

# K-17'S DISCOURSE

LOS ANGELES—SHRINE CLASS

January 6, 1939

YOU know, beloved ones, I think I am coming to like you very much, (applause) and I wish to utilize this opportunity today, to draw your attention to certain things. Since the Messenger has touched upon this just now, I think it wise to continue and bring your attention to that which must be, to that which must come forth; since it is a part of that which I serve.

Beloved ones, the changes that are coming in the world of industry in textile requirements, is a marvelous thing; and may I say to you, beloved ladies, you are going to have the greatest surprise of your entire experience, in the textile substance which will come forth for your garments. You have been calling for beauty and Perfection, then you shall have it. (applause)

Gentlemen, you would be surprised, if you saw the windows of New York today. I just observed them awhile ago. Do you think you will not be wearing colors? (applause) They have violet and beautiful blues in men's dress suits, (applause) and many other delightful effects. So, I trust the gentlemen won't grow vain in all this beauty coming forth to them; and it is only a part of that which is coming forth.

Now since mankind are sometimes unfortunate, some brothers and sisters have conceived the idea of getting out of work. Well that cannot be done! You know We have changed it into service—they have not discovered that yet; but when mankind attempt to free themselves from service they are lost. So don't you folks get into that.

Remember, Life has balanced the activity of mankind and it is really magnificent! One day, you will see from the greater standpoint, how Life is really balanced in Its Action in the physical octave—eight hours sleep, eight hours recreation and eight hours service. Isn't that balance? Now behold why it is. Isn't that the Trinity of Action which is in all Life? Therefore, when you step aside from that, you are going to get into trouble.

The minds of mankind must be occupied. Now, this is not a mistake, beloved students! I want to make this clear and definite to you today, so you, as students of this Great Light, do not begin to decree for ease and no effort. You are all here in these bodies for service and that is important, very important!

I say to you, beloved ones, and you will pardon Me if I speak very plainly, there are some among the students who believe that eventually, it would not be necessary for them to do anything but extend their hands and receive. I would not do that, if I could! Of course, it would be very nice to manifest the Great Law of Life in extending your hand and receiving all you like; but just yet, I would not do it. There is a Mighty Service to be rendered, friends and beloved students!

How I love that word "FRIENDS." You know I would rather call you "FRIENDS" than students. To Me, that is such a magnificent expression. Think what it would mean if all of you were FRIENDS. Perhaps I should not quite say this, but are you? You are all students of the ONE LIGHT! Aren't you? Then should you not be FRIENDS? (Applause) Remember, there is no greater activity in this human octave than that of FRIENDS.

Remember, when you are tempted to think or feel unkindly to another—WE ARE FRIENDS IN THE LIGHT, GREAT GREAT FRIENDS IN THE LIGHT. Oh, how important that is—HOW VERY IMPORT-

ANT; AND I HAVE A VERY DEFINITE REASON FOR SAYING THIS TODAY; FOR REMEMBER, ALL OF YOU, ARE GUARDIANS OF THIS GREAT LIGHT. THE MESSENGERS HAVE BEEN THE GUARDIANS UP TO THIS TIME; AND NOW THE STUDENTS MUST TAKE THAT RESPONSIBILITY, AS GUARDIANS OF THE LIGHT!

WHEN THE OUTER WORLD SEES THE WHOLE BODY OF STUDENTS HAVE TAKEN THEIR STAND IN DEFENSE OF THIS LIGHT, AS THE MESSENGERS HAVE IN THE PAST, THERE WILL BE NO MORE OPPOSITION TO THIS WORK! (applause) Now We stand ready to give every Assistance, and some of you know well what I mean. Therefore, IN ALL THAT WE SHALL DO, BE READY TO ACT, BELOVED ONES.

I say to you that in the changes which are coming in the less and less expense for your living and upkeep, it will be the most outstanding thing before mankind; because if it were not for the selfishness of mankind—and of course they think it is justly so—it would not cost you twenty cents a day to heat and light your homes.

Now you see the ever-increasing expense of these activities, but there can be means provided and substance released into your use, which will make an acre of ground produce such abundance of one quantity of vegetables, that it would supply a great number of people. As these changes take place, it does not mean mankind will be out of employment; but instead, many things will come into action, producing a condition which will be far from each one being out of employment or out of service, during the eight hours that Life has provided. If you find someone telling you, that you should rest twenty hours and exercise a little of the other four, that would be a mistake, the greatest mistake that ever happened to mankind.

Hold to your balanced activity, which Life has provided, your Trinity of Action! Do you know what eight is? Eight is the balance of the human and the divine. Therefore, I say to you—Oh, that has nothing to do with numerology, don't make any mistake about that; but you will remember eight is the only figure which brings the current down and takes it back.

**YOU IN THE HUMAN FORM ARE THE ACTION OF THAT POWER! YOU BRING THE CURRENT DOWN AND RETURN IT TO ITS SOURCE.** Therefore, beloved ones, hold all in that Mighty Balance of Life, for when you get away from It, difficulties ensue. So, I suggest to you, that you hold mighty close to that Trinity of Life and then you will balance all activities of Life, as you call It forth in Love, Wisdom and Power—Attention, Vision and Qualification, balancing Love, Wisdom and Power in the human octave.

Then, by harmonizing thru your Trinity of Service in the human octave, do you not see from the highest to the present state in the human octave, you have held in Perfect Action these Magnificent Activities from the God-head, thru you in action in the human form. Then, in that co-operation with Life, do you not see how in your attention to the Presence, you will naturally—I mean by that the Natural Forces of Life, will flow to your aid automatically—as soon as you begin to allow them to produce this Perfection for you. That will be an automatic action.

Of course, you understand when I say “automatic,” I mean the action which you do not control with the outer mind. There is really no automatic action in the whole Universe! All is directed by Individual Intelligence! You are not conscious of this, which I speak of as automatic, because you are not conscious of setting

it into action; but it is the Power of the Higher Mental Body which makes it possible for an automatic action to be set into action. When you understand that, you will see how all is governed in your world by the Higher Mental Body, which is directing all those Mighty Currents of Energy! REMEMBER, YOU HAVE BEEN ASKED TO BALANCE ALL AND GIVE BALANCE BACK TO LIFE!

Well, when you do this, you have co-operated with the Greatest Power in the Universe, to hold you sustained in that action. Therefore, I say to you, as quickly as you come to realize this, you will feel and see a joy, a happiness and a release in your application of the Laws of Life, which will give you the greatest comfort you ever experienced in your Life.

I say to you elderly gentlemen and ladies, do not accept, please do not, the mass decree, the mass feeling of age! You, as students of This Great Light, should now definitely repel that from you! You would be so delighted at the results, if you would take that great calm repelling attitude; and at least three times a day, say to that mass consciousness of mankind: "You have no power to act in this body."

That is what I mean by a repelling force! Not that you take your hand and push out something, but that call is the Repelling Power; and I tell you, beloved students, one day not far distant, you are going to understand what it means, when you issue that Decree. It will astound you, for when you understand the Full Power that is acting when you say to human appearances: "You have no power," it is the most dynamic thing, to stop all action of discord and limitation about you.

I want to say to you blessed ones, who have had somewhat of a struggle financially. Make it a practice

three times a day, not where anyone hears you, but in a low firm tone, say to this thing that has found action in your feeling world: "Get out of me! You have no power, you human sense of financial limitation! Get out! 'Mighty I AM Presence' replace that by Your Feeling of Assurance."

I tell you frankly, beloved ones, there is not one thing undesirable in your consciousness, whose action you cannot stop and also STOP ITS COMING TO YOUR ATTENTION. The reason We are taking some of these things up more definitely, is that We want you so prepared when the Messengers return here in July, that you are ready for action, which We will set forth then. If you are not ready we cannot do it; but I have confidence and faith in you! I believe you will do this which We ask. (applause)

Perhaps I should tell you just a little bit. Why do you suppose I love that word "FRIENDS" so much? Because that name has been given Me, because I AM A FRIEND OF THE PEOPLE; (applause—audience rising) and in the near future you are going to know so much more about that word, than you ever dreamed up to this time.

You see, I do not have to wait for outer transportation; therefore, I move about America and in the world very rapidly. In fact, I can surpass your fastest train! Therefore, in your call for the Presence of Life—notice this now, beloved ones, you have been making this call for a good while, several months, for Ascended Master Friends to be raised up everywhere. Well this is going to be My job to help you! (applause)

These friends whom you have acquired are very very practical FRIENDS. There is no wool gathering among these FRIENDS. Therefore, every thought, every movement means achievement; and that is what We

want you to come to do! Every move you make, every thought and feeling you have, is one that goes forth to produce constructive results in your Life; if you only will not longer accept the appearance world as having power.

You know, I noticed a funny thing the other day. Maybe this blessed student is here, she did not know I was about of course; but she got to thinking herself over—she felt a little bit low you know and thought: “I wonder if there is something the matter with me?” So she finally decided to go to a doctor and the doctor said: “No, you are perfectly all right in every way.” Imagine, going out trying to hunt up something! To find something the matter! That is hardly the Law of Life, when you are accepting Perfection. So, I would suggest that there is enough to be found, without looking for it.

That is just the position you stand in today, beloved ones, as sure as you are born. Don't you see, all mankind have been looking for something and expecting something to limit or harm them. Think of the vast premonitions that mankind receive, and of course in the past, until Saint Germain brought forth this teaching, everybody thought it was an inevitable thing; because they received a premonition, that it must happen; again just reversing the whole thing. The premonition was given, that you might get busy and prevent it.

Isn't it the strangest thing, how mankind has accepted these things, all the time turning everything upside-down, reversing the Law of Life, yet it has been done steadily. Now, as students of This Great Law, you must be firm and on guard enough, not to do these things. Then you will be free so quickly! If you allow yourself to feel a little low in energy and you accept that something is the matter, of course you invite it.

I do so much want to bring to your attention some of these simple yet such vital points to you, which almost

automatically you are still doing thru habit. Now you, as students, should dismiss that, if you will keep yourselves reminded of certain things you must not do, then when the impulse comes you say: "Oh, no! just run along now! You don't belong here, just run along," and with that sort of indifference, you will dismiss it with perfect ease.

What do you think your Messenger would do, if every time he felt a little disturbance around him, he thought something was the matter with you or himself? You probably have noticed it, but I want you to realize, because in every class there has been some of this, and I have seen the same identical thing take place. Of course there is always so-called opposition wherever the classes are held. When that comes to a certain point, you always see the Messengers let loose and it is finished. (applause) Some unfortunate individuals have called them critical, because they dispelled the destructive forces, which were trying to gather within the room, and they have never missed it once.

Therefore, I say to you, is it not evidence that when you refuse acceptance to a thing and command it to be gone, it is gone! It is the same in your individual lives, beloved ones. When you feel some little disturbance or a little slowing up of the energy, don't accept it as a thing you must be subjected to; but arise in the Presence and say: "I will have no more of that! 'Mighty I AM Presence' You are my limitless energy! Release it! 'Mighty I AM Presence' You are my Invincible Protection! Take care of me!"

There are so many things that you can do, which will keep you anchored firmly in the Full Consciousness, Power and Dominion of your Presence! That is really practicing the Presence, but I want to help you to dismiss the idea that you have got to sit down in long hours of meditation. There are some who still hold to that. Now please do not

do it, for you get negative when you do that. There is scarcely any person who sits in meditation for an hour, who does not get negative.

Watch out in your enthusiasm and don't stay in your Decree work, until you become tired or exhausted. You can issue Decrees for half an hour, then go about your business; and if later you wish to take another half hour that is all right, but do not keep these things up or go to extremes in anything. It is not so much a matter of continuous activity, as it is a releasing of the dynamic energy while you are doing it; and that does not mean excitement or anything like that in your Decrees.

You will notice the Messengers have prompted you so much, and now please in your Groups dear ones, watch yourselves and don't let your voices get too high. Please don't do that! Take a low medium register and you will release tremendously more power, and you will never exhaust yourselves!

I say to you frankly, in your Decree Groups, if you begin to feel tired or exhausted, please excuse yourselves, go out in the air and move around or do something, to release yourselves from that. If you take a hundred people and fifty in that Group begin to feel tired or exhausted or think it is a little too much, you will annihilate a lot of the power that goes forth. So when you give your Decrees, be happy and enthusiastic! Finish them, but never enter into your decreeing, except in that way and you will find the results will be tremendously greater.

It is the same thing as in prolonged meditation. People get negative and in the present action, mankind in the outer must be very positive to the human condition or conditions which are in the outer world. Therefore, I say to you in this prompting, beloved ones, be sure this applies to every one of you, then you will have and hold the guard, which will keep you directed into the exact thing that you should do.

Really the Power is magnificent in these songs which you release. It is a magnificent thing, and if you saw in the Inner Activity, the Power released thru these songs, the Messenger has brought forth to you, you would be surprised. Therefore, at the present utilize these songs, because they produce the results. Do not seek that which is constantly changing your vibratory action.

Why do you suppose the Decree Book was brought forth? So all the students everywhere could hold that activity uniform. Why do you think the Divine Director brought forth the Outline? So you could all act in One Mighty Uniform Activity, and that is the need of today. It is not a matter of individuals wanting to shift from one thing to another; because that will scatter your forces which you need to release now! Just let Me show you! From the time We brought that forth what has happened—and you will remember these things have occurred in the past six months.

Do you think the war entity of Europe could have been dissolved, if it had not been for that uniform activity of the students? Of course the Goddess of Light rendered a Mighty Service, but She had to have the calls from mankind; and then look what a Service She rendered the earth, but that is only a part. The substance which has been consumed from the atmosphere of America is also cleared away. Do you think that could have been done, without the uniform activity of the students?

I am mentioning some of these things, so you will see the necessity of giving obedience, to that which the Ascended Ones require, which is the only means of producing Perfection.

That is why I say, beloved ones, it is so magnificent, when you understand and fully co-operate with the Suggestions They offer. Of course They never will compel you to do anything, not in any sense, but They do ask you to give joyful happy co-operation with that which They

require; because They know what is necessary. You could not possibly know in the human, the things which are required; but you can give the obedience necessary, and you will have done it regardless of all that has occurred.

I want to say to you, how magnificent has been that response. All these magnificent things which have been done, are because you did give as much obedience to these Great Laws as you did, otherwise they could not have been done. We have a lot of things before Us now, that We wish to accomplish, some of which We might not tell you until they are accomplished, and others We call to your attention. Now isn't that curious! It would sound very curious to the human sense that We would call your attention to certain things and won't tell you the others. That is because certain things must not have human attention upon them, because it is up to Us to accomplish them for you. In your calls to Life, you have provided the condition necessary and that is as far as your part goes. We, who have the Understanding must do the rest, by taking your substance and energy to complete the work. That is why this co-operation with Us is so magnificent, and it is the correct Action of Life.

It is the same as when you go to kindergarten, then into your universities for the completion of your education in the outer world. You have to go to those who have greater understanding than you. So it is with Us. We are the Vanguard of mankind! We have gone thru this experience and gained Perfection and We know what to do; because We have gone thru the experiences you go thru and We know how to co-operate to dispel them, reverse or supply whatever is required in the condition.

Therefore, you see We are very practical individuals and because We happen to be Free and Perfect Beings, is no reason why We should be hity-tity in any way! Oh please, please, do not look upon Us as you would someone who is out of your reach. Oh, don't do that, when

I come around. Anyone who feels that always makes Me feel a little weak here (pointing to stomach); because mankind are a part of Life just the same as We are. Whatever you do, beloved students, don't let anything arrogant or dominating get into your Life toward your fellow-man. It is the most disintegrating thing you can do. Possibly, it is because I have had a great deal to do with that quality in mankind, but I think arrogance is just about the most difficult thing to get the Light thru.

So analyze yourselves, beloved ones, and see there is no phase of that quality acting in your world, your feeling world; then, you will have rendered a great service to yourselves. Don't wait for Us, don't wait for someone to call your attention to it. Analyze yourselves occasionally and see what is acting within your feelings that should not be there. Then, it is easy enough to pluck it out and be free; but if you do not try to see that, then when someone mentions it, you feel just a little bit ruffled.

So, I say in this magnificent class, how great is your Blessing, those who have been privileged to be here. I leave with you the reminder, that all these Ascended Masters' Qualities which have been brought into your use, into your feeling world for constant action, are a permanent sustained action; and with your acceptance, with your remembrance two or three times a day of this Great Truth, you will allow that to go into action as a Sustaining Directing Power, which will help you so tremendously in your call to the Presence of Life.

Now that does not lessen your call to the Presence of Life any and it does not take away from you any of your responsibility. It does not take away from you the necessity of your own effort; but when you do make that effort and in great sincerity, then Our Assistance without limit will take charge and bless you as nothing could possibly be described.

In the things that We shall do, during the coming six months individually, in the cities and in the government, I tell you it will make your hearts rejoice, every one. Therefore, Saint Germain is bringing forth this Great Blessing to mankind. Just think of it, only two of Us believed that there was the strength in mankind to accomplish this Almighty Feat, but Saint Germain was determined! Beloved Nada was determined! (applause—audience rising) Think of it! Why? Because they had been instrumental in bringing many civilizations to their apex, so He said: “Very well, I shall try it out,” and you see the results. Now many, even from deep within the Great Silence, have been called forth to give this Assistance.

So you see, everything possible is being done by the Mighty Law of Life to assist you, co-operate and do for you, the things that you cannot do for yourselves; to bring you to that point where you are absolutely in dominion of the forces of your Life and Its Directing Power.

Therefore, I Love and Bless you and thank you. I feel a Joy in your mighty energy released in the Service which I have rendered. It is a joyful thing. Therefore, I love to get acquainted. Thank you so much.
