

BELOVED MIGHTY CYCLOPEA'S DISCOURSE

SANTA FE, NEW MEXICO

EVENING

JUNE 13, 1947

BELOVED ONES of the Sacred Fire, in your Onward Journey to the Full Victory of Light in the Attainment of the Ascension, I wish to assure you that as you give your undivided attention – mark you, I said “undivided attention” – to your own “Beloved Mighty I AM Presence” in the recognition of the Sacred Fire, to the Ascended Host and Cosmic Beings in the same Use of the Great Sacred Fire, to call forth into outer action that which We have been waiting so long to see encompass the Earth, I want you to feel how very close you are to Us through your Love to Us and Our Love to you.

Shortly, there will come forth from the Royal Teton the World-Enfolding Flame, which it is My Cosmic Opportunity, Privilege and Responsibility to direct; and as that enters into every Life Stream who is constructive, especially those under This Radiation, will you feel a tremendous impetus – a tremendous movement forward in the accomplishment of the constructive activities your Hearts have been waiting to bring forth.

In the Consuming Activity of that Flame, as It passes through the atmosphere of Earth, the hatred generated through war and other activities of mankind's unfortunate creation must, of necessity, dissolve to a certain degree. We come to consume a certain proportion of the human accumulation in the atmosphere of Earth. And since, under the Action of the Cosmic Law, it is My Activity to pass those Great Cosmic Rays through the atmosphere of Earth twice a year, you who choose to give Us your attention and become consciously aware of the Cosmic Action which the Earth requires can draw into your own Individualized Activities of the outer world Intensified Streams of those same Powers of the Sacred Fire.

The Service this year to be rendered at the Royal Teton is Transcendent and Magnificent indeed. The Cosmic Hour is approaching wherein the Great Decision of the centuries is to be

made, and the Fulfillment of the Divine Law demanded! Therefore, mankind had better awaken out of the sleep of the senses and enter into the Freedom of the Sacred Fire!

I congratulate you, indeed, on the happiness that has been yours in the recognition of the Invincible Honor Flame of God's Cosmic Heart. You may have That to any degree whatsoever that you can call forth or desire through your Decrees. It can be released by any Ascended Master or Cosmic Being and by your own "Beloved I AM Presence"; and could mankind or even the Student Body understand what change That could bring about in the flesh body within six weeks, by keeping every thought, feeling and spoken word charged with the Invincible Honor Flame of God's Heart and Its Indestructible Harmony, you would move forward in magnificent accomplishment, surprising yourselves and those about you.

Precious Ones, it does not take centuries to free a Life Stream from the accumulation of the centuries – unless the accumulation has been frightfully vicious, then that is another matter. But the average Life Stream who has a certain proportion of constructively used Energy and Substance stored in the Causal Body, which is the Circle of Colors around the Upper Figure in the Chart – when that proportion of the Light Substance reaches a certain point, then the Cosmic Law, with the Consious Call of the individual, can move into outer action those Special Activities of the Sacred Fire which can consume quickly much of the human accumulation that has gone on through the centuries. While that is an Action of the Law of the individual, it is also true of a Nation and the World.

When the proportion of Light in the desires or in the feeling and the mental world of mankind en masse or a group of people reaches a certain intensity in the Conscious Use of the Sacred Fire, then the Cosmic Law can come and bring about assistance which can come centuries sooner than otherwise would be. You are facing such a moment in your visit to the Royal Teton and for an entire week following the Release which is to take place on the 30th of June in the evening. From then to a week following, filling the entire week, will this Activity of the Sacred Fire which I direct increase; and therefore, your opportunity this time is very great.

I wish you to be consciously aware of this, so you may consciously call and come every night. Those of you who can, try to be there by nine o'clock. Those who must respond to the call of the outer world, be there by 11:00 and if you choose to give this week of time in the Increasing Activity of that Sacred Fire, you shall understand the Reality, the Power and the Gift which is being offered you with a consciousness you have never used before.

This is because there are certain forces within the Nation, and within the World, trying again to focus slaughter into the outer experience of mankind. With your assistance, We have a Cosmic moment during that time when much can be done to at least minimize the destructive intent; and who knows to what degree the Cosmic Assistance can be given when the Call goes up from a group of people whose fierce determination is relentless that the forces of war shall be removed from creation.

Mankind who has defied the Harmony of Life and the Fulfillment of the Divine Plan through the centuries, comes to the hour of reckoning; and while those Life Streams have built some frightful accumulation, yet under the Action of the Cosmic Law, who of you can tell Me what might be done to assist the Earth and to reduce that viciousness as much as possible and a great deal more than appears at the present moment?

There are Infinite Ways and Means within Life, Beloved Ones, which Life everywhere can draw forth on an instant to change conditions that have been built by mankind. If the outer intellect of man but understood the Fathomless Activity of the Cosmic Christ — the Pure Mind of God — the human beings of the outer world would understand that when problems or conditions of human creation appear to be handled and the outer self seems helpless, mankind if they could realize what abides within that Fathomless, Diamond Shining Mind of God, and would hold the attention There without interruption, would find many solutions for conditions in the physical octave that the outer world cannot handle. Try to keep this consciousness before yourselves. God can always do what man cannot!

Therefore, you should be of good cheer. We not only remind

you of This, We offer the Way and Means of assistance; and when you begin to move into action with the Sacred Fire through this Call, you will find many Transcendent Activities coming forth of which you never had any consciousness, and many that mankind has never used on this Earth before in any age.

Therefore, I say to the individual who will take his or her determined stand to Life in the Invincible Honor Flame of God's Cosmic Heart and the Cosmic Heart of any Ascended Master or Cosmic Being or of the Angelic Host, to whom the outer attention might be turned by the Higher Mental Body, that individual who has the inflexible determination to stand and hold the attention with love, adoration and loving obedience and insulated against the outer world's qualities, will have all the proof within the mind and body any one can require of not only that Reality, but the Authority and Power which that Sacred Fire is, to produce any condition in the physical world which is constructive, and to correct anything that is destructive.

Tonight, Dear Ones, I want to remind you in handling your problems and your limitations – until the hour when you stand Eternally Free – I say to you, instead of allowing the attention to go into a problem and you try to solve it from a physical angle, if before you try, you would with fierce determination, call to your “Beloved I AM Presence” and to Us to loose all Power of the Sacred Fire in Their Mightiest, Cosmic Concentration into the cause of the thing at the Inner Level and shatter the cause. Because this is the sustaining supply of energy that keeps the manifestation in your outer experience as a condition. Then would you find conditions dissolving, many times on the instant. For once you withdraw the sustaining energy from the limitation or problem, you will find you have punctured, as it were, that which holds the accumulation of energy in action in the physical body or in your world of affairs.

It is just like puncturing a ballon. Once you strike at the Inner cause that sustains a wrong condition, you immediately remove the sustaining energy, and the manifestation must disappear and collapse. If mankind understood this in regard to their health, or conditions in business or family affairs – if the individual's first

Call would be to the “Presence” to move into action the Mightiest Concentration of the Sacred Fire and compel the annihilation of the Inner cause; and then try in the outer to move and do what seems to be the sensible and reasonable thing to solve a problem, you would find many times the problem would disappear before you had time to solve it. I think this is quite desirable. At least it is pleasant. It is practical. It is harmonious.

So in the activity of making your decision to hold with inflexible determination to the Invincible Harmony of your “Presence” and the Great Sacred Fire of God’s Cosmic Heart – and in that, Precious Ones, when you move into the Heart-Action, you move into the Secret of Life, whether it be the Sustaining Life of the Infinite Universe around you or the Sustaining Life in a condition or an individual or some Great Cosmic Manifestation.

When you move into the Action of the Invincible Honor Flame of God’s Cosmic Heart, you have entered the Secret Place of the Most High! You have entered into the Secrets of Life, whether you call that Action forth as OCEANS of Flame into a condition which is drawn from the Great Central Sun, or whether you call It forth from the Ascended Masters or Cosmic Beings. It is the Action of the accumulated momentum of that Sacred Fire which any Being, Ascended Master or Cosmic Being uses in Cosmic Activities of Creation. In other words, you turn on a Cosmic Action of the Sacred Fire, the Secret of which is held within the Life Stream of an Ascended Master or Cosmic Being or within the Heart of the Central Sun Itself.

Now the Secret Powers, the Secret Illumination of your own Life Stream, are held within the Electronic Body, and It is delegated, so to speak, piecemeal through the Higher Mental Body into your outer intellect and through your Heart. This is the Way the Secrets of Life are released through the outer self into outer manifestation, as much as the outer self can stand from time to time, to make it a permanent part of the outer activities of the personal self. But when you deal with forces that affect a Nation or the Earth, then you must enter into the Secret of Life which sustains the System. And the Great Central Sun is that Secret. It is the Secret Activity of Life which governs not only this System,

but a whole Series of Systems around that Central Sun.

Just as surely as you place your attention upon that Activity of the Sacred Fire, will you feel It as a Living Presence in and around you which begins to clear away the conditions that heretofore you have struggled under, and have sometimes become discouraged because they did not yield to you as soon as you thought they should. It does not take forever for the Sacred Fire to dissolve or consume a condition. It might have taken the human a great many centuries to build a limitation of some kind of discord, but it does not take God forever to undo mankind's mistakes.

You know, if mankind could only realize and dwell in deep love and contemplation upon the Consciousness within the Sacred Fire which is the Master Element of Creation, and is the Controlling Force of all the other Elements, then you would realize to use that Power, does enable, at all times, the God-Presence of Life to do for you and for your fellow man that which they cannot do for themselves or you cannot do for yourself. When the outer seems helpless, then remember to call to the Secret of Life – the “Beloved Mighty I AM Presence” – and ask for the Invincible Honor Flame of Its Life to do for the outer self what it cannot do from the appearance world.

Oh, if We could only – We can, of course, but I mean if mankind would only give Us the attention without interruption, We could set you Free sometimes in a few hours. Now this does not mean to sit off in a corner and try to concentrate upon Us until you get tied up in knots, not at all. It means to live with Us! Do you know what this means? Live with the Conscious Awareness that Above you stands this Luminous Presence of your own “Beloved I AM” and around that “Presence” and from the Heights of Perfection, there come the Cosmic Beings from time to time, which your Higher Mental Body knows will give to you the Special Qualities or Assistance at the moment which will build into the outer self permanently, the Greater Expansion of these Perfect Qualities of Life.

This is why unless mankind will recognize the “Beloved I AM Presence” and Us, and give Us some conscious connection by

which We can pour Our Gifts back to them to help them out of the degradation and limitations in which they have unfortunately drawn themselves, how in God's Name can they ever be free? Only God can free Life from the human qualities! Therefore, if limitations, problems and struggle seem to persist, then make your Call for the cause to be annihilated at the Inner Level. Then turn to your "Beloved I AM Presence" and the Ascended Host; ask Them to come into you and do for you what the outer self cannot do for itself! You will find your problems and limitations, like shadows, passing away from your pathway and you will, as it were, step into the Sunshine of your "Beloved I AM Presence" and go forward like happy children, hand in hand with the Ascended Host.

You know a loving parent plays with a child along its growing years, and from time to time the child goes off and plays alone; and then comes back and associates with the parent. Then there comes the time when they go along together, side by side, harmoniously to the victorious accomplishment of the Divine Plan of each Life Stream. So should it be with the unascended mankind and with Us. We are the elder Brothers. We have been the Guardians for centuries of the Life Streams embodying on this Earth.

The entire Divine Plan is open before Us. As your Mighty Saint Germain said to you: "Once you enter into the Complete Feeling of your 'Presence' and Our Reality in the Use of the Sacred Fire, the past, the present and the future become One, because the 'Presence' knows all things past, present and future." That which has been human can be dissolved by the "Presence"! That which is present can be perfected by the "Presence"! That which is yet to come can be revealed by the "Presence"; and Perfection be the only Quality in all.

The whole thing the outer self needs to be trained to understand is that everything worth while which is constructive comes from that "Beloved I AM Presence" and the Ascended Masters' Octave of Life, and the things that seem to come from the physical world by personal effort are always changing. They may be here today and gone tomorrow. Look at the handiwork of the geniuses of the centuries. They have spent lifetimes building some

mechanical accomplishment to assist mankind, and a century or two later it has dissolved. Why was it not sustained when it was constructive? Because the outer self claimed the credit of being the doer. And the individual who has the backbone to stand inflexible with that "Presence," acknowledge It as the only Presence of Life who can produce Perfection, and acknowledge that all Perfection in the outer world which you contact is that "Presence" Mighty Gifts to mankind, with persistent determination and uninterrupted harmony, you would move forward; and in six weeks time, you would be the most amazed of individuals, because of the change within yourselves.

Precious Ones, do not feel discouraged if you start out tonight or tomorrow morning and you decide this is what you are going to do, and if you fall off the perch, do not become so discouraged that you do not try again. You might fall off many times, but you can always crawl up once more than you can fall down, because God is above you and only your human can cause you to turn away from your determination to have your Freedom; and your Freedom does not come from anywhere but that "Presence" and Our Octave.

I want you to come so close to your "Presence" tonight and to FEEL Our Reality with such Love and such Closeness so That feeling will never leave you. Even though you walk amidst the discord of the world, even though the ground dissolves under your feet, yet will you stand serene in the Flame of your "Presence" and that of Our Love, untouched by anything human. This not only can be done, but has been done and will be done again.

Mankind must be shocked awake out of the sleep of the senses, which their destructive activities are; and perhaps the awakening is going to be very rude in some cases, but nevertheless eventually effective. Mankind does not want to defy the Supreme Source of Creation too long. The Great Cosmic Law does not indefinitely allow God's Handiwork to be mutilated and dissolved again and again and again. Century after century has one civilization after another come to its height and again it has dissolved, and the close of the cycle has come and the time when the future contains the Permanent Accomplishment of that which is the Divine Plan of Eternity.

So those of you who have the Conscious Knowledge of the “I AM,” I say if you will arouse within yourselves the determination to take this stand with your “Presence” and Us to have no part and be no part of anything human, but you move forward sealed in the Secret of Life, the Invincible Honor Flame of God’s Heart, you shall move forward and live what the world calls a charmed existence. You may be insulated and then draw the Power to do for your fellow man what has never yet been done by unascended Beings.

This is why We have loved you through the centuries. It is why the Beloved Saint Germain over the last fifteen years has continued to increase the momentum in the Use of the Sacred Fire and draw together a group of people whose conscious awareness of the Law and their conscious application of that Law in the Knowledge of the Sacred Fire has brought you to the present hour with a momentum even yet none of you understand, and shortly this momentum shall be increased for the entire Student Body.
(Applause – audience rising)

Thank you, Precious Ones. While you are standing a moment I wish to say this. The world has been on an orgy of defiance to God, and shortly they are to be awakened to the end of that existence. When the Cosmic Light begins to surge into the atmosphere of Earth to the place where it becomes Self-Luminous, the human will bow and pass into annihilation; and the records of Life be cleansed of even the memory of that mistake. Thank you, won’t you be seated, please?

Were you to charge yourselves, Dear Ones, with the Ascended Masters’, Invincible, Victorious Determination, “I AM” quite sure you would continue in your decision to stay with that “Presence” and BE the Master Authority which directs the Power of the Sacred Fire of God’s Heart as the Controlling Power over all you contact, and the Secret of Life will be yours to provide Perfection for others. If I were you, I would certainly make a habit of charging everything I contact with the Invincible Victory of Perfection, Eternally Sustained. The Victory of Perfection gives your “Presence” a chance to loose the Sacred Fire through the outer self.

I wish you to understand the Sacred Fire is that Activity of the Fire Element from your "Presence" and from Our Octave of Life which is the Master Element of Creation and which consciously holds control of the earth, the water and the air. The Fire controls all three and interpenetrates all three, therefore, is the Eternal Source of Perfection.

Could mankind see with the complete Inner Sight – I mean by that, see through substance as well as on the surface – you would see within every person's Heart a tiny Unfed Flame in the permanent atom. One day there will come scientific apparatus which will reveal this to the physical sight of mankind; but We do not bring those manifestations to gratify either the curiosity of the outer self or to exploit anyone's personality. When the Great Cosmic Truths of Existence are brought into the outer use of mankind, they must come on a Stream of the Sacred Fire, and he who directs it must be the absolute Selflessness of the Ascended Host. Unselfishness is not the word. It is absolute selflessness. What do I mean? The self without the lower self; in other words, that which is wholly Divine, wholly the Purity of the Sacred Fire from the Higher Mental Body enfolding the physical form in such intensity of the Sacred Fire that it shuts out all that is human, and moves forward and gives Its Supreme Gift to the surrounding Life in the expansion of the Divine Plan's Fulfillment.

When the Student Body has gathered a certain intensity, or a certain momentum rather, of the use of these two phrases – the Ascended Masters', Invincible, Victorious Determination and Victorious, Controlled Attention, held within the Heart of the Sacred Fire, the Honor Flame of God's Great Cosmic Heart, and it becomes an accepted momentum used in daily activity as the Commanding Authority of the "Presence" in everything you do – you will soon gain a very rapid Freedom from the outer world's conditions and limitations. Then as your own Freedom grows greater and you become the Custodians for the Use of God's Greater Gifts, will the Great Cosmic Law expect you to open the Pathway of Light to the rest of mankind. This is the natural responsibility of the reception of Greater Light.

If you, because your attention and call and desire have gone

to God for the Greater Light and Explanation of the Perfection of Life in the Universe, when your "Presence" has drawn This Knowledge to your attention, then that carries with it the obligation to take this same Explanation and greater Gift to the rest of mankind. Never intrude It, but be ready to give It whenever those who are receptive are brought into contact with you.

Oh, could the Student Body know what it means to absolutely turn away from mistakes and demand the Perfection of the Sacred Fire to take the place of every mistake, your own and others whom you have contacted. Could you take the stand with such firmness that you would never look back and never recall your mistakes, or those of others, truly there would come into you the Flame of Forgiveness which would take you forward to attainment like a sky rocket.

You know, Precious ones, the thing that continually drags mankind into distress and holds them in conditions of limitations for century after century, embodiment after embodiment, is the race consciousness of looking back on the mistakes that have been, or watching the mistakes of others; because as surely as an individual does this, that hour those mistakes photograph that instant on the energy of their own Life Streams — that one's Life Stream — and then that experience comes again, again and again on the Great Wheel of Life's experiences, until the attention goes back to the Source of Life's Perfection.

Therefore, there are three things I wish you to remember tonight: to continually use the Ascended Masters', Invincible, Victorious Determination and Invincible, Victorious, Controlled Attention; and DEMAND that the Momentum of the Invincible Honor Flame of God's Heart be so great in and around you that It becomes the Master Element in your world. Then through your Calls your "Presence" — your Higher Mental Body — could come very much closer into contact with the outer self, even to the point where the Light might be seen above your heads or even through the flesh. And the third thing I wish you to remember is to continuously acknowledge the Invincible Victory of Perfection, Eternally Sustained.

Annihilate the cause at the Inner Level of conditions that distress you! Acknowledge your Victory! Charge yourselves with

Our Invincible, Victorious, Determination and Controlled Attention; and stand SEALED in the Invincible Honor Flame of God's Heart and never looking back, but looking always unto the Light. You should remind yourselves that the shadows of human discord have come and gone century after century, but every moment from now on for the rest of Eternity you may live in the World of Light, if you keep your attention There.

You may change the quality in everything around you if you call on the Law of Forgiveness and flood the Honor Flame of God's Heart and the Great Forgiving Purity and Love into those conditions. You not only keep your own feeling world harmonized, you not only keep the comfort and peace within your bodies, but you will find you can build a momentum which will change the qualities and conditions of inanimate substance to the point where you will produce what the world calls Miracles, and yet there are no Miracles. They are the Action of a Great, Cosmic, Simple Law, as self-evident as Life Itself, and as exact as the multiplication table.

No matter what comes to your attention that is less than Perfection, just call to your "Presence" and to Us to wipe the cause of that thing out of the Universe and COMPEL the Invincible Victory of Perfection, Eternally Sustained, to possess all within the condition and hold the Ascended Masters' Control in all outer activities.

Oh, Dear Hearts, you have yielded authority and every conceivable thing to every power of the outer world. You have been taught to lean on everything except that "Presence." All through the centuries, what have you done? You have leaned on doctors, lawyers, preachers and every conceivable thing of the outer world teachers, and yet that Supreme, Magnificent Presence who holds within Itself the Secret of all Life, who is the Master Authority of all Activities of the Sacred Fire, stands awaiting but your attention; just wanting to make a connection through by which It can give you all of everything which is Beautiful and Perfect, and will delight you for Eternity and none can ever take from you. Isn't that a relief?

Every conceivable thing in the outer world takes place, many

times when you have attained some of your Heart's desires for which you have worked perhaps years or centuries and you attain some accomplishment, but something comes along and sweeps it away. But not so with the Gifts of the "Presence." If that "Presence" gives you the Illumination and Explanation of the Activities of Life which are above the human existence of this world, who can take that from you? The "Presence" builds It into the Life of the outer self, and It is part of you forever. When We enfold you in Our Activities of the Sacred Fire, Our Flame becomes a part of your Life, and who can take Our Gift from you when We give It forever? You might forget It temporarily, but none can take It from your Life. We do not give Gifts which are here today and gone tomorrow. We deal with the Eternality of Life. Therefore, when things of the outer world distress you enough, you will come back into the World of God's Heart and become acquainted with the Being you really are and that Home which is Eternal.

My Dear Ones, as you journey through this world, let not its fascination hold your attention from your "Presence"; but reverse the habit of the centuries, which hours and hours of each day keep the attention compelled to the outer things. Instead of this, reverse it, and even though you be busy doing outer things, there will be the continual awareness of the Blazing, Luminous "Presence" above you – Its Flame flowing through you; Its Flame doing what you please. Then as you recognize the "Presence" doing all things, will you find the Perfection you have sought so long; and you will have become its Expansion and Presence in Action to the Great Joy and Victorious Accomplishment you have always longed to attain.

The outer world has offered you attraction sometimes for the moment and temporary sensation, but it has never offered you Perfection nor Eternal Happiness; because until the vibratory action of the physical octave is raised into that which is in agreement with Ours, imperfection remains until that hour takes place. But you can be insulated in Our Activities of the Sacred Fire and move through the world untouched by its seething vortex of discord, exactly as a diver moves through the water searching out that which he goes to find, and yet, untouched by the other

beings among whom he moves.

Our Flame can be such an insulation around your flesh structure and within your Life Stream and around it that your mental and feeling world become flooded with Our Light, and no matter what your experiences of the past have been, from this hour, you can live for the rest of Eternity in the Realm of Light while yet unascended. God keeps the Door open always in the Great Activities of Life for the outer self to enter into Perfection any time it desires to come, and it may stay there forever.

So, no matter how great the outer turmoil seems, no matter, Dear Ones, what the limitations are in which you find yourselves at this time, remember limitations are not eternal, while God is. And God's Perfection in the Great Secrets of Life ever hold before you a vast expansion of activities of such Joy, such Beauty in the Use of such Powers as you have never yet comprehended, but they are all yours. Life is waiting to surge these Gifts into your outer use, but It cannot do it until your attention goes to your "Presence" and forms the bridge, as it were, or the Stream of Energy on which the "Presence" can give the Gift. Therefore, if you do not give your attention; if you do not give the energy of your Life; if you do not give the Love which forms the connection with Our Octave, how can We supply you the Gifts which would bless you so greatly?

Any group of mankind who will be determined to come right back into that "Presence" and stay with It and give It continual recognition, even in the midst of all outer activities, will find the "Presence" does not forget you. You have in the past forgotten the "Presence." You forgot the Light when you became enmeshed in the shadows, but the "Presence" never forgot you. If It had, you would have ceased to be.

Don't you think it would be well to consider giving Divine Justice to the "Presence" and being concerned with what you owe the "Presence," after Its Gifts to you through the centuries? It has given you Its Life! It has given you Its Love! It has given you hundreds and sometimes thousands of bodies to gain your experience through this world. Why not begin to realize that if you will remember the "Presence" and the Blazing Authority of Its Light

and the Sacred Fire, you may at all times have a Friend and a Companion in the midst of any condition that is yours for Eternity.

It is well worth while, My Loved Ones, to give every moment of recognition possible to your "Presence"; and should you try, or care to try for six weeks, to keep everything that comes forth through you charged with the Invincible Victory of Perfection, Eternally Sustained in everything you contact, I shall await your experience. And if you succeed, We shall have another visit and the Gifts I can offer you then will be used before the face of mankind, and none will deny their Reality. The Gifts and the Powers which can be yours, if you succeed in that, will amaze you as well as the world, and I would like to expand My Gifts or plant Them in the Garden of your Hearts so I might grow Greater Gifts for the rest of Life.

Remember tonight, Dear Ones, as you dissolve the problems and limitations of the past and you step forward into the Pathway and World of Light to use the Greater Powers and Secrets of the Invincible Honor Flame of God's Heart, you will find many delightful experiences. You will find many true friends! You will enter a Realm of Expansion and Activity in the Use of God's Powers which will make you the Friend of Man wherever you move. And the more you use those Powers, the more Life will love you and the more God will give you for greater use. Each day may be filled with Greater Activities of that Sacred Fire and the Invincible Victory of Perfection forever sustained. Each hour may be flooded with Its Expanding Flow and you, recognizing once again the Home from whence you strayed, will turn your faces to the Light and like happy children come home and abide where Perfection is yours forever.

Tonight those faculties which you use, and which it is My Privilege to project and expand through the mankind of Earth — the use of the sight, the hearing and the voice, and the use of the Powers of Precipitation — Dear Ones, mankind only use about one-tenth per cent of the faculties of sight, hearing or the power of the voice. And I have another Service — perhaps the one I love the most and this is the governing of Music to this System of Worlds. I have Treasures of Music which are not only Eternal, but

are so All-Powerful that they still everything human within the physical form, or even within the animal creation on the planet; and that which a moment before was ready to destroy can, in an instant of musical sound, become Divine in its Harmony of Love.

I trust We may have many visits together as this Power releases Its Greater Gifts, Its Greater Blessings, Its Greater Victories to the entire Student Body. As you enter into the Great Joy in the Use of that Power to correct conditions harmoniously and permanently will you find still Greater Powers of Music awaiting you which will help your Beloved Saint Germain to cleanse the Earth more rapidly and bring His Victory more quickly.

I shall be very, very happy to greet you at the Royal Teton the last of this month, and may our combined service to the Earth offset the plans of those who are caught in the darkness, but who must take their claws off mankind. We work together for the Freedom of all, but those who are constructive must have protection immediately; and through them, We can give the Greater Light until the shadow receding and the Light intensifying, entering into the shadows, has consumed that which has been human through the centuries; and the Earth and the Universe, a Blazing Light, have taken the place of that which has gone into oblivion forever.

Truly you are blest indeed. How many people on the Earth tonight are feeling the Vibratory Action of This which is in the room? And this Gift I give you is yours forever! If you would like a Greater Gift, remember This one and plant It in the Universe by making It grow to bless others; and you will find the Secret of Life is the giving of the Invincible Love of God's Great Cosmic Heart. You will retain and maintain your harmony! You will begin to reach into the Greater Secrets of Life and your problems will drop away as old worn-out garments. And you, stepping through into a new Life while yet unascended, can wield Power of Great Blessing to those who still tread the pathway of Earth.

May I remind you again as have others, could you remember that wherever you move, you are the Guest of God, it would take from the outer self any feeling of human possession or dominion in this world. If you recognized God was your Host, God, your

“Mighty I AM Presence,” is your Host while you are here in this World; and this World is God’s World, you will be careful what you impose upon Its substance, Its Life and Its Activities. You will be careful what you do to Its energy, because if you love your Host you will be a gracious guest to your Host’s other guests.

When the Mighty Victory invited you into the Garden – His Garden of Life, His Garden of Love – He never told you the Beauty and the Powers and the Gifts which are there awaiting your use. Few have acknowledged and remembered that. I remind you for Him. I hope you visit Him shortly. He will be with Us at the Royal Teton, as will the many Others Whom you have known. This year the Service to be rendered is the greatest that has yet come forth. I shall await your Presence; and as you call to your “Presence” to prepare you to come, I shall give everything to you while There that you can accept and make your own, and return and use to bless your Life and all you hold near and dear; so this Beloved Land of America may rise to the Height of the Perfection which is Her Destiny and render the Service to the Earth which is Her Victory attained.

Freedom shall not pass from the Earth; but the Victory of Light shall now begin to possess all upon the Earth and take the place of the shadows that have been. And in the Purifying Presence of the Invincible Honor Flame of God’s Heart, will you find Life releasing Its Gifts, Its Secrets, Its Blessings, Its Powers to you, and through you to all. While the cleansing goes on, you may yet hold the Harmony and the Invincible Protection which enables the Victory to come as quickly as possible. (*Applause - audience rising*)

Thank you, Beloved Ones, and in the Power and the opportunity which is to be Ours soon at the Royal Teton, I ask you to maintain as much Harmony as possible between now and then. I do hope you will make the grade within six weeks. Try it! Do not be discouraged! Just try anew each day until you attain, and when you look back, you will find it is worth every effort it will ever take for you to arrive at your Freedom while yet unascended and feel the Mastery which can be yours in the recognition and Use of that Sacred Fire of God’s Cosmic Heart.

The Door stands open before you! The Path is blazing with

Light, but you must tread it of your own free will, with Love as your Daystar and Forgiveness as your Scepter of Freedom. Purity is imperative to hold your protection, but there is nothing so great that you cannot attain it, as long as you remember your “Beloved I AM Presence” and Our Great Love of the Sacred Fire are the Way and Means by which you attain all you can ever desire.

Thank you and until We meet again, I clothe you in the Mantle of My Love and Protection; My Illumination and Joy to bless you on your way and give you Victory without question!

Thank you and good night.

REMINDER!

BELOVED GODDESS OF MUSIC – CD 281

“Since the Great Cosmic Music of the Spheres is the Great Creative Action and the Great Designing Power of the Great Love of the “Mighty I AM Presence,” It is also the Purifying, Balancing, Healing Power that Life can use in and through the mind and body and the atmosphere of the individual to establish Perfection; and then, It can pour forth into your affairs to produce Beauty and Perfection there. You have never quite realized just how much you can produce in a way of Perfection in your affairs by Music in your outer activities.”
