

· THE POWER OF PRECIPITATION ·

THE LAW of Precipitation is the Great Law of Creation acting thruout the Universe every instant!

Everything in this physical world came into physical form and manifestation by the Activity of the Law of Precipitation; for every instant everything is coming out of the Invisible Octave of Life, becomes visible and tangible to our physical senses, serves a while and then ultimately dissolves and returns into the Invisible Octave from whence it came.

The water element is invisible on the atmosphere of earth, then it concentrates as rain. Again it condenses further and becomes snow or ice and after rendering whatever service it came to give, dissolves, evaporates and returns into the Invisible Octave again; but it is always in the Universe, always was and always will be.

When an individual, thru his or her calls to the "Mighty I AM Presence," draws forth the Power of Precipitation, it is the same Law acting, but by the call to the Presence, the Higher Mental Body releases more of Its Energy than the individual usually draws forth. As that Power increases, the momentum builds to a point in which the manifestation comes faster and faster, until it comes instantaneously or almost instantaneously.

When a person uses the Power of Precipitation it is only another special direction and application of the Law of Energy and Vibration. Whether that energy and vibration acts thru natural physical channels, and by its magnetic currents draws into the individual's use, the things he calls to the "Mighty I AM Presence" to give him; or whether a more powerful magnetic current is focused by his Higher Mental Body to draw the thing he desires into his use direct from the Universal Substance, does not change the action of the Universal

Law of energy and vibration in the least. It is all the same Law acting, but the amount of energy accumulated determines the speed of its magnetic pull and the time of its manifestation.

The instantaneous action of the Law of Precipitation thru any human being is always a matter of the purification of the substance of that individual's emotional body; because that is where the individual must feel the Harmony and Power of the Higher Mental Body and let Its Magnetic Currents of Energy build Its Momentum before the thing to be precipitated can come into physical form.

All precipitation, instantaneous or otherwise, is but an activity of gathering substance by magnetic currents of energy and then the molding of that substance into form, by the pressure of energy.

When the Ascended Masters have said that precipitation was possible for almost forty thousand "I AM" Students, They know whereof They speak, because that Power was used by mankind en masse on Atlantis, on Lemuria and in the civilization on the Hyperborean continent. It was the original way all mankind were provided with food, clothing and whatever they chose to use in their physical activity of this world.

Jesus precipitated when He increased the loaves and fishes—when He turned the water into wine, which by the way was not an alcoholic beverage. He precipitated also when they drew up the fish with the gold piece in its mouth, to pay their taxes.

Jesus said: "What I do, ALL men shall do and greater things than these shall ye do!"

However, do not make the mistake of thinking that the Power of Precipitation is going to be released to anyone by his or her "Mighty I AM Presence," or the Ascended Masters, when the individual wastes his or her energy in various ways which create destruction

within and around that one's emotional body and world. Such a thing is unthinkable.

Every Power of Life is drawn forth by continued effort, application of the Law and the attention held upon that Power, until the energy is concentrated into a momentum that acts almost instantly.

The right to use the Power of Instantaneous Precipitation is earned, like anything else that is worth while in the Universe, by purity maintained within one's self, obedience, unselfishness, Harmony and calling forth the Ascended Masters' Directing Intelligence, Discrimination, Divine Love, Wisdom and Power in Perfect Balance, until these concentrated Qualities and Energy build a momentum that overwhelms all human feeling of discord and limitation and lets the God Power and Perfection of Life's True Way act, without interruption or requalification by the human intellect and feelings.

When the Ascended Masters told the "I AM" Students to call to the "Mighty I AM Presence" and the Ascended Ones for whatever was constructive and required for the individual's greater Perfection, service to the Light and Freedom, They have always said unmistakably plain, that our calls will be answered at first thru natural channels of the physical world and as they came faster and faster, keep accepting them as the Power of Precipitation acting, until the momentum of energy accumulated to the point of instantaneous action direct from the Universal.

However, no Ascended Master ever did or ever will say or lead anyone to believe that automobiles come floating down out of the sky. They are the Power of Wisdom, Perfection and good sound sense applied all the time, and Their Power of Perfection is without limit and Eternal. It is at all times the action of an exact use of the Law of Energy and Vibration, thru the Activity of the Cosmic Light Rays.

Remember also that the "Mighty I AM Presence" and the Ascended Masters do not release the Power of Instantaneous Precipitation to anyone just to precipitate an unlimited supply of money to be used to gratify human desires of individuals whose feelings are downright vicious, selfish, or who do not give obedience to Life's Great Law of Purity and Balance in all things.

Because individuals are ignorant of the many activities of Light, Energy and Vibration, in the Greater and more Perfect Octaves of Life, does not change the Great Universal Law of Precipitation nor take it out of the Universe. The Law of Precipitation just IS in the Universe and is acting all the time to bring Blessings and Perfection to mankind; and no human being or all on earth can take It out of the world nor stop Its action for those who will give the obedience required to enable It to act at their call!
