

BELOVED MIGHTY VIRGO'S DISCOURSE

OURAY SANCTUARY

FEBRUARY 18, 1945

AFTERNOON

BELOVED ONES of Earth! Beloved ones of Light! Beloved ones of Freedom! I come this afternoon to pour to you a Blessing which shall make the atomic structure of your bodies more readily obedient to your conscious command. I represent the Earth Element! In other words, that Substance which forms the Planet and the Elements which are within your atomic structure. They belong to the mineral kingdom of which "I AM" the Director and the Controller, not only the structure of Earth Itself, but whatever part of the Earth's Substance is within your atomic structure is also My Responsibility to Life, to help purify It and raise It into the Ascended Master's Octave as the Self-Luminous, Imperishable Substance of Light.

In the Great Cosmic Activities of a Planet, when it comes to the Direction of the Four Elements and Their Service to mankind, the Process is one of ever-increasing vibratory action, and the ever-raising of all substance here into Greater Purity, Perfection and Greater Luminosity. While the Earth's Structure in the beginning was Self-Luminous and must become so again, still the raising of that portion of the substance of Earth which forms your flesh bodies is also part of My Activity of Life. In the process of the Ascension, that which is at present of the mineral element, when raised into the Ascension, becomes the Element of the Flame. That is why in purifying the structure of Earth, the Electronic Force of the Cosmic Blue Lightning of Cosmic Purity, passing thru the Substance of Earth itself, releases—or rather thru that action of the Fire Element, raises quickly whatever structure it passes thru, into the Pure White Substance that later on becomes Self-Luminous. It can then be raised into the Ascended Masters' Octave—the next Octave of Light above the physical world.

Just so, is it My Privilege to help you raise the vibratory action of the mineral elements within your bodies, into that Greater Vibratory Action which enables them one day to become the Pure Light Substance of the Higher Mental Body. Mankind knows very little about the Mighty Activities of Life that are required to bring forth a planet, or to prepare it, so plant life comes upon it to provide the conditions whereby the individual Life Streams may embody. By expanding the Faculties

and the Attributes within each Life Flame thru the substance of the Planet in the body, They become the Action of Life that raises all into Ever-expanding Perfection, Happiness and Beauty which is the Action of the Divine Plan everywhere thruout Creation.

“I AM” going to show you what takes place in the Structure of Earth, by the infusion of the Electronic Force of Lightning into the structure itself. When you see physical lightning, then you will see how the mighty calls to your “I AM” Presence and the Ascended Masters, draw down into your own atomic structure, exactly the same action of the electronic force to purify the substance of your physical flesh bodies, exactly as the physical lightning purifies the Substance of the Earth itself. It is a very easy matter for you to observe, as you pass thru these magnificent mountains, the streaks of white quartz within the formation of the rock structure. No scientist has ever yet told you how that comes there or what produces it, but I say to you in the electrical storms that take place thruout the atmosphere of Earth, when you see lightning at a distance or are able to observe the mighty streaks of lightning come down from the sky and go into the ground, it travels within the atomic structure of Earth. Wherever that lightning passes, it fuses whatever substance is in its pathway into Pure Transparent Substance—truly white quartz. As centuries pass, you will find the various patterns of the different metals and their activities begin to grow within that pure white formation.

The Earth originally was made of Pure Transparent Substance thru which played the various colors of the rainbow, each producing a substance of its own special quality, all of which in the beginning, was magnificently beautiful and all of which emitted Light; but the discord generated by mankind thru the centuries and the impurity in their thoughts and feelings have condensed, into substance that was once crystal clear, the vibratory action which has made the structure of earth become the density and the color you see at the present. Just the same as if you took a glass of water and poured into that a definite coloring matter.

I want you to feel this closely. Suppose you put in one color clean and beautiful, and then put in another color which did not harmonize with that, yet the second might be magnificently beautiful by itself; but if the two did not harmonize when you put them together, you would only have a dirty, muddy color. Well, that is exactly what has taken place in

the Structure of Earth. Anybody who understands anything about the mixing of colors, knows you can take two perfectly clean colors and put them together, and if you have a third product that is different from either one and yet beautiful within itself, when it is put into combination with that which is not harmonious, it produces an ugly color.

Now just so in the atomic structure of your bodies. As you call to your Mighty "I AM" Presence, the Ascended Masters or Cosmic Beings to blaze thru you, Their Cosmic Blue Lightning of Cosmic Purity, It will enter into the very substance of your flesh; burn out, dissolve and consume those rates of vibration or qualities within your flesh, which are not pure. That is why your Beloved Saint Germain, in the use of the Violet Consuming Flame, has given you a Blessing and a Scepter of Power, which you will not completely appreciate and understand, until you are wholly Ascended and Free.

Now just as you would boil dirty water or you sometimes clarify sugar, the vibratory action of the heat purifies that boiling liquid, and the impurities are drawn off. When people throw away or consume the impurities, it leaves a clear, pure substance that you can go on and use for other purposes. However, I want you to see what happens when mankind throws away, as they call it, the impurities of the substance with which they are dealing.

You think, when you throw something into the ground or into the water that you are purifying your world. You may be getting that substance out of your immediate environment; but when you place it upon the substance of earth or within the water or within the air, the Beings of the Elements have to struggle under and carry that; nothing but the Fire Element can completely purify any of the other Elements. You must have the Action of the Electronic Force or Fire from the Great Central Sun thru the Physical Sun directed by Cosmic Beings, such as Myself, into the structure of the other three Elements, in order to return Them to Their Original Purity; because when mankind has placed upon or within the substance of Earth, the Water or the Air, their own rates of vibration of discordant feeling, it becomes a condensation of energy upon that substance, and energy condensed becomes solid substance.

People do not always understand that the physical things they handle are in Reality but condensed energy, and upon them you place whatever quality you desire. Now when mankind thru the centuries has done that—just imagine the result.

Uncountable billions of embodiments have taken place on this earth, and the great discord generated thru those embodiments has been imposed upon the substance of the physical bodies and upon the Earth itself. Then you must realize under what the Substance of this Earth struggles. That does not produce happiness for the Beings of the Elements! For notice! discord in your own thoughts and feelings does not produce happiness for you, does it? Well then, how could it produce happiness for the Beings of the Elements—and there ARE Beings of the Elements!

There is a Being who guards every tree. The Beings of Nature carry out the direction of the Lord the Maha Chohan, when He desires to bring forth certain types of plant life upon the earth. The Beings of the Earth Element obey My direction to bring forth within the Mountain Ranges, within the various activities of the Structure of Earth, certain types of substance; each carrying its particular blessing to the earth as a whole, and its Radiation pouring forth to bless all mankind. That was the original plan, but mankind has imposed so much discord upon this substance that We, together with the Great Cosmic Beings from the Physical Sun and the Great Central Sun at intervals, have to periodically direct the Action of the Fire Element into the Earth Element Itself; into the water and into the air, in order to consume and shut off the rates of vibration of mankind's discord and impurity imposed upon the substance of the elements.

Now I am going to ask all of you in the activities of your daily life wherever possible, will you, when you have to dispose of a substance which you are thru using, whether it be old garments, food, garbage or anything of that sort, try whenever possible, to put that substance directly into the Fire. If the fire is intense enough, It liberates the electrons or the Pure Light Substance within whatever you put into the fire, and then It is given back to the Universal, to be used over again—for Fire is the All-powerful Purifying Element.

Mankind puts a great many things into the Water Element and they say, water always purifies things by its action. Well, they don't know what they are talking about. Water separates into its component parts, the substance you throw into it, but you have not changed the vibratory action of the discord imposed upon that substance.

The student body has been taught to call to the Great Elohim of Purity! In His Dictation in Chicago, He asked you to call

forth His Cosmic Blue Lightning of Cosmic Purity. Now notice! He said, into the minds, the brains and bodies of mankind, because as the Blue Lightning of Cosmic Purity strikes the atomic structure of the brain and goes thruout the physical body, it consumes the substance, or rather purifies completely all substance thru which and wherever it passes, the same as physical lightning fuses the substance it passes thru into pure white quartz. If you will notice, quartz is semi-transparent! Just so with your own bodies. If there were no impurity in the atomic structure of your flesh, most people's bodies would be emitting a Soft White Light around them. They would be Self-Luminous! The very Light of their own Life which is coming from the "Mighty I AM Presence," is that Light Ray coming down from the Heart of the Presence, and in, thru the top of the head and anchoring within the Permanent Atom within the Heart! That Light Ray is in Reality a Stream of Substance coming from the Electronic Body into the Higher Mental Body and then into the physical form. That Substance, as more and more and more of it is allowed to flow without interruption by discord, would automatically purify your bodies and again make them semi-transparent and Self-Luminous.

Now the important thing, the Great Ones have been stressing to the student body, and which I want to impress upon you again today, is the need of UNINTERRUPTED HARMONY. Many of you hold Harmony pretty well for, oh, quite some time, but then sooner or later something rushes forward to cause discord. Well all discord my dear ones, will you please remember, is an impurity imposed that instant upon the substance of your bodies; whether it be the substance of the mental body, the substance of the emotional body, or the substance of the physical flesh or the atmosphere about you.

In the Great Cosmic Scheme of Creation, it is from the Element of Earth, that you draw the mineral substance which is within the flesh body. It is from the Element of Earth that your Higher Mental Body draws the finest part of that substance to form your Etheric Body. This is the Etheric Substance of the Light Pattern which is the exact replica of your Higher Mental Body. It is from the Water Element that the Substance is drawn to form your Emotional or Feeling Body. It is from the Element of the Air that the Higher Mental Body draws the finest part of that structure to form the outer intellectual consciousness, which we speak of as the outer personality.

The Fire Element abides within the Heart as the Unfed Flame sent down from the Presence.

Now then, every limitation you have, every bit of distress and all that has made your unhappiness of the past or present, is but a condensation upon the substance of those three bodies or the atmosphere about you, of that discord. We do not want you to keep your attention on the body and the discord which has been! You already know you have it. You are conscious each day of your limitations to some degree from which We are trying to free you. My dear ones, please try to remember the two things that turn you and your bodies back to the Perfection which they must become; or at least return them to that Perfection which the Higher Mental Body is. This is brought about by the use of your Violet Consuming Flame and the Cosmic Blue Lightning of Cosmic Purity from the Elohim of Purity; because when discord has been condensed again, again and again upon the same amount of substance, it becomes very hard. That solidifies and makes the density of the physical structure.

The Messenger has only mentioned this once or twice, I believe to the Staff; but the moment she places her hand on an individual in giving a Blessing she can tell the density of the discord within the individual's atomic structure; because the whole flesh structure has recorded it. The emotional body, the intellectual consciousness, which is but the Air Element focused into a body of the substance, records all discord. Therefore, the moment she touches that, she can tell the density which has been imposed upon its substance.

Each individual has a Special Attunement of the outer self thru the Higher Mental Body and the Presence. In some whose devotion and attention to the Presence is held there with firm determination; you will find the entire body structure becoming more and more refined. All of your bodies have become much more sensitive than when you first came into this "I AM" Activity. There is not any one of you who has sincerely called to the Presence and used the Violet Consuming Flame, whose atomic structure today is not at least a hundred times more refined and more sensitive than it was when you first came into This Activity. Well what made it? Your call to the Violet Flame, your Love and Adoration to the Presence, your calls to the Elohim of Purity and the God and Goddess of Purity.

All the Light and refining influence that has come from your "I AM" Presence into your bodies had to come from

above, didn't it? Well, do you know I would like you to feel that from the Earth Element, I give a Refining Energizing Love from My Heart thru the Element of the Earth into your bodies, to help them become more refined and more Self-Luminous? There has been so much discord imposed upon the Structure of the Earth itself, that mankind having imposed that must, by Conscious Understanding of the Law and calling It into action, redeem the Earth, help to purify it and raise it again to the place where it is Self-Luminous and semi-transparent.

Can you imagine what the structure of the earth would be like, if it were semi-transparent like white quartz only with all the various colors of the rainbow playing thru the white quartz? Can you imagine the beauty that was once here? I want you to feel, precious ones, what you and I can do to the structure of the earth Itself, to help purify It and return It again to Its greater state of Perfection. Every time your Life pours the Flame of Love from your hearts and your call goes forth for the annihilation of the impurity in the Structure of the Earth, I can come back to you in the atomic structure of your bodies, and make you feel My Greater Strength and Greater Harmony and Greater Beauty; because you do absorb tremendous Electronic Force from the Earth Element.

Look at your food! The food that you eat carries directly into the body, the mineral elements which have been placed within the ground; and how often has mankind been restored to health by simply walking or sleeping upon the ground and absorbing from the very minerals in the Earth itself—their purifying, Life-giving Essences: Why? Because the Element of the Earth gives forth tremendous Life-Essence to all who walk upon it.

Oh my! Mankind has just forgotten to give any Love to the Element of Earth. They use the minerals from the mountains, the metals from the mountains; they use the clay to build their homes; they use the wood from the plant life to build, and build, and build anything they want to build, and they never dream of thanking the Element itself, which they use to protect their bodies and to become their homes, their business buildings, and their means of conveyance. Do you realize, my dear ones, that every bit of solid substance you use in the things of your every day life, is composed of the Element of the Earth? True, there is some of the Water Element in it, some of the Air and some of the Fire, but I wonder if you have ever realized, that the physical things you handle are the condensation of the Substance of the Earth itself.

Now, I am going to take you into the Heart Center of Life's Great Laboratory of Creation. Who do you suppose gave the Substance of the Earth to form a world?

Who gave the Earth Element to form this Planet? I did! If there were no Earth Substance there would be no world. I am not competing with the Mighty Neptune at all, but the Water Element would simply be without formation, if there were not the Earth's Substance into which it is poured and which holds it; because the Water Element that is in the atmosphere is without form! So, if you are going to have things brought into form, then you must have some of the Earth's Element, which under the Great Cosmic Scheme of Creation, is that which I have drawn forth of My Own Life and condensed into a form which holds within its center the Unfed Flame; which carries upon its surface the plant life and the Water Element, and is surrounded by an atmosphere of the Element of the Air.

The Electronic Force from the Physical Sun inter-penetrates it all. Each one of the Cosmic Beings gives the Substance of His or Her Particular Element, to produce a world upon which manifestation takes place, whereon may journey the Individualized Flames from the Great Central Sun in physical embodiment as human beings. Then the Consciousness within mankind must be illumined, so it may pour forth Gratitude to Life, and enable Life to fulfill Its Divine Plan. Without Gratitude to the Life which acts thru Cosmic Beings to the earth, there is not one Life-Stream on the planet that can ever be Free! Until there goes back to the Greater Life, the "Mighty I AM Presence" the Love and Gratitude of an individual, the raising Power does not draw the Life Stream out of the Octave of the physical world. Whether it be the Unfed Flame in the heart; whether it be the Higher Mental Body and the Presence; whether it be the Substance of the ground you walk upon; whether it be the Air you breathe, or the Water you drink, everything on this Planet Earth is a Gift of Life to you—by which you may manifest here; expand the Action of your own Unfed Flame in your Life-Stream's Individuality and thru that, become the Greater Momentum of the Flame, by which one day, you are able to become a Creator of Worlds and Systems of Worlds.

I am not pleading for your Love to me. I long, long ago did not expect that from mankind! I am pleading for your Love to the Earth Element, that the Beings under My Direction

who produce the Manifestations within the Structure of the Earth and on the surface of the Earth, may have your Love and Gratitude, and be released from mankind's discord; to become your willing co-workers, and more readily bring forth the manifestations you desire to produce—the Beauty and Perfection which will bless all mankind and will bless the Earth itself.

You think that the Earth is an inanimate thing that does not feel, but I tell you you are mistaken if you think that! Do you know there are Currents within the crust of the Earth which carry the Light Substance from the Physical Sun and from the other Planets of this System, thru certain portions of the crust of the Earth, exactly as your nerves carry the Light Substance from your Higher Mental Bodies thru your flesh forms. Just as blood flows thru your veins, are there arteries of Electronic Force that flow thru the crust of the Earth and carry the Light, which enables the Planet to be sustained. These pour forth for mankind's use, the substance manifesting in the things they use in their daily existence.

The Earth is a Being, My Beloved ones, and corresponds to the physical body. The Earth is My Creation! It is the Body of a Being—the Body of a Cosmic Being, and "I AM" its Director, so far as controlling of the substance of the Earth Element is concerned! Just as you have the Four Elements within your body, so does the Earth Itself hold the Four Elements of Manifestation, by which that Manifestation takes place. Therefore to you, who have been so richly blessed by the Beings of the Elements, I come today, to ask your assistance in your calls to your "I AM" Presence and the Ascended Masters; to pour forth into the Earth Element whatever Purifying Power of the Fire Element is necessary, to release it from the impurity and discord imposed upon the beings of the Earth Element, by the mass of mankind.

Do you know what would be the result to mankind in the improvement of the plant life upon this planet, if all blight, animals and vermin were removed? I mean suddenly this way! (Action of the hand) I do not mean all in one moment, but if the Life which has been clothed in the destructive qualities functioning thru those forms and radiating their impurity and discord to the Life in the substance of the Earth Itself, could be released from that impurity completely in a few years, there would come forth such vegetation upon this Planet, as would make it once again, the Garden of Eden which was referred to

in your Bible. The Garden of Eden referred to was the condition of the two first Golden Ages upon this Earth, when the Beauty, Purity and Luminosity were still here!

Now I say to you who understand this Law, you can be the Vanguard of the mankind of Earth, who begin to return the Structure of Earth once again into that original Pure Condition; but it must come about by those who consciously understand this Law of the "I AM"; just as you are returning your bodies to the Beauty and Purity from the Higher Mental Body which you had in those early embodiments. You did not look as you do today. In those early embodiments of the two first Golden Ages, you looked like your Higher Mental Bodies. You held to the Beauty and Luminosity of the Original Divine Plan, and only as the discord began to distort that and cover it over with imperfection, did the appearance of mankind's bodies change to what they are today.

Well, just as you are returning now to the appearance of your Higher Mental Bodies, so do I ask your assistance to help Me return the Substance of the Earth Element upon this Planet, to the Beauty and Perfection of Its Higher Mental Body; return it to the Beauty, Purity and Perfection of those two first Golden Ages. Then, My dear ones, will the Beings of the Elements bring their Blessings to those who will make this call, and pour forth the Love from your Life Streams to that part of Life which serves you thru the Element of the Earth. Just as your "Mighty I AM Presence" floods Its Love and Its Blessings to you and you flood your Love and Blessings to Those Beings and that Substance, will you find yourselves supplied almost without effort, with the things of the outer world which you wish to use to more rapidly expand the Light; or to bring Perfection into your homes and business conditions, that enables you to give greater blessings to the rest of mankind.

People tear the inside of these magnificent Mountains to shreds, for wealth to go out and injure more of mankind. If they would give obedience to that Beloved "I AM" Presence and just live in the Happiness and Enjoyment of pouring forth the Love and Blessings from the Presence to the Beings of the Elements, and command all things to become the Perfection of the Divine Plan fulfilled, they would not have to work as the outer world does and by the sweat of the brow method, barely eke out an existence; when everything on this Planet, by the very nature of its existence here, was brought forth to help you fulfill the Divine Plan in the Happiness and Freedom which

is the Beauty of Life, and the Purpose of Its Expansion in this world.

Life is ever giving more of Itself to you, thru every channel of manifestation on this Earth. Life has given you a world upon which to live! It has given you the use of the Four Elements in your bodies and in the world about you! It has given you a Flame of Itself in your own Heart! It has shown you the Pattern of Perfection! It has endowed you with Free Will to choose as much beauty as you please; to draw forth as much Power as you please; to use as much of the Substance of Earth as you please; to fulfill every desire of your heart when that desire is to expand the Perfection and Beauty of the Divine Plan; so It can bless everything that you use with all the Perfection that is within the Fire Element, the Unfed Flame in your Heart.

Life has not withheld one thing from those who have Free Will and the Unfed Flame in their hearts. When they once again turn their attention back to the Higher Mental Body and receive of Its Illumination, and just love to give the obedience which lets Its Divine Plan be fulfilled thru the Earth, you will not have to ask the Beings of the Elements to do anything for you. They will rush to serve you, because whenever they know or contact a Being who is giving obedience to the fulfillment of the Divine Plan, they flood their Blessings automatically. When Harmony is uninterrupted, the Continual Blessing which flows forth to the Beings of the Elements thru that ever-intensifying Love and Harmony, will automatically draw to you, those who have Gifts to give and which you would love to use.

Life within the plants and within the Planet; Life within the minerals and the metals; Life within the Earth Element Itself, is a part of your Life, because you have some of those Elements within your own flesh structure; and I might say to you, that if you really want obedience from the atomic structure of your flesh, if it were Me, I WOULD CALL THE COSMIC FLAME OF COSMIC LOVE TO BLESS EVERY ELEMENT IN YOUR BODY WITH *ITS* AUTHORITY OF PERFECTION; because the Cosmic Flame of Cosmic Love is powerfully purifying! It is the Authority of Creation. It contains all Wisdom and It is all Power! Please do not think Me hard on you today, but the substance of your bodies has almost never had a blessing. You might think you have but I say you have not; because if you asked the Cosmic Flame of Cosmic Love from the Great Central Sun to bless every particle of the

Substance of the Four Elements which is within your bodies, and bless, and bless, and bless them with that Cosmic Flame of Cosmic Love, you could not have a pain nor an imperfection within your flesh structure.

Most people's attitude has been to just use these bodies, criticize or condemn them, put them to any service they choose, without ever once realizing that they ARE responsible to Life, for the use of the Four Elements within their bodies! Do you know how long it takes to build the Etheric Body of an individual, before the individualized Unfed Flame can descend and become a physical identity for a human being? Do you know how long it takes to create the Etheric Body? Centuries! Before one can individualize, the Higher Mental Body with the co-operation with the Beings of the Four Elements, draws into a Focus the finest portion of the substance of this Planet. Those Little Beings draw that finest portion of the Earth's Substance into the Etheric Body and make It a Self-Luminous Perfect Replica of the Higher Mental Body. When those Beings have completed that service, then the Higher Mental Body projects the Unfed Flame and the individual becomes an individualized human Being, with an intellectual consciousness into which the Seven Mighty Elohim focus the Seven-Fold Flame within the brain structure. That Flame is anchored within the Etheric Body. That Etheric Body, My dear ones, is built by the Beings of My Element.

Now you will know why I plead for your Love and your Blessings to those innumerable Beings of the Earth Who have rendered this service to mankind. Mankind in their cheap evaluation of Life, think nothing of destroying the physical bodies thru war; and nothing of imposing destructive records upon that magnificent body of clean, pure, Self-luminous Substance from the Element of Earth. It is the Divine Pattern of the identity of your Higher Mental Body. Mankind owes to the Earth Element Love, Blessing and Gratitude for all they have used and received thru the centuries. To you who come as the Light-bearers of the Earth—bearing Saint Germain's Instruction of the "I AM," privileged to use the Violet Consuming Flame of His Love, of which He is the Angel Deva and Director to the Earth; privileged to use the Elohim of Purity's Cosmic Electronic Force to purify what you will, to you I appeal! Give your Cosmic Calls for the purification of the Beings of the Element of Earth and more assistance to mankind, until this Light has expanded to the point where We can bring forth Gratitude in the mass of

mankind, for all they have been privileged to use of Life's Gifts.

What think you is the service of the Element of Gold within the Structure of Earth? "I AM" the Authority over that also, together with the Mighty Helios. Mankind digs in the Mountains for Gold and never says "Thank you" once to Me. No wonder the world is in chaos; no wonder the forces of war are rampant—ingratitude is the cause; because selfishness has taken the place of Cosmic Love which built and owns the Universe around you. Mankind's ignorance has taken the place of the Divine Intelligence and Wisdom of that Cosmic Love from the Great Central Sun which sustains the Manifestations of Infinity.

Try Me out, beloved "I AM" Students of Saint Germain! Try Me out by blessing the Element of Earth in your bodies and the Element of Earth that you walk upon and in the things that you handle and use. Try Me out, I say, by giving that Call for the Cosmic Flame of Cosmic Love to bless everything that is of the Earth Element, with the Cosmic Purity of Cosmic Love and see what I will bring to you! May I remind you that I own all the Substance of the Earth! May I say to you that everything mankind uses to produce physical things belongs to Me, and the proof of that is, when they pass out of these bodies they still have to leave the Earth here and all the things they thought they possessed.

To My Beloved Beings of the Earth Element, I would ask you to pour your Love and make the call for the Cosmic Blue Lightning of Cosmic Purity to Purify the structure of Earth, to purify mankind's use of the Earth Element; and set those Beings free from the discord of mankind's generation. Do you know that with enough Love poured to the Beings of the Earth Element, they will bring to you Their choicest Gifts, Their most magnificent Jewels, Their loveliest flowers, Their mightiest Wealth. I would have you make Them your Friends of the Light, if you will. They do My bidding!

It is no trouble for Me to direct Wealth into your hands, but "I AM" not going to do it, unless it is used to uplift mankind. Wealth, My dear ones, all on the Earth, is placed here to raise mankind into the Ascended Master's Octave, and make the Substance of Earth a blazing Sun in Space, around which whirl the planets of a system. One day the Earth must become a Sun, around which the planets and systems of planets is drawn and upon which individual Life-Streams may come and journey for a while, as they expand the action of the Sacred Fire in the

Beauty of the Fulfilment of the Divine Plan; until they become Those Cosmic Beings Whose Directing Intelligence governs an entire System of Worlds.

I say to you, beloved "I AM" Students, the more you see mankind misusing My Element, the more I ask you to call forth the purifying Power, the Cosmic Light, the Blue Lightning of Cosmic Purity and the Violet Consuming Flame to purify, purify, purify everything from mankind's discord that has been imposed on the Forces of the Elements. The Fire will not take impurity into Itself—rather does It destroy Its opponent, but not so with the Element of the Earth, not so with the Element of Water or the Air. Mankind's discord imposed upon them must be consumed by the Action of the Fire Element from the Mighty Helios; from the Great Central Sun and at the Conscious Command of those individualized forms from God's Own Heart, Whose Unfed Flame functions thru the mankind of this world.

The day that you become a Being of the Cosmic Flame of Cosmic Love whose Harmony is uninterrupted; whose constant Expansion of that Cosmic Flame of Cosmic Love, goes into the Structure of Earth under your feet; goes into everything you contact; goes forth to bless all Life with the Fulfillment of God's Divine Plan; the day that you become a Being of that sort, will you know the privilege it is, to bless all Life with the Cosmic Flame of Cosmic Love! Then everywhere you move, all the Universe will love you, and assist you, and give you the best It has.

This is the only Qualification, My dear ones, that Life requires. When you just keep calling forth the Cosmic Flame of Cosmic Love to the Substance of the Four Elements; to maintain your Harmony, then you give your own glorious "I AM Presence" Its Greatest Opportunity, to release Its Unfed Flame thru you and reveal to you, Its Master Presence of Beauty, Perfection, Opulence and Freedom.

Not idly can mankind use the Substance of this world to create impurity and destruction, for I tell you, it returns into their flesh and they cannot escape! Their bodies are composed of the elements of this world, and that which they do to those elements will one day come back into them; but when you understand this Law of the "I AM" with your attention held to the Presence, and your Call for the Assistance of the Fire Element from the Beloved Helios and the Great Central Sun, to pour thru you Its Mighty Presence, you become a Living Blessing and Mighty Focus of the Cosmic Flame of Cosmic

Love's Purity and Perfection, Happiness and the Fulfillment of the Divine Plan to all the Beings of all the Elements wherever you move and to which you direct your attention. Then you will find inanimate things become obedient to your conscious direction.

My dear ones, not that I offer any Power as a reward for obedience to the Law—never—because obedience to the Law must be given because you love to give it and for no other reason; but I say to you, that one of the Powers of the Presence, that of Levitation, comes from the Conscious Expansion of the Cosmic Flame of Cosmic Love which blesses all the Elements with the Uninterrupted Harmony of Life. It at all times enables the individual to receive Perfect Obedience from any one of the Elements that you might choose to use at the moment.

I wonder if you can imagine the Beauty which would be in these Mountains were the substance that is now black, brown, grey and of indiscriminate color to become self-transparent, or of iridescent hue, delicate as a pearl, and yet as powerful in its Radiation as the Beloved Helios would have it. Do you know why that Beauty would manifest? If the Structure of the crust of the Earth and the plant life upon it, were purified to that degree, the Radiation of the Unfed Flame within Its Heart and the pouring of Mighty Helios' Light upon it from without, would form a connection thru the structure of the Earth Itself, and it would become Luminous and iridescent with more beautiful colors than mankind have ever imagined—colors that are within the Rainbow. They have no impurity, but they would come forth with such intensity that their very Radiation, the very Beauty within them would heal mankind of discord! When they gaze upon the Supreme Beauty of Creation, mankind absorb that into the flesh structure thru the sight, then that vibratory Action qualifies the substance of the body itself and releases the Beauty and Perfection of the Higher Mental Body thru it completely.

So in rendering this service, which I ask you to give to the Earth Element wherever you move, just pour forth the Cosmic Flame of Cosmic Love, the Blue Lightning of Cosmic Purity and Saint Germain's Violet Consuming Flame thru all. Call them into action everywhere—into all substance that you use, and give forth such a command for Eternal, Invincible Purity to manifest, that it becomes a thing of Beauty and a Blessing for Eternity.

Now Beloved ones, under no circumstances allow yourselves

to swing into a feeling of self-condemnation. If you have done things that seem to have been ungrateful to Life, ask the Presence to draw the Curtain of Light behind you and shut it from your memory; consume it, cause, effect, record and memory, and go forth in the Arms of your "Beloved I AM Presence"! Walk the structure of this Earth and blaze the Light from your heart to every Being of the Four Elements! So clear your own brain structure, that you will be able to see them with the physical sight as easily as you see each other. There is only one thing that hides those Blessed Beings from your physical sight and that is, the impurity in your own mental and feeling world; because if the mental and feeling world were purified, the atomic structure would very shortly become Self-Luminous.

No matter what has happened, please remember, precious ones, there is nothing gained by looking back and condemning either yourselves or others. Remember the Light is always ahead of you and above you! Beneath you is the Substance of My Element which I have drawn forth to bless you! When mankind of the outer world is doing that which only creates distress for them, they need all your calls for Our Help. Remember, in your onward journey into the Light of Eternal Freedom, forget not your calls to the "Mighty I AM Presence" and Cosmic Beings, to release all that is required to stop mankind's distress and selfishness.

The hour will strike, when the increasing Cosmic Light's Substance — drawn and directed by that Great Group of Ascended Masters from the Central Sun Who govern Its Activity to the Earth, will condense and concentrate into the atmosphere of Earth and descend into My Element of Earth. Then in passing thru the Four Elements in the atomic structure of mankind, it will compel the dissolving of all human selfishness and discord. After that, the Higher Mental Bodies of mankind will be in command and the human intellect be used for that for which it was originally created—to design, produce and expand Perfection, which blesses all the Beings of all the Elements and all the Universe around them forever!

Does not the Physical Sun bless all in this System? Do not all the Stars bless all around them? Do not the Greater Suns in all Systems of Worlds and the Heavens above you, stay within their Appointed Path? Do They not pour Their Light to the rest of the Universe? Then why should not you? You came here of your own Free Will, to bring the Blessing of the Unfed Flame in your heart, to all upon the planet. That was your

Original Promise to Life and you accepted the responsibility, when you individualized! You have chosen this Pathway of Light of your own volition, and until you fulfill your Agreement with Life to expand the Cosmic Flame of Cosmic Love, to bless all the Elements and all the Beings Who carry on the Activities of those Elements, Life will hold you to your Promise. Your own Life, you yourself, will hold yourselves to the Fulfillment of your own Promise to Life!

I come this afternoon to show you a Secret that none of the mass of mankind understand! Today, in the call for the Cosmic Flame of Cosmic Love from the Heart of your own "I AM Presence" thru your physical heart, and that same Flame of Love from the Physical Sun and the Great Central Sun, to flood into all the substance you contact and all the Beings of all the Elements, you have Life's Scepter of Power, Life's Directing Intelligence and the Secret of the Control of the Four Elements. When you have obtained obedience from them, within yourselves, within your atomic structure and the Unfed Flame within your hearts, will you find automatically all around you obedient.

When you have held your Harmony uninterrupted and you are occupied with calling forth, expanding and flooding everywhere, the Cosmic Flame of Cosmic Love into all outer manifestation, you will find yourselves clothed in a Sun of Its dazzling Flame; and as that reaches within the Structure of the Earth upon which you tread, one day when that momentum is great enough, you will find the Beings of the Elements flooding your pathway in this world with Their Gifts of Perfection; and the Beauty and the Joy you have given them will return to you in the form that your Love requires.

You can draw forth without any limit whatsoever, the Cosmic Flame of Cosmic Love from your own Mighty Electronic Body! It can expand thru you to the Beings of the Elements and intensify to them, all that is contained within the Cosmic Flame of Cosmic Love in Its Cosmic Action. It can flood the Earth, and the world needs It.

Precious ones, who have gardens and are interested in assisting us to bring forth the new plant life which belongs to the Golden Age; together with the Lord Maha Chohan, the God of Nature, may I be privileged with Them and Others who will assist you, to bring into your gardens thru My Beings of the Elements, wonderful new flowers, fruits and vegetables; and who knows one day, there can come Jewels of magnificent beauty

whose Light Rays reflecting their Blessings around you, bring forth the Beauty on this earth that was here once before. Then will you know what Victory means, when He speaks of your Garden of Light. That sounds like a figure of speech. It is at the present time, but it should and can become a Reality of Manifestation in the physical octave for you.

Your gardens, My beloved ones, with this Understanding should be the beauty spots of the world! Your products should be the wonder of the age! Remember My Words today! Give Me this co-operation and help purify the conditions under which the Beings of the Earth Elements struggle, and you can be the outstanding Lights of America and the world in five years' time. Forget not to bless the Beings of the Elements with the Cosmic Flame of Cosmic Love from the Central Sun! It is the greatest Reality in the Universe; the Cosmic Flame of Cosmic Love from Helios' Heart; the Cosmic Flame of Cosmic Love from your own Beloved "I AM Presence," from the Ascended Masters and Cosmic Beings. Call forth that Cosmic Flame of Cosmic Love into all atomic structure until it becomes the Purity, the Beauty, the Self-Luminosity and Obedience to your slightest desire, which enables you to produce Manifestations that make the mass of mankind wonder!

I stand ready to assist you, and if you will bless and bless the Beings of My Element, I will stand beside you and help to bring a Substance that will heal those who need your assistance. When some part of the body is destroyed, then there must come forth new Substance, if its Perfection is to be re-established. So you must have some of My Element to mold that solid substance once again into the Beauty and Perfection of the Original Plan. "I AM" instrumental in the re-establishing of the Perfection of mankind's physical forms! I have supplied that Substance and I will be grateful and happy to do it, when your calls come to Me! I have never refused! I could not refuse for My Light is here to give the Perfection of Life! Wherever an imperfection has seemed to come forth "I AM" not concerned, except to dissolve it and to re-build all into the Beauty which blesses the whole!

Oh beloved ones, the outer mass of mankind as yet are so deeply enmeshed in their discord, darkness and ignorance. Yet I say to you, that if every human body which has been buried in the substance of this Earth, had been taken and placed within the Fire Element and consumed, you could never have had this war today. So as rapidly as possible, call forth the Complete

Illumination of the Cosmic Light into the mind and brain structure of mankind, for only there can there ever be the obstructive mental realm. Then pour the Cosmic Light, the Cosmic Blue Lightning and Cosmic Purity into the emotional bodies of mankind. Then will they be more receptive to the Illumination which Saint Germain has brought thru This "I AM" Instruction, to the point where the mass of mankind will accept cremation. When that day arrives, I shall utter to the Heart of Creation, My Heart's Praise, Love and Gratitude, for the release of the Earth from that frightful impurity and discord!

My Beings of the Elements have to handle that terrible filth! Oh, may you bless Beloved Helios forever, for the Activity of His Fire Element; because when mankind's impurity and discord are placed within the Fire Element, that which is less than Perfection, ceases to be in the Universe! Only the Pure Electronic Force of the Universe remains. The substance is purified once again and it can be used to fulfill the Divine Plan.

Oh My dear ones, call the Blue Lightning and Cosmic Flame of Cosmic Purity into the Earth Element in your bodies! Blaze It from your Presence into the structure of Earth and give Me the opportunity to bless you, as you do not yet know how you can be blest. Let Me show you what I can bring forth in the way of Magnificent Substance for mankind's use in their homes, in their buildings, in their cities, in their means of transportation. You all have to have My Element, precious ones. You could not have a manifestation of a form of any kind, unless you had some of the element of Earth! Help Me to once again purify this Planet, and I shall show you what the Love and Gratitude of a Cosmic Being can be to you! You are only a handful of people compared to the mass of mankind! You have the conscious understanding and Knowledge of this Law! The mass of mankind are in the darkness of their own misunderstanding and someone must be the Light, which draws them out of that frightful unhappiness.

Every human being on this Earth, precious ones, who is unhappy, becomes a pressure of unhappiness to the Beings of My Element. So won't you feel obligated to hold your Harmony uninterrupted, in order to be the Happiness of the Cosmic Flame of Cosmic Love wherever you move to everybody everywhere? Give me that much more opportunity to expand My Blessings to you. As you carry them and expand them to others, they will convey a Light to the consciousness of mankind into

their mental and feeling world; because they are one with your mental and feeling world. All the Light I give you, all the Love and Blessings you pour to the Beings of My Element, is a Light in the consciousness of the mental and feeling world of mankind. So, We must lift the whole body of mankind into the Light, into the Power and Perfection which continues to expand, until once again the Beauty and Perfection of those two first Golden Ages, returns to the Earth and the Cosmic Beings know that Their Work of Countless Centuries has not been in vain.

I shall bless your Beloved Saint Germain for all Eternity for all His Love for where He walks, the Beings of My Element are cleansed and set Free. Wherever He Pours this Instruction of the "I AM," more Light blazes, more Harmony appears, more Wisdom directs and more Love pours forth to purify all. Do you wonder that I love you? Do you wonder that I come to just a handful of people, when you can be such a Blessing to all the Earth and all upon it? Forget not your opportunity and just feel that whenever you require anything, call to Me and I shall be so happy to supply it. If it is of the Earth Element or of the Great Cosmic Love I bear the Universe, "I AM" Its Gift to you!

Ask and ye shall have My Choicest Blessings! I shall watch you and as you help the Beings of My Element, shall My Love and Help come back to you increased a billion fold! "I AM" not limited, but I love the Beings of My Element whether they be in the ground or whether they be in your bodies. They are still the Beings of My Element, and "I AM" responsible for Their Life and Their Service to Life. So, if you will help Me to fulfill the Divine Plan of Life, I shall see that your Joy knows no bounds and It shall ever expand, until all have become Its Freedom too!

I hold the Hand of your Mighty Saint Germain for the purification of the Earth and all upon it, for that is His Great Service to the Earth. His Great Service to this System is to Purify mankind, the Earth and all upon it, until it is returned to Freedom once again in the Heart of the Cosmic Flame of Cosmic Love from Beloved Helios. I hold His Hand and as you are His Family, "I AM" privileged to bless you! Command what you will from my Element! Hold the Harmony, pour forth God's Purity, and I shall answer you beyond anything you can understand now! I shall answer you in your bodies with greater Purity, Happiness and Ease! I shall answer you

with Gifts from the Powers of Nature, that you do not yet know exist!

The Beloved Lord, the Maha Chohan, in the Great Gratitude He pours to you, is also My Friend to the Element Earth! May some of those Magnificent Manifestations that have never come to the Earth before, be drawn forth now at your conscious command. May they produce such wonders of Beauty and Power, Purity and Perfection, that they shall compel mankind's attention to be raised to the "Mighty I AM Presence" and the Ascended Host, and thru that draw them up and into the Conscious Knowledge of the "I AM" which is their Freedom in the Light!

Call on the Law of Forgiveness for mankind's misuse of the Element Earth! Call on the Law of Forgiveness for all discord imposed upon the Beings of the Elements! Then set to work and bless, and bless, and bless, expand, expand, expand and charge forth continually the Cosmic Flame of Cosmic Love with the command that the Beings of the Elements shall be released from mankind's impurity. Command the impurity to be consumed! Command God's Beauty revealed and the Divine Plan fulfilled and hold mankind's attention unto the Heights of Victory!

Purify, beautify and set into Divine Order everywhere you move, all that you contact. Begin with your bodies, your minds and your feelings, and see that the things of the physical world which Life has brought into your use are blessed, purified and kept in Divine Order; thanked, protected and commanded to fulfill the Divine Plan in the Mightiest Joy Earth has ever known. As you give Joy to the Beings of My Element, I shall show you what the Cosmic Flame of Love, Gratitude and Joy from a Cosmic Being, can give to you as Manifestations that will delight you and be sustained for Eternity.

May you be enfolded in the Cosmic Flame from My Heart, feel and receive the Limitless Supply of everything in this Universe which is of the Element Earth, come to you in Love, Blessing and Freedom; for your use in the producing of Perfection which is the Purpose of your journey here and the Destiny of all Manifestation! I have Wealth untold which I can give you on a moment's notice; but that is not why I ask you to love the Beings of My Element! Just give obedience to this Law, and you shall have whatever you require when and as you need it, with a Freedom of its use that brings no distress and which is protection against the jealousy and selfishness of the outer world.

I have never quite touched upon this subject before, but I say to you, the Beings of My Element can make invisible to destructive forces, that which they have no right to use. I think I have said enough! May we be Friends and Co-workers on the Pathway of Perfection; and may the Beings of the Earth Element by your attention to Me this afternoon, receive all your Love and give you Their Gifts to the fullness of your Eternal Freedom!

I thank you and love you, Oh beloved Family of Saint Germain. May I bless the Element Earth within your bodies this hour with such Love, Purity and Perfection from My Heart; that you shall feel the Release and know that the Substance and the Love I have offered, is a Reality and an Eternal Part of your Life. Thank you with all My Love and Gratitude forever!
