

## OUR BELOVED MESSENGER'S DISCOURSE

OURAY, COLORADO

JUNE 2, 1946

AFTERNOON

EAR HEARTS of the Light, I have come this afternoon to speak a few Words to you and to help you into the realization of what is on the other side of that Door, into which you may enter at any moment, as you remember the Words of the Blessed Master Jesus in the acknowledgment of His Statement—"I AM" the Open Door that no man can shut."

Today, if you will give Me your hands and come with Me—into My Feeling World, into the Love with which "I AM" enfolding you, I will help you to step thru that Door while "I AM" speaking; and let you feel for yourselves the Power of Mastery which is within the Light, and the Power of the Sacred Fire that abides within.

I wish you to acknowledge, as you can, from time to time during the day, that you have already stepped thru that Door! When you begin to use this Statement with the visualized picture in your minds, that the Door is behind you and is still open; that you have entered into the Realm of Light and into the Activities of the Sacred Fire by which you are surrounded, from which you may draw forth whatever Mastery and Power you desire: so when you begin to acknowledge yourselves as Life's Open Door into all the Perfection which is within the "Mighty I AM Presence" and the Ascended Masters' Octave, you begin to feel yourselves living in God's World continuously!

It is within the Great Power-house of the Sacred Fire and the Cosmic Light, that you are thru the veil, where you begin to draw forth the Powers which you have used before; and which now, with your determined attention upon this Statement, We would like to bring into your outer experience and give many wonderful Miracles and Proofs to you, of what is meant in those Words to which your attention has been pointed from the beginning.

When you realize it is only human creation which has ever formed a veil, or a barrier between the use of your outer faculties and the Visible Presence of your own "Mighty I AM," or the Ascended Masters and the Great Octaves of Light, then you will know, if that Door is to be opened to you permanently thru the veil of human discord, it must be opened from your side of Life. It is already open from Our Side, and therefore,

it takes your acknowledgment, it takes your continued use of those exact words to take you thru that Door.

Having been endowed with Free Will, which is your Power of Choice as to what Powers of Life you wish to use in the physical octave, well then, if you do not use that Power of Choice and you do not definitely use the Great Creative Word, "I AM," to announce and indicate your choice to Life, how in the world can you have the use of what is within the Light! How can you if you do not call It forth!

Now in the use of this Statement, every human barrier will go down as you hold the Harmony, use the Violet Flame and make your call! Bless your precious hearts forever, you have decreed and decreed and decreed—and it is well that you have, because you have no idea of the momentum which stands this hour at the Inner Level around the "I AM" Student Body. That has taken years to build, but It is the Power, the Substance and the Energy by which We can now release in and around you, whatever is required to take you thru the experiences in the months ahead.

Oh beloved ones, will you follow closely now what "I AM" going to say, and feel with Me this Great Balancing Power of Life? You know you have given a great many Decrees, and many of you have felt that you could accomplish anything just by your Decrees. Well so you could, if your momentum were great enough; but let Me tell you, there is the proper use of physical effort, and a proper use of your Decrees, and the two combined hold the balance in the outer world's activities of manifestation.

If you just use your Life's Energy in physical action without giving Decrees, you will be in the same condition the rest of the world is in, or rather the outer world around you. If you just give Decrees without any physical action, your manifestation will be very much longer coming; but when you unite the two in Perfect Balance, and give part of your Life Energy each day in your Decrees before you start the physical work of the day; then it is as if you had provided yourselves with an automobile in which you could ride the rest of the day.

Therefore, I want the entire "I AM" Student Body to realize that now is the time of action, and physical effort is just as imperative as Decrees. The Decrees are required to start the day, so you have the happiness in the feeling world that draws more and more energy to you, by which your physical work is accomplished; so at the end of the day, you will not be so exhausted or the mind is not alert.

If you will step with Me into this Octave of Light and Activity of the Sacred Fire to which I referred in the beginning, dear hearts, I will show every one of you in your own mental and feeling world; I will show you in your physical bodies; I will show you in your physical affairs, the Perfection which is within the Sacred Fire and the Substance that is of the Cosmic Light.

I wish you to feel the Scepter of Power which is yours in the acknowledgment of this one Statement alone, because none of you yet, has the slightest fragment of an idea of what Tremendous Power is yours as you understand fully what is meant within That Phrase.

All thru the centuries, mankind has felt that above is the Divine and the human is down here, and there seemed to be no way between of contacting the Great Host of Ascended Beings consciously and at will, with the physical sight or the physical hearing. Well, there has been the barrier between, but that is due to human discord in thought and feeling; but if you want to step thru that discord, you must acknowledge your Authority and Power to part that human creation, become its Master and make it stand aside—until you, the Authority of the Sacred Fire, move into that Octave and draw forth what you desire, in order to control conditions around you more quickly.

As you give more and more conscious acceptance and acknowledgment to the Power of the Sacred Fire, you will find all obstacles dissolving and disappearing, so long as you hold the Harmony; but upon the slightest feeling of discord, the shadows form again within the brain structure, the veil has been drawn and shuts out the Power and the Glory which otherwise you could have the next moment.

Precious ones, from today on, I want to help you live within the Light and the Sacred Fire which is thru the Door. Do you remember Saint Germain's Words: "You may step thru that Door at any moment, carrying with you your unfortunate human creation and there have it consumed. Then as you step back into the outer world to render your service to Life, you will move forward without your limitations"! It is to give you the clear concept of this, that I ask you to use this Statement and acknowledge you are thru that Door.

Jesus used the Statement: "'I AM' the Open Door that no man can shut." If you will take That Same Statement and then say: "I AM" thru that Open Door Now, and I stand within the Realm of the Sacred Fire of every Ascended Master

Quality and Power in the Universe; to draw forth to free my fellow-man; to draw forth to free all Life; and to exert the Master Powers of My own Life Stream to produce the Perfection I desire permanently."

If you were to step into a Great Treasure-house wherein there was Limitless Supply of every good thing, and you knew you had the Freedom to go within and obtain whatever you required to produce Perfection; or bring the supply into the physical octave that would give you Freedom and Unlimited Assistance to help your fellow-man, I doubt not that you would enter into that Door with very great happiness, and I do not believe I would have to coax any of you! Well precious ones, do you realize that within the Activities of the Christ Light, the Cosmic Light and the Activities of the Sacred Fire, whether those be from your own "Mighty I AM Presence" or from Our Octave, there abide within those Activities, so much Greater Gifts and Powers of the Perfection of Life, than you could ever have in the way of the physical things in this world, that there is no comparison?

What "I AM" trying to get you to do, is to form the habit of acknowledging you are thru that Door; and that you are drawing forth and using the Master Powers of the Sacred Fire now—thru these physical forms in the physical activities of your daily lives! Then, will We bring Heaven on Earth! Then, will your delay and your obstacles be removed; because if it is Illumination you require, and by your own Free Will you enter into that Door—demanding the Full Illumination of the Ascended Masters' Consciousness, you will definitely command It to govern whatever your immediate requirement is; and when you return, you will be amazed how easy things will become for you in the physical octave!

Now dear ones, there are these Limitless Powers of Life! There are Limitless Attributes of your consciousness which your Higher Mental Body holds waiting to release into your outer use, and which as yet, you have never dreamed were in your Life Stream! Oh, My goodness, you can so easily have these Powers to use in your daily activities, if you will give them recognition.

If there is any particular Power that you want from within your Life Stream, and you wish to use it in your outer world to make your pathway easier, or to do more magnificent things—beloved ones, you must of your own decision use your God-Authority, speak the Creative Word, and indicate to Life that

you want to take That God-Power and use It here! It is just as mechanical as running your car from one part of your house to another. If you want to bring your car from the garage to your front door, you do not doubt your ability to do that; because you have accepted that in your feelings as just a matter of habit in the outer life. You can just as easily set these same habits in your mental and feeling world, and draw forth the Greater Powers of your Higher Mental Bodies into your daily use, as to go on and feel you are going to do it sometime in the future!

Healing Power needs to be drawn now, does it not? If you need supply, supply needs to be drawn when you require it, and if it is the Purifying Power you require, you need to have It answer you when you require It. In this way, We will help you transcend time and space, and enable you to accomplish what your Hearts desire to do very much more quickly.

Oh beloved ones, if you will all right now, begin to charge your homes, your clothing, your affairs, your business, with the Ascended Masters' Invincible Cleanliness and Divine Order, you can just charge that day after day with all the Ascended Master Activities of the Sacred Fire into your Beings and worlds! Charge those Qualities into everything around you—not just once a day, but any time any imperfection seems to come to your attention. Just get in the habit of sweeping and charging the Sacred Fire thru a condition, and then seeing instantly there, the Perfection you desire!

Now I have a reason for this! There is such Wonderful Opportunity for you all to build a momentum now that a few months or maybe a few years later, will become such an Established Action in and around your physical bodies wherever you happen to be, that nothing will become soiled or out of order, and it will make things so much lovelier for you. We want to accumulate this Power now, just as a matter of daily routine; because many of you are gaining a wonderful momentum thru your Decrees which you have given for the Nation and the world—your own individual momentum is reaching such a point, that many wonderful things now can begin to come for you all individually! If you will remember, you have to exert your Authority and issue the Command, that specifies what you want, to Life; or what you want to draw forth from within the Great Treasure-house of your "Mighty I AM Presence" and the Ascended Masters' Octave.

As I have said, together with Others, you do not yet know

what is within the Ascended Masters' Consciousness! When We offer you Our Ascended Master Consciousness, We offer you Our Treasure Chest, and you have none of you yet visited Us and called upon Us for any of Our Treasures. You use the Ascended Masters' Consciousness in Words, but you do not know what that contains. When We offer you the Wealth of Our Octave, then My dear ones, no matter what the appearance is, you stand steady with your Decrees. Go on, DEMAND and COMMAND into the physical octave, the Wealth that is in Ours to fulfill Our Divine Plan, and could We withhold It from you? It is impossible!

You are Part of Our Life, because all Life is One. Therefore, when We offer you the Attributes of Our Life, the Powers of Our Sacred Fire, it simply means a continued, persistent, determined command, that it must act now in the physical octave to enable you to part the veil, and let It come to serve you as We want it to. Now this is a daily building to the point where you may go on weeks or months with your Decrees and not see the slightest manifestation in the outer; but when that Momentum reaches a certain point, and it needs just one more Decree to burst thru and produce manifestation—then will you see in an instant, the result of the accumulated Momentum, and who can tell Me which Decree will be the last one you need to give!

So, regardless of anything in the appearance world, go on—and if there is the slightest question in your own intellect or your feelings or those around you—well why don't you produce it? say: "Shut up, my Presence produces this when I give enough of my energy back to that Presence; and I am busy giving it—that is all with which 'I AM' concerned"; and precious ones, you will kill the doubt and the uncertainty in the minds of others around you.

Be absolutely adamant. Go on, because after you have drawn those Powers, after you have produced the Manifestations, the very people that questioned you will say: "Oh yes, I always knew you could do It." So give them a good chance to admit it from now on. I want you, dear hearts, to be able to draw forth such Power and produce such Perfection in the physical octave, as shall nearly take the breath away from the people of the outer world. They have got to be surprised with something, and it might just as well be Perfection! You will never shock them out of their chains, unless you give them

such a surprise it will awaken them for all time to come; otherwise, they will go to sleep again in their own inertia.

Precious ones, I wish you could see from Our Standpoint, just what some of these magnificent releases of Life mean to you; to Us, and to Life everywhere, thru which We can give the Assistance that so many require. Many times, the Light blazes so bright when a group of you are together and are happy in your Decrees—sometimes it is like a Flash of Lightning that goes forth; and We are able to direct It on the moment to the accomplishment of something for the Nation! You might not feel It individually at the moment, but there is gathering, may I say, a great deal of Blue Lightning at the Inner Level for the accomplishment of certain things in the Nation; and it is because you give that to Us, that We are able to prevent certain destructive forces acting, and give to you more and more of your Heart's Desires.

Now the Blessed Saint Germain gave you, in those early Dictations in the "I AM" Discourses, a Statement which very few understand. He made mention that some had Treasures of Light stored up; some had stored up Treasures of energy; some had stored up Treasures of gold and jewels; some had stored up Treasures of Power, and now that was going to come forth to release and bless you all. One person may have the capacity to render tremendous service in one channel; someone else in another channel; someone may have the Power to design and render that service; someone else the Power to heal; someone else the physical energy to supply your daily needs; someone else the Power of Music; someone else the Treasure-house of so-called wealth; someone else the Treasure-house of Light. All of these, My dear ones, are contained within the Action of the Sacred Fire.

From Our Octave what do you suppose happens? We are building a Divine Pattern of that which is to be the Permanent Condition of the Golden Age. Therefore, We need every one—We need each one's Life Stream's Constructive Accumulation to build that which protects the whole Nation and becomes the pattern upon which the future activities of the Nation are modeled.

So do not always expect everybody else to do just what you do. You are going to have to be very generous, very forgiving and very kind, because one of you can do one thing, someone else can do another thing. Someone else can do something else, but because the other person does not do what you do, please

do not have the slightest feeling of criticism, condemnation or blame; because if you do, you will shut the door to These Treasures which are so near into your outer use.

If a person is able to do one thing or several things well, then that one should be very grateful, but not look down on someone else who cannot quite do the same thing. People are not too generous in these activities when it comes to working together from a co-operative standpoint, so that which We wish to accomplish, is brought about in the most Perfect Way, and is held in the Greatest Protection; because precious ones, do you know what has happened thru the centuries?

Each Life Stream depending on Its own Divine Pattern has drawn forth from within the Higher Mental Body thru outer use in many embodiments, various Qualities. These Qualities are now in their accumulated momentum, expressing thru you all as what you might term your talents; or the things you have done in this Life time which you have done well, and perhaps what you have done the most. Well, those are the Powers which of your own Free Will you chose to draw forth from within the Flame of your Life Stream. Others chose to draw forth some other Powers, and they have the capacity to do other things.

Well, do you know what the Masters' Work is? We have to take you all in order to get all the Qualities and build that which affects your Nation. We have to have every one of you and every one of your Qualities, and each one is just as important as someone else. Every one has a certain thing which he or she can do that no one else in the Universe can do, but just you; because you were the one which drew those Qualities from within your Life Stream. Nobody else can draw those forth for you, and you only gather a momentum of any particular Quality by use. That is how you gain power. Energy becomes power thru use, so if you do not draw forth these talents, and if you do not use them in the outer to build a momentum of power, well then to just sit back and wish for a thing, will never bring it to you.

We need Perfect Balance, Inner and outer, because people need to have this Understanding of the "I AM Presence," where and what It is, and how each one can call It into action thru the outer self or into conditions. Then each one must make the application and thru that the Power is gathered, or the momentum built by which the Powers of that Presence can act in Full Mastery thru the physical form; and nobody can make

that call for the other person. We can make the call for Perfection within and around individuals to protect and help them, but each Life Stream's own Talents and Attributes have to be drawn forth at the conscious desire of the individual himself or herself.

Now that is why it is necessary to call forth the Hidden Powers of each Life Stream, that you may have many of these Powers to use in the outer in Perfect Balance; so you can do many things and do them all Perfectly. That is Mastery, and the rounded out person is able to jump into any situation and be able to call the Presence into action, to produce what might be needed on the moment; and the Higher you go on the Pathway of Light, the more you will be able to do in the physical octave—do it well, do it quickly, do it Perfectly; and then be on your way, and may be change the next minute and do something else. It is that flexibility of the use of your faculties, which is your True Mastery!

Then, precious ones, if it becomes necessary to draw forth some Hidden Power from your Life Streams, which you have not used perhaps for many lives, you will be able to draw it forth and release Its Full Power quicker than otherwise would be; because of calling the Presence into action to help you do what is necessary. Then be ready at any moment, to draw the other Powers of your Life Stream and build a momentum quickly to do what is necessary in the physical octave.

These Inner Activities are very important! "I AM" stressing this today, because if you are going to come along the Pathway with Us, you will have to be Builders of Light. You will have to build many many things of New Design, of Beauty, of Usefulness, of Purity, of Perfection and of Protection for that which is constructive. So you should enjoy supremely the building of the Beauty and Perfection of the future. As you do this, you will begin to realize something of Our Problems in trying to help the masses of mankind, rise out of the frightful discord in which they are enmeshed at the present.

May I say this to you all, the more you build of the Perfection of Life in the world around you, the greater will be the Perfection you build into your own health; because you cannot build Perfection in the things around you, and not have sixty percent building itself into your own atomic structure. I know there lies ahead of you, the anticipation of such happiness in the use of these Powers that you will marvel, you did not draw them forth years ago; but you could not draw them

into powerful outer action, until the human discord is consumed and closed out of your world.

Now I want to say something very important concerning the harmonizing of your world. You, many times, give your Decrees and then something rides in and you don't understand what happened. If I were you, I would never miss the day on arising in the morning that I did not take the Full Authority and Power of my Life Stream, and right that instant on awakening—issue the DEMAND and COMMAND—which forbids anything human in your world that day, whether it be inside of you or around you! Unless you will take the Authority of your Life Stream to forbid anything human to enter, well if you don't forbid it to, it will sit right outside of your door, and the moment your attention is somewhere else, you will find you have visitors unaware which you do not appreciate.

If there are certain conditions around you, which are disturbing, use the Authority of your Life Stream on awakening, to absolutely forbid anything but Ascended Master Perfection to enter into your world that day! If something appears to the contrary, just give it another call and you set the Key-note of what the energy is going to do in and around you that day. Then as sure as Creation exists, will the energy around you and the Selective Intelligence of your Higher Mental Body, keep out that which does not fulfill Its Divine Plan! It is a great deal easier, My dear ones, to keep undesirable visitors out, than it is to throw them out after they are in. I think you will agree with Me.

It is so important at this time, to hold the Great Calm Powerful Mastery within you of the Realization of the Power of your own Presence and the Assisting Host of Ascended Masters, without any sense of dictatorial attitude in the outer. You can so easily have a Great Calm Mastery which just keeps calling the Presence into action, forbidding anything of imperfection to exist in or enter your world. Then rest in the Sacred Fire of your "I AM Presence," knowing It is the Unfed Flame of your Life that does everything Perfectly for you and thru you! It is necessary to train the outer self to remember always in whatever you do, that It is the Sacred Fire of Life doing these things, and not the physical form.

People do not understand that in the feeling world, even when you call the Presence into action, the feeling world most of the time has the acceptance, that it is the outer self doing

it, instead of the Inner Self; and yet Jesus constantly reminded the people—"I of Myself can do nothing. It is the Father Within that doeth the Works." It is the Unfed Flame in your Heart that makes It beat. Therefore, train your intellects! You can if you want to, because others have!

If you will train the intellect to remember that whatever your hands do, It is the Unfed Flame from the Heart flowing thru the hands which does these things. As time goes on and you give that recognition, precious ones, do you know what would occur? Do you know as you give acceptance and recognition, that It is the Unfed Flame in your Life Stream doing everything thru the physical form, soon you would begin to see many times a flash of Blue Flame coming out thru the hands. At first, It would perhaps be an inch long, then you would see It expand as you give recognition, and call It into action into the Full Power of the Sacred Fire.

Now this is a very important thing, because precious ones, there are so many Powers in all of you which are latent, just submerged slightly below the surface of the outer self, that with continued attention and acceptance of this of which "I AM" speaking, would enable you to draw these Powers into outer use; and They would amaze yourselves and those around you.

"I AM" trying to be very encouraging today, because I see so many of you where those Powers are just coming near the surface ready to burst into outer use, and give you great assistance; but it does take your conscious determination to call Them forth. Then, hold your attention upon them in order to keep them acting in the outer, without interruption long enough to give you the Full Release in your feelings which make them visible to those around you! Oh you may just as well have these Powers of Life!

These are the Enjoyments, My dear ones, which dissolve your struggle—your feeling of struggle! It is simply because the outer intellect and the feelings have not accepted thru the years or centuries past that it was God in you doing these things! It is that God Flame thru the flesh which is the Doer of all Perfection.

Now, I want you to feel as you never have before, the Full Freedom and Mastery of the Power of the Sacred Fire, because you will get very much more rapid action in Manifestation by the use of the Fire Element than you will thru your other calls. To the Fire there is no opposition! It burns Its Way

thru everything, and therefore, as you call the Ascended Master Powers and all Ascended Master Power to act—the Ascended Master Powers of the Sacred Fire, to act in the outer—will you begin to see many things taking place so rapidly and so perfectly, that you will be delighted beyond words; and you do not come to that point, except by the conscious call of the Powers of the Sacred Fire to come into physical action, or act thru you in the physical octave.

I want you to feel, no matter what the surrounding conditions are, that you stand perfectly steady and unmoved in your calls; and you demand all Powers of the Sacred Fire to move into action thru you and do what nothing else can do.

Beloved ones, just be happy, no matter what still has to be conquered in the outer. The more happiness there is in you, the quicker every discord will disappear; and don't be too much concerned about people that do not like you. If they happen to run into you face to face and are brazen enough to say so, say: "Well why"? Put them on the spot quickly and do it so fast they do not have time to think, and you will make it so embarrassing they won't be likely to say it again, whether it is to you or to somebody else.

There are a great many destructive forces going to go down. All of them will eventually, but more and more are riding for a fall day after day, but the nearer they come to the finish the more brazen some of them become; and that is why We want the entire "I AM" Student Body's attention focused at this time on a more concentrated Action of the Sacred Fire; as you move into outer activity the more rapid Fulfillment of your calls.

I would appreciate it deeply, if all the Groups from now on concentrate as much Power as you can, on that which is the intent in this intended maritime strike all over the world. That is a very vicious thing! I would deeply appreciate it, if you will spend as much time as possible on the Drive and Bind Decrees and the Annihilation of it by the Archangel Michael and Legions of the Cosmic Christ; because there is much intended thru that which can just as well be avoided, for the time is short, and We will appreciate all you can do.

These things are coming to a head and more and more of the destructive forces, will meet the recoil of their own creation. In the meantime, I want you blessed "I AM" Students to feel such Power of the Sacred Fire and to be clothed in

Its Cosmic Action by your own Conscious Command. We can do a certain amount, but when you call It forth It can come with very much greater Power.

Go on and be happy and live in the Sunshine of your Presence, enfolded in the Sacred Fire of every Ascended Master Quality; and just blaze your Light and Power of the Sacred Fire, like the Sun shines upon a plant, and It does not care whether it is a weed or a rose. Helios pours His Life's Love without reservation upon all. If you will learn to live in that same attitude of feeling of Blessing—if you will just pour out your Love and Blessings of the Sacred Fire to all; you won't even have to be concerned what anybody says about you pro or con—you will live in the Sunshine of your own happiness. You will use the Master Powers of your own Life Streams; you will be the Victory of the Light, and you will be able to give Freedom without limit and supply of every good thing will be yours on the moment!

Acknowledge these Powers! Draw forth every Quality of the Sacred Fire in the Universe, and DEMAND with every Power of your Being, that It acts within the physical form and thru the physical flesh to bless everybody and everything around you. Live in the Happiness of the Ascended Masters' Qualities of the Sacred Fire, and you will find your world will automatically come into Divine Order, and be held protected and supplied when those around you are having a struggle. We want to lift the struggle from all of you, and if you will try this out—from today—and build your momentum of that Sacred Fire, you will see very rapid accomplishment in whatever you want to undertake.

So beloved precious ones, in all the Love at My Command We shall intensify every call you make for the Release of the Sacred Fire in and around you, and thru all under This Radiation, and then flood It forth! If there be some sense sometimes of physical heat, just know that God is your atmosphere and you are always comfortable; because sometimes in an intense Action of the Sacred Fire, there is a sense of very great heat around the physical body, and you can just as well qualify that with comfort as discomfort.

There are many of these Inner Actions which will reveal themselves to you and thru you, as you use them; and it will bring very great Illumination to the outer intellect, as you call forth more and more Activity of the Sacred Fire thru yourselves, and

to just bless, bless and bless everything around you. If somebody is disgruntled and comes to you, just say: "Oh I cannot afford to be bothered. 'I AM' going to pour to them all the Blessings of my Life Stream, and God, take care of him or her." Just don't be a part of that other thing, and you won't have trouble in your world.

From this hour henceforth, precious ones, remember that it is the Power of the Sacred Fire of your physical forms doing whatever you do! Then when you command Perfection into action by the Power of the Sacred Fire, you will begin to become acquainted with yourselves. As soon as you get a momentum of that you will begin to know what your Higher Mental Body has wanted to give you all thru the centuries.

Until you see the Messenger again, if you will hold close with this, I will try and come the next time she comes to the Lodge. I will try and come again, and help you with the Greater comprehension of the more intense use of the Master Power of Creation; because the more you intensify It, the quicker comes the Complete Release thru you of the Mastery for which you have called; and long before your Ascension you can move forward clothed in the Higher Mental Body's Blazing Presence of that Sacred Fire; until all around you becomes the Perfection you desire, and you will be free to do for others that which they cannot do for themselves! Your joy will know no bounds, as you enter into the Full Mastery and Cosmic Victory of your Own Individual use of Our Ascended Master Powers of the Sacred Fire.

Just try Me out! Concentrate on this for awhile and call these Powers into everything you do, and see for yourselves the Fulfillment of My Words. Dear hearts, thank you with all my Love for all you have done! Thank you for all you constantly do, all you anticipate doing. Just live in the glorious Blessing of All Activities of the Sacred Fire, and be unconcerned about the human; because the Fire either repels or consumes it; and if you know yourselves as that Presence, your Victory is soon to reveal Its Blessings to you, and your Freedom lies within your own hands, as you continue those calls!

So with the Love of all the centuries that I have poured to you, shall I increase it constantly, hold you in My Mantle of that Sacred Fire, make you feel the Great Love of My Cosmic Heart; and render that service thru you for Saint Germain's America, until you all stand and behold that Flame with your

physical sight. It is possible! It is Part of Life! It is Perfection! It is the Authority of Creation, and you in the use of the Great Creative Word "I AM"—God's Mighty Name, as you command that Sacred Fire to go into action to produce Perfection for you, clothed in the Love of My Cosmic Heart, will you know there are no longer veils between. Then, will you know what it means to have stepped thru that Door into the use of the Master Powers of Life, and to be sealed in the Love from Our Octave which knows no failure and is never absent.

Take Me at My Word today, and go forth, precious ones, clothed in the Mantle of My Love and the Sacred Fire that will enable you to give obedience and BE Free, Oh so quickly. Dear Hearts of the Light! Become now, dear hearts of the Sacred Fire, and go forward to Perfection in whatever you choose in the outer world; but be adamant against anything human as you move forward.

Thank you, Precious Hearts, so much!

### SAINT GERMAIN

*I say to you, whatever the mistakes have been in the past, please shut the door and lock it. Simply call on the Law of Forgiveness earnestly and sincerely, then lock the door behind you. Don't leave that door open for the old things to keep piling up and getting your attention; when you know how powerful your attention is. You know it can lift you to the heights or drag you to the depths.*

*It seems so remarkable that in all mankind's experiences these simple Truths did not come forth, and yet we do know of course it is simply the sinister activity of human accumulation that withheld these simple majestic Truths from reaching the consciousness and understanding of mankind, because then they would free themselves quickly.*
