*Minute Men—New York, N. Y.—April 30, 1939*

**G**ENTLEMEN of the Light, beloved ones of Light! Today, I greet you in the Name, Power and Wisdom of Life; and may Its Power flow into and thru you, utilizing your forms as a power of a thousand individuals. Since in physical form, those seem not available just now, still may you be the outpost in supplying that Radiance, which is lacking because of your numbers here.

Feel today while I speak to you, the Radiance from your Brothers of Light thruout America and the world; for there are many and you would be surprised how many. I have started thru an individual in France, in England, in Switzerland, in Australia, New Zealand, Brazil and Mexico that Power which means a similar activity to yours, as the Minute Men of America. Today, their attention is focused upon this class and they are pouring out their Radiance, aside from that of the Minute Men in America.

Only as the Law of Life permits, are We enabled to give forth certain Information; but today the Power which is lending Itself for the assistance of the students in America, is beyond anything We could have expected eight months ago.

I want you to feel and be dauntless, Minute Men of New York. I appreciate what your leader has said, that while you are not so great in numbers, you do release intensity of feeling and a Power of Radiance. I Congratulate you! Do you quite understand that the outer self of mankind is constantly looking for that which brings a thrill, that which brings an enthusiasm, because of numbers? But you who have not the numbers, remember that thru you, there can flow the Power to make up for the greater Radiance, until those numbers appear. That is the right attitude to take in the Expansion of This Light. Call to the Presence to pour thru you, what It would do thru ten people, so long as their physical forms are absent. Then you will cause the Power of Life to utilize your forms to do the things which make up for the seeming absence of numbers, and it is a very important thing.

Your activity, today is so much beyond what you conceive of outwardly; and from time to time We do try to give you that encouragement because it is not always in numbers that the greatest power flows. So try to rejoice and then please understand this—your increase in numbers depends upon the full release of your call to the Presence to reach out Its Loving arms and fill your Minute Men Groups with the earnest sincere men from New York. I am quite sure that few understand yet what that means, when you call the "I AM Presence" to reach out Its Loving Arms and draw into your Group the people, the men who belong in the Minute Men Activity in New York; because there are a great many men here who should be in your midst.

Now please feel this, when you call to the Presence of Life to reach out Its Loving Arms, you are speaking directly to the Presence of each man who should be here; which gives the invitation, gives an impulse of Life to instill, inspire and bring those very gentlemen

in touch with you. Now if you understand this, gentle-  
with all it means, you will have no difficulty in draw-  
ing into your minute men Groups, the men who belong  
here. Of course all in New York belong here, but there  
are so many who need to be here. Will you please allow  
Me to assist you, after this Class, to draw into your  
midst, the men who really belong here?

(Applause—audience rising)

Remember, gentlemen, that you need to hold your  
guard. You need to hold your protection. There has  
been a deliberate effort made to prevent the expansion  
of your Minute Men Activity. Remember that you have  
the destructive people to deal with and unless you hold  
your guard, your Invincible Protection, and know that  
they have no power to keep people away from you,  
you will find yourselves affected.

People come into your Groups to try to spread their  
poisonous breath of doubt. So whenever you meet in  
your Groups, know that Invincible Protection is there  
about you! We have had to hold this thruout America!  
I want to say to you, because it is absolutely necessary,  
the movement known as——is one of the most sinister  
things—the influence back of it—in America today.  
Everything they do is in the dark and secret. No one  
knows who the leader is, who is there and what is back  
of it, but I know. You know I very rarely point out  
anything, but that is too sinister to allow to pass.

So be on guard gentlemen concerning it! I prompt  
you to stand on guard! There is nothing to fear, but  
you must hold your Invincible Protection. You must  
make your definite application in all that you do! So  
many things have occurred in which Our timely aware-  
ness has prevented their action.

Gentlemen here in New York and in Washington,  
D.C., I cannot urge you too much, to remember the  
need of your own conscious Individual Protection. If

you will call that forth for your Groups and the Expansion of the Light, you will find there will be a Great Great Release.

Mankind does not know the forces with which they are dealing; but since the feeders of these frightfully destructive forces are no more, and I mean by that the black magicians, then you will understand, how just a little further effort upon your part will bring your complete release from these conditions which are the accumulation of the centuries.

I want you to understand how great this Law applies in your business, in your health and in every way the outer man requires. There is nothing that can hold or bind you but your own beliefs, your own feelings; and in this heart to heart talk today, I want to instill that strength—My Own Strength and Courage—into your feeling world for constant action; so that you are dauntless before the conditions of the appearance world. Of course, gentlemen, if you accepted the appearance world, it would be almost terrifying, even in the conditions that exist here in comparison with Europe, but these conditions are but temporary.

Now in your calls to the Power of Light these things are absolutely impossible. That is why in bringing forth this Great Light we are constantly prompting those who have become interested, to know they have Limitless Power at their call, to send forth the Mighty Light Rays to dissolve these conditions. Make no mistake about it gentlemen, the Power of your "I AM" Presence called forth into action is not confined to a certain space. It is all encompassing, and when you ask the Presence to direct Its Mighty Light and Energy forth to a certain condition, It enfolds that condition no matter what the supposed capacity may be and holds the Radiance there to dissolve that which is the appearance. The action of Life is a natural practical thing and

there is not a thing mysterious or unusual about it.

Remember gentlemen, unfortunate individuals have spread or tried to spread among mankind that This Work was psychic or spiritualistic. It is no such thing! The whole of mankind should know that, from the great Expansion of This Light. Stand guard over the suggestions of mankind. Unless you do this, you will be interfered with constantly.

In all the Messengers have to confront, naturally they never waver. They are only concerned with one thing, calling the Power of Light into action to dissolve that which is wrong, then forget it and it is done. Therefore, I prompt you today in your individual activity, in your requirements, be just that strong and firm and know when you call the Presence into action to render a service for you, it is done! Stand by it until you see the outer manifestation!

I say to you any business man can apply This Law. It is the foundation of your business. It is the Directing Intelligence of it, and without it, you have but a temporary action. You see the activity of the business world, but you do not see as the Messengers have all that has occurred; but hundreds of business men on the point of failure have contacted This Work and reversed every condition; restoring themselves in such a short time into the fulness of the success they desire.

This Work is practical gentlemen. It is for the business world! It is for the industrial world! It is for all activities of the outer requirements of mankind, to correct the wrong and bring Its Perfection into action there. That is why I brought this forth! Do you think that We, as Ascended Beings, are not still interested in the achievement of mankind? Why would We give the Assistance, why should We use our time and limitless energy in giving the Assistance to mankind, if We did not know it was possible for them to rise out of the

conditions which have bound them? And We are showing the exact definite way by which it is done! We had to do the same thing! We used this Identical Application and all Beings who have gained their Freedom have used this Identical Application, gentlemen, with very little variation, even in the worded expression.

The "I AM" is the Power of the Universe! It is Life saying to you, thru you, at your point in the Universe: "'I AM' here! 'I AM' the Dominion of your world at your call," and have the Messengers not proven that so? I say this in all Truth to you—all the students put together have not had to meet what these two humble Messengers have had to meet, in carrying This Light! (Applause—audience rising)

Mankind constantly look for evidence, and so many say: "Show me"! Well look! If mankind will look at the achievement of these Messengers, they will see the proof of all that can be given them, outside of themselves; for I say to you gentlemen, unless you prove the Law of Life to yourselves, It can be but temporary. That is why you hear the Messengers say so many times: "Don't believe us, prove us," and you must prove the Law of Life to yourself, otherwise it means nothing to you. In their constant Assistance and prompting, did you ever in your life hear two individuals hourly make such calls for your happiness, your Perfection, your Freedom, your supply? (applause)

These calls are the Power and Release of the Currents of Light and Energy which render this service and they know it positively! I know that there is no opposition to that Light which they call forth, which you call forth; and if you will understand that, you will see how your application cannot fail to produce the results you require. It is magnificent!

Arise in the power of your application. Be firm, be dauntless in it! Do not let your own outer self or any-

one's else cause you to doubt, question or fear anything! I say to you, gentlemen, with all the Love of My Heart: for individuals who doubt Our Reality, it is the most dangerous thing in their whole Life. We have given abundant Evidence of Our Reality, but have patience, until that day when Life says to Us: "Now You stand forth in Your Tangible Presence to these Students of Light," then it will be done! We cannot and never do make one move contrary to the Great Law of Life! We may not do it! Since We are Beings of Perfection, We must give response alone to Life, for Life is the Authority! We are the Authority in the wielding of the Substance and Energy of Life, but Life is Our Commander! Do you not understand that? We who are Free and Perfect Beings must obey Life!

While We have become that Presence in the Ascension, yet still do We give obedience to the Great Central Power of Life! There is no portion, not even a suggestion, but we know in the Wisdom of Life, We must give response to that Perfection! With you, for instance, who are drawn to Me in this Endeavor to bring your Freedom and the Freedom to America, your Life needs and I require certain obedience!

When I make suggestions, please do not feel that I am demanding certain obedience of you! I am calling your attention to the obedience, the requirement of your obedience to Life; for that is all it is gentlemen. There is nothing in the world that can require obedience of you but your Life. That is why, if understood correctly, in giving obedience to Life, you cause to be released all that Life holds for you in Its Great Magnificent Action everywhere.

I wish you to understand, that when you call to Life for any constructive purpose, you have the Wholeness of Life and Its magnificent action, rushing to fulfill that call in your requirements. If it is destructive,

you can only utilize what energy has been accumulated about your physical form. Life does not and will not release Its Energy in your understanding of the Presence of Life and call to It for a destructive purpose! That is where so many have failed who have come into This Light, hoping that they would get hold of a knowledge and use of energy, by which they could perform destructive activities. Well they cannot do it, because Life will not release It!

Please understand this! One of you, *if you really* understood it, is more powerful than all destructive forces; because you, in your constructive activity, are the Power of Life in Its Dominion of the whole Universe. That is why once you understand your Power, your Dominion in the call to Life—all anxiety, all fear, all doubt will cease to be and you will stand the Dominion of that Light to which you are calling. Its Radiance will pour forth, harmonize, go before you and enable you to move into action and do the things that would be incredible, impossible without It.

This is why gentlemen, We keep you upon these Realities, until they become such a part of you that as you have used the terminology so long—they act automatically. Of course there is really not a thing in the Universe that acts automatically; but you have become accustomed to that terminology. You think the organs of your body act automatically, well they do not! They are under the direct action of your Higher Mental Body. So is everything, but as this Power and Force intensifies and increases, it acts at your calls, which many times have been made weeks before. Understand this—every call you make in deep sincerity must compel its response!

Now notice! If the Harmony of your being is not sufficient at the moment, then that Energy, that Light will stand there waiting, until the necessary Harmony

acts within your feeling world, to allow you to go forth and perform that service. It is just precisely as if you are calling—take this illustration—for the healing of an individual form. The individual has asked for it, and in the meantime becomes too inharmonious for the Current of Life and Energy to act as it is drawn forth to them; but still will that stand there, until the moment when that form becomes harmonious enough, then it will rush into action, if it is hours or weeks later. That is the Power of this Great Law, and shows how you cannot reverse these Currents, when you have called them into action; but they go forth and just like a guard watch and hold the opportunity sustained, until they can come into action and fulfill the command of that call.

Gentlemen, that which makes the call within you for constructive purposes, is the lesser part of Life, calling to the Greater Part of Itself. You see how natural and practical all of that is and how your calls cannot fail to have the answer; for in every so-called problem is the solution, but mankind have not known it. They have not believed it and in so many instances, have refused to accept such a thing; but Life is ONE, gentlemen, thruout the Universe!

We are One with that Perfection of Life which is really you. Then why would We not be your assistants? Why would not Life command Us to go on and lift mankind to their own Source because We are a part of that same Life which you are, and have moved thru this sphere of action? Then, We belong to you. You belong to Us! We both belong to Life!

Oh, for the day that mankind can see and understand, that these numerous forms are but the garments which Life is wearing and which you have changed so many times, but that is not important. When you come to the point where you understand that you are Life inside of

those bodies and that you are the Governing Power of Life within them, in that form; then, that Presence of Life which you are, will take command of those forms and bring them into Perfection, into obedience, into Perfect health and the Complete Harmony, in which the Intelligence of Life may flow forth into your world, harmonize and produce any service upon which your attention may be fixed.

Please understand the enormity of the Power of your attention. When your attention is fixed upon something, the Power of your Life is flowing there; and if it is upon discord, then that discord upon which your attention is fixed and into which your Life is flowing, clothes it; and it comes back to you with the discord upon which you fix your attention.

If you fix your attention upon the Presence of Life where only Perfection reigns and where the Power of Achievement is, then you will have the Fulness of that Perfection out-pictured. If discord and limitations can out-picture in your lives and your bodies, then your attention to where Perfection is, will cause Perfection to out-picture instead.

It is the most practical thing in Life, in the Universe, but mankind have not understood it. I tell you something. When I enter these Class Rooms and see among the audience the hundreds of individuals whose Light in the heart has expanded sufficiently, almost to the point of illuminating the brain and intellect; then just some little thing, some little doubt or questioning prevents that, if We could experience pain and distress it would be then. We constantly observe this in the audience.

Gentlemen, can you understand what a tragic thing it is, when individuals are so close to their Eternal Freedom and then allow some human sinister thing, doubt of Us, to come in and make them a failure? These are

the things that We must meet! We cannot compel human beings not to do these things. Her Life Stream, would not permit Me to give the promptings that her outer demanded; therefore, she doubted Me! She doubted the Messenger! The fault is hers. The fault is every human being's who doubts!

We are constantly giving limitless proof to the world, not just what the human always demands, but it is there absolutely; but if they fail to see it, should We be condemned?

Gentlemen, do you realize the magnificence of the Dictations which have been given thru this good Brother? Never was such a thing on earth and there is no human intellect existing on this earth who could do half of it. (applause) That is one point I call your attention to, but if mankind fail to see these proofs, well is it Our Fault? It is because they allow themselves to accept human suggestions.

With all the Love of My Heart, I want to prompt you; because if anyone will listen to this and hold fast to it, it will save himself or herself untold agony, distress and limitations! Anything that makes you feel discordant toward persons, places or conditions is a sinister thing, trying to take away from you your Freedom! It does not matter from what source it comes, not the slightest; but it does matter what is acting within your own feeling world. Doubt and fear are the two most treacherous things that mankind have always had to deal with! Every human being who gains his or her Freedom must enter thru those two doors of doubt and fear. On the picture night during the class, you will see the picture which shows it very vividly.

It is a wonderful thing, and if mankind understand these things and are prompted, then they can avoid them, they can ward them off; but unless you do that, I tell you, gentlemen, you are absolutely helpless be-

fore the forces of mankind's own discordant creation. You cannot avoid it, you are moving in a world of mankind's creation; and unless you understand that your "I AM Presence" is the Life animating your body; and your call to It will envelope you in that Tube of Light within which you are Invincible to all discord, you are constantly affected by the discord of the mass accumulation of mankind.

How can one succeed, how can one be happy, when all kinds of feelings of limitless description are constantly catapulted at that one? That is what the atmosphere is filled with—mankind's feelings thrown off and charging the atmosphere!

You have all observed in these Class Rooms, how you feel Our Radiance. Of course It began in the Class the first day here, but many times, it takes two or three days to dissolve the human discordant radiation, which has been charged into the building before Our Radiance can begin to take full command and bring the Peace, Rest, Happiness and the Glory each one feels in these Classes! That is what I mean, but unless you are on guard for your individual world, you are constantly accepting thru the feelings, limiting discordant suggestions and they act out! You do not know it is not yourself, but I do.

That is why, today, I endeavor so earnestly to prompt you on some of these things which will make you Invincible, if you will just do them. To everything that touches your feeling world or that comes to your attention, which is less than the Perfection of the Presence, say: "'Mighty I AM Presence' stop this thing! Keep it out of my world," then you will find yourselves absolutely protected and Free.

In all the Power at My Command, in all the Love of My Heart and as your Life Stream permits, shall I charge and enfold you, Minute Men of America, in the

Glory of that Light, Its Directing Intelligence, Its Power of Invincible Action; that you may go forward the Ambassadors of Light, charging Its Glory forth everywhere you move; and let flow thru you the Presence and Power of Light like a Mighty River and spread Its Radiance, Happiness, Its Harmony everywhere you move.

I thank you.

SAINT GERMAIN

*I want you to feel today how definite has been removed, the obstructing way to the Victory of the Light. Since the feeders of all destructive forces have been removed, try to understand how powerful it is. If you remove the feeders of a stream, the stream has to dry up, does it not? Well, the feeders of these streams of destructive energy have been removed; therefore, that thing must dry up. It must dissolve and disappear from the earth. It has to.*

SAINT GERMAIN

*Since there are so many hundreds of thousands of calls to be set Free which come from the people who have placed themselves in limitations, then the requirements of Life are being fulfilled, for the complete removing of these conditions by which mankind have bound themselves. Now this is definite Law. There is nothing can stop or change It.*
