

## BELOVED MIGHTY HELIOS' DISCOURSE

OURAY, COLORADO—FEBRUARY 6, 1945

MY BELOVED ONES of the Golden Flame whose heart's call to Me has reached thru Infinite Space, I come in Majesty and Power unbelievable to the minds of mankind. I answer your heart's call with a Love and Gratitude that you can scarcely understand; for I have waited centuries for mankind to open the door from their Octave of Life, and let Me reveal to them the Gifts Life holds, to make them the Glory of Its Majesty and Perfection.

I come clothed in Mantles of the Fire Element, sacred unto the Heart of Creation and the Mighty Focus of Power, mankind does not know exists. Out of the Infinite Space from whence come the Manifestations of Creation, do we draw the Powers of Life to create Manifestations which are the Out-pouring of Love and Happiness to all that exists. We pour constantly to the Planets of this System, that which shall forever express Greater Beauty, Greater Perfection and Greater Happiness. We live but to expand the Perfection of Beauty and the Fulfillment of the Divine Plan everywhere thruout Infinite Space. We give those Activities of the Fire Element that contain forever the Majestic Power of Life in Its Cosmic Victory and Freedom thruout all Creation.

The Life We have poured to the earth thruout the centuries is the Intense Cosmic Love which We have drawn forth thru Concentrated Action and Devotion to the Heart of Creation, the Great Central Sun, Whom We adore as you have adored the Physical Sun this morning. Out of Infinite Space and out of the Heart of Creation has come all that is, and out of the Heart Center of Creation, thru the Physical Sun, has come everything that has every manifested upon this Earth, for even the Cosmic Beings Who render assistance to this Planet come always in cooperation with Me. "I AM" the "Crystal Cup of the Sacred Fire" within which Life has placed the Might Directing Intelligence, the Divine Plan and all the Power required to out-picture the Manifestation of Its Fulfillment on this earth! For long centuries mankind lived in the Glory, the Joy, and the Perfection of that "Mighty Cup of My Fire Element." Then because of the Free Will, they chose to turn their backs upon the Beauty of the Divine Plan and, walking in the shadow of their own imaginings, misused the energy by which they were enabled to produce manifestations here.

Each Life-Flame as It comes forth from the Great Central Sun thru the Physical Sun, accepts the responsibility in the use of the Free Will, of being the Conscious Director of Substance, of energy, and of consciousness—knowing full well that each one's duty is to fulfill the Divine Plan. Those Life Streams who have individualized directly from the Great Central Sun thru the Physical Sun to perfect the Earth, are a group of Individuals who have always held to a Certain Consciousness of their Original Divine Plan; and therefore, they drew forth the Strength which has been the God Protection of their Life Streams down thru the centuries. Those formed the Guard of the Planet Itself—I mean the Anchorage of their Life Streams upon the Planet, is the Action of the Cosmic Law which holds this earth in perfect connection and communication with the other Planets of the System, as well as the Mighty Light Rays that come forth thru the Physical Sun from Myself. Thus, the two Streams of Life that manifest upon this Earth are the balancing activities of Life for the outpicturing of the Divine Plan.

The Mighty Power of the Fire Element which comes from the Physical Sun to this entire System of Worlds, is the Life that holds the Substance of the Planet in form, and that is the Electronic Force which enables Manifestation to come forth, both from within the Substance of the Planet Itself, upon its surface and within its atmosphere. The Life Streams that come from the Central Sun thru the Physical Sun to the earth, form upon the Surface of the Planet, individual Foci of the Unfed Flame to govern the Activity of the Substance and Energy which I have given thru the Physical Sun and by which they may produce Manifestations of Beauty, of Perfection, and of Joy in the out-picturing of the Magnificence of the fulfillment of God's Divine Plan.

The Unfed Flame in each heart, responding to the Unfed Flame in the Physical Sun, if mankind but knew it, would be at all times an Open Pathway of Fire directly to Me; and also directly to the Angels of the Golden Flame Who guard the Action of the Golden Fire, the Golden Flame to this earth. There are Great Legions, My loved ones, of Angels of the Flames of various colors. That is because They form the Guard or Protection of the Streams of Force which are drawn into the Substance of the atmosphere of Earth, upon the Earth itself, and within its structure to grow and produce the Magnificent, Infinite Manifestations of Cosmic Beauty, which the Directing Intelligence of Life brings forth so magnificently on this Earth.

There are those who are now manifesting in human form that originally did not individualize direct from the Great Central Sun. There are Beings of the Elements Who, because of Their Service to the Constructive Way of Life, under the direction of certain Ascended Masters, have accepted the responsibility of Immortality. Those have come forth as Beings of the Elements Who have been raised into the Individualization of the Flame, the Unfed Flame, by the Love of some Ascended Master Whom They served. One day, My loved ones, as you progress upon the Great Cosmic Pathway of Light, in Its Mighty Onward Movement in the Cosmic Scheme of Creation, will you stand a Being Who is the Director of a Planet, and when you do, you too will confer Immortality upon the Beings of the Elements Who have loved you, Whom you have loved, and Whose service over a certain length of time without interruption, automatically draws Immortality, or at least opens the door to the conferring of Immortality upon those Beings.

Life in Its Cosmic Action, is so Magnificent, My beloved ones, that if mankind would but raise their eyes and look above, they would know the Truth of these Words I speak, and doubt would die forever. Mankind's attention must be drawn to the Infinite Powers above them, thru the call of unascended beings; and they must have experiences which reveal to them the Truth—that when they make the call to the Greater Activities of Life, to the Greater Intelligence of the Universe, and send Love there, that Greater Part of Life does answer their call and they receive of that which is Greater than themselves.

In the Outpouring of the Fire Element which is My Cosmic Service to This System of Worlds, you must know that It is an ever-increasing, ever-expanding and intensifying Concentration of the Flame of the Cosmic Love from the Great Central Sun, because Life within Itself in the Fullness of Its Perfection, is the Out-picturing and Cosmic Authority of Cosmic Love in all Its Infinite Manifestation. Within that Cosmic Flame of Cosmic Love is every quality, every design, all of Wisdom, and all Power from the Central Sun by which you may accomplish anything the Life within you desires to accomplish; because the Love in your Unfed Flame has all Power to fulfill Its Own Desire, to out-picture Beauty and Perfection and Eternal Self-luminous Manifestation. Within every Unfed Flame in the Universe there is that Capacity. Therefore, remember—you are Life, the Magnificent Authority of Creation, and every Constructive Desire within you is a Command from the Great Central Sun to express

and to expand wherever you move, Its Imperishable Beauty and Perfection to the rest of Creation—in that Invincible Power and Joy of the Sacred Fire which is the Master Presence of Creation.

Whenever you wish to draw forth any particular quality you desire sustained in the physical octave, call to Me for the Flame of that Quality to go forth on your Spoken Word, and BE the Manifestation of the Fulfillment of your call—Imperishable, Invincible, Self-luminous and the Master Authority over everything on the earth. You are not the beings of limitation, you have so long accepted yourselves to be in the past. You are not the atomic structures of these bodies. You are the Unfed Flame from the Great Central Sun, whose promise to Life—to fulfill Its Divine Plan and Out-picture the Fulfillment of your destiny—was given in the beginning by your vow to the Source of this Universe. That vow must one day be fulfilled thru a physical form. When you give a Promise to Life, Life holds you to that Promise, even though it takes æons of time for Its Completion. The reason for that is, when there is a desire within any part of Life which is held within the Fire Element, that desire is always for Eternal Perfection. Therefore, It is Eternal Authority, therefore Ultimate Victory, and the Destiny of the Fulfillment of that Divine Plan is Absolute and Irrevocable!

These atomic bodies in which your Unfed Flame stands clothed this hour, are really no more than a thin veil of substance so far as We are concerned. We see every desire of your hearts. We see every wave of the Expansion of your Light. We see you longing to free Life from human qualities; and if the attention of an individual has been held upon any Cosmic Being Who directs the Fire Element, that individual will be as surely clothed in the Flame of Love from that Being, as the Universe exists. It cannot be otherwise! We give of Ourselves, and We Who are the Authority of the Fire Element, send forth that Flame in whatever Intensity and Quality is required, to fulfill the Divine Plan thru all Life whenever the attention comes to Us.

Mankind holds their attention so fastened within the substance of this Earth, within the substance of their bodies and their feelings, that their calls almost never come to Us to set them Free! Mankind does not call for Freedom, and they have it not; for Freedom, My loved ones, is a Gift from within the Fire Element of Life! None can be Free on this earth until every bit of substance, energy and consciousness has become purified by passing thru the Fire Element! Every particle of the Element of Earth within the atomic structure of mankind, every particle of the

Element of Water, every particle of the Element of the Air, must pass thru the Element of the Fire before Purification is complete. Hence, all the Light and the Electronic Force that comes to this earth from the Physical Sun is of the Fire Element.

In the Action which the Seven Mighty Elohim pour forth to mankind on this Earth thru the Flame anchored in the forehead of every human being, there comes the Consciousness, the Faculties of those Great Individualized Beings Who give of Their own Knowledge thru the intellects of mankind, to help them regulate things in the outer world so the Divine Plan may be fulfilled.

It is My privilege to pour forth to the whole World, the Action of the Fire Element from the Physical Sun, thru the Seven Mighty Elohim and act within Them; stepping down as it were, the Intensity of the Fire Element, and charging thru the intellects of mankind, certain Faculties from Themselves to hold balance in the mental world, in the mental body, of every human being. Now in that mental body there are various faculties of the mind, each of which should be used in Perfect Balance with the others; for when Balance is not maintained within the mind, then Perfection cannot come and distress ensues within the body. The same thing is true within the emotional body. The Mighty Neptune, Who governs the Action of the Water Element to the Earth, places within every human being the Capacity to hold Balance within the feeling world, and that Balance acts thru the Unfed Flame in the Heart. Again, the control of that Water Element is governed thru the Fire Element in the Heart; and Neptune radiates into the Water Element His Intelligence and Purifying Power, to balance the Energy with which individuals are endowed, and by which they are enabled to fulfill the Divine Plan.

Now in assisting the rest of mankind to the point of Illumination, where they have the Conscious Understanding of this Law of the "I AM"—of each one's own "I AM Presence," and of the existence of these Cosmic Beings—there must come more Conscious Understanding of the Use of the Fire Element. That is why your Mighty Saint Germain, as Angel Deva of the Violet Consuming Flame, is One Whom mankind must accept! He is that Action of the Fire Element which must come thru their mental and feeling world; thru their atomic flesh, and thru the atmosphere of earth; before they can understand, that to fulfill the Divine Plan of Perfection, is the Destiny of their journey thru this world.

As We come to the Use of the Cosmic Healing Flame of Cosmic Love, that again is a drawing forth thru the Physical Sun, of a Concentrated Action of the Fire Element which compels the feeling to become harmonious. The energy in the emotional bodies of mankind, which expresses as pain, distress, illness, etc., must be purified because the Cosmic Healing Flame of Cosmic Love contains for practical use, every color of the Rainbow within It. The Heart Center is pink and gold, the Radiance surrounding that is violet. Then follow the other colors—blue, green—and in the action of the crystal rays, just like crystal Lightning coming forth, there can be charged any specific color at any moment which is required to neutralize the rate of vibration that is the distress in the human form, or in the mental and feeling world.

When you realize, beloved ones, that all substance in mankind's bodies, whether that be the physical atomic structure, the emotional body, the mental body, or the etheric body, all substance in those bodies is but condensed energy; and each rate of vibration is a special type of Substance. Then in the use of the Fire element thru that energy and substance, you can change the rate of vibration. You simply raise all the substance and energy into that rapidity wherein Harmony is Eternal, because within the Fire Element Harmony is Eternal. Therefore, to fulfill the Divine Plan, you must have the Conscious Understanding of the Fire Element. You must call It forth CONSCIOUSLY and command It to produce the Fulfillment of the Divine Plan in the Cosmic Flame of Cosmic Love. That is the Joy of Creation!

I think there are some very delightful experiences ahead of you, if you choose to call forth the annihilation of all human veils in your being and world, so the full Explanation of what the Angelic Host does for mankind on this earth, may be a wide open book to you. Then you, understanding Their Service, and giving conscious cooperation from the physical octave, can move forward and wield Power that to the mass of mankind seems miraculous and Cosmic.

I want to give you a moment's Explanation of the Great Opportunity which is yours in the Conscious Understanding (Conscious Understanding means Ascended Master Understanding) of this Law, and what It will mean for you after your Ascension is completed, to have given these calls in the Service of the Light to all mankind, which raises all into the Perfection which Life intends for all upon the earth. Your Love and recognition to Cosmic Beings and to the Ascended Masters at this

time, to enable Us to release more Assistance to the whole world for quicker relief from distress, will mean Cosmic Power in your use after your Ascension, that now you cannot understand.

I want to show you the difference between what you know as an Ascended Master, and a Cosmic Being. There are those at this time receiving the Ascension in passing out of the body thru war, and many of the "I AM" Students who have passed out of the body and have attained the Ascension—but many of those are Life Streams who thru the past and present have never particularly been concerned with a World-wide Service to Life. Most of those Life Streams have been constructive a large portion of the time, and went on their appointed way as harmonious as possible; reached the point of Conscious Knowledge of the "I AM," made their calls for their release and have gone into the Ascended Masters' Octave to begin their Permanent Service to Life's Perfection. Those are the Ascended Masters Who wield the Power of Perfection, but their Momentum of consciously drawn energy thru many life-times is not particularly large; but the individual, who thru many life-times has called the God-Powers of Creation into action on this earth, for the Freedom and Illumination of all mankind, and to the annihilation of all mankind's distress, brings a Consciously Drawn Momentum of energy, knowledge and Power; and that one, that Life Stream's Assistance, become of Cosmic Importance to the whole world.

That is the difference between one who has completed the Ascension and has not been concerned with the mass of mankind, and those who have served the mass thruout the centuries. That is what makes your Beloved Godfre a Cosmic Being at this time, for thru many life-times, He has called forth the God-Powers of Creation, for the Release and Illumination of all mankind, many, many times. That is consciously drawn energy at the conscious command of his own Life-stream, of his own Free Will, and It means Power in the Ascended Masters' Octave which is of tremendous Cosmic Import, when it comes to the holding of the Balance of the Powers of Light in the physical octave; because that energy has been consciously released while He was yet unascended. So, when He ascended that energy came with Him, and becomes His Cosmic Power or Cosmic Momentum of Power, by which He still renders Cosmic Service to all mankind. That is why recently you have been told that He is the GREAT PHYSICIAN, because of His Momentum of Healing thousands of people thru many Life-times.

That is why your momentum can be so magnificent, My dear ones; especially you who have been giving these tremendous "I AM" Decrees! You have not the slightest idea of what amount of energy stands in your own Life Stream, in your Causal Body, released at your conscious command here, for the Freedom of all Life from human distress. That would make you, were you all to attain the Ascension at one time, a Cosmic Legion really of the Power of the Sacred Fire! I do not say you are all going to accomplish It at one time—I am not revealing that; but if such a thing did take place, your Momentum would be revealed as a tremendous Focus of the Fire Element about you as an entire group!

May I say to you, precious ones, do not ever forget to place your "Beloved Mighty I AM Presence" first, and then call to Us; to all the Cosmic Beings and Ascended Masters to release Their Cosmic Powers thru your physical forms here and now; and enable you to do magnificent things which the world calls Miracles. Place your "I AM Presence" first, make your call there first, give It your first Love, your first Devotion, and your complete surrender! Then make yourself a "Crystal Cup" of Its Essence, Its Sacred Fire of the Unfed Flame, and call Our Cosmic Powers thru yourselves to do what the rest of mankind cannot do! You have the capacity! You have the desire within your hearts! You have the Conscious Understanding! Your momentum is increasing hourly, and We will answer you on the instant at your call. Let your hearts release their desires, but clothe every desire in the Cosmic Action of the Sacred Fire; and It will then go forth the Master Authority to produce Manifestation that compels the human to bow.

Feel yourself, each one of you, sealed within a Blazing Globe and Sun of My Flame, the Flame of Love from My Heart, and I will anchor It around your physical form to the Blessing of all Creation forever! "I AM" not limited! Your Presence is not limited! You may just as well have this Sacred Fire as the air you breathe! Aries give you Air without limit! I will give you My Love without limit, in the Cosmic Healing Flame of Cosmic Love and the Cosmic Peace about you, which compels Peace wherever you move! You may have Power without limit so long as that Power is qualified with the Cosmic Flame of Cosmic Love and Wisdom, to hold the Balance in the Fulfillment of Life's Divine Plan. I will not deny you one thing! I have ALL to give!

Make yourselves Suns of My Flame of Cosmic Love, My Cos-

mic Flame of Cosmic Healing! Acknowledge yourselves the Cosmic Healing Flame of Cosmic Love from My Heart, and I shall show you what you have never seen nor known before! I can reveal thru you to the rest of mankind, Knowledge that they very much need! Mankind cannot stay in the ignorance of their own limitation any longer, My loved ones, if you love them enough to call this Power about yourselves! these Manifestations of the Sacred Fire thru and around yourselves for the Freedom of your fellow man, can come forth NOW! Mankind cannot stay in this limitation longer, when Love is calling them to Freedom in the Heart of God's Sacred Fire!

Life, wherever you move, needs to be held within the Cosmic Flame of My Love, consciously concentrated in thru and around yourselves; consciously endowed with that Outpouring from your own "I AM Presence" of the Cosmic Flame of Cosmic Love; and consciously commanded to go forth and free Life from human distress forever!

Your hearts all desire to draw Power from your "Mighty I AM Presence" for the Freedom of those who are in distress! My heart desires to give Freedom to all mankind who are in distress! Will you not unite your calls with Mine and be the Conscious Command in the physical octave which compels the annihilation of all distress?

You can if you want to! I perceive your hearts have wanted to and I know will continue. Every Focus of the Fire Element that you call forth into the physical octave of any special Quality, as you continue to command It forth, will release into this octave. Since you have assured your Presence and Us, that such is your determination of Life, your command, by your Free Will, you will receive the outer Manifestation as surely as the Sun is in the Heavens. There is no such thing as failure to the Fire Element—none whatever! It is yours the moment you command your attention to go into the Heart of the Sacred Fire, and stay there for Eternity.

We want you to FEEL the Authority and the Power, the Freedom and the Victory of the Sacred Fire in your hearts,—expanding thru your forms clothed in Our Sacred Fire and expanding under your command to fulfill the Divine Plan for all! Let your attention come consciously to Me, and I will show you what Sun Worshipers become. Let them call you Sun Worshipers if they choose! You will have more than they, and to be as bright as the Sun is no disgrace, I assure you. Oh mankind need the shadows of their own human opinions burned in

the Flame of the Sun Worshipper. You can call It forth. The Violet Consuming Flame is the action of God's Great Love, Forgiveness and Mercy to enable each one to dissolve and consume all discord and do it harmoniously and permanently.

Your Beloved Saint Germain, in the Mighty Responsibility that is His, directs the Most Beautiful Violet Consuming Flame—Beauty that human eyes have never beheld is within His Violet Consuming Flame. Mankind, in even the human creation which they have generated, when they see His Violet Consuming Flame, cannot help but love It, because they know It is a Mighty Manifestation that is Authority over themselves.

When your opportunity is so great in sending forth on the "I AM" Music, any Action of the Sacred Fire that you desire, one day you shall see the Flames of various colors going forth on those tones in the most Beautiful Designs that you have ever beheld; and which you never dreamed were anywhere in Creation, for We do not create anything that is not Beautiful. The Flame within Itself is all Beauty, because It is all Love. Have you ever deeply thought upon the Purifying Activities that come from the Physical Sun? Have you ever realized that every discord mankind has ever created, can be dissolved and consumed by the Electronic Force from the Physical Sun? Does not that Electronic Force, the Light and actual Sun's Rays, the Fire Element which radiates forth from the Physical Sun, change every particle of atomic structure on the surface of the Earth, or anywhere that it is placed in the Sun Light? Can Sun Light not change everything, every quality that is in the substance of this Physical World, in this octave? It can change color, It can change the substance upon which It blazes, any color, any quality, any radiation. Therefore, It is a very Intelligent Activity of Life, which has been drawn into the Focus, you know as the Physical Sun.

May I elucidate upon the Electronic Belt around the Physical Sun. Do you know, within that Belt is located the individual Focus of each Being Who ministers to this Earth, and draws forth Cosmic Assistance to mankind, until the Fulfillment of the Divine Plan is complete? Within the Electronic Belt around the Physical Sun there are located the Temples of Light, of Music, of Healing and of Silence. There abide the Fire Temples. There are the Homes of the Ascended Masters and the Cosmic Beings, Who are concerned with the Manifestations and the Sustaining Activity of this Whole System of Worlds. May I say

to you, some of your own homes are there, all will be when the Ascension is completed.

The Homes of those who become Ascended Masters and Cosmic Beings are permanently located in the Electronic Belt around the Physical Sun, so long is they are concerned with what takes place in this System of Worlds. In the upper atmosphere of the Physical Earth which is called the Octave of Light, above a certain altitude, there abide the Life Streams of those who belong to this Planet. They abide there between embodiments until their Ascension is attained. When that is accomplished, then they go to the Electronic Belt around the Physical Sun, and from there they are concerned with the Activities of all the Planets of the System, instead of just the Earth. That is why the Kumaras, Mighty Victory and Others from Venus Who have assisted the Earth thru the centuries, were aware of the need of more Light upon the Earth. That is why They came to give Their Love to dissolve the hate.

My dear ones, when all is resolved into its fundamental, you have just one thing for which to live in the Fulfillment of the Divine Plan; and that is to keep calling forth the Cosmic Flame of Cosmic Love to dissolve everything else on the Earth. The Cosmic Flame of Cosmic Healing Love, or the Cosmic Healing Flame, if you wish to put it that way, of Cosmic Love from the Physical Sun, comes into the atmosphere of Earth, or passes thru someone's body at your conscious command to do what? To stop every rate of vibration that is not Love to Life and the Fulfillment of the Divine Plan! It comes to shut off every rate of vibration that is not the Perfection of Life's Divine Plan Fulfilled, which can only come thru God's Love.

So you can when you turn your attention to Me, call forth My Cosmic Healing Flame of Cosmic Love to stop all hate, all anger, all destruction. Can anything stand against the Intense Action of the Physical Sun? Now notice, you have an example of the Power of the Physical Sun on your desert, and there are conditions in some of the deserts of the world where that which is not purified cannot survive. Well, just so is it everywhere in the atmosphere of Earth. In the warring countries of the world where battles are going on, that substance covers over the people, and stands between the Sun Light and the people upon Earth, does it not?

Well, do you know you could call forth such a Concentrated Action of the Cosmic Blue Lightning and Healing Flame of Cosmic Love from the Physical Sun into every battle field on the

Planet, until by the very concentration of that Fire Element from the Physical Sun, it could paralyze the destructive action of energy.

Is not the Physical Sun greater than any battle field? Then, is not the Directing Intelligence that controls that Physical Sun greater than any battle field? Well then, since "I AM," a Cosmic Being Whose Power and Authority draws forth the Manifestation of the Physical Sun, am I not more Powerful than the benighted mankind who know only destruction? Is not My Wisdom greater than theirs? Is not My Power greater than theirs? Then am I not the Authority over their destruction when I am called into Action? Remember the Angels of Peace, the Elohim of Peace, and the Angels of the Golden Flame, are all under My direction; and are They not greater than the mankind of Earth who go into battle against each other? Is not Our Authority greater than the Authority of any Nation or all put together? If We could have the attention of every human being on this Earth for twenty-four hours, We could show you the collapse of the sinister force completely. That is why certain Manifestations may be permitted some time ahead, to shock mankind awake to that which is greater than themselves, and which they all know is their Master.

I think I am not out of order in saying, you might call forth whatever Manifestations of the Sacred Fire are necessary to stop the war; and then leave the kind of Manifestation which is to come forth, to the Great Wisdom of the Great Beings Who do direct those Manifestations. If We can have your calls for these Manifestations it will open the door from your octave, the physical octave of Life, into Our World, and enable the Cosmic Law to act in many ways that as yet mankind in the Intellect do not understand.

I am going to give you another pointer. Call forth all Manifestations and Powers of the Sacred Fire and all the Authority of the Central Sun which have never been drawn forth on this Earth before, to the complete annihilation of all that has interfered with the Divine Plan; and many things can be drawn forth into action which have never been here before in any age. There are certain Cosmic Beings Who can come to your assistance thru that call, and it is rarely that We are permitted to even explain It to you; so of your own Free Will, make these calls for the Release of all Greater Activities of Life to this Earth and for its quicker release from distress. Do you know what you could draw around your bodies by your steady recognition of Me?

Do you know you could draw a Radiation of a Light Substance about you, and My Cosmic Healing Love that would not only heal all who came near you, but that would supply even to the plant life among which you move, certain elements from the Physical Sun; and your very radiation would bring forth at your conscious command new varieties of plant-life, if you called to Me for the release of that Power thru yourselves.

If you bless the Beings of Nature enough, They would do many unusual things for you, but We do not wish you to become so fascinated by the use of the unusual Powers that you forget the "I AM Presence" must always be first! You must give It full acknowledgment, so whatever comes forth of Perfection, you know It is the Presence within you doing that, and the Great Cosmic Beings in cooperation with your "I AM Presence," who are expanding the Perfection of Life at your conscious call and the Freedom of all that you contact, be it Nature, mankind, or the structure of Earth itself.

You have been for some time calling forth many Miracles, and yet these mountains around you, the atmosphere in which and move, the Flame in your heart, the Cosmic Beings, and Ascended Masters, surround you consciously and constantly with such Miracles as would make you gasp with delight, could you see them all about you. Did you know that your Unfed Flame in your own heart is full of Miracles for you? Had you ever thought of that Unfed Flame in your heart, as your own individual Treasure-house of Miracles unnumbered? From the Unfed Flame in your heart, you can command forth Miracles of Perfection and flood your world each day with more and more miracles; for you will never come to the end of the Miracles of Perfection, which can come forth from within your own heart. Think deeply upon the Action of the Sacred Fire, and ask your Presence and Us to reveal all that is contained therein; make you the Manifestation of Its Perfection and the Cosmic Blessing of Its Glory to all Creation for Eternity.

Become, My loved ones, the "I AM Presence" of the Sacred Fire and all Its Infinite Manifestation, Its Glory and Its Joy shall be Perfection for you wherever you move. I say to you, enter into the Knowledge of the Sacred Fire and feel Its Cosmic Power pour thru you, Its Blessings of Perfection to all forever! Call forth every Constructive Quality in the Action of the Sacred Fire or the Cosmic Healing Flame of Cosmic Love. Call forth every Constructive Quality in the Cosmic Flame of Cosmic Love from My Heart, the Heart of the Central Sun and the Hearts

of the Ascended Masters. Call to the Heart of these Manifestations for therein is located the Unfed Flame to give you all of that Life Stream's Majesty and Power of Perfection; all that has been drawn forth thus far by those Individualized Beings of Perfection.

You know that you are the "Crystal Cup," each one's Life Stream is limitless in Its Outpouring from the Central Sun. Your bodies and your minds are the "Crystal Cup" that Life has provided for you, thru which you receive from the Great Central Sun the Gift of the Sacred Fire. The Unfed Flame belongs in in the "Crystal Cup"! The precipitated Light Substance, that Liquid Light belongs in the Cosmic Cup! Every particle of the water element in your bodies can be, and should be, the Liquid Light from the Central Sun! Then will you have but to speak and Perfection comes forth consciously at your command.

If you choose to call forth My Cosmic Protection of the Cosmic Flame of My Cosmic Love around your loved ones, I can project an Action of the Fire Element, and make it very hot for that which is not for their protection. You know there is heat which comes forth from the Physical Sun, or rather it manifests as heat in the atmosphere of Earth, and sometimes it can get very uncomfortable for destructive forces. We can even make it more so at your conscious call, not that we create discomfort; but the pressure of Our Cosmic Flame of Cosmic Love can become so great upon vicious forces, that they are crowded back into their cause; and their destruction is burned away by the Electronic Force by which they are surrounded. That is why the Mighty Astrea uses the Cosmic Circle of Blue Flame, because as It closes in upon the substance which has been discordantly qualified, It burns clear thru all that substance and energy, and compels every discordant rate of vibration to cease to act, and only the Purity of the Sacred Fire remains.

Out of the Sacred Fire in the Heart of the Central Sun has come all Creation. Therefore, anything that is in Manifestation can be purified by that Cosmic Flame from the Central Sun. I am the Cosmic Law's Focus of that Fire Element to this System of Worlds thru the Physical Sun; and therefore, any who will call to Me consciously, will have a Pathway open directly thru the atmosphere of Earth thru your calls; and I will come back to you and release whatever you call forth to produce Perfection; to dissolve human creation and to help Life fulfill Its Divine Plan; that all may be the Cosmic Flame of Cosmic Love in Manifestation, and let the "Song of the Light" sound thru-

out the atmosphere of Earth, the Commands from the Heart Center of Creation.

I think as you hold clearly within your minds the pictures of these Activities of the Sacred Fire, I have described to you this afternoon, as you live within the Focus of that Feeling in and around yourselves which I shall establish, if you will call, you will know by their Focus in and around you that I am Real, very Real! You will know I love you, and that the Power of Mighty Helios is an Action of the Fire Element, which is the Victory and the Freedom of Life forever!

To your Mighty Beloved Saint Germain do I offer the Flame of My Heart, to bless Him in His Gigantic task of cleansing the Earth and raising it once again into the condition of Light, into the Power of Light, which this time makes it a Sun of the Victory, Freedom and Love of His Heart! You are those Life Streams who promised to guard the Light thruout the centuries; and I therefore stand ready to guard you and those you love, so long as you remember your Promise to Life, and move forward a "Cup" of the Sacred Fire, that is the Authority of Life and the Perfection of all you contact forever.

I would like you to feel the Intense Radiance of the Angels of the Golden Flame! Call Them about you many times when you are busy or when you are quiet. Become accustomed to Their Presence around you which can only come when you invite Them and acknowledge Their Reality. I would like you to feel Their Power of Peace, Wisdom, Love and Healing; for the Angels of the Golden Flame await your call and will do your bidding, to assist your fellow man to the Victory of the Light. May They become very tangible to you as you keep commanding, that all human veils are annihilated; that you see Them as naturally as you see each other. Then will you indeed be joyful as you see Their Beauty and Their Power and as you watch Their Action of dissolving conditions of distress in the physical world; for I assure you to be able to change destructive conditions into conditions of Joy, of Beauty and Perfection, is truly the "Song of the Light," and will bring you happiness that you cannot now understand; unless you work with Them and see Them dissolve the shadows and the Light appear which remains Eternal Perfection at your command. They are very Real! They are awaiting your call and They are obedient always to the Flame of Love from your heart. They are My Limitless Legions of Love to the Earth, and may They become your constant Companions, and Legions of Ascended Master Friends, until the cleansing of

the Earth is complete, and once again Peace reigns Supreme for Eternity.

I thank you and I clothe you in the Cosmic Flame of Life from My Heart, and the Cosmic Illumination of My Mind so you may know that which is required to produce Perfection everywhere. May the Directing Intelligence of every Action of the Sacred Fire illumine your minds, and fire you with Its Dazzling Perfection, the Full Completion of your Victory and the Freedom of the Earth forever. I await your call! May the Angels of the Golden Flame abide with you, and may one day you hear Their Song, and know Its Reality, as the Healing of the Nations of the world forever.

"I AM" the Cosmic Healing Flame of Cosmic Love to the Nations of the Earth, as well as to the individuals upon it. May the Manifestations which you draw forth be always held invincibly guarded by the Angels of the Golden Flame and sustained thruout the centuries to bless for Eternity all Life that passes this way. May one day a Jewel of Dazzling Radiance and a Blazing Miniature of the Physical Sun rest upon your chest and Its Radiance spread from shoulder to shoulder as a Reminder of My Love to you.

I thank you!
