

· SANAT KUMARA'S DISCOURSE ·

The Sanctuary—San Francisco

July 26, 1937.

MY CHILDREN, may I too join in your happiness and remind you, that tonight is a birthday for all of you? Perhaps I should say to you, a new birth; for remember, all that has been active from the Octave of the Ascended Masters during the past months, has not failed in Its Achievement. Furthermore, It could not fail, for the Great Cosmic Light has made it not only permissible, but is the authority so more Assistance can be given in dissolving the human accumulation of the ages. Then, you will more readily understand Me tonight when I say, that this hour you are entering into a new birth; a new world of which you are not yet quite outwardly aware, but I assure you it is none the less real because of that.

Precious ones, I know, see and feel, perhaps better than yourselves, your very great gratitude in the classes and the wonderful things that are being achieved; but I say to you, did you know the fulness of It, truly would your joy and gratitude be boundless.

Remember Children of the Light, This Activity operates from within out; and that which has been most difficult for you or anyone who has attained, is to conquer and rise above those conditions, most of which you are unaware. It has been Our Great Joy during these months, to give whatever Assistance has been permitted, to dispose of your human accumulation as much as possible, outside of your own individual effort.

Many of you have used the Violet Consuming Flame very earnestly and conscientiously and that is well; but I urge you to keep it up with even greater intensity that every vestige of accumulation may be completely dissolved and disappear. Some of you, perhaps are not outwardly aware of it, but you are entering into a new world in which the Great Activity, from the Inner Standpoint

and the Octaves of Light, will begin Its outer expression through you, first, in just gentle unassuming ways.

You do not realize it dear ones, but individuals, after having been so long in the density of their human creations, must be raised very gently; because in many, if there should be any fear, it would be stirred into action if the raising were too sudden. Sometimes a sudden awareness of even the most joyful things might be unwise. So be sure to rest in the Wisdom of your Presence, that everything is moving and will move forward in Perfect Divine Order.

Keep your feet on the earth, but your head in the Octaves of Light. It might seem you would need an elastic body but however, that is not the case. Do you know where your head and your heart really are? You think they are on your physical body and within it but I say to you, your heart and head are really above you; because your heart and head are really your Presence, the Most Wondrous Being in the whole Universe.

Oh beloved ones, the day that you are completely aware of your Great Presence which gives you Life! Never will you have known what Joy was until that moment. Knowing of My Experience in waiting so many centuries, so very long for mankind to come to the point where the Cosmic Light could be released, I am sure you can be patient just a short while in gaining your Freedom. It is always quite amazing to Us, when We begin to speak of long periods of time. As you know it, two and a half million years seems an eternity, does it not?—but it is not so long. It only seems so because, dear ones, you are still within the human octave. Only there does time seem so very extreme.

In the Octaves of the Ascended Master, the Octaves of Light, depending somewhat upon the requirement, a hundred years is only a short time. As some of you have become aware in the classes, the ten days pass as almost a day because your attention is upon the Presence which

knows no time or space. You have had the evidence, almost all of you, since the very first class you attended, again in this one and the recent Shrine Class, how time just disappeared. It all depends upon where your attention and consciousness is. If it is on happiness and Freedom, then time passes so quickly; but if it is on something discordant or containing within it any kind of disturbance, then a year seems almost an eternity. We are quite aware of all that you feel dear hearts; but of course, We do not allow any imperfection to register. Yet, We can know, do know and *must know* what you experience, in order to give you the Assistance required.

Today has been a very *wonderful* day. Certain Work has been established in your wondrous California! Tonight, I am going to, I trust, interest you, in giving the fullest most powerful Assistance of your Being during the coming months by calling individually and in your Groups for the Greatest Power of the Ascended Masters and the Cosmic Light to be released—not only to govern the conditions of mankind, but to release the Violet Consuming Flame through the atmosphere of earth as a purifying Activity. As this rises from the earth to meet the Light descending, a Purifying Activity of the atmosphere of earth will come more quickly. Now that enough has been accomplished in the use of the Violet Consuming Flame by individuals, it is making this possible.

You perhaps have wondered, in fact I notice, there are those who unfortunately, have made remarks about why the Messengers went to the large cities. Well in the first place, that is where the greatest need is of course; but that is not all. At certain points in America, there had to be established powerful Pillars of Light. Those places have been reached, renewed and re-empowered, if I may use the term, by the presence of the Messengers. You will notice each time that it is so. Each place where the Messengers have been, when they returned, it has been more

empowered than before. That is the reason for establishing these powerful Pillars of Light; because the call must come from your octave.

We have always been ready to release without limit but the condition of mankind would not permit it. Today, you are coming to a point of activity for which—I say this for your encouragement—even one year ago, We could scarcely have hoped. We do give credit to all the blessed earnest sincere students of Saint Germain all over America. I want you to feel how deep Our Gratitude is for making it possible for Us to do what We have waited for century upon century to do. We could not do it before because We may not interfere with the human octave. We have left it! The Ascended Masters have left it; but when the call comes from earnest sincere hearts, which is the Out-pouring of Divine Love in that call, it must be answered. This is why, I want you to feel tonight, one of the important points: your call in Love and Blessing compels the answer to come!

When you pour forth Love and adoration to your Presence, It not only *will*, but It is *compelled* to answer your call of Divine Love. This is why the Messengers have said to you so many times, unless you pour out Pure Divine Love, kindness and blessing, you will not have the answer to your call. Just think of it, if you said: "Saint Germain come along here," how often do you suppose He would answer? If you said to your "Mighty I AM Presence;" "Oh, 'Mighty I AM Presence,' you come along here and attend to this now." How often do you suppose the answer would come? That is not a call nor a Decree! It is just a peevish attitude; but when with all the Love of your heart, you call to your Presence to come forth. Seeing your mistakes, you call on the Law of Forgiveness, then say: "Mighty I AM Presence! I call on the Law of Forgiveness for all my mistakes. Take command and give me the assistance that is necessary. Help me to cleanse and purify my mind, body and world." Then do

you think any call of that kind would ever fail to have its answer? Never! That is why, in the Understanding you are now coming to, it is sufficiently clear for you to know definitely, even in the outer consciousness or intellect, the requirements. It is all a matter now of your taking firm command! Remember your Presence is the Infinite Power and Assistance in anything you really want to do. I assure you, there is not one thing which you really want to do, that you cannot do.

It is a curious simile; but if you were out in the ocean, you wanted to retain your body and a plank came floating along, would you not seize it? I think so! You would not just say to that plank: "Oh, you run along." We are coming now to a very vital point. When you want your Great Presence of Life more than anything else in the world, then you will have Its Fulness and quickly. This does not mean any wild despair; but it does mean a great calm determination!

You know the old scriptural statement that a certain individual wrestled with the Angel. Well to mankind, it represents the Higher Mental Body. When with great calm firm determination, you hold to your "Mighty I AM Presence," just as though your very Life depended upon It and call It sincerely into action with Great Love—*love sincerely in action*—precious ones, you *will* have the response! you *will* have the answer! but remember, you have had long periods of habits formed, long periods of human accumulation, which We are now with great Power assisting you to dissolve and consume. That is not so serious a situation, as it is in handling the habits of centuries of accumulation. All those habits are *feeling*, dear ones. So much of your feeling is so subtle, that you are unaware of it. I mean your accumulation. This is why it is imperative not only to use the Violet Consuming Flame; but to call your Presence to take out of your feeling world, every undesirable accumulated feeling which you are unaware of, but which might still be there. Do not take any chances.

You see, We cannot speak individually to all mankind, except as We project the Light and inspiration to them. Therefore, when We speak of these Laws We must speak in simple Words to you. A very Great Work is going on in your feeling world; in that subtle part of which, perhaps, you are wholly unaware. This is why We take advantage of these opportunities.

Will you with Me, take just a few moments—perhaps a minute or two and call your “Mighty I AM Presence,” to dissolve and consume anything and everything that might be in your feeling world which should not be there. Make it as simple as possible. Do this, so I may have the opportunity to do for you, that which it is My Great Desire to do. (Silence)

I assure you beloved ones, it is very wonderful, the manner in which you are being able to still yourselves. It is very wonderful, really. I want you to have this encouragement. You are very deserving and your training and discipline are going forward in leaps and bounds. Be assured of that and have every encouragement.

I say to you, I am most grateful for the opportunity of giving you this Assistance. The remainder of your own accumulation will not harm you in the future if you will call your Presence to establish the Tube of Light about you and keep the impact of human discord, from intruding in your feeling world! You will find to-night, that you have entered into a new world! From this hour, do not let your human question or argue with you concerning this accomplishment. Do not let it begin to wonder—I wonder what was done. Do not let it have a single opinion. Just accept that Assistance which I have been able to render. Then later, you will find, you will have no difficulty in seeing the results.

This should be such Infinite proof to you, dear ones, that you have achieved so much more in your earnest sincere effort, than any of you believe. I would not dare say to you just what has been accomplished within ten

minutes. You would be startled; but I ask you, as One Who, for more than two and a half million years, has never uttered a falsehood, to believe Me, when I say the accomplishment is great.

All in San Francisco and those who are visiting! In the Great Love which was poured forth to the Messengers from her first appearance here, do you not see, Oh beloved ones, how your Love has not, does not and cannot go un-rewarded? Not that anyone has looked for a reward, but it is the Law of Life. Everything that occurs within your Life Stream must be in accord with the Law of Life, to make it a permanent achievement.

I do not mean, when I say what I am going to, that all the students should follow the Messengers everywhere they go; but many of you visiting here in this class, have followed a Great Divine Impulse in being here. This is why I say, be sure you always try with all earnestness to be certain you are following the Divine Prompting from your Presence, and not a human impulse. One of the very easy—perhaps most noticeable ways, is to say to the Presence: “Now I am wholly indifferent! if you want me to be at this place, at a certain point, You open the way and see that I am provided with the means and arrangements to be there.” Then, when that comes about, you can be assured It is your Presence acting; but do not take the reigns in your own hands and force the situation because then, most of the time it is apt to be your own human impulse, the outer desire to be there. When you say: “Now ‘Mighty I AM Presence’ if you want me there, then open the way and see that I am provided with all that is required to be there,” it is a very marvelous thing!

You know the human self in all mankind, needs so much training and discipline. Do not be afraid to discipline your human self, dear ones. Do not let it scare you! Oh, it is not nearly so important as it thinks it is. When you make the human self stop its foolishness, behave it-

self, and be obedient to the Impulse from the Presence, soon you will find those impulses coming as definite and clear as a spoken word.

When you want to go some place say: "Mighty I AM Presence," if you want me to go there, provide the way! provide the money! and see that I am abundantly supplied to do it." If you force the situation and try to *compel* the Presence to take care of you afterwards, you could hardly call that the impulse from your Presence. Watch closely all these things, dear ones; because it is not a matter of being here and there. It is the training and proof to yourself of the Power of the Presence to answer you. See?

If you go some place and force the situation by saying or feeling: "Well, if I go there the Presence will get me home"; well that is true, but how? Oh, there is so much which is so simplified in all of these activities, dear ones. If this is understood, It makes a clear, definite, powerful, convincing Power and proof to you, of the Mighty Activity of your Presence and it is very wonderful.

While I am very grateful for this good brother being the impulse for it, yet may I say, that there was a still deeper impulse and reason for your being here tonight? The students will come to know ere long, that there is always a definite reason when a certain group of individuals meet. I wonder, to-night, if you precious ones will contemplate that? I mean in your activity of the future; not with any anxiety about it or any particular concern; but just keep watching as various things take place and see how individuals are drawn together by that great Inner Impulse. It is the most beautiful thing in all the world when understood and individuals begin to follow those Great Inner Promptings.

This good brother before you had fourteen years of being compelled to follow the Inner promptings without any opportunity to have outside assistance. When Saint Germain showed him the Inner Action of It,

during the recording of Unveiled Mysteries, he could scarcely believe his eyes. He could not have imagined, that he was following those Inner Impulses so accurately because they do not always come as a blazing sign on the door before you. Sometimes they are so very gentle and unless the individual is very alert he does not get them—at least not enough to follow and obey them. This is so important. That training was one of the things which made it possible for him to do This Work.

Our blessed Lotus! Dear precious ones, one day you shall know what these two children mean to the children of earth. There is not a thing in the world, which could give any human impulse to them. There is only a greater humbleness before every achievement. That is why I say for you to love them so greatly. They have been strong enough to carry This Great Light, one of the most wonderful things that could come to humanity.

This blessed one (Mrs. Ballard) has had the courage of a tiger, in the strength she has had to go forth. Remember, during the time that this good brother was having these experiences and recording them, she was battling as you will never know, against forces in Chicago which would have torn a dozen people to shreds; but she was strong enough to stand it, and by her own powerful application.

So to-night, we are just a family, just a happy family you know talking here. We want you to know a little something of all that they have risen above. They have never been afraid of work. This precious child was only like a little doll, and at four o'clock in the morning, opened a little book store while her brothers slept in a warm bed. In this way she helped take care of her family. That is what built the great courage and strength. In after years, when they came together and the financial struggle seemed great, they did their own washing, iron-

ing, cooking and all the work that was to be done, besides the outer work. Anything that was necessary to be done, they did.

We want you in San Francisco to know something about that and why your Love is so great. There is nothing proud about these two. They are just humble carriers of the Light with the strength of a giant in each one for the right, for Divine Justice. I want you to know from Me direct, that they have earned everything and ten thousand times more than is yet apparent; but all of which will come. You too, as you stand with that same Firmness and Unyielding Power to the Light, will find the Gates of Paradise ajar for you to enter in and live in the fulness of Its Perfection.

That is what it means, beloved ones, to stand in the Powerful Unyielding Defense of the Truth. It is said you know: that Truth is Its own Defense; but hardly so, when it comes to the human octave because humanity, having created their own limitations, then in that octave, Truth could hardly be Its own Defense except at the call of humanity. At their call, Truth does become Its own Defense. That is why no harm has been able to touch these two; because they wished no one harm but continued with dynamic application for the protection of the students and the Work. Their application has made it possible for Invincible Protection to always be about them.

Tonight, in this very wonderful atmosphere, I want to say to the blessed ones, the Group Leaders and those who meet here: You have no idea what has been done here this night, to charge even the walls of this place with the beauty, happiness and Perfection which you shall all share and enjoy in their ever-expanding activity. Remember, beloved ones, in the Presence it is not only what is active now, but that always becomes an Ever-expanding Activity. So it is in the charging of this

room. It is so very wonderful, and it makes Me so happy that you should all be a part of It. It is beautiful, wonderful beyond words.

The Law of your Being does not quite permit Me to say all I would like to to-night; but be assured, it is wonderful, beautiful and all that is encouraging. Oh, that you might understand what it means for Me to say that. Did you notice those words? "All that is encouraging."

Do you know, beloved ones, that in a Radiance of this kind, you really become a part of Ourselves, Our Love? If you just realize that in Its Fulness, what a Power, what a Blessing and what a Strength and sustaining Power It will ever be to you.

· GEMS OF LIGHT ·

GREAT DIVINE DIRECTOR

"Unless you saw, from the Inner standpoint, the enormous effect of a body of the Children of Light, as you have here to-night, issuing a Decree for blessing all mankind, you could not possibly comprehend what it means. Naturally, you gain from that Decree which calls forth a definite Light Energy."

GREAT DIVINE DIRECTOR

"While it is true, you are Beacon Lights in the world of mankind's creation; yet, even though that Light grows greater, you shall not be affected by discordant things. That Light will ere long, be strong enough in Its Own Radiance, as It goes forth, to repel every discordant thing which attempts to touch your world. Will you please accept that as a Powerful Activity from to-night—acting within your world, your body, your mental activity?"
