

BELOVED SAINT GERMAIN'S DICTATION

CHICAGO CLASS

JANUARY 3, 1944

Afternoon

BELOVED ones of the Light, I want you to watch this incoming action. As you continue calling forth the Powers and Power from the Ascended Masters' Octave of Light, and a momentum is built within and around your physical bodies; as you call It forth everywhere—for our Precious Don; for all in the National Defense and all concerning the Americas; and you keep the pathway clear for the Children of Light—more and more manifestations will be released thru you and to you, in the outer world.

This is what I want you to watch, as I have said to you before, no longer are the destructive forces going to hold their dominion on the earth; for We move into the cycle, when they move out! They have already begun their exodus!

It is this of which I want you to be aware. As you purify yourselves and hold your own protection, then keep calling forth the Power and Powers of Light thru yourselves, you will produce more and more magnificent manifestations in answer to your calls! They will come more and more quickly in answer to your every Decree!

As you manifest thru yourselves, more of the Perfection from your own Presence and the Ascended Masters' Octave, you become the Out-picturing of more of the Beauty, the Poise, the Harmony and the Perfection of your Presence thru the physical flesh! As your world becomes harmonious and supplied with every good thing; as you draw forth more of the Powers of Light, you and

your world become a Magnet or a Sun of Perfection, increasing Its Drawing Power to all Life.

As you pour out your Divine Love and Blessings to every living thing, the people of the outer world will look upon you, at first, with curiosity; but observing that you have the happiness they desire and the abundance of all good things; observing that you hold protection for This Light, of This Activity and your world; no hypnotic power on the earth, will be able any longer to hold mankind in bondage; for the craving in every heart for beauty, Perfection, Happiness and sustained supply, will compel thru the attention, the drawing of those individuals out of the clutches of the destructive forces; and into the Light by holding their attention upon This Light, until they can understand It and apply It to their own Freedom.

As you manifest limitless supply, protection, kindness and Harmony to all Life, in the midst of a world that is starving and in the throes of tragedy; since those destructive conditions affect the people in every way, they crave more and more this which you draw forth! They will automatically turn their faces to that which is the supply of what the destructive forces withhold from them. No hypnotic power nor destructive force of any kind, will be able to stand against the craving in the people's hearts; or the supply of all they know they require and which Life demands they receive.

Therefore, purify yourselves, Perfect yourselves and strengthen yourselves as soon as possible; in order to bring forth these manifestations of Supply, Protection and Healing Power to Life everywhere! The more the outer world denies supply and blessing to the rest of mankind, the more they will crave this which you have.

Therefore, the Light Itself becomes Its own defense, and is automatically a Magnet, to draw and hold the attention of those who are being deprived of the Gifts

of Light and Its Perfection. It will draw their attention into the Channel from which the supply comes, because self-preservation is the first Law of Life; and the Life in every heart knows It can only be maintained permanently in the physical form, when the Blessings of the Light—Its Supply, Its Beauty and Its Happiness, continue to enable the Unfed Flame to expand.

Therefore, draw forth these Powers from the Presence in their Fulness! Use them continually in the outer world! Charge their Blessings forth without reservation to every living thing; and you will make yourselves such a Magnet of Attraction to the Flame in the heart of every human being, that the craving for Life's Perfection will be irresistible in the feelings of all. Not all human discord on earth put together; not all human law, all human usurped authority, nor hypnotic domination; not all the orders of all war beasts on the planet, can stop them when they look to the "Mighty I AM Presence" for supply!

Therefore, BE that supply to those whom the destructive forces are starving; and give the Supply of Light, of Life, of Happiness, Blessing, Purity, Beauty, Perfection, Joy and Invincible Protection, to all who seek the Constructive Way of Life.

Remember, you cannot take the attracting power out of beauty. When anything is beautiful, automatically it draws the attention thru the power of sight of all who behold It. When music is beautiful in melody, rhythm and harmony, the sweetness and rhythm automatically affect the feelings of the people and they will seek It involuntarily; for Its Melody, Harmony and Rhythm will dissolve their selfishness, discord, fear and doubt!

In your manifestations of supply, charge your worlds with Oceans of the Ascended Masters' Supply of every good thing, including wealth, opulence, money—anything

and everything good the Universe holds! Flood your beings and worlds with beauty, supply and the Healing Power of Light, and watch what will happen in the feelings of the mass of mankind!

The sustaining power of the sinister force, is hourly growing less. The more the destructive forces deprive the people of the Rights of Free Men and the natural supply which each human being knows he has a right to have, the more people will desire them. Thru the craving for the necessities of the body and the home, there will come a time and desire for physical supply of food and clothing which will be so intense in the feelings of the mass of mankind, that they will automatically turn to the Light, the Beauty, the Harmony and the Source of Light. Not all the war beasts, the money beasts nor their claws will have one atom's pull against the craving in the feelings, for that which sustains the body, when the people's attention is on the Light!

I hope you realize what your responsibility is! The more destructive forces impose their viciousness, their injustice, their lack and limitation upon the people of Our Land, the more will each one's feelings know that they have a right to This Light.

If you will be kindly and considerate, and persistent in your Blessings poured out, as this music is played, the very beauty in the melody, will sing itself thru the feelings of every human being. People will sing this regardless of all destructive forces on earth put together. Whenever they sing it or hear it, the Light is expanding thru them; for the Flame in the heart cannot and does not resist the beauty of music, beauty of form, beauty of color, beauty of materials and surroundings; neither can it resist the limitless supply of that which sustains the body in full Perfection.

So BE the fulfillment of the Law! Call all the Powers of the Presence into action to produce those manifesta-

tions which are to be eternally sustained and ever-expanding. As you continue to call forth these Greater Powers and Power of Light thru yourselves and release those Powers to provide supply for others who as yet do not know the Law; first of all it will draw those who are constructive, then it will draw those who are not so constructive, but curious; then it will draw automatically those who are envious and jealous, but the very intensity of their attention upon the Light, the beauty in the song and the craving for supply, will make them listen to the Words of the Light; and even some who are vicious will turn and look and listen and enter into the Light and forget their viciousness.

Such is the privilege of the Children of Light! May you feel now the Full Powers of your Presence Out-picturing Their Majesty, Their Mastery and Their Perfection. BE the fulfillment of the Law! BE the Blazing Sun and Out-pouring of every good thing, which like a magnet of attraction, draws every Life Stream up and out of the clutches of every destructive individual, force or activity on this earth forever!

The Light is irresistible! It knows no opposite and It draws all things into Itself to raise them into Perfection! BE THAT LIGHT! USE ITS POWER! PROJECT ITS RAYS! SHOW MANKIND ITS GLORY, AND BE ITS PEACE TO ALL!

I thank you.
