

# LADY MASTER LETO'S DISCOURSE

San Francisco, Calif.—July 21, 1937

**GREET YOU**, beloved students, and I feel quite honored that the call has come to Me. Tonight, I shall endeavor to release you for an hour or more into My Realm of Happiness, Beauty and Perfection.

First, I want to remind you of my delightful association with this good Messenger. I came and met him on the boat with Bob, Rex, Nada and Pearl — they not knowing I was coming—and then Our Delightful Work began. We continued on thru France into Arabia to that Wondrous Retreat. Let Me at this point digress just a moment and urge the students everywhere: please do not use the word “Retreat” in reference to your summer homes or those places! Please do not do that! The Retreat as understood by mankind today, means a Great Place or Focus of Light from the Ascended Masters. I know many earnest students are calling for that Focus of Light which some have termed Retreats; but this is not quite the correct usage of the term; because until that Focus of Light is drawn strong enough, it is not a Retreat! To the outer world, it would simply mislead and for that reason, I request that no one use that term! Leave it for those marvelous Points or Focuses of Light, such as the Cave of Symbols, the Royal Teton, the Retreat in Arabia—those places where the Focus of Light has been acting for thousands and thousands and sometimes hundreds of thousands of years. You will find later, My reason for suggesting that; because as that becomes known, you will be called upon for the release of more Power than is yet available to manifest there. Be so practical, beloved ones, in all that you do, in regard

to the Great Perfection which will come forth and flood you and your world!

In those Great Retreats, like the one in Arabia, in Chananda's Home and the Royal Teton, without those Great, Great Focuses of Light, beloved ones, mankind would have perished long ago; and it is only now, that precious mankind are beginning to realize that there are these Great Beings of Light; and that there is this Great Cosmic Light, which is now again flooding the earth. All of these Mighty Focuses have held the Balance for mankind. They are known to have been this Protection. Just think of it, beloved ones, the destructive forces generated by human beings in their lack of understanding, would have destroyed all mankind, but for these Focuses of Light!

May I remind you again tonight, of that Unparalleled Service, the Mighty Sanat Kumara has rendered to the earth for so great a period? It is more than two and a half million years. You who are here tonight, are not so young as you seem. You are hundreds of thousands of years old, so don't mind a few years here. The very wonderful thing soon to come about is, that into the outer world, will come this proof—that humanity have lived again and again; for the physical records are in the Royal Teton, proving it to all mankind. You might say to Me: "Well just how does that prove it"? Because they are written in the language used in every civilization. Those records are in those languages and the Ascended Masters can read every language from the beginning. So there is the irrefutable proof of the Truth, that mankind has lived civilization after civilization; sometimes reaching great heights of attainment, then not so much, then again higher.

This is a very peculiar thing, a mistake has been made in the outer understanding of mankind; and it is, that while the activity of Life is in spiral form, yet the civiliza-

tions have not always made that continuous. All civilizations have not reached as great a height of Perfection, as some others.

Now for instance, the civilization that reached its height about two hundred thousand years ago, was one of the Greatest Heights any civilization ever reached, since mankind began to forget its Source! In the first two Golden Ages, which covered a very long period of time, every one knew this Presence just the same as you know each other; but when mankind began to assert their free will and felt the authority in the outer, they receded more and more.

Beloved ones, the power of your attention is one of the most amazing things before humanity today. There is no one thing on earth or anywhere else in the Universe, that can change the Life Stream of an individual so quickly, as the use of your attention! It can make or mar and do it very quickly. Perhaps many of you as students, even in so short a time, have not felt a very great Freedom. May I remind you, blessed ones, it still isn't quite three years, since you began to be aware of this "I AM Presence," and for many of you much less. Well many miracles, so-called, have been performed with thousands of the students; but think of it, if you spend centuries of time forgetting the Presence, then you should not be discouraged in a few years, getting back to Freedom thru remembering It!

The Light is always so much more powerful than the darkness; and lack of understanding is naturally a form of darkness. Now then today, you are in a position where with—let us say just ordinary effort, you can quickly come into that place, where you will feel the Full Power and Authority which your Presence is; all depending upon the firmness with which you hold your attention upon It.

Let us tonight, try to anchor so firmly within your

feeling world what your attention will do for you, so that never again, will there be one single moment in which you are not aware of Your "I AM Presence." Your attention takes you wherever it is focused. Because your Life Stream feeds Its Energy in, wherever your attention is going; and if it is fixed firmly upon something out here that is disturbing or limiting, well then all of your energy goes into that disturbance; and you have nothing else out here, by which to draw the Perfection which your heart is craving. Do you not see that, beloved ones? I know there has been so much said about your attention, your vision and your qualification; but dear ones, unless you realize and become master of them, they will compel you to stay in the conditions which your habit has established and that is not necessary. We don't want you to remain there another moment; and that is why We are making every effort possible, to convey to you what these faculties do that you are using every moment.

It sounds so simple, and yet the activity is so gigantic, so far as your Life Stream is concerned; because if you are feeding your Life into the appearance world, which is the creation of mankind; then how can you have the attention upon that which is Perfection, or from which the release of it comes? Now this is important, so important to you, beloved ones. You can govern your attention—now, in the acknowledgment of your Presence; and if you have difficulty in giving your attention to the Presence when you want to, owing to the pull of the appearance world, then you can say to your Presence: "Mighty I AM Presence"! Take command of my attention and hold it where it belongs; and don't let the outer appearance world hold my attention."

When you find it has gone off, say: "Oh no, come back here! You stay where you belong"! You will soon learn to talk to it just like a child that is disobedient, and every time it makes a mistake, say: "Come back here and

stay where you belong”! Beloved ones, I tell you, it is just like a disobedient child, when you are teaching it discipline. You must keep bringing it back, until it is satisfied to give happy obedience; because your attention will lead you to the heights or to the depths.

Beloved ones, there are many ways of wasting your energy. We are going to cover the outer part of this activity tonight. You have been urged not to hold feelings of discord within you! Well that is a marvelous thing and it is imperative; but there is another part of that which you must become aware of; and that is in letting your attention be focused upon the appearance world of discord. Why? Because you are feeding your Life into that discord to give it more power and strength. You must see that! It is an actual Truth, that is going on every moment in your Life; and unless you understand what is operating, how can you correct it? That is why We feel so grateful, that you are having anchored within your feeling world for constant use, some of these things, that I am sure you have not been vividly aware of; and I feel this, if once you get the awareness—I mean the complete awareness—of what your attention does, it will be so much easier for you to control the power of qualification and your vision! As a rule, your attention and vision are acting quite simultaneously, but not always.

Many times, people can look upon a thing and then as the vision changes, the current changes; but when your attention is upon a thing, there is no stopping the flow of your Life Current into it. That is why your attention is the first, the most vital thing, to understand; and to realize that you can govern it; because, beloved ones, I could not govern your attention! In order to do so, I would have to use a sense of hypnotic force, in order to govern it; and that is not permissible by the Law! I mean by that, I would have to control the power of your attention, which is not permitted. Beloved ones, that is

the reason why! We would like to give forth more Assistance, than We have so far been able to give; but We cannot do it, unless We have certain co-operation from you; and the first thing is giving your attention to your "Mighty I AM Presence," calling It into action; then whatever additional Assistance is required, We are always ready to give.

My Special Activity, in which the Great Ones seem to feel I have unusual ability, is in teaching or enabling blessed students to come and go from the body consciously and at will. With Bob and Rex, Nada and Pearl, it was a very easy thing, but of course, they were being held for the time being, wholly free from the influence of the outer world. They were being taken, you will remember, to the Retreat in Arabia and to Chananda's Home; and naturally, They were assisting in holding the Radiance of the Ascended Masters about them, from the time or even before they left New York.

Therefore, dear ones, just because they had that assistance, don't think that you cannot have the same thing—under a little different activity of course; because you as yet, are moving in the outer world; and while the process may require a little longer time, as you understand time; yet it is all so comparatively short. I have found many students under Saint Germain's Radiance to whom I can give great, very great Assistance; and I never lose an opportunity. You blessed ones here—several have been calling very earnestly for Me to come; and so I am here talking to you, tonight.

I want you, if you will, to feel how natural all of this Great Achievement is. There isn't anything unusual about it. Because We have gained Our Freedom, We are not unusual! If I stepped forth in My Own Tangible Body here by the Messenger, I would seem quite as natural as you. Try to feel that! Don't push Us away, by your feeling that we are so transcendent that you scarcely

dare think of Us! Don't let that feeling act! **JUST WELCOME US, WITH OPEN HEART AND ASK YOUR "MIGHTY I AM PRESENCE" TO CLEAR AWAY EVERYTHING FROM WITHIN YOUR FEELING WORLD THAT HOLDS US APART!**

Does it not sound strange, and yet there is so much in that which your Blessed Saint Germain told you; that the only thing that stood between you and Ourselves was a thought and a feeling; and you can change both. You know to Me, that is the simplest, most powerful encouraging thing! I know, because It is True! **IT IS A THOUGHT AND FEELING THAT PREVENTS OUR VISIBILITY TO YOU, AND YOU KNOW YOU CAN CHANGE BOTH!**

Now then, what is the most powerful means of changing that? Your attention to your Presence constantly; and believe Me, when I say that, it does not mean that you must forsake everything else and every moment of the day to give your attention to your Presence! Far from it! Go on about your daily activities and every time you have a few moments during the day do it. Suppose you were a clerk in a store or a business office, or in a bank or anywhere that your attention was constantly required; well even in that, there are always two or three minutes, when you are to yourself. Even though others are around you, silently you can turn your attention to your Presence and say: " 'Mighty I AM Presence'! Flood my being and world with Your Perfection." If you would do just that, it would be only a short time, until that would begin to flood forth; until it would be tangible to yourself and every one that contacted you. Don't let the appearance world deprive you of doing that!

You know the time has arrived, when no longer will mankind anywhere on earth, be required to go to the Retreats which was formerly the Law; because of the flooding of the earth with this Great Cosmic Light,

which has changed all of that. Now right out in your busy world, there has come this Law, this Application, this Understanding, where you can gain your Victory right in the midst of mankind; and the Victory gained there, is tremendously greater than if gained in seclusion from the world.

Please remember this always and hold it before your vision—when you have gained your Victory here, in the midst of mankind, you are Victorious forever and everywhere! When you gain your Victory in seclusion, then you must come back into the world and gain the Victory there. You have the Knowledge, when you come back; but you haven't made the Application! Do you understand, beloved ones, how magnificent that is and how magnificent is your privilege today?

Would you believe that there are many of you in this room, who in past embodiments have had the privilege of the training within the Retreats? Then you wonder—well what am I doing here now then? This is a rather severe thing to say, but because of your free will and choice! Beloved ones, you do have that! You have free will and choice and before you today, is that most magnificent thing—your free will and choice. How are you going to use this magnificent energy that flows into your bodies, thru your free will and choice?

I do not want to be so serious, because we have a marvelous joy here tonight; but for a moment, please come with Me and feel the importance of this. You are the decreer; you have free will and choice, to make yourselves an Ascended Being or remain in your limitations! When you determine to serve the Light wholly, then the Full Power of the Light of the Universe, rushes to your assistance. If you choose not to serve the Light, because of the pull of the appearance world, then you have but the power of human creations to help you. Notice the conditions now. Is there any comparison between the

power of human creations to hold one in bondage and the Light which is the Governing Power of the Universe?

We were Ourselves very greatly rejoiced, when Chananda last night—notice, We are quite conversant—brought this amazing Illustration to you; that when you call to the Presence, this which is Self-luminous, Intelligent Substance and Light from the Presence, just flows in, thru and around your body; and as It sweeps down, It will sweep right out of your body every imperfection. Precious ones, try with all your hearts to feel the Reality of that, every time you make a call to your Presence. It is True, that Light knows no resistance or interference!

Do you wonder why you have been urged to call the Presence to formulate this Tube of Light about you? So many times, it has been said to you—the Light knows no resistance nor interference. This Light comes from your Presence! Now notice, in formulating this Tube of Light, calling the Presence to do it, do you not see It is Invincible, Impenetratable? Because this Light knows no resistance nor interference, there is nothing can be generated to oppose It. Then, do you not see how the Light is within you? For instance, in all of you tonight, the Light which is there in your heart, which I see, is the Power of this Presence! Think for a moment. Let us try tonight, to fix that so firm in your consciousness, that you go forth from this room, tonight, Absolute Master of every situation.

The Light that is here within your heart, which causes your heart to beat, is the Light and Power of this Presence! It is not visible yet to the physical sight; but with your attention constantly going to the Presence, and calling Its Powers and Activity forth into your mind and body; then sooner or later, that Light in your heart will be visible to the sight thru your clothing! It has to do it! There is nothing can stop It in the world; because there is no resistance to This Light, as It goes forth in

and thru your body! It is impossible for It not to come forth!

Only as your power of qualification acts, beloved ones, can it be interfered with; because your free will is paramount, so far as you and your world are concerned; and it only acts by your power of qualification. Therefore, in feeling that This Light, when called forth from the Presence, just floods thru penetrating and interpenetrating—not only surrounding, but interpenetrating your body, It is just sweeping out every imperfection that is there. Then, by asserting your power of qualification, let IT act!

Now notice how simple this is—by the acceptance of the Full Power from your Presence, as the Commanding Presence, when you are accepting your presence, you are using your Power of qualification; to produce that Perfection or intensify that Perfection of the Light from the Presence, which is already in your body, and calling forth more to Its Assistance! You see how magnificent is the simplicity of that? You cannot fail to win the Victory!

I call forth at this point, the Mastery of the comprehension of your Presence and amplified by the Ascended Masters; to grasp these points in your feeling and outer consciousness; so you are kept reminded of these simple things, which are the quick and Mighty Victory of This Light!

Now then, let us take another step right following this and hold it closely. Not only for you, does This Light flood in, interpenetrating, thru and around your body; but there is another activity quite as wonderful. As this Ray of Light and Energy intensifies, It connects with the Points of Light within every cell of your body, thru those little threads of Light from the base of your brain.

You will then also understand that in every Activity of the Presence, there is always a Trinity of Action. The Three-fold Flame, the Unfed Flame, has within It the

Three-fold Activity; and remember, the Unfed Flame is established here for your Blessing! Now then, this which I have so far explained is the Three-fold Activity, the Activity of the Light within you, called forth from your Presence!

Now remember to start with—you do have This Light here within you! When your infant form began to build, This Light was established in the heart—THIS LIGHT! THEREFORE, TODAY, IN THE UNDERSTANDING OF YOUR PRESENCE, YOU DO HAVE THE POWER TO INTENSIFY THE ACTIVITY OF THIS LIGHT COMING INTO YOUR BODY, WITHOUT ANY LIMIT WHATSOEVER!

Now these points, I am endeavoring to convey to you tonight, are a Definite and Powerful Activity within you! I am establishing This Power while I am talking to you tonight; and please do not any one in the room think you are not getting It! I tell you That Power IS established within your feeling world, of these things I am describing to you; and they will remain active there whether you outwardly know it immediately or not!

Come back again to the word “attention”! Why do I call your attention to these activities? Because with your attention upon them, they become tremendously more powerful! Without your knowing the Presence was above you, how would you have any more of Its Intensified Activity? That is why Saint Germain brought This Understanding forth; because your attention upon this Presence, will bring the release of its Full Power to you!

I ask you, beloved ones, do not, please do not ever feel discouraged at your efforts! Please do not do that! You have no idea from your outer human standpoint, how great the progress is you are making; because from the Activity of the Presence, as you have been told so many times, all Activity comes from within out. Therefore,

you are not aware in the outer consciousness of the progress being made within; but when It does suddenly burst forth, then you are vividly aware in a wonderful manner! Then, your struggle is soon over!

The reason We try to encourage you not to be discouraged in the efforts that you are making, is because We see the progress you are making, is far greater than you yet imagine; and I know it is not right, it is not just to yourselves, to allow the feeling of discouragement to come in, when you are actually, from Our Standpoint, making tremendous progress! Remind yourselves of that, every time you are inclined to have a feeling that you are not making as rapid progress as you should. Silence it immediately, because the outer does not know!

Remember, the human part of you, which has held its dominion so many centuries, finds all kinds of excuses to try to get your attention; but when you are firm with it, as this good brother was with his human self; and make it realize that its day is done, then no longer, does it have any power to influence or govern you.

Does it seem strange to you, beloved ones, that heretofore, there have always been two of you—your Inner and your outer self? Your outer self is your intellect—that which you gather from without. The Inner Self is always trying to pour Itself forth to give you help; but the intellect says—“well I am the whole business here,” and then the Presence just has to wait.

I know, beloved ones, once upon a time, We all went thru what you are doing now. When there is the Power of the Universe that is beating your heart and giving you Life, does it not seem a paradox, that this frail human creature down here, can limit that Presence? Does it not seem strange, but it does just that! The proof is that you here are limited beings—you need no further proof! It is not why or how it limits you; but it has done it and is still holding you in those limitations.

Now then, the proof stands before every sincere individual in the world today, that anyone in a few weeks, can prove to himself the Power of the Presence to give him release, if that one really wants to do it. We have tried in every way, to have the blessed ones realize that only inharmony in your feelings prevents this flooding thru quickly to give you Freedom; because if there is inharmony in your feelings, it does not matter what the cause is, then that energy is qualified with the inharmony which carries out into your world, making more distress for you.

Dear ones, while you are grasping this clearly let Me repeat: every inharmony that is in your feelings, clothes This Light Energy which goes out into your world. It cannot help it, you cannot prevent it! As long as that inharmony and destructive quality is in your feelings, it goes out on this energy from the Presence; and makes that condition in your world, in which you have to live, if you let it go out thru the feelings. Don't ever let any person, place or condition, make you feel that anything is responsible but yourself.

Oh, dear ones, let Me for a moment tell you about Myself. When I began to gain My Victory, it did not seem so easy. There were many things, that I did not understand as I wanted to; but there was one thing I did have in My favor, and that was a natural calm firm determination. Today, I am very grateful for it; because it led Me thru many things, that might have been a greater struggle, and that is why I say to you, if you have not this within you naturally as your own characteristic, then assert it! Be firm in your Presence, and then, you will hold more than the balance over the human; until the Full Flood of the Power of the Presence comes forth thru you and out into your world.

Remember, the Perfecting Activity from the Presence, goes thru you and out into your world, because it has to.

It does not just come down around you and go out; but all the Perfecting Activity has to come thru this Ray of Light and Energy which comes into the top of your head and anchors in your heart. So far as you are individually concerned, that is the requirement for the Perfecting Activity within you body—you and your world!

Of course, the clothing and drawing of the Tube of Light about you, is of tremendous assistance in this activity; for your Perfection comes thru the Ray of Light anchored in your heart; which expands and intensifies the Light in every cell of your body. We have been very grateful that this point has been made so vivid to the classes all over the United States. You will enjoy that immensely here, because special attention will be given to the Expansion of the Light within every cell of the body, and it will be tremendous.

Notice, beloved ones, in the classes or in the contemplation in the classes, where there are a great number of people together; if you could only realize how you do assist each other and how you can assist each other even more, it would be something wonderful and beautiful. You take a group of three or four hundred people who are pouring forth Love, Blessings and kindliness; with their attention to the Presence for an hour, two or three hours, you have no idea, dear ones, what that does in the outer. That is why We ask in the Group Activities, please do not blessed students, come into the Groups with any feeling of unkindness in you.

Put aside everything that has disturbed you in the outer world, when you come into these Groups; because you are there in the Radiance of the Presence and the Ascended Masters; unless the inharmony is too great in the Groups; then of course the Ascended Masters are not there; because they will not pour forth greater Energy to intensify discordant feeling! They will no do that! Their Love is too great for the individual; but where

there is Great Harmony in the Groups, They will pour forth thru the Power of Radiation, without limit. No Group which holds that Beautiful Harmony will ever again need have a second thought about the Radiance from the Presence and the Ascended Masters, for They are always pouring It forth! If They are not present, They are projecting Their Light Rays, which is the same Activity of Blessing. So, dear ones, upon the Harmony in your Groups, depends the Power of the Radiation, in which They are giving you Their Blessing.

I am sure after this class, beginning tomorrow, every blessed sincere student in San Francisco and locality, will have no trouble whatsoever in governing his or her feelings, and shutting out of each one's world, every discordant thing. We know what it means! We know how quickly your Victory comes thru that; not that We try to control or govern you in any way—not for a moment; but We present the Law, which will enable you to allow Us to give you Assistance, thru the Harmony you maintain within your Groups or within yourselves individually.

Therefore, beloved ones, in the Glory of that Light which is your Life, remember there is no such thing as failure! It could not be; and if your human form still insists on having pains and disturbances, well just talk a little stronger to it; and tell it, it has no power—it has felt those conditions long enough! Say: "Now you just stop that nonsense"! Does that sound peculiar? It is so true, dear ones. Pain and distress in the body, is but human nonsense, and that is the Truth! Because you have given it power to disturb you, is no reason why you have to continue to do it; for I tell you positively, if you will be firm and say to every disturbance: "Now you have no power! I refuse acceptance of any more disturbance in my world," you will quickly have but to command your body and make it do what you choose! It has to do it!

Once in a while, one of the students will say: "Well I have tried it a long time, but it has not worked yet." Why? Because you have been making your application with your head and your feelings have not been accepting your answer! That is your house divided! Suppose that has been the case. Just straighten up your spine a little straighter and assert your firmness a little stronger; then, the next time you will win the Victory! A little child falls down many times when it is learning to walk, doesn't it? Well, beloved ones, mankind are full of mistakes, so were We before We were free; but is that any reason why you should give them power. If you make a few more mistakes, well what of it, in gaining the Victory?

Notice, beloved ones, Oh, this is to Me the important point and should be an Eternal, Everlasting, Encouragement to every human being in the world! It is just this one point—the moment any one really feels his Presence is there above him, and realizes that Its Light and Energy comes in at the top of the head and anchors within the heart, the moment the attention really goes to the Presence, that moment the Ascension has begun.

Precious ones, contemplate that often! It is the Actual Truth, the Actual Law of Life. The moment your attention really goes to your Presence, feeling It is there feeding Life into your body, that instant your Ascension has begun; for to the degree of earnestness and intensity with which you turn your attention again and again to your Presence, will you become more quickly aware of It. It is the Law of Life and nothing in the world can change it, except your power of qualification. It does not change the Activity of the "I AM Presence," but it keeps carrying the activity out into your world, if it be discordant.

Now notice, beloved ones, This Light does not accept your imperfection! You cannot make It accept it; but

it does clothe It. That is where the difficulty has been with mankind in understanding or comprehending this; because they have believed that the imperfection could penetrate that Light, which it cannot; but it does clothe It, therefore, carrying the discord out into your world. That is why it is imperative to govern your feelings and keep them harmonized; but if you will make the sincere effort you can be sure that there will not be one single thing left undone, to give you the Assistance, the Courage and the strength required, to win your Victory and quickly.

At this point, beloved ones, you do not have to wait years now in your accomplishment. Please feel that—because every Assistance that it is possible to give human beings, is being given by the Great Cosmic Light, which is impelling the accomplishment, and in many ways compelling It!

I trust you will not think We are inconsiderate of your needed rest; but when We find the conditions just right, We just want to hold you so close in Our Mighty Embrace of Light! Oh, dear ones, half an hour's less sleep might do a great deal! So I want you to realize, that We do not wish to impose upon you, when We hold you a little longer than usual, but it is because We see the opportunity to give an added Assistance; and that is a very wonderful thing! You are becoming a part of Us! Do you realize that? It has to be so. Thru your Love to Us and Our Love to you, how could we be separated? Do you not see that? You cannot be separated from Us, dear ones, any more than you are separated from your Presence! You cannot be separated from your Presence and live—I mean have life in your physical body! Therefore, when you are pouring out your Love to Us, how can you be separated from Us?

Do you not see, that is the connecting link in all things in the Universe? It is the connecting link between your-

selves and Us, between yourselves and the “I AM Presence”; between yourselves and everything out here in the world of human form, which you want for use.

Then, do you wonder why We say to you: pour out Love and Blessings to everything? How could money that you need be withheld from you, if you pour out Love and Blessings? Your Love goes out into that call, which manifests as money! and the pouring out of your Love never in the world can keep it from you. It would be impossible, if you understand that simple Law! Your Love pouring out, touches everything that takes form, of which money is a part; therefore, in your out-pouring of Love and Blessing, it would come back to you as the supply you require!

Oh, believe it or not, precious ones, We are going to get this thing over to you, so you will no longer be questioning in your mind, your ability thru the call to your Presence, to release whatever you require into your world! **WE ARE NOT GOING TO STOP, UNTIL YOU DO HAVE IT! I TELL YOU, BELOVED ONES, WE KNOW THE WAY! WE ARE THE LAW! AND WITH YOUR LOVE, WE SHALL MAKE YOU THE LAW!**

Now, beloved ones, I want to pour forth My Assistance before we close, and I trust the blessed ones will go on with the rest of whatever they have planned. I want to offer just a short Blessing:

“Mighty I AM Presence” in the Fulness of Your Life, acting within every one of these precious forms, take command tonight, in the fulness of your Active Presence and Power! Hold everything within the human activity of these blessed ones, in complete and perfect obedience to Thy Great Law, which is Life! See that the Power of the attention and the vision is held only upon constructive things; and upon the Presence of the Ascended Masters from which comes Perfection! Stand guard thru

the Higher Mental Body of each one; until the Power of the Higher Mental Body governs the attention with such precision, that the instant it goes to something less than Perfection, the outer is aware of it; and returns to that place from which comes all good! This, We charge into the mental and feeling world of each one tonight, for constant use, alertness, clearness of comprehension and the feeling of the Victory sustained! Thus, we leave the Mighty Powerful Active Presence and Intelligence within each one this night, to go on acting and acting; until all of the outer has been dissolved into the Perfection of the Presence and Its Mighty Victory!

Tonight, I clothe you in that Mighty Victory of your "Mighty I AM Presence"; and make you impenetrable to anything which would longer retard your forward progress and Freedom! Charge, Oh "Mighty I AM Presence," Your Mighty Energy, Your Mighty Healing Currents in and thru every one here; into every one of the students in the United States; and to all who are calling to This Activity for Assistance! Charge thru all, Thy Mighty Currents this night! Sweep out all imperfection; and fill those bodies with Your Self-luminous, Intelligent Substance, to the glorifying, perfecting and Freedom of all mankind; and We cause It to be forever sustained!

I thank you!
