

# GODDESS OF MUSIC'S DISCOURSE

CHICAGO CLASS

JANUARY 16, 1944

Evening

**F**ROM the Heights of Eternal Song I bring you Greetings, beloved People of the Light! You are not Children of the Light longer, you are Sons and Daughters of the Light; and now let Me christen you tonight, if you will accept My Co-operation, as Legions of the Music of the Spheres! Thru your calls for the Music of the Spheres and the Power of the Great Ones to pour thru your music—you have joined Those Legions in the Universe, who render Their Service to Life thru music.

There are Angels of Music who guard Magnificent Melodies and release them to earth, when the time of their manifestation will bring thru the attention of mankind, that which their hearts have desired thruout the centuries.

The Power of song, beloved ones, is immeasurable! You cannot comprehend but a fragment yet, of what can be done thru music! It is the great joyous solvent of all that has been your distress thruout the centuries; and do you know you can sing yourselves free from every problem! Do you not think that is the Great Mercy of Life? I do have much to do with the Goddess of Mercy!

Music is one of the Mightiest Powers of Life, for when I speak of music, I mean the Melodies and the Harmonies that are in the Octaves of Light, not what the outer world calls music. The Music of the Spheres to which I refer, releases a Power that none of mankind as yet have ever witnessed in Its Fulness. I shall try to touch lightly upon some of its phases, to give you a temporary glimpse into the Realm that is My chosen field of Life's expression.

Your Beloved Lotus the other night, thru her adoration to the Mighty Elohim of Peace for a few minutes—perhaps five minutes—heard something of the magnitude of the Power at the Inner Levels—of Life's Great Joy, Greatest Joy perhaps—for the Activity of Music and the release of Life's Perfection thru song and thru instrumental music, is the greatest enjoyment within the Mighty Cosmic Activity of Life in the Universe around you.

She said that it sounded like an hundred organs playing together, and that was just a fragment of what actually was occurring! When the Musical Beings who govern the Activities of whole Systems of Worlds, pour Their Mighty Love out upon creation, there is produced music of most transcendent loveliness; such beauty, such joy, such ecstasy in the feelings, as would make you weep with gratitude.

I want you to know just a little, if you will, tonight of those Realms of Life's Mighty Powers and Activities in which there is nothing but joy; nothing but Purity, and nothing but Gigantic Manifestations of Beauty and of Perfection; and yet such Action as shall give the Mightiest Expression to the Expanding Power of Life.

You have heard mentioned the Angelic Choirs, the Celestial Choirs and you have heard the Angels of Music mentioned; but can you imagine in your outer consciousness, what uncountable Legions of Absolutely Perfect Beings can do with the Voice of Life, when They sing together Their Great Adoration and Praise to the Perfection of Life? Can you imagine what the Perfected Voices of uncountable Legions of Divine Beings can produce, when They sing Their Love to the Great Central Sun! That does occur in the Upper Octaves of Light!

Precious ones, who have fought so bravely thru the shadows of earth, I want you to become aware of the great magnificent opportunities which lie ahead of you. Do you know every discordant condition on this planet,

could be dissolved and consumed by the right kind of music? Is that not a better way, than by the destruction of mankind's bodies, which are the Temples of Life?

Music, as you know, is harmoniously qualified energy; and when your heart really expands Its Flame thru music, the Love of Life is in action thru you; and that Love of Life, in Its process of expanding Its Blessings to Life in the Universe around It, produces thru music, the Mighty Release of Its Powers to bless. It carries tremendous action.

Do you know that there could be released thruout the atmosphere of earth, certain transcendent melodies by enough Beings—I am speaking of Those above the physical octave—who charging Their Joyous Song into the atmosphere which you breathe, could put to sleep every destructive force, until it could be dissolved?

Now These Activities are in the Universe and These Great Beings, with your call to Them, can and will establish permanent Out-pourings of Their Powers of Music; thru your music, thru your records and thru your own individual Light Rays, if you will so call them forth.

Do you know you can call to your "Mighty I AM Presence" and ask the God of Music, Myself and the Angels of Music, to charge the Music of the Spheres forth on the Light Rays from your Presence, that It may go forth to bless, heal and protect your loved ones? Do you remember what the Beloved Cuzco in His Discourse in San Diego said about the Currents of Water that enveloped the Island upon which is His Retreat, North and East of Suva? Do you remember Him saying that when boats come too near, the Currents of Water would not let them land? We govern those, He said that! Do you know the same thing is true in the atmosphere?

Do you know, if you were to call the Celestial Choir and the Angelic Host of Music to your assistance, to charge the air around you with Their Music of the

Spheres, that They could set up a Current of Force or vibratory action, to flood the energy around you in the atmosphere, which would deflect all that is not Their Harmony and Purity of Life?

You have never quite understood what tremendous Power and service can be released thru music, yet your Beloved Saint Germain said to you in one of the very earliest Dictations: "Music is the thing most useful to Us; because it is energy already harmoniously qualified which We can use to pour forth what is required."

Now, precious ones, if you will charge your hands, your feet, your voice, your consciousness, your mind and your feeling with the Mighty Healing Power of the Music of the Spheres, It could flood thru you all night long; if you would LET It; if you would make the call! I am tipping you off tonight, so to speak; because when your body is asleep, your feelings do not doubt, resist, fight nor repel the Light that is seeking to bless you!

So, if you will get out of those bodies and go about your business at night, make your call to Us to fill them with a River of the Music of the Spheres while you are away, We will help you repair those temples. I am trying so intensely to get your temples to the place where you can be as beautiful, young and joyful as you should be.

You have not been very comfortable under the pressure of this outer world's distress; but precious ones, call forth the dynamic Healing Power of the Music of the Spheres! Just experiment with your bodies. Do not dislike them! Do not criticize, do not blame and do not condemn them! You changed their appearance, they did not; they merely obeyed you, so don't feel hard about it! After all, they are really to be assisted and not condemned for giving you your own way.

We are ready, if you are, to concentrate Dynamic Power thru your music. You have occasionally touched thru your adoration of the Elohim, Tremendous Heights

of Power. Every one of your bodies felt better after you sang. Well, you know if you would sing enough, you would feel better all the time; and nobody could quarrel with you while you were singing. Of course they might not like the way you did it, but still you would be releasing your happiness, and you might not like someone's else singing, but you try to help the other person.

Just make the call to Us to cut away all substance that obstructs the Full Perfection of the Higher Mental Bodies singing thru you; because most everybody hears correctly inside themselves, but it is such a struggle to get that outside. You know that. I sometimes smile when I see how much people want to make the outer sound like they hear it inwardly, and I appreciate how disappointed they sometimes feel; but just go on; Rome was not built in a day and you cannot undo the accumulation of the centuries in fifteen minutes, nor perhaps a few months; but you are doing very well—not but what you can do better! Don't be satisfied with that and let down on your assistance.

Precious ones, Oh there is so much you can give thru your music. This Beloved Messenger just touched a fragment a week or two ago about what can be done thru music. Now let Me show you what can occur from Our Side of Life. Supposing five hundred of you made a record of one of those songs. We will take for instance the Adoration of the Elohim. Supposing there were a thousand of those records sold or used in your homes or among the mankind of earth. That would be five hundred Life Streams and each one of those Life Streams would have a thousand open doors thru which a Light Ray could be focused! A permanently sustained Out-pouring from each one's "Mighty I AM Presence," could pour forth thru each one of those records; and every time a record was played, five hundred Life Streams would pour out their Blessings into the atmosphere where

that was played!

Now follow Me closely! Do you know that the music could expand until it covered, passed thru, the entire atmosphere of earth, just like a bubble would seal itself around the atmosphere of earth. You know this Messenger used to tell you that with the proper kind of short-wave radio set, you could pick up her broadcasts at any point on the earth's surface; showing there is that etheric substance on which this sound records. That has sometimes been referred to as the Akashic Records.

The discord in the atmosphere of earth has charged into the substance of the atmosphere, the hatred, anger and destruction of war. All the wild radio broadcasts that you hear, have released their destructive vibratory action into the air you breathe. I say "wild" because that is exactly what it is! The vibratory action that goes forth into the ethers is very wild compared to Life's Perfection. There is so much more of that which is discordant than there is that which is harmonious. You know all that discord envelopes the earth, just as well as the radio broadcasts. That is what makes plagues, epidemics and blight, precious ones! That is why this substance gets into you and irritates you; because the music in your heart is not singing enough to repel it!

There is music in the Unfed Flame in your heart, if you will let It sing Its Song of the Light to you! Now follow Me. If five hundred people singing on a record, would first consciously make the call, for the Limitless Invincible Legions of Music, to charge forth Oceans of the Eternal Invincible Music of the Spheres, at the same time as your Presence sends forth Its Ray of Light and Perfection into that song, there would also go forth the Cosmic Amplification to which this Messenger referred the other night; and I will guarantee you, the sound and Power of an hundred organs is not a fragment of what could be charged into those records by your conscious call to Us!

You have absolutely Unlimited Power, if you will understand this and give the obedience which will enable it to be released. There are Legions of Angels—Eternal Invincible Legions of Angels of Music, who would stand guard over that music as it is released; and prevent any discord touching it, if you will call Them into action to do it.

Now, to Me, comes the most transcendent part of it all. The Healing Angels and the Angel Devas work especially thru constructive music. If you would ask Them to pour forth Their Oceans of Eternal Invincible Healing thru those records, as well as the Power of the Music of the Spheres, you could render a three-fold service to Life. First, your own Life Stream could give Its Blessing and Its Mighty Commands for Perfection; second, that which is My Domain, would release Its Limitless Powers of the Music of the Spheres and that by the way, is an action of the Fire Element; third, the Healing Devas and Healing Angels would draw forth from Their Special Activity, those Mighty Rivers of Substance and Flame into the sound of the Music of the Spheres as It goes forth; and wrapping that around a physical body or the mental and feeling world of an individual to whom it belongs, with the Pressure from Our Great Octaves of Activity, do you think any human discord could stand against that?

Then, do you not see that when one of your records was played, with five hundred Life Streams pouring forth thru it, what a thousand records would send forth to help mankind? There would be a Ray from each one of the five hundred Life Streams pouring out on each record. That would be five hundred thousand Light Rays, pouring forth thru that sound; then We would add to that, Our Cosmic Pressure and the Mighty Amplification of the "I AM" Music from Our Octave; and the Healing Devas and Angels of Healing, pouring the Healing Flames from Their Special Temples of Activity, could charge your

music with any specific thing for which you called! What is more, They could sustain and expand that, to fill the atmosphere of earth and keep It vibrating, until that music had dissolved and consumed every other rate of vibration in the atmosphere of earth, even to the annihilation of war, disease and poverty!

Please do not forget My Words tonight! There is need, very great need for the "I AM" Music of the Spheres to go forth. All "I AM" Music of the Spheres is always constructive and all constructive music helps. Melody that is constructive is one thing when it is released thruout the world; but when melody is consciously drawn forth from the Ascended Masters Octave and Temples of Music; and It is specifically qualified for any special purpose at the call of unascended beings—using the Authority and Power of the Creative Word, "I AM," and the direct call is made to the Cosmic Beings who govern These Activities, it is a far far greater thing and Infinitely more powerful! Then, Its Full Cosmic Power of Healing can be released to the whole world.

Were you to take out all the beautiful melody from the general music of the outer world, you would be in a very bad way. You could not live in the atmosphere of earth; so the outer world's constructive music has done much to help hold the balance against destruction, but I say to you: if you will understand what I am speaking about tonight and will consciously render this Service, you shall see all destructive so called music dissolved from the planet, even its cause, effect; record and memory; for the only thing that can live thru the ages is that melody, rhythm and form which is beautiful, balanced, constructive and Perfect. That is the only kind, the Beings from the Octaves of Music and the Temples of Healing will energize.

So, if you are to have Our Assistance from the Music Temples and the Healing Temples, you need to use that

which gives adoration and conscious acceptance to the Great Ascended Masters and Cosmic Beings of Life's Perfection! That is why your "I AM" Music of the Spheres has an entirely different effect upon the people of the outer world, than anything they have ever heard, and they consciously mention it. Never fear, for soon the Cosmic Light in Its Mighty world pressure, will reach a point where those who oppose this music will be unfortunate indeed!

Just go on and sing, but ask your Presence to take out all tension and obstruction, so you sing as you hear it inside yourselves; then you will call it forth in great sweetness and Perfection. You can. Every one of you can! Some of you did not have any singing voice to speak of, when you came into This Activity. Some of those voices coming thru. If you can do that, you can do the rest of the service required, and We will help you!

Personally, I want you to have voices like the Angels! It does not make a bit of difference how old you are! Years don't have a thing to do with it! Light can get thru a few atoms that perhaps are a little stubborn as easily as other atoms which are not charged with quite so much stubbornness. The Light is not concerned with stubbornness. So, if you will know that the Flame in your heart is singing there, and you will call to the Great Beings who govern the Music of the Spheres, to help you annihilate all obstruction to Their Perfection, and ask them to make you an Open Door to Their Beauty and Perfection of the Music of the Spheres, They will gladly help you do it.

Your Beloved Saint Germain is no small musician! I wish you might hear the Melodies that He plays, when He pours His Love to you—I mean the Instrumental Melodies. Did you know that you can play music and pour forth all the Love of your being thru that music, until it would melt the very stones into Perfection? That

is because your Love is the Flame of your Life, and the Flame can melt anything, when It is intense enough.

Therefore, whenever you are using your music, never fail to call to the Angel Devas of Music and the Angels of Healing from the Healing Temples. In that way, all of your music can be used in its most powerful Channel of Service. I think some of you have not been quite aware of that. You pour forth your music with the command for it to go forth and heal; but there are direct channels thru which healing is focused!

As this Messenger has said, above every hospital in every principal large city of the world, abides one or more Angel Devas of Healing; and uncountable Legions of Healing Angels are always at the command of the Great Ascended Beings of Light! If this Great Assistance were not given and provided for by Life, wholly unknown to mankind, there would not be one percent of the healings occur for which the medical world claims credit. Without the Assistance of Those Beings from the Healing Temples, I wonder where mankind would be, and yet They are given no recognition!

This Beloved Messenger gives in her Adoration the call for the Healing Temples to come forth into the outer; but from the Healing Temples at the Inner Level, comes the Flame that passes thru the physical structure; and can consume discordantly qualified substance as easily as a match could burn up tissue paper. Those Beings for æons of time, or at least for two million and a half years, have not known anything but the Service of Healing to the people of earth. They have been most supremely ignored and the credit of Their service claimed by those in medical channels, who have ignored or denied Their Glory and Power!

You will not know for some time to come what it has meant for this Messenger to keep calling forth those Oceans of Flames of Eternal Invincible Purity in all med-

ical channels! I know of no one channel on earth that needs it more! I think it might be well to call forth Oceans of Eternal Invincible Honesty in those channels as well! It might be a little hard on them, but they can stand it!

You are going to have much to face, precious ones, in the return of those blessed ones wounded in war, and I shall do something, if you will make the call; to remove the imposition of wrong colors upon people, especially those who need healing! I believe the Beloved Nada will make Her Authority felt before much longer—I trust so.

Now precious ones, in regard to your music! I want to say to the beloved one who is in charge of the "I AM" School here: you have done very well with those precious children, and I congratulate you—our beloved Florence Demorest. Thank you for the music and the service you have rendered to those precious darlings of the Light. Just go on and do not accept any discouragement and never accept any imperfection! If it comes forth say: "We will do that over and this time we will get it Perfect," and give them the Freedom to bring forth the voices of their own Higher Mental Bodies; for without discord in the atomic structure of their child bodies, it would be a very easy matter as they grow older, to call forth the full voice, the Absolute Perfect Voice of the Higher Mental Body, and every one should have a glorious singing voice, if he or she chooses to make that call.

You know the voice of a child is very sweet, very natural and very musical as a rule. So, if you will become children again in your feelings, in your hearts, ask for your Perfect Voice to come thru and keep using the Violet Flame to consume all obstruction, I think some of you will be amazed at what can be done for you; but please do not strain your voices! Just sing only as loud as is comfortable and let those who have very good high voices take the high notes if they sing the correct pitch;

because they are used to the high tones and the range of the voice is naturally high enough to take it, but just go on singing in that which is natural and comfortable, until the last obstruction gives way. Then, as the Voice of your Higher Mental Body comes thru, you will many times when you least expect it, just sing those high tones naturally, sweetly, but correctly and always on pitch!

Perfection is Our Law, precious ones! Just try this for awhile. I want your voices to be very sweet, very clear and accurately on pitch; for when the hour comes for all of you, or as many as possible, to make your records I want your voices to be as harmonious and beautiful as possible. Then, each one's Higher Mental Body, as It pours thru your Voice Its Mighty Ray of Blessing or the Flame of Love from Its Heart, goes into the record; and every time that sound goes forth on the ethers, when your records are played again, your Higher Mental Body can take up that sound, amplify it and amplify it again, again and again; until it is a never-ending Stream of Healing power from your own Mighty Limitless "I AM" Presence, for your "Mighty I AM Presence" is without limit!

I want you to feel that. Then in your calls to Us, We will establish those Pulsations which are permanently a Guard; and every time those records are played, just like an Ocean of Flame, there will go forth the Great Power and Pressure of that Great Harmony which is the Music of the Spheres; and another Ocean of Flame from the Great Healing Temples of Light, will enter into the Light Rays poured forth from your Presence; and all of that will travel forth into the atmosphere and dissolve and consume every rate of vibration, which is not constructive, for We shall so command it!

Beloved Frederick, I say to you: there shall come forth into the outer world, those organs which will delight you beyond anything you have ever heard on this planet;

and as Harmony is maintained, obedience to the Presence continues, you shall have one of those to play to your heart's content; for there can be such Healing and such Blessing poured thru you that the whole world will be grateful! I know sometimes the agony which you feel, because of your sensitivity and your absolute pitch. It has not been easy, but We are very grateful to you for your assistance to this Messenger which has enabled this music thus far to come forth. We will give you every Assistance!

May the hour strike quickly, when the Unlimited Release of the magnificent things which belong to the Incoming Cycle is brought into your outer use—in order to release this music that shall always carry with it, extreme beauty; not only in the music itself, but beauty in your instruments, your buildings and your surroundings; for beauty is just as necessary as food.

Now I shall touch lightly upon the Celestial Choirs! They are composed of Those Beings whose Life Streams' Service to the Universe, is the singing of Eternal Praise and Perfection to the Great Central Sun! They live to sing together Their Gratitude to Life. I wish that the ears of mankind might all be opened at the same time to hear the Magnificence of the Praise and Adoration from the Celestial Choirs, for there are many.

Do you think the discord in a physical body could remain within that atomic structure, were the Full Force from one of those Celestial Choirs concentrated upon an individual? Well, hardly! Do you understand the amount of energy that is poured forth thru the Great Powerful Life Streams of the Beloved Beings who have reached to that Great Height of Power, thru their adoration to God—to Life; thru Their Love and Gratitude to Their Source? Do you think the amount of energy which They call forth in Their Praise to Life could have any obstruction in this world! Would any one's human

creation be able to offset the Pressure of the energy which Their Love and Gratitude to Life is? Well then, please remember this!

When you sing these songs to Those Great Beings, call forth the Healing Power! Ask Those Blessed Ones, who can release this Healing Power to assist you! Music has many uses in the Universe, not only in healing, not only harmonizing of the conditions of this world; but do you know that the Music of the Spheres creates Form and Beauty in the substance of the Universe which can be made eternal? You can make beautiful whatever you call forth!

You have heard the phrase: "And the stars shall sing together"; that is because there is a sound goes forth from every planet in every system and every planet's tone is in Perfect Harmony with the other tones in that system. That makes a great Chord of Life which added to other systems, forms the Music of the Spheres.

So, when you hear Great Oceans of sound in which there is such exquisite Melody, such magnificent Beauty and Harmony, and the magical sounds like an hundred organs together with uncountable Legions of voices—precious ones, you have just a tiny glimpse of what is in the rest of the Universe! The Universe itself is like a Fairyland, for it is peopled with Magnificent Cosmic Beings who, for aeons of time, have accepted naught but Perfection and have been the Recipients of the Powers of Life without limit.

Remember what the Goddess of Purity said to you this afternoon: "We are but more Advanced Consciousness of yourselves." You have the right to call to Us for these Melodies! Do you quite comprehend that? Do you know, you have the right, when you love music and love Life and love Perfection, to call to Us for the Greater Power and Perfection which We have created and offered to lift all here and to fill the Universe! We

are the more Advanced Consciousness of yourselves. FEEL yourselves so close to Us, that you can hear Our Music of the Spheres!

Do not try to create melodies down here according to man-made rules of harmony; because that would not even resemble the Music of the Spheres. We would not call that music from Our Standpoint! Still your emotional bodies; purify them with the Violet Flame! Place your attention upon Us! Give Us your gratitude and calls; and you shall know what it means, to have the atmosphere opened and let you hear the Voices of Those who release that Cosmic Music. Its Beauty of Sound can never be put in words! Its sounds are so exquisite, so beautiful, so All-powerfully healing, that you have just one feeling—to leave the earth and rush into the Heart of wherever It is; for Its drawing power is irresistible; because It is the Authority of Creation.

Now, will all of you call forth those absolutely Perfect Musical instruments which belong to the Incoming Cycle? Give Us a chance to give you all that produces Perfection in this octave. There is a substance which as yet has never come into the outer world and it is not a precipitated substance either. It is a substance which will be brought forth, of which they will make musical instruments that will have such Perfection of tone and such quality, as shall make your hearts almost jump out of your bodies with delight.

There shall come forth, beloved Son of Music, beloved Frederick, material for making bells with such beauty of sound, as can never be described. They can be heard around the earth and their vibratory action will release such joy and such love to the Powers of Light, that they will be truly called the Bells of Everlasting Freedom; for they shall silence every discordant sound from this planet and let its humanity rise into the Realms of Eternal Invincible Freedom; and the Music of the

Spheres, shall release Its Blessings to bring Perfection in all ways, almost like magic.

If mankind spent one hundredth part of the energy and effort that it takes to produce destructive sounds, to reach up for the Music of the Spheres, and all the Blessings that are poured forth thru It, and bring that into the physical octave of earth, they could heal the nations and dissolve every discordant thing—all that is human forever.

There are many, precious ones, who will assist you thru the Music of the Spheres. The Beloved Venetian is the Authority over the Musical Ray to this world. As you call to the Angels of Music and purify yourselves, asking the Angels from the Healing Temples to charge thru you the "I AM" Music of the Spheres and all that comes from Their Healing Power, you can render such service thru your music, as has never been given on this earth in any age.

There is not one thing Saint Germain, your Beloved Godfré or any other Ascended Being will withhold from you, when you ask to have things accomplished thru the Music of the Spheres! You can specify how you want constructive conditions harmonized! You cannot harmonize them thru argument! You have tried that thru the centuries and it has never been successful! So you had better use some other method which the mass of mankind does not yet comprehend!

Will you call forth ALL of the Powers, the Eternal Invincible Powers and Mastery of the Music of the Spheres? Will you call forth Oceans of the Eternal Invincible Healing Power of the Music of the Spheres? Will you call forth the Eternal Invincible Harmony of the Music of the Spheres? These things are in the Universe! They belong to you, because you are Life! We have the unlimited use of them—you may! Won't you ask? That is all it takes!

It would be well, if every time you sing or play any

of these songs, that you stop just a moment and first, call to the Mighty Elohim of Music, God of Music and Myself, the Angels of Music and all who govern the Music of the Spheres, to charge thru you every Power and Gift at Our Command. I am offering you ALL that is harmonious and beautiful; then you should insist that there goes forth such Healing Power thru all of this music, that it shall heal every physical body that hears it or thru whom it passes; for there are those who might not hear it, yet its vibratory action could pass thru those bodies and heal them. It can heal the nations! It can dissolve from the Forces of the Elements, the impurities imposed upon Them by mankind, for They Love the Music of the Spheres!

Help us, precious ones, to try to undo mankind's unfortunate mistakes. Angels of Music shall come at your call! Angels of Healing shall bring help to all! Angels of Light you may ever command; for ALL of the Light stands holding your hand!

May the Magnificent Symphonies of the Universe, the Celestial Orchestras, the Celestial Choirs and the Legions of the Angelic Host at your call, come to your assistance; and release thru you, that which will give America her greatest assistance, that which shall remove from within her borders, all that has opposed Saint Germain's Freedom and Victory of the Light.

Cosmic Beings of Transcendent, almost incomprehensible Power, stand ready to fulfill your calls, as you make yourselves ready and pour forth your heart's call for the Freedom of all Life on this planet and from all that is not of the Light, accomplished thru the Music of the Spheres.

Can you imagine the Power that We could release or that the Seven Mighty Elohim could release, if you had a building where for twenty-four hours without cessation, five to ten thousand people at one time, were to

sing the Adoration to the Seven Mighty Elohim; sing for an hour, then another group take it up for an hour and keep that going for just one twenty-four hours? Can you conceive of what We could do with that much of your Life's Energy? Well I can—I am trying to give you My Feeling and Concept!

There is not any condition on this earth that you could not change when that is continued! I offer to the Precious "I AM" Ascended Master Youth, My Love, Blessings and Congratulations for your love of the music thus far and the service you have given! If you will maintain Purity and keep up your calls, you shall know what no other generation on this earth has ever known; and you shall experience that which shall become the permanent condition of Perfection for the future.

The correction of every outer world condition can take place thru your great Love and the calls made thru the Music of the Spheres! Mark My Words tonight, thru this Music of the Spheres, millions and millions will come into This Work, for they know it is different from anything else on the earth! The hearts of mankind are starving for the Music of the Spheres, and they will listen when a certain time strikes, never fear; but now it is necessary to perfect yourselves and to sing and pour forth this Music of the Spheres. Oh sing It, play It and keep charging into It, that which will give Us the greatest opening; and We will not withhold one thing for the fragment of a second. We shall give you what has never been given to the earth before.

Mankind are going to be compelled to witness some things that have not been here for more than two million years, and the Perfection of this Music is coming! There are transcendent compositions waiting, all ready prepared, thru which certain definite activities can take place! When they come into the outer use of mankind, who have conscious understanding of This Law and will make

the calls the Cosmic Law requires that We have, you will see the release of Miraculous Powers of Life, coming into outer action with such astonishing results, that you will hardly be able to believe what you are hearing.

Precious ones, there is a Special Service which you can give thru the Music in healing, by calling Those Invincible Legions of Healing to draw forth the Power thru this Music and focus a Special Action of the Violet Consuming Flame into all hospitals; holding the atmosphere around them under the direction of the Healing Devas; with the call, that they stand guard and see that nothing but that which is honest, clean and true to Life's Perfection is ever allowed to act thru those hospitals.

There is a certain Authority delegated to the Healing Devas, which with your calls, will bring into outer action a Pressure and an Authority over those who are unscrupulous in medical channels, which will change every attempt to do wrong! So fill your hospitals with the Violet Flame; charge the Music of the Spheres to go forth! Ask, ask, ask Those who govern the Activity of Healing and call to All who govern the Music of the Spheres, to establish permanent action in those channels—of this Music of the Spheres that is qualified to do a specific service, and keep it amplified and in continuous action there, until the outer conditions are changed! Then as you sing, your assistance may cover the earth, if you so decree it.

Remember, you are the Authority of Life to decree what you will. The Cosmic Beings and the Ascended Masters stand ready to release All of Life's Powers and to fulfill any Decree that is in agreement with the Great Cosmic Law! They stand ready to help dissolve the mistakes of mankind and to consume their impurity by the Power of the Music of the Spheres! That is truly the Highest Service you could desire; and not one Being of the Light in the Universe can say "no" to you.

The Mighty Elohim of Eternal Invincible Purity, the

God and Goddess of Purity and the Angels of Purity, will be your Assistants also, in anything you ask to be done or corrected thru the Music of the Spheres! In this way, thru your continued calls, We can purify the feeling world of mankind, for the feeling world is One; and if you ask for Oceans of the Flame of the FEELING of all who govern the Music of the Spheres, to charge into the feelings of mankind, you will then see purification and you will see the dissolving of desires, that should never have been allowed to have any energy of Life at any time—past or present.

There are melodies so sweet and harmonious, so powerful that when charged into the feeling world can make individuals ashamed to have a destructive desire! That is what I want for the purification; then the purification of the bodies of mankind and the atmosphere of earth will be much more rapid. You can ask the Elohim of Purity to flood all your Music with Oceans of His Flame of Eternal Invincible Purity; and It will amplify that which automatically goes forth charged with Our Power, to purify and harmonize all.

So these Great Cosmic Activities which have been so recently released into the outer world, can be concentrated together in perfect co-operation with such increasing Power charged into anything you do in the outer world, that your success will be Infinite, Instantaneous and Invincible! You will be an Ocean of the Powers of Life and the Perfection called forth that moves you forward the Victorious, Commanding Authority and the Master Presence of that Beloved "I AM" and all the Ascended Ones require, to overwhelm destructive forces!

You know you can even change dispositions with the Music of the Spheres! I think that would be quite wise! You would be amazed how quickly people's attention can be taken off discordant things by the right kind of music.

So now go forward precious, precious, precious,

glorious Beings of Light, which you are; and may each one's own Perfect Glorious Voice of the "I AM" in both speech and song come forth from the Higher Mental Body; charge thru you Its Commanding Perfection; and let you sing as the Angels sing; command as the Legions of Light; and yet remain so humble, so kind, so obedient and purify yourselves with such insistent demand, that the Great Elohim of Purity can use everything you do, as an Open Door to release Oceans of His Flame of Eternal Invincible Purity, together with the God of Music and Myself!

He is a very delightful person! You would be surprised! Very delightful! That is why We work together! You would be amazed what He will give you, if you will give Us Open Doors, thru which We may give you all of the delight We have, and We do not know anything but Happiness. We refuse to know anything else! We prefer to remain ignorant of anything else; so I want you to have Our Happiness tonight, for Music should always be happy! Did you know, it is the language of Life to pour Love, Gratitude, Praise and Blessings to everything in the Universe! Should you not be happy when you do that? I do not know how you could be grouchy and do it. You open the door to your side of Life! Let Us give you Oceans of Happiness and Appreciation, and there is nothing can make you as happy as the "I AM" Music of the Spheres!

Sing It, Play It, Use It and remain ignorant of everything else. Won't you? You know it is very nice not to know anything but the joy of Music and all the beauty It creates and the Unlimited Power that It is. You are the Master Power of creation when you are the Music of the Spheres! Precious ones, Life was meant to just sing Its way thruout the Universe.

Oh, just give ALL Life's Happiness; and everything that is, will love you—the sun, the stars, the moon, the

birds and everything else in creation! The plant Life of earth will love you—and that reminds Me, you had better call the “I AM” Music of the Spheres to bless your crops this year. You can sing them into action, even though hatred has commanded them to stop.

I will help you! I will help you make the plants sing to you! Does that sound unusual? They do. Sometimes you can hear the corn growing at night in the ground, often you have heard it cracking. It makes a sound. The expansion of everything makes a sound, but let us make all sounds the Music of the Spheres. That is a very remarkable thing, when you apply it to your speaking voice; for if every word you spoke were musical, joyous, considerate, kind and soothing, you would not know your singing voice, it would improve so rapidly. Saint Germain once said: “It is so wonderful, when people speak kindly to each other,” and that is music to Us. Kindness is music also!

So this year—this coming week, after tomorrow night, I wish you would bless the crops of your land. Call on the Law of Forgiveness, directly to the Beings of the Four Elements. Ask Them to forgive what mankind has imposed upon Them and tell Them you come to Them with a Blessing of Love which shall protect Them; if They will be your obedient loving co-workers to arise, defend and supply the Children of the Light; for They love to be loved just like anybody else. Life you know likes to give Love and Life loves to be loved! It likes to be blessed and the Beings of the Elements perhaps respond quicker than any other parts of Life.

So you, the Children of the Light, with the Assistance of Those of Us who govern the Music of the Spheres, the Blessed Lord the Maha Chohan, the Precious Virgo, the God of Nature, the God of Gold, the God of the Jewels; all who deal with the Powers of Nature will work with you this season; if you will call on the Law of

Forgiveness and ask your Presence to release so much Love to the Powers of Nature, that It overwhelms a thousand fold all discord and injustice that was imposed upon those Forces over the last few years.

The Hand of the Reaper is going into action, but you shall not be touched, if you pour out your Love and your Blessings and BE an Open Door for Us to pour the Music of the Spheres everywhere. Whenever your feelings are disturbed, will you go and either sit down and play yourself or sing, or play a record of the Music of the Spheres, until your feelings have come back again into the Heart of your Presence? We will watch for the Open Doors thru which We may pour to you, or pour thru you the Greatest Possible Help to America.

Those precious ones in the National Defense—your precious Donald and the precious younger generation! They are starving for good music! Those prisoners in foreign lands and the wounded tonight— Oh Great Powers of Life! Bless those precious ones! Clothe them in the Powers of the "I AM" Presence which enable them to pour forth thru their calls, everything required to move the Cosmic Dispensation into action, that shall recompense those precious ones a thousand fold, with the Power and Perfection of the Music of the Spheres; and the Great Powers of Light, for every moment of distress thru which they have passed.

I shall do My best, so will all the Other Great Beings of Life and Purity and Healing and Perfection. So will your Presence, and I know and feel confident tonight, that the student body this night, feels closer to the Full Power of the Presence and each one's Presence than you have ever felt before. Just hold yourselves within the Flame of Its Heart and command Its Eternal Invincible Mastery, all Its Powers and Power; Eternal and Invincible, to rule thru you in the Fulfillment of Its Divine Plan forever.

I thank you.
