

DEAR, Blessed, Precious, Young America, in all the activities of your Life, form the habit now of analyzing the result of everything you do before you do it and try to see, if the results from any use of your energy of Life, is going to bring you a problem of unhappiness or a momentum of Harmony and Joy, which will make you more powerful for good in the future than you are now.

Measure everything you do, by the Ascended Masters' Standard of Permanent Happiness and Victory, over all problems! Compare what you call happiness now in your recreation, with the Activities of the Ascended Masters in which They can wield the Authority of Life to control the Forces of the Elements; to create what They desire instantly; to go anywhere They please without limitations of any kind; to release Blessings without limit and anything Their Hearts desire to give to those whom They Love and to raise them to full Freedom and Perfection also.

All Their Marvelous Powers of Mastery were not just flooded to Them, the moment They were completely Ascended. Like everything else in the Universe, Their Powers are the Results of momentum gained thru constant practice in the use of the Great Divine Law thru which They drew forth the full amount of Electronic Substance and Power required to accomplish a manifestation of some definite thing or plan.

Let us all do the same and the more constructively qualified energy and substance, we can draw forth now thru our application of these Mighty Decrees to solve our problems and those of America and the world, the more Power we will have both here and now, in this physical appearance world, and also in the Ascended State after we attain our Ascension.

If our Beloved Daddy had not drawn forth a Great Momentum of Energy here, in his calls to the Presence for help to the "I AM" Students and mankind, would He have a momentum great enough to answer all the demands that are made upon Him now?

Let us love Him enough and be grateful enough to Him, for all He gave us, to call forth His Greater Ascended Master Purity, Kindness, Obedience and Refinement here and now—each day—so more of His Ascended Master Power, which He now wields, may pour thru us whatever He wants to release to protect America and save all mankind.

His Greater Power cannot pour thru our energy, unless it is Pure and Harmonious. So our greatest desire should be, to call forth Divine Justice thru ourselves first, to Life—our own “Mighty I AM Presence,” for if we are just to our Source, which has given us all, we will have to be harmonious and just to our fellow students and all mankind.

Everyone wants and usually demands Divine Justice for himself or herself but how many people are concerned at all about giving Divine Justice and being Divinely Just to our own “Mighty I AM Presence”—Life? That is the Source by which we do all we desire to do; and yet almost no one is concerned about being just to that Being from which we receive all. Let us set ourselves right with our Presence and then It can set us right with the whole world and compel the whole world to be just to us.

When all the energy which you use each day is qualified harmoniously, you will have happiness without limit because you cannot be happy when you qualify energy with discord!

Temporary emotional excitement and sensation is *not* happiness, because energy out of balance is not harmoniously qualified; and if you release energy thru uncontrolled sensation and some sudden impulse or influence outside yourself can make you use your energy one way, some other impulse and influence can also rule you, when it is qualified with that which you do not want.

Some day, sometime, somewhere, you must master the energy in your mind, body, feeling and world. Only the Ascended Masters’ Qualities and Power will ever enable you to do it and only then will you know permanent Happiness and Real Freedom.
