

# GODDESS OF MUSIC'S DISCOURSE

CHICAGO, ILLINOIS

JANUARY 20, 1944

Evening

**BRING** you Greetings, tonight, from Those Mighty Octaves of Ever-increasing Joy and of Cosmic Happiness; for there is naught else in the Music of the Spheres, nor in the Octaves of Music.

If you will for a few moments with Me, turn your attention to These Cosmic Activities of Life in the Universe around you, which are—remember, the more advanced Consciousness of yourselves; then I hope to pour back into your mental and feeling world tonight, strong enough for every one to feel it unmistakably, unless they are just determined not to; the Substance and the Fire of the Music of the Spheres, from Those Realms of Music wherein the Cosmic Action of all creation takes place.

You might wonder what Those Great Beings do, who sing eternally Their Praise to the Great Central Sun. You might wonder why They do that all the time. Do you understand that all creation of form, takes place thru the consciously released vibratory action of some individualized being? That is the Law! You cannot have substance gathered into form, unless there be a consciously directed rate of vibration which forms the pattern upon which the substance gathers.

Much as you would see chemicals crystallize in a laboratory or frost form on the window pane in their exquisite beautiful designs, so do the Great Creative Activities of Worlds and Systems of Worlds come into outer manifestation.

The Great Realms of Sound which are the Octaves of Music are where the Beings from the Great Central

Sun begin to focus the Substance which later on becomes a planet or System of Worlds; for all creation of form is by consciously directed Intelligence. It is that Intelligence which releases those special rates of vibration. They are the results of the use of the free will, to charge forth any rate of vibration it so desires; and upon that, draw the Substance of the Universe to produce the outer manifestation to become whatever that Intelligence directs. To a very large degree, this goes on unrecognized by most of mankind.

In bringing substance into outer form, if the sound produced is comfortable and harmonious and the feeling world of the Being who is creating, releases those rates of vibration, then the form will be a thing of beauty, harmony and blessing to the world around it. If the energy be sent forth qualified with that which is not happiness nor ease in the feelings, the form will not be beautiful. That is why there is such distortion of the forms in this world; because unfortunately, they have been brought into outer existence thru such frightful suffering, such frightful discord; all of which is terrific disobedience to the Great Creative Law of the Universe!

Now, I shall turn your attention back to the Octaves of Music. The Great Beings who produce the "I AM" Music of the Spheres, are the Angelic Host and Cosmic Beings, as well as the Ascended Masters, Who because of the Great Heights of Purity and Perfection to which They have attained, are entrusted by the Beings from the Central Sun, with the building of Worlds and Systems of Worlds; the Temples of Light and Music; Temples of the Sacred Fire, and other Activities to which this Messenger referred.

I am just taking you tonight to the Great Cosmic Laboratory of the Universe. I trust you are interested, for the calls that you have made to bless the Forces or Powers of Nature thru music, have drawn forth this

explanation, and it is necessary that you know these things. Are you more at ease?

When you build a thing of beauty, you are usually very happy. So are the Beings who sing Their Eternal Praise and Adoration to the Great Central Sun. So are We who work in the Octaves of Music. There should not be one tone on this planet ever permitted to be released thru human beings, which is not beautiful and harmonious; for all should give a great joy to those who hear it.

The Song of the Light is really this Great Creative Activity from the Great Central Sun. As that Pure Electronic Substance drawn forth or rather given by the Beings from the Great Central Sun, is released into a certain focus, then Those who are active in the Octaves of the Music of the Spheres, pour Their Love, Happiness and Their Praise to the Central Sun thru beautiful sound. As that reaches up, plays upon the Universal Substance of Light, it draws the substance into harmonious concentration of form.

It is no more difficult really, for you to feel this and to see it, than it is for you to watch steam turned into frost on the window pane; but the sound which is so beautiful and which forms the substance into a thing of beauty, could not be beautiful within itself; unless the feeling of the individual who produced that sound, was beautiful and held the feeling of Love and Gratitude, Praise and Blessing to Life in the Central Sun.

You see you cannot produce beautiful sounds with unkind feelings, they do not associate with each other! Anything as beautiful as a flower, has that substance drawn together by very Pure Beings. It takes a very Pure Being of Nature to gather the Substance that produces a lily; and those Beings must hold that Purity, Beauty and Perfection until the form is complete. When those precious little Beings are weighted down with

impurity and discord of mankind's thoughts, feelings and unkind words, They cannot and do not produce Purity, Beauty and Perfection in Their Realm; and when They find They cannot fulfill the Divine Plan to produce Beauty, Purity and Perfection, They withdraw and the substance that is left, but records the unhappiness of mankind's discord.

So, precious ones, from now on, will you bless the atmosphere about you, with sounds of beauty and Perfection, with kindness and words that do release vibrations which produce things of Beauty and Purity and Perfection. If you will, We can show you some very beautiful things in this Universe; but if you want beauty around you and you want your own bodies beautiful, then your feelings must be beautiful first, for Beauty cannot be imposed upon you from outside. All the effort to which the ladies go to make themselves beautiful would, if the feelings were kept beautiful, Pure and happy, produce beauty with one thousandth part of the energy that is now spent. I am not disparaging any effort for the improvement of what might have been a mistake, but I am just telling you the Law.

What I want you to do is to feel your responsibility to pour into the atmosphere wherever you move, the Harmony of sound, whether it be thru music, the kindly feelings in your voices or your thoughts and your words, so that wherever you move, there is gathered into the atmosphere about you, your own Life's energy and some of your substance which We can take up, beautify and amplify again and again into that which your hearts really want.

You all love jewels. Don't say you don't, because inside you do. Jewels have a right use in the Universe. They are a condensation of powerful charges of electricity and very beautiful sound into substance. It takes beauti-

ful sounds to make beautiful jewels and that has to be done thru the Fire Element; for that is the only Element which cannot and will not accept any substance or sound that is discordant. That is why It is the highest of the Four Elements and is the Fire-breath of the Almighty.

There is much need, precious ones, for beauty of sound in the atmosphere about you, for in comparison with Our Octaves of expression and Life's Great Service, it is as if you lived in a boiler factory of static which is pounding against you all the time. That never was intended by Life!

Every sound in the Octaves of Light is beautiful, joyous and constructive! Sound in Our Octave never creates any form but that which is beautiful. You could perfect your forms much more rapidly if you really want to; but you will have to change your feelings inside first; for they are constantly changing their rates of vibration into your flesh. That is the only action of energy which prevents you from being as beautiful and as healthy as you desire. It all goes back again to your feelings.

Therefore, will you keep your attention from now on upon this Cosmic Action of the Universe; because We would like to assist you in bringing forth upon the earth very beautiful things of which you have no concept as yet. We would like very much thru music, to bring forth a change in much of your plant life. It would take out all unpleasant odors, all thorns, all of your weeds and all that was not the Great Joy, Beauty, Perfection, Purity and Perfect Fragrance that ought to be on this earth. We would like thru music, to change the plant life on the surface of the earth—that which is similar in beauty and Perfection to Pelleur's region; except that the colors on the surface of the earth, would be iridescent in your plant life instead of any one particular color. We would like to have an opportunity to show you what the Music

of the Spheres can do to the substance of a world which is sick unto death with discord.

May I ask you as Students of the Light, Children of the Light, the Family of Light who belong to Saint Germain, to no longer add a feather's weight to the discord in the atmosphere of earth. Your call to the Mighty Elohim of Eternal Invincible Purity, will do much to take out of the atmosphere, a great deal of the vibratory action which has been so destructive.

I am asking this for another reason! When those precious ones, returning from the destruction of war, come into your atmosphere, if you have already gathered about you the Beauty and the Substance of the "I AM" Music of the Spheres, you can by your very radiation give them tremendous help. They will need that to help purify and assist in stabilizing their mental and emotional bodies and bring Perfect Balance to their mental faculties.

The Radiation of Purity, Beauty and the "I AM" Music of the Spheres thruout your atmosphere, will enable many Life Streams who are seeking embodiment now, to have the Beauty, Harmony and Perfection which each heart knows is its destiny and always craves in the feeling. To those, you can become a Fountain of the Supply of Life's Beauty and Purity and Happiness. You like to be happy; then may I remind you often, to call forth Our Oceans of the Flame from the "I AM" Music of the Spheres? That Flame will so fill your atmosphere with happiness, that any Life Stream you contact will automatically feel the supply of your happiness coming into them. They will absorb that and it will help to lift their burdens and dissolve the limitations which might be remaining in those Life Streams. It will help them to more rapidly make the preparation for their Ascension.

I should ask Serapis Bey to help Me to be a good disciplinarian—He is a very fine one. I am not going to

be severe, because I cannot. My Law is Music, and Music is happiness! Real Music—you see I make a distinction between your music and Ours—is always happiness. I am speaking of music, the “I AM” Music of the Spheres. I am making the request that you govern the spoken word always! If you will watch yourselves and give obedience, it will make you very much happier, and bring into your use some of these Powers for which you have been calling! You must govern your spoken word and your feelings, before it would be wise to give you the Power of Precipitation; unless you automatically had the Power of etherialization instantly coexistent with it, in case what you brought thru was not beautiful.

You do not realize when the Full Power of Precipitation is released thru you, how instantly some day thru habit, your spoken word might become objectified into a physical thing, which would give you distress—would not be beautiful. That is why Our Precious Saint Germain warned some of you a long time ago, to govern your speech and watch that you did not form habits of speaking words which would objectify into things with which you did not want to associate in the outer world, in case they became visible and tangible.

Now I am giving you the warning and I feel many of you will give the obedience. As you call to the Mighty Elohim of Purity, and as you maintain harmony in the feelings, just naturally the attention will be drawn away from those habits, which have produced unfortunate conditions in the past.

You do not yet realize, precious ones, the happiness that could be yours and would be, if you were able by raising your hand to free all who might come to you, from the distress under which they were struggling. To be able to give that release instantly at your command; or thru your call to the Presence, will bring you very great

joy; and far greater than the temporary satisfaction of saying the things that might just come to your mind at the moment, and were really not intended—not in your motive.

So as you call forth the “I AM” Music of the Spheres tonight in your Decrees, you will find an Action of the Sacred Fire going forth, thru which you will be able to consume a great deal that weighs heavily upon you and your fellow-man; and yet that pressure is really nothing precious ones, but the vibration of energy floating and throbbing in the atmosphere of earth. You can charge it by first using your Violet Consuming Flame, then calling forth Oceans of the Flame of Eternal Invincible Purity. Ask Us to charge the Fire of the “I AM” Music of the Spheres everywhere you move and flood it into the atmosphere; then see what you will experience. If you will build a powerful momentum of this, you will have the things you desire released much more quickly into your outer use.

I am speaking of it tonight, because in your Temples which are to come forth, We want to bring two things—new materials of magnificent beauty and the musical instruments thru which We can release more Power of the “I AM” Music of the Spheres, than that which has been released thus far. The reason is, that in the Healing Temples, the Quality of the sound produced is fundamentally very important and the volume is secondary; but with your calls for Purity, precious ones, as you increase the momentum which is charged into any one of your Temples thru these calls, and it builds over a period of months or years thru continued attention, you cannot yet comprehend, what Beauty, Perfection and Power Life would delegate to you; if you would provide the Focus and pour your Love into that Focus so Life, your “Mighty I AM Presence,” may bring forth this Great Blessing for all.

If you give your Life, your time, your attention and your energy thru your feelings, to beauty and the "I AM" Music of the Spheres, then Life would pour back to you Its Beauty and Music of the Spheres in greater power, for Life is very kind. It always gives you more of Itself, when you have used what It has already given you constructively.

So in the Service which is to come forth thru your Temples of Light, Music, Healing and the Sacred Fire, which are to be maintained, mark you, for thousands and thousands of years on this planet, it is well to build permanently. Call forth a flood of Cosmic Power of the "I AM" Music of the Spheres, to hold Its Balance upon earth and release such great pressure, that all else gives way and is no longer recorded nor remembered by Life anywhere.

When people are ill or mentally disturbed, they must have the opposite quality charged into their energy to cut off their distress and render assistance to them. If you will give your attention to Us, call forth this which I have requested, it will provide the Cosmic Power to give them the opposite of that which is in their own feeling world. We can then release them from all that has been imposed upon those Life Streams.

I would like very much to bring to you and into your Temples, such intense Power thru the "I AM" Music of the Spheres, that every one who enters those doors is healed before they leave. The intensity of that Power depends upon the amount of Life and the Purity of the vibratory action held. Like any other accumulation of Power, that is gathered only thru long years of service; but it can be drawn forth very much more quickly thru your conscious call to Us; for the Power of the "I AM" Music of the Spheres can be drawn into your Temples, maintained and intensified forever!

The mass of mankind must have more assistance until they know This Law; and there is nothing more permanent, more joyous nor more powerful than that which is produced thru the "I AM" Music of the Spheres. You can call to have that made Eternal and Invincible; and it could never be changed by anything of the human again.

These Powers are within Life! I offer them for your great happiness and I hope that the Full Power thru the "I AM" Music of the Spheres can be drawn into the outer activities of mankind, to be all the healing that they need in the future; for if all healing were done by the "I AM" Music of the Spheres there would be no more mistakes and no more discordant reactions; because of the ignorance of the human intellect.

I say to you, I am not a disciplinarian, because I sing My Way thru the Universe, thru My Joy, Love and Gratitude to Life. You may do the same and so may everyone else; but until you form the habit of just always keeping your feelings joyous within the "I AM" Music of the Spheres, you might have to apply some of Serapis Bey's firm determination, to shut off the human things that are not so beautiful.

So, will you in the future remember the Life in the atmosphere around you; and feel your obligation to charge into it only that which is beautiful and harmonious? Then, the atmosphere can sing thruout the Universe its Love and Praise for the Perfection of Life everywhere. Your opportunity is so great, when this Knowledge is being given; for mankind have never had much Real Explanation of these Great Creative Activities in the Universe, but they are the fundamental upon which Systems of Worlds are created; for they are brought into being by the Power of the "I AM" Music of the Spheres! Therefore, the Song of Life is the Joy of the Light and the "I AM" Music of the Spheres.

There is an Angel present, precious ones, who is announcing some of this Joy to you. I hope you may retain It and feel the Joy of the "I AM" Music of the Spheres, pour forth your feelings at all times in the future. May a Host of Angels of Music surround you constantly and whenever you wish to bless the Powers of Nature, those Incoming Life Streams or any of the rest of mankind, with Harmony and Perfection, may an Angel of the "I AM" Music of the Spheres—one of the Music Angels abide with you and help you to flood forth that Joyous Sound and Purity to bless Life with all Perfection.

Tonight, in your Decrees, will you call forth three things—Oceans of the Flame of Eternal Invincible Purity from the Heart of the Mighty Elohim of Purity; Oceans of the Flame of Eternal Invincible Peace from the Heart of the Mighty Elohim of Peace; and Oceans of the Cosmic Power of the "I AM" MUSIC of the Spheres.

May the Angels of Music guard you and hold you in Their Great Happiness that you may give it to others, until all Life everywhere is happy in Its Eternal Song of Life and Praise and Gratitude to the Supreme Source from whence We all proceed. May My Joy and My Love and My Power, be at your command whenever you need Me!

I thank you.
