

I thank you for this Thanksgiving Day! I thank you for your Love of the Light. I thank you that you have come this far in the Light! Now may the Light come and serve you, to lift you into Greater Light; until the whole world is God's Blazing Sun of Perfection, and Saint Germain's Freedom and Victory reign Supreme forever!

Thank you, beloved ones! Good night!

Excerpts from a recent Dictation given by the Beloved Astrea in New York City, wherein He gives another warning to the Student Body about being in bed by 12:00 o'clock midnight.

MIGHTY ASTREA

“ELOVED ONES, I love you so greatly and “I AM” over-stepping the bounds a little under the demands of the Cosmic Law, to remind you again, as have Others of the Ascended Masters, of the Blessed Godfré's request since last September, that the Student Body try to be in bed by 12:00 o'clock.

We are trying to give you certain Assistance in the purifying and strengthening of your physical bodies, if you will give Us this opportunity; but beside that, there is another reason why “I AM” again reminding you of this request! There are certain dangers I wish you to avoid, and if you don't believe Me and give the co-operation, the results which you experience must be upon your own heads! Now further than that, We cannot go!

The Beloved Godfré requested three times since last September, the entire Student Body be in bed by 12:00 o'clock, if they expect this Cosmic Work to be done for their assistance! That is a certain attunement of the Inner Bodies, and a certain strength and energy We have been anchoring within your atomic structure, to strengthen you against world-wide epidemics; and if you don't listen you will pay!

This of which I remind you today, is a physical danger and further than that I cannot explain! If you don't want to give that co-operation, then I must turn My Attention elsewhere! “I AM” very inflexible on this Reminder today! The Mighty

Victory reminded the Student Body, the Beloved Godfré has requested three times, that the Student Body give this co-operation! "I AM" trying once again, and if My Words are falling on deaf ears, then the results and the Action of the Law must take Its course and I cannot offer further Assistance!

There are some of you don't have much reserve energy and under certain vibratory action of the outer world, if you don't have it, you cannot hold your own protection; and what you have been thru in the past isn't a drop in the bucket, aside of what faces you in the future, until certain Cosmic Actions of the Great Cosmic Law bring a certain shock to mankind in the outer world.

There is nothing you want to do after 12:00 o'clock at night that is worth a feather in a gust of wind, compared to the Protection We are trying to draw around you and your Inner Bodies, by having them quiet and asleep at 12:00 o'clock. In case of great crisis, you will be grateful for this accumulated Power and Protection, We are trying to gather around you in time. If you don't listen to Me, you will regret it; but your regrets will not take you out of the conditions you will be drawn into, if you don't give the obedience! Now that is Final!

"I AM" going to ask the Messenger to put this in the Magazine as soon as possible, because she has spoken repeatedly and yet, the outer world is still more attractive than that which We have offered. We cannot all of a sudden draw this Power around you for your protection, because your bodies won't stand It all in one wave; while if you let Us build It in and around you gradually night after night, We will prepare you to pass thru certain conditions which are ahead of you; and if the preparation is not made, We cannot draw the Full Momentum required in one flash around you—your atomic structure won't stand It!

I don't like to be severe, but when Others of the Ascended Host have repeatedly made This Request and it is just as determinedly ignored, when We are trying to save you so We may have Open Doors thru which 'to save the Nation, I hope this time, you will remember for We would like to have you, as the Channels, to protect your country!

You might wonder from the Inner Action of the Law, when you say you want to serve the Light, well why can't the Masters draw the Protecting Power around us! Because your Inner Bodies won't stand a very sudden step-up of vibratory action any more than your physical bodies will! Are you able to step

into an electrical current which suddenly turns on a great force? Do you stay in the body when that reaches a certain point? Well, neither will your Inner Bodies stand all the amount of energy, which will be needed to hold the protection in your mental and feeling world, under a certain vibratory action in the atmosphere of earth, when certain forces are released which will affect all mankind! If your Inner Bodies cannot have the protection built into them gradually, so they become used to It and the strength gathered by preparation in time, you will not hold the connection thru to Our Octave!

Now, I think this is as plain as it needs to be stated! "I AM" determined and I promised the Beloved Godfré today, that I would make this clear enough to really record it and help Him out. You cannot have certain Protection from Our Octave, just suddenly charged around you, in order to be enough Protection against some frightful viciousness of the outer world; because your Inner Bodies will not stand the sudden contact with a Force, so very much more powerful than that to which it is generally accustomed.

We could take you and We have those who have been obedient, and every night drawn a little more of that Protecting Power in and around you, to step up your vibratory action greatly, to the point where the Inner Bodies are as strong as steel. Then the outer atomic flesh structure, becomes accustomed to that as you come back to it each morning; but when certain things in the outer world, if they are determined to release their viciousness, are catapulted against the minds and bodies of the people, you who have given obedience will be grateful to Me, to your Beloved Godfré and to the Mighty Victory, for working almost six months to get the students to obey!

"I AM" giving more explanation than you are really entitled to in the face of the requests of the past, but I know your hearts are sincere. I know you really do want to give obedience, but you just are not governing the pull of the outer world! Therefore, if you don't master it, it will master you, and it will draw you into destruction. After all OBEDIENCE is the first Law of Life, if Perfect Manifestation is to come forth to bless all.
