

· SAINT GERMAIN'S DISCOURSE ·

Dallas Reading Room Dedication—June 12, 1939

BELOVED ones of the Light, how My Heart thrills and rejoices with you in the Victory you are winning, not only within yourselves, but in your ability to shut out the appearance world which has been distressing mankind, until that time when they see that by giving their attention to the limitations and conditions of human creation, they but invite more of the same kind.

You are realizing, I am sure, that to keep pouring forth your mighty calls to the Presence of Life, the "Mighty I AM" that the momentum steadily gains until one day, perhaps most unexpectedly, the human seeming opposition will disappear before you. Then comes the great expansion of the Light which every heart knows, which every heart wants, but which the intellect so often shoves aside; and only after more serious experiences of human conditions, will the intellect subside to the Dominion of the heart.

My dear ones, I congratulate you with all My Heart. I thought when first I brought the Messengers to your lovely city that We could establish a Great Pillar of Light here. I had ceased to believe that, and now I wish you to feel My Heart in saying to you: "I feel sure of it." (applause)

I wish to say to you beloved students here and those who might be visiting, I have not as I recall once even suggested it but since I observed your great Victory here, I think I should call your attention to it; the difference between having your own place where no other element enters and holding your meetings in a place where other elements may intrude, is as different as daylight and darkness. You cannot gain a steady Infallible Momentum where other forces intrude.

That is why I say to you, beloved ones, and I do ask every student here to, with all the loving kindness of your heart, co-operate with the dear ones who have stood so loyal to the Light, struggling and calling and calling, until now you have this lovely place here. You who stood so loyal out of the early chaos that reigned here, should rejoice and feel your great Victory. There is no human pride in that, but a rejoicing in the Victory of the Light which is within you; for, understand beloved ones, the Light in you is the only means of Victory that there is; whether It be in your commercial world, your spiritual advancement, the expansion of your Light, your health or any achievement.

You do not realize it yet, my dear ones, but let Me suggest to you that only as the Light in your heart expands and illumines the mind, do you become victorious in anything, even in your commercial pursuits. Wherever there is Victory there is the Power of the Light in action. Then you might say to Me: "Well how is it that many successful individuals do things which do not seem to be right"? Observe dear ones, mankind not understanding this Law, is constantly open to the suggestions of the outside world and the intrusions of feeling. Now, you as students have found some difficulty, may I say, in holding from your own world discordant things. Then think how much more the individual who does not understand the Presence is subject to those conditions than you are.

Dear ones, no one in the world—notice carefully—no one in the world is free from intrusion of the feeling of others; from the conditions in which they move which are discordant, unless they will take absolute control of themselves thru outer effort as well as their call to the Presence. What I mean by outer effort, is your determination to have sufficient Self-control that the Power of your Presence called forth, may find no

qualification of discord to clothe the energy which goes forth. That is the Law of every human being's Life. Energy must go forth from you, dear ones, it cannot help it. You cannot move about and energy not go forth. It is the energy of Life, the energy of your Presence, that would produce such great Perfection for you, if untouched by human qualification.

You have established this lovely place now—and may I say something quite unusual for Me? These Messengers have never hesitated to do whatever physical work was required at any time. You blessed students who have rolled up your sleeves, taken your paint brushes and have rendered tremendous physical service in beautifying your lovely place, I congratulate you with all My Heart. You have real metal within you.

My dear ones, every person, every student in the land, will one day be called upon in some manner to render physical service in connection with the Power of Light. Those who are happy, glad and willing will be the first to be released from that. Your Messenger learned a great lesson early in Life. He rebelled like fury at doing certain physical work, and then suddenly, he discovered that if he loved to do it, soon he did not have to. It is a great great Law of Life. If you love to do whatever is at hand, calling the Perfection of the Presence forth at all times just like a gentle breath, you will float, as it were, from one thing into another until you arrive at your own Perfect Avenue of Service in the Light.

No two human beings on this earth ever labored harder in physical work than these two Messengers; and even today, if it were necessary, they would roll up their sleeves and do whatever physical work was required to accomplish the purpose. That is a great great thing, a glorious thing; and those who are not afraid of physical work, will find their Light blazing to the

skies. That is why I congratulate you beloved students who have been so willing here to take hold and do the physical things necessary to make you a beautiful home in which to worship the greatest Presence in the Universe, God your "Mighty I AM."

My dear ones, Oh, that you might feel with Me just now all that this means to you! Oh, my dear ones, as you have so often heard from almost every angle of Life: "Seek ye first the Kingdom and all else is added." Never was a truer thing said in the world, but mankind in reading, repeating or relating that statement, knew not where It was. Now, today, you know that Kingdom is your own "Mighty I AM Presence." You know exactly where It is. You know your connection with It, and dear ones, how can you fail to have Its Perfection with Love and kindness in your feelings and your call to the Presence which compels that Almighty Perfection which is there to come forth?

Do you not see it is not a matter of coaxing, but it is a matter of harmony and kindness in your feeling toward all things, no matter what the appearance world is holding before you? Then that Presence of Life, your Higher Mental Body which is the great and powerful Intelligence that knows all that is required and only has waited thruout these centuries for you to come into sufficient harmony and kindness maintained in your feeling to stop the discord of the great energy released which It pours forth into you and your world of action; to bring you into the happiness and Perfection of Life.

It has been sometime since I have felt quite this rejoicing. (applause) You blessed people of Texas I have not dared say yet just why I have a very deep Love for you. Some day, I may forget Myself and tell you, (applause) but in this state entering the Union of these United States, something happened that not one in the

outer world knows today; and when the Great Wisdom of Life sees fit to have Us reveal It, you will all stand in amazement. Your Lone Star State represents a great Power and anchorage of the Light in these United States. (applause—rising)

While you are standing may I say this: “As your riders of those early days cleared out the vicious destructive forces from your state, so shall the Riders of the Light clear out of your state all political graft and destructive power. (applause) Underneath the surface of your land in Texas alone, would be enough to carry the national expenses, if governed by Wisdom. Then, think of Oklahoma and those Western states, whose mountains are filled with gold. With the Wisdom of the Ascended Masters, as the Directing Powers of your government, think how all that could be utilized and mankind be free from the excess taxation which has driven magnificent people from their homes; a sinister activity that has tried to break the morale of the American people and break up their homes; so there could not be a focus of Light wherein could come the Power that would be the Governing Power in America. It has failed and always shall! The home life of America shall be restored, if I have to go in every home in America! (applause)

I say to you beloved students of the Light: Guard your world as you never guarded anything before from all destructive forces, every thought, every feeling, your speech. When people come to you with destructive tales, silence them on the spot, if you want to be happy and be Free and have the Full Power of your Presence pour Its magnificent Majesty of Light forth and bring the limitless Perfection of Life into your use and into your world.

My dear ones, the Messengers have told the people this so long, and I urge you again and again, you can

do this only as you pour out Love and kindness; but that does not mean that you do not need to be firm under and before physical conditions. You can be ever so firm and in control of things without being unkind. That is the Victory of the Light.

I say to you beloved ones, your feeling is the Powerhouse of America; and until the feeling world of mankind is controlled and governed and will allow no discordant thing to go forth, they will be subject to human mistakes and human conditions; because mankind is the decreer of his world and the people of America, if they really understood would be the governor of America because they would pour forth from their feeling, the command of Light which would fill every official place in our land with the people of the Light, with Ascended Master Friends everywhere, in which there could not be political graft.

You might think I was a politician. I am not! but I have dealt so long with the political intrigue of the world, and I learned My lesson in France, when I witnessed the political intrigue in the nations of Europe and am still witnessing it, in more and more drastic condition all the time.

Oh, you precious people of America! God your "Mighty I AM Presence" alone knows how fortunate you are to be in this land today, instead of Europe. You cannot possibly conceive by anything I might say, the conditions that are growing daily worse there. Great masses of people living on but a handful of crude food a day; and because of the fear that is over them, they dare not utter a word to bring anything to their assistance. They must be silent and perish.

Stalin of Russia has again committed wholesale slaughter of magnificent men. You might say to Me: "Why don't the Powers of Light intercede"? Mankind, dear people, have Free will. For four hundred years,

I tried to instill into the people of the nations of Europe the Power of this Light, and I could not get enough together to even hold a Focus of the Light. They are paying the penalty of the discarding of that Light today! I had one German Prince who listened to Me with all his heart; but when I came to the point where I said: "Now you must assert this Power of the Light," he said: "Oh Saint Germain, I cannot do it. I dare not." I said: "You with the understanding of the Powers of Light dare not trust the Power of Light to carry you forward"! He said: "I am sorry, but I have not the courage," and I was compelled to withdraw. I could have changed, through him, all of Germany and Austria and these conditions that exist today would have been unknown.

That is where many are standing today and some among our students who have turned aside from this Light with human arrogance, feeling that they would defy the Light and Me. They too will meet that same fate. They will meet the downward pull of the human senses, which will drag them into privation and agony beyond words.

My dear people, allow Me to inform you that, today, mankind stands at the cross-roads of Life. You must go one way or the other. If you go to the right, you will follow the Light. No one but you can decide, but if you call to your Presence with great determination and earnestness, your Presence will cause you, even though unknown in your outer feelings to follow the right way. It is not a matter of Me, it is not a matter of the Messengers, it is a matter of the Cosmic Action of the Law of Life that is—it might sound sacriligious if I use your terminology just at this point. No I shall not do it, but Life has waited long enough.

Remember—not in other parts of the world, but in your America, the free will of vicious human beings

can be and is being withdrawn; and that would be one of the principal hopes for the people of America. Since the feeders of destructive forces are no more, then when mankind or the students of the Light, will turn to their Presence, refuse to give power to the appearance world; refuse to allow their eyes to longer accept into their feeling world, the appearance there of distress and limitations; turning their eyes to the Presence, beholding Its Splendor, Its Treasurehouse of all perfect and good things that will flow into their world, as water flows in its course in the river. The water does not consider where it is going, but flows. The energy of Life does not discriminate, It flows; and if it carries your qualification of discord forth, distress and limitation, then it will fill your world with that.

When We have placed this before the students so long, how can any misunderstand? It is not a matter of persons, places or conditions, but whatever fills your world in qualities will out-picture and you are in its center. If you allow discord to flow forth through your feelings, you will have that in your world. Nothing can prevent it and the human arrogance that says: "Oh I will go forward anyhow!"—how far will you go?

Observe those who have turned aside from this Light. If you knew the agony that was in their heart and their world—and it will increase—you would pray and call to the Light for their deliverance. I am watching every one of these individuals who have turned vicious toward the Messengers and the agony that fills their world is pitiful to behold, but they are still too stubborn to admit their mistake.

There is only one activity of Life. It might be toward any person or condition, it is quite the same. Only to turn from the Light when once you have known It, is a tragedy of human experience. Some will not believe that, but still they will reap it in spite of all I could do

unless they turn and face deliberately about, calling on the Law of Forgiveness, then righting the mistakes they had made.

I cite to you one instance, because you need it blessed precious people. That man Bryan in Los Angeles who spread such vicious falsehoods and doubts among the people of the world, all over the world, what do you think his penalty will be? One of the greatest agonies ever known outside of a black magician. He could not right this wrong he has done in a dozen life times because he would have to take individual by individual and undo the thing, the seed that he has planted in their mind.

Every one who turns against the Light is in the same condition, only his is to a far greater extent. These are conditions of Law my dear people! They are not a matter of anyone's human opinion, but it is Law that is acting! What mankind send out they must reap.

I know you feel the Love in My Heart in prompting you once again. Then It will lift you so quickly, if you care to follow the prompting, into the full glory and activity of your Presence of Life. There are so many of the beloved students throughout America just now at this point where I could do so much for them, if they would only let Me. Some who are so near being turned aside from the Great Light that I could help so much, if they would allow Me.

So dear ones, when foolish human gossip comes into your midst *kill it* with one blow and then all will be happy. A gossip in your midst can turn everything upside down. Don't permit it, dear people, if you want to be happy and bring the Light into your city, as I could bring it to you. When you have gone thru one period of chaos that will never have to be repeated, as you grow stronger in your call to the Light; but individuals do not yet all understand that their motive is

known; and many cannot control their tongues from saying unkind untruthful things. What a pity! They alone must reap what they sow.

So dear students of Dallas, won't you with all the Love of your hearts, join as one in the call to Light and in the obedience to Life; and let the fulness of that power of Divine Love, Divine Order and the Goddess of Justice, reign in your midst to bring Divine Order and Perfection of Life, to fill every one of your bodies, your world of action and your temple, your Sanctuary of Light, here with the Glory of Its Eternal Light, Perfection, Happiness, health, strength and courage sustained forever. I thank you.

· GEM OF LIGHT ·

GODDESS OF LIGHT

We have seen this within the atmosphere of quite a number of individuals. They have made certain application—let Me call it “frail” application and have called for the Circle of Blue Flame and the projection of the Tube of Light and all that; but they are not cognizant of the fact that they must release enough intense feeling which releases the Substance from their bodies by which the Great Ones amplify, intensify, impel and compel the Tube of Light into action about them which would one day become Invincible.
