

NEW YEAR'S EVE AT THE ROYAL TETON

IN GIVING a short resume of the Activities which took place at the Royal Teton on New Year's Eve, I wish to say that they were somewhat different and of a more intense nature this year.

The Activity of the Ray of Light thru the All-seeing-Eye in the North Wall of the Audience Chamber of the Retreat, which usually passes thru the Eye and moves around the earth in a circular direction, lasted for more than an hour. After that Activity was completed, there went forth from the Eye until dawn, Crystal Rays which formed a canopy extending over and enveloping the three Americas, particularly North America. These were Crystal Rays which were sent forth for the Protection of the Ameicas.

It was as though the Eye stood over America, forming a canopy or peak in the middle where the Eye stood. From this there went forth, Individual Crystal Rays to all under This Radiation and spread to those in the National Defense thruout the world. This means much, if people will give It recognition. The Force has already gone forth to establish this Assistance; but the more we can give It recognition and call for Its intensification, the more of that Power can anchor into the outer activities of mankind.

The Great Globes of Light which have always been sent into the different cities and localities were also sent forth into the war areas of the earth. Heretofore, these Globes were of Blue Flame with a Heart Center of pink; but this year as they went into the war zones and exploded, the central portion was more of a turquoise blue, which signifies to me they are releasing more of an intense pressure of the Blue Ray.

The Activity of the Rainbow Rays was beautiful beyond words! These Rays went forth in iridescent colors, like sunshine on iridescent beads which the ladies sometimes wear. This means a Tremendous Balancing Power.

All the "I AM" Students who have Ascended were with Daddy in one Group. I could feel their Great Joy at being with Him. The Love was very great and the Light was Blazing White. You of San Francisco should see your Blessed Ida. She is quite a bit taller, but dignity itself; and She has not lost her sense of humor. Our Blessed Claire Collins had called for youth and beauty; and She certainly has it now, for She is magnificent.

When we went to the Retreat in Arabia, Beloved Mary, the Mother of Jesus, stood beside Jesus all the time those Light Rays poured forth from that Retreat. She wields Tremendous Power and Love for Healing and Protection. She was in Blazing White and stood on Jesus' right, directing Light Rays into the warring conditions of the world. The added Power which Cyclopea has drawn is the Power of the Three times Three, under which we will act thruout this year!

Let us enter into this year with a fierce determination to hold Peace and Harmony; and provide the condition which will enable the Great Ones to come thru. We are entering a new year, and it gives us an added impetus to hold control in ourselves. Let us hold such dominion that nothing can go out from us but Love and Kindness.

This Assistance given us at the Royal Teton is the most Powerful Release at any time. Let us co-operate with It and pour out more and more of Its Perfection, until all are Free.

Therefore, we bless every instant this year with all the Sacred Fire and Light of God that never fails, required to overwhelm all that is not God's Perfection, for all man-

kind and the Divine Plan fulfilled in all the Freedom, Victory and Protection of the Seven Mighty Elohim of Creation to America, her people and her resources forever.

This year shall be blest with all our Love, Light, Wisdom and Power, all the Eternal Invincible Mastery, Powers and Perfection of our Life Streams, to bring all the Ascended Masters' Love and Victory to all mankind, the earth and its atmosphere and hold the "Rights of Free Men" ruling by the Power of Light thruout the earth forever!

GEMS OF LIGHT

SAINT GERMAIN

Many times, if one yields to the human request, you deprive an individual of the opportunity to stand on their own two feet and win the Victory. Everyone has to do it, and the sooner they know that, the better it is for them.

SAINT GERMAIN

Beloved ones, there is no one, today, that realizes how one who reads or listens to a vicious thing, how much that enters their feeling world in spite of themselves! It riles you; and even if you keep yourself calm so far as the disturbing feeling is concerned, if your eyes are registering that thing, you are letting it into your feeling world as sure as you do it! Therefore, do not only keep your attention, but your vision off destructive things!
