to step thru and be with the "I AM" Students often in His Visible, Tangible Body, as we have called for so long.

"Godfré Our Beloved One, Ascended" is the Out-pouring of our Love and Gratitude to our Beloved Messenger, and the acknowledgment of all the Blessings He constantly pours back to us, ever since His Ascension. It brings Him very near and releases a tremendous feeling into us all, thru that Great Power of Music, which is energy harmoniously qualified. Therefore, it is the way and means by which They can most easily reach us all to fulfill our Decrees.

We offer these Songs with all the Love, Joy and Gratitude of our "Mighty I AM Presence," and may they make you as happy as they have us and pour out Oceans of Miracles, Blessings and Perfection to all mankind forever.

May the Angelic Host and Celestial Choirs sing them with us at all times until They come thru Visible and Tangible to all mankind.

We offer our Eternal Love, Gratitude, Blessings and give all credit to our own "Mighty I AM Presence," Saint Germain, Our Beloved Messenger, Mighty Harmony, the Goddess of Music and the Other Ascended Masters who gave us help; and also to our beloved Frederick Landwehr, May DaCamara and Charles Sindelar for all their assistance in preparing them to release in published form.

May they be an Eternal Out-pouring of Miracles, Beauty, Joy and Perfection to all mankind forever.

BLESSED "I AM" Students, will you try with us to make each Study Group of Saint Germain's Activity of the "I AM," a great Joyous Out-pouring of Perfection from the Ascended Masters' Octave of Light? Let us all begin to draw closer and closer into the Radiant Self-luminous atmosphere of Light Substance from Their Octave, which They are pouring out constantly; for It will increase, as the Cosmic Light intensifies in Its Out-pouring to the earth.

Remember the more discordant conditions of the outer world become, the quicker mankind are going to be compelled to come into This Light for nothing else at this time is offering anyone, a way and means to protect themselves.

Whatever else is in the outer world to-day, has been tried for century after century; and if it were possible for mankind to help themselves, and if they knew what was the Real God Protection of themselves, they would not go down under the outer world destruction.

If they really understood what they are facing thruout the world this hour, they would arouse themselves and stop every destructive force on earth from any further action.

Until every individual understands how and why he should drive and bind all destructive forces back into the brains and bodies of the individuals who send them out, he does not awaken and do that which must be done to allow him to live and continue any constructive activity in this world in the future.

When people are in despair in the outer world and come to you for help, tell them the Truth about This Mighty Ascended Master Power and Knowledge of the "I AM"; for without It, they cannot protect themselves, nor survive into the future, in the face of what the beasts of war have already generated on this earth and what they have already planned to impose on the people further.

This Mighty Ascended Master Law is the Power of the Universe; and if used until you build a momentum, It can and must be called forth to overwhelm all unlike Itself.

Remember this Understanding of the Great Creative Word of Life—"I AM," is the Great God Power which built this planet. It is the Eternal Law of Life! It is the True Worship of God because when you understand where God is, what the Power of God is, how you can use It, and what you are supposed to do with It, you will worship the Great Creator of the Universe, with far deeper feeling and adoration than if you do not know what or whom you are worshipping; or if you have only a hazy idea of what the Great God Presence of the Universe is.

That is why this entire Ascended Master Activity of the "I AM" is the True Education of Life and the Spiritual Culture of the people. That is why It is brought forth in the interest of the public good. The True worship of God is the Spiritual Culture of the people, for without It, sooner or later, everything becomes more and more destructive, until there is only depravity and destruction left and culture is gone.

Look at the nations of the world to-day who have taken the acknowledgment and worship of God away from the people. Have they any culture left? No! because they are sinking lower and lower into the animal qualities of destruction.

When the people truly worship God, all destructive forces will fail and fail completely forever. They must first be driven back into their own cause and bound there to keep them from expanding. Then they must be consumed in order to cleanse the world and set mankind Free.

This "I AM" Activity is the balance between religion and education—therefore, it is the Best Part of all that is constructive in both and when one is educated in the Ascended Masters Truth of the "I AM," he knows that to worship Perfection is the highest education of Life. Since Perfection can only come from the "Mighty I AM Presence" and the Ascended Masters Octave of Life, which is God's Realm of Light, he attains Spiritual Culture by his True worship of God—and It can never come any other way.

#### · "I AM" MUSIC OF THE SPHERES ·

THIS is the request of Saint Germain, Our Beloved Messenger and the Ascended Masters who are releasing the Music of the Spheres thru the Messengers, that the "I AM" Students do not allow any of the Music brought forth in This "I AM" Activity, to be changed in rhythm; and under no circumstances is to be played in jazz or swing time.

Blessed precious ones, please do not do that if you love the Light, the Ascended Masters, ourselves or Perfection. Please play the Divine Gifts which our Beloved Messenger gave us, in the Purity and Perfection in which He received them. The least we can do to show Him our Love and gratitude to them is to keep true to that which He gave by not changing its original plan.

Every piece of music which the Messengers have or will bring forth has a definite special form, created by its own melody and rhythm. That form is for a definite service and contains certain Light Rays and Substance. If you change the way it was meant to be played, it is no longer of service to the Great Ones.

We ask every Group Leader to watch your music carefully; and if anyone playing for your Groups, tries to change the Music as originally brought out especially for this Activity, please ask them to play in strict tempo and rhythm, according to our request or stop playing.

We ask this in all the Love of our Hearts and shall watch it very closely in the future and ask all to do the same.
