

ELOVED DEFENDERS OF THE LIGHT, from Heights of Cosmic Power do I come to bring into your mental and feeling world the Light and the Wisdom of which "I AM" the Director to the Earth.

In the Great Balancing Power which Love, Wisdom and Power pour forth to the Earth, it is My Great Cosmic Privilege to watch and release Illumination wherever there is the slightest opportunity, so the intellect may be free from its acceptance of the mistakes of the past and the present.

"I AM" the Illumining Power of Cosmic Love in Its Seven-Fold Action through the human brain — the physical brain. Every impulse of Light which travels through the structure of the brain is a Messenger from My Realm of Wisdom; and if you will so decree it, you may have all the Wisdom you desire before you attempt to accomplish anything in the physical world.

The Flame of Love's Wisdom from My Heart is anchored within the brain of every Life Stream, every physical body on this Earth. That is a direct connection with the Great Cosmic Wisdom of the Universe, that which is individualized and concentrated for conscious use by unascended beings.

The Seven-Fold Flame of Cosmic Wisdom contains within It the Divine Pattern of That which is to be the Manifestation of Perfection upon this Planet. Within that Seven-Fold Flame of Cosmic Wisdom presides, if you wish to think of it in that way, every detail — rather there exists within that Cosmic Flame every detail of That which must be made manifest upon this Earth. Within that Flame of Cosmic Wisdom is the knowledge of the Way and Means which always exists within all Life, to change any condition, any manifestation, into that which is higher, and ultimately the Divine Plan fulfilled.

Regardless of mankind's misuse of Life's energy, conscious-

ness and substance on this Planet, regardless of that I say, within the Seven-Fold Flame of Cosmic Wisdom is the Way and Means by which everything can be compelled into Perfection. Do you not see when That abides within Life, and Life has endowed every physical brain on this Planet with a portion of the Flame from My Heart, do you not see how Life has commanded that Perfection shall be accomplished and must be the Goal of all manifestation here?

Therefore, do you not see how when mankind en masse has become so frightfully destructive, that there must come an action of Life's energy through the Powers of Nature, which shall grind into Perfection everything that is of Life on this Planet! In other words, Life contains within It the Command, the Power and the Way and Means of changing all substance and all energy that has been qualified with less than Perfection, into the Fulfillment of the Divine Plan and Pattern of Life to this Earth.

When you know Life has provided that Way and Means within a definite focus in the brain structure of every human being, then you must see how impossible it is for Us to consider whether an experience means pleasure or pain to an individual — all must be ground into Perfection. It is the Fiat of Life, and so must Life outpicture it one day; and Life in Its Great Mercy of Love has always provided the Way and Means of accomplishing everything harmoniously first, if the individual will be obedient.

Life offers many opportunities to correct the mistakes of the past and to bring every Life Stream up into the Light, and in Its Great Mercy wipe out the record of the remembrance of those mistakes and turn everything into the Ever-Expanding Perfection of the Divine Plan fulfilled. Life provides that Mercy! Life provides the Cosmic Flame of Cosmic Love! Life provides the Great Seven-Fold Flame of Cosmic Wisdom, the Cosmic Wisdom of Cosmic Love through which an individual can know all things and find the Way and Means of doing all things harmoniously, to the Victorious Accomplishment of anything and everything which needs to be accomplished on this Planet, with the assistance of your Conscious Calls to Us.

Since within Wisdom abides Discrimination, when Cosmic

Discrimination and Cosmic Love are in Action through an individual, and that Cosmic Love qualifies the feeling world of that individual, there could never be a mistake in whatever manifestation you choose to bring forth.

I want you to feel that there abides within your own brain structure, an Open Door through which flows the Flame of Cosmic Wisdom at your Call. You might say to Me: "Well, if that is there, why have we ever made mistakes? Why did not that Wisdom and Discrimination govern all things from the beginning and prevent mistakes?" Life has given you Itself. The Great Beings from the Great Central Sun when you individualized gave you every quality which is within Life, the Life from the Great Central Sun. When the Flame was placed within your Heart, a Portion of the Life from the Physical Sun came to abide in the substance of Earth. Within that Flame is the Open Door to all Wisdom; but Wisdom in itself is the Balance of all Qualities and the Perfect Use of that balancing activity through the substance and energy of this World.

When one part of Life is shut out by the free will of the individual, through holding the attention upon one thing for a long period of time, then the balance is obstructed, and if that is permitted to go on, then whatever the attention is upon holds in its grip the Life Stream's energy of that individual. Just so, if the outer activities of this world have held the attention of mankind upon the things that were the physical sensations of the body, and hence have brought forth your conditions of war, just so when your free will turns the attention to the Source of Wisdom and calls forth the Illumination — now mark you, the Cosmic Illumination of Cosmic Love from My Heart — then you will begin to know the cause and effect of all things. You will begin to see that which produces balance everywhere; and then you will become, if you continue to hold your attention There, the Outpouring of the Cosmic Wisdom of Cosmic Love.

Every One of the Seven Mighty Elohim of Creation, Those Who are the Seven Builders from the Physical Sun to this Earth, every One of Them is a Specialized Activity. Every One of Us is a Specialized Activity of the Fire Element within which is

contained the Mightiest Power to produce manifestation in this World. The Original Divine Plan was to produce Manifestations of Perfection, and then continue to expand It and let It grow until It became World-wide. Then later on Systems of Worlds could come from each World as It became a Sun in the Greater Intensity of Its own Light.

Light contains within Itself the Power to forever expand Life's Perfection; and the expanding Power within the Cosmic Flame of Cosmic Love is that which in a moment can flash an intensity of the Flame, which is Cosmic Pressure, upon discord that dissolves it. Just so in the Cosmic Flame of Cosmic Wisdom, which "I AM" to the Earth, can the Flame of Love from My Heart flash through the brain of an individual and compel Illumination, expand Illumination or shut off those ideas that do not fulfill the Divine Plan.

Now "I AM" coming to something which I trust will be a great Assistance to many — to all who will use It. Many of you have often said: "Well, how can we prevent destructive suggestions and ideas coming into our thoughts?" I might ask you to call forth My Cosmic Illumination of Cosmic Wisdom and through That, I think you would be greatly surprised to find the reason of why certain thoughts trouble you.

The Messengers have from time to time reminded you that in the atmosphere there goes forth all the time, all kinds of thoughts, but what is it that makes one kind of a thought hammer back upon an individual when the individual does not want it? Because the currents of energy in the feeling world somewhere have been focused and a record has been left in the emotional body, which becomes a magnet of attraction to that thought. This has happened uncountable times. You may or may not know that the record is there. That is why your Decree for the annihilation of all destructive etheric records in your own etheric body and the replacement of them by the Seven-Fold Flame of My Cosmic Wisdom, will enable you to know in the flash of a second what otherwise would cause you distress, and you will catch it on the fly, before it can anchor and become an effect in your world.

People do not keep cleared out of their Inner bodies many things that are constantly drawing to them distressing conditions of the outer world; because the intellect has not been disciplined to command the attention off the thing that is disturbing and onto a Cosmic Power of the Sacred Fire which Reigns Supreme everywhere. You cannot, just by your own human will – “I AM” not going to say “human will” – the outer activity of your will, stop many of the destructive things that come to your attention. Because many of you have tried it and have not gained very much headway, but you can turn from the thing and calling on the Law of Forgiveness for the existence of any thought or feeling in this Universe that is less than the Perfection of the Ascended Masters and Cosmic Beings – you can call for the annihilation of all that has limited any part of Life. You can command the annihilation of every destructive etheric record in your being and world, and then you can say to the “Mighty I AM Presence” and to Us: REPLACE THIS BY THE SEVEN-FOLD FLAME OF COSMIC WISDOM WHICH HOLDS ITS FULL DIRECTING AUTHORITY OVER MY ATTENTION AND MY THOUGHTS AND FEELINGS FOREVER!

I think you will find a release from the habit of just milling over thoughts and feelings, many times when you do not even know you are doing it; because “I AM” going to promise you something now. If you will call My Cosmic Flame of Cosmic Wisdom to take the place in your consciousness, whether it be in the intellect or in your feelings, of everything of human qualities or suggestions, I guarantee you, I will be there and destructive forces will not have so much playground for their plans.

Mankind through the centuries has used the attention, especially in educational systems, to keep drawing into the brain of the individual the ideas of those who have gone before, ninety-nine and a half per cent of which are all wrong. Mankind has not been sent to school in childhood with their attention pointed to the “Mighty I AM Presence” and taught how to call to that “Presence” for the Wisdom and Illumination, which will

tell them the reason and the cause and effect of all things. Mankind has not called for Wisdom.

The intellect has been trained to seek knowledge in the outer world through the five senses, with never once a Call for the God-Illumination of the Universe to release the Wisdom of the Divine Plan to be fulfilled. I want you to see why mankind is in this condition today. The people have tried in some channels — people who were sincerely devotional to the God Presence have tried to reach to some God-solution of their difficulties; but they did not have Illumination and they did not ask for it. Many wonderful, kind, blessed orthodox people have said: “I want to do it, if it is God’s Will,” but it never dawned on anybody to say to the Source of Creation: “ILLUMINE TO ME YOUR DIVINE PLAN HERE. MAKE ME THE FLAME OF COSMIC WISDOM FROM YOUR HEART! SHOW ME HOW LIFE IN THE FULLNESS OF ITS PERFECTION WOULD FULFILL THIS DIVINE PLAN! SHOW ME WHAT I AM TO DO TO PRODUCE THE MOST MAGNIFICENT FULFILLMENT OF THIS DIVINE PLAN, FOR THE BLESSING OF ALL IN THE UNIVERSE AND ALL THAT IS YET TO MANIFEST.”

Mankind, individually and en masse, is caught in the whirlwind of the shadows and they go around and around and around like a cyclone; and that goes on century after century, until a war breaks; and a war is simply a cyclone bursting its full force upon mankind.

Therefore, the Cosmic Wisdom of Cosmic Love in the full Power of the Seven-Fold Flame, which “I AM” to the Earth, will reveal more to mankind in fifty or one hundred years than they have learned in the last twenty-five thousand. If mankind wants this Wisdom, they must ask for It! It must be called forth! Life must receive the specified requests for what unascended mankind desires. The individuals have the capacity to ask, have they not? Individuals can call! Individuals can seek and they do in the outer world for the gratification of their feelings. They seek plenty, they ask plenty, they call and they demand plenty, for the gratification of their physical desires. Well then, they

have the capacity to indicate to Life which is greater than themselves, what they desire down here and the condition of the World today is proof of their desires of the past.

When mankind desires Me, I will be there in Manifestation! When you who know this Law and whom We have loved because of your Calls to Us and your Song of Adoration to Us — We have heard your Calls. We have felt your Love. We have come closer and closer and will continue as long as you want Us; but I say to all of you, I challenge you to spend twelve to sixteen years, eight hours a day, like you have to go to school, calling to Me for the Cosmic Wisdom of the Universe and see what your world will contain.

A child sent to school for anywhere from eight, twelve or sixteen years, sometimes twenty years individuals put in preparing themselves to face the responsibility of Life for the rest of the years of that embodiment; and not once in all that time is the individual taught to ask for what the Divine Plan is, how to fulfill It and with some acceptance and recognition of Those Who are their Instructors in the Octaves of Light. Do you wonder mankind is in the chaos and frightful destruction of the outer world today?

We have been ignored through the centuries, almost forgotten, so much so that mankind does not know what the Name Elohim means; then you wonder why the world is heading headlong to chaos; because there has been no Wisdom in the gratification of their desires. They have not been taught from childhood, that the responsibility of themselves to the world around them is to fulfill the Divine Plan of God, the "Mighty I AM Presence," to co-operate with the Octaves of Light's Manifestations which are above this physical world and to understand what their part in it is and to know the responsibility of carrying out that Divine Plan as Life intends.

Children are not taught what they are supposed to give back to the Universe around them. Mankind accepts the Gifts of the Universe. They dig into the mountains for the wealth and treasures which have taken millions of years to bring forth. They accept the sunshine! They accept the Gifts and Blessings of

others around and never once even think or know what they are to do with that Life energy. It is appalling!

My Dear Ones, this is why many of Us have had to recede and go and remain within the Great Silence until mankind, some of them, awakened to the place where they would call Our Presence into outer octaves, so We might begin to set the World into Divine Order and show mankind the Purpose of their journey here.

Throughout the centuries that mankind has lived on this Earth, Life has continually reminded them: "Call unto Me and I will answer thee. Seek and ye shall find. Knock and it shall be opened unto you. Ask and ye shall receive. Thou shalt decree a thing and it shall be established unto you!" Why in the world were these constant reminders given to mankind if the Cosmic Law of the manifestations here, did not demand that they call to That which is greater than themselves in order to bring that greater Perfection into this octave?

I challenge everyone in this room for the next year to give Me constant recognition and call the Cosmic Flame of Cosmic Wisdom of Cosmic Love into your affairs, into your brains, into your bodies, into your feelings, into everything with which you come in contact; and ask for the full Cosmic Illumination of what Life intends through every channel, and I will show you a changed world in your affairs, in your bodies, in your loved ones and in everything you contact.

I challenge anybody and everybody to call for Cosmic Wisdom, the Cosmic Wisdom of Cosmic Love in Action through these physical forms, to fulfill the Cosmic Divine Plan of Perfection and not have made manifest the Glories of Creation.

Why are We the Builders? Why think you "I AM" One of the Elohim? Because We were necessary in the building of a Planet, and Our Qualities are necessary within every Life Stream, in order to build the Perfection of the Divine Plan; but if We are ignored and forgotten and never called to, how could the Divine Plan be fulfilled?

Mankind has had plenty of time to investigate into the Secrets of Nature. They have had plenty of time to spend in

their laboratories to design death rays and diabolical apparatus, to interfere with the Perfection We have placed on this Planet. They have had plenty of time to do this that has produced destruction! Then you who understand This Law, who know the Power in the Great Creative Word "I AM," who are trying to hold the Balance of this outer force, you need Me; but I must have your Calls before the full Illumination which you require to know things at the right time, in order to produce Perfection and hold Protection, can come to your assistance in your daily activities.

Many times people have the experience of receiving the information after the need has passed by. Well that is not the Divine Plan. It is not the fulfillment of anything. It is a mistake. You need the information at the right time; and within the Cosmic Flame of the Cosmic Wisdom of Cosmic Love, you will find an Action of Life, which will prepare the way ahead and give you the right Information at the right time and enable you to do that which moves things forward in Divine Order. Then your manifestations can be completed in great enjoyment of the Use of the Power of Life, without the frightful struggle of human distress.

Because you desire to do something constructive and bring forth a Blessing to all Life everywhere on this Earth, is no reason there should be a struggle, My Dear Ones. And there would not be, if you understood completely ahead the Full Illumination and Divine Plan and moved forward in accordance with It step by step in accordance with Its Natural sequence and have the enjoyment of that Victorious Accomplishment.

Now that does not mean that everything is cut and dried ahead for centuries, not by any means. When Beloved Saint Germain brought forth This Activity of the "I AM," He had certain Information to release. He had certain things He wanted to accomplish. He knew people had to have certain Information before they could co-operate with Him; but He could not foresee, nor can any Being, what mankind's reaction would be, until the Door had been opened, the Information given and the Opportunity extended to see how they would respond.

Your Precious, Precious Saint Germain offered this Knowledge of the "I AM" to those in Europe for a period of almost two hundred years. One after another, who had the qualification and who had the capacity in general to have been the Open Door through which This Light could come to mankind — one after another after He assisted them to be rid of most of their human accumulation and had given them the understanding of the Law — when it came to the order of unselfish service for the mass of mankind, they did not have the courage to face the ordeal of cutting through the forest of mankind's viciousness. As He told you in the "I AM" Discourses, the human qualities of mankind ungoverned are more vicious than the animals of the jungle, and your world-wide war today is living evidence of the Truth of those Words.

I say to you this has all come about because Wisdom has been ignored and the gratification of the feeling world is the only thing to which mankind has directed its attention for so long. Now the Cycle changes, because of the Wave of Light which is passing through this Entire System of Worlds. When That begins to burst upon the atmosphere of Earth and It comes closer and closer and brighter and brighter, as It comes through the atomic structure of the mental and feeling world of mankind, through the physical body and atomic structure of the Earth itself — when that Light intensifies to a certain point, mankind will either clean up or be removed. The very Intensity of the Cosmic Light will compel it.

Now please do not ask for the Cosmic Flame of Cosmic Wisdom just for yourselves! I would specify This for the mass of mankind. In calling forth My Seven-Fold Flame of Cosmic Wisdom of the Cosmic Flame of Cosmic Love, call It forth through the mental and feeling world of every human being, with enough Pressure of the Cosmic Light to compel them to let go of all destructive thoughts, desires and habits of every kind.

There must come the Cosmic Pressure of Light-Substance which is surging through the Whole System of Worlds, which must come into the atmosphere of Earth and into the mental and feeling world and even the atomic structure of every physical

body on this Planet, to the point where the Light compels the discord to let go and Illumination to take the place where the discord has been.

The distortion has been so great for so long, that the human accumulation has drawn to the point around certain individuals where they think that they are never going to have to answer to the Cosmic Law of the Universe. Therefore, they have become defiant and frightfully stubborn and conceited in their fierce determination to wreck everything on this Earth; but the reaction of that is fast drawing and closing in upon them.

In the Great Mercy of Life, We want to remove all that substance and all that destructively, viciously qualified energy; not only from the atmosphere of this Earth, but from the structure of the Earth itself and from the mental and feeling world of the people. Unless that is taken away in what you might term a Cosmic Action, and I mean by that in a way that affects the mass of the people, they cannot extricate themselves from the conditions in the world today. There is no group of individuals or all of them put together on this Planet, who can extricate mankind from the frightful onrush of the recoil of the viciousness of war.

Therefore, they need to call to Those Who built the Planet in the first place. They need to call to the Builders of the System to find out what is the Way to correct this condition and go forward with the Divine Plan, else it will take a shock of Nature, some of which is coming, to shut off the action of everything for awhile, until mankind awakens and comes to their senses as to Who is the Authority of Creation.

But you as "I AM" Students, who are entrusted with the responsibility of guarding the Light in America and holding Her "Cup of Freedom and Victory" of that Light, so the rest of the World may drink in the future – to you I may come at any time, if you give the Call! To you there can come Unlimited Wisdom, if you will make that Call, but We will not intrude; the Cosmic Law will not permit it! But when you call for the Cosmic Wisdom of Cosmic Love to act in your affairs and illumine everything concerning the Divine Plan for you and in

what you are going to accomplish, My Dear Ones, the Light will surge with such Cosmic Power as shall show you ahead of time that which is the right thing to do; and then you will move forward without that frightful struggle. Even if you do not quite see ahead of time each step as it comes along, yet if you continue to call forth the Cosmic Flame of Cosmic Wisdom to be the Authority in the Fulfillment of the Divine Plan with which you are working, then you give Us an opening through which to act.

When Wisdom acts with Love there is no more struggle and that is the point We want to get you to. We want you to reach That, so that in your onward progress and Expansion of this "I AM" Activity where you will give assistance to millions and millions, to where you have thousands today. In that Service to the many, My Dear Ones, you must have Wisdom. You cannot be creatures of impulse. You cannot be emotionally uncontrolled, if you are to render Service to millions and millions of mankind.

I marvel when mankind has not understood this before. And when an individual gets his or her head set on doing something and they want to find a way and means of doing it, they sit down and think and think and experiment and experiment the hard way. But they could make the Calls to Those Who know more than themselves and ask for the Full Illumination, the Full Divine Plan and the Blazing Flame of Cosmic Wisdom and Cosmic Love, to make that whole activity a great accomplishment in such joy, that it will be one exhilaration after another in the great Accomplishment of that which you leave as a Blessing to all Life which is to follow.

You can just as well leave everything on this Planet when you get ready to make the Ascension, you can just as well command that everything here be made Imperishable and Self-Luminous and continue to bless and expand your Love and Blessings to everything on the Planet as long as it shall last, and Life will so qualify what you leave here. You may return to it from your Ascended State and again give it Greater Blessing and Expansion. The Ascended Masters have done That; why should you not?

But there are certain attributes of Life which Life has automatically established within Its Activities in this World and throughout Creation; and when a certain number of attributes are required through the mankind of this Earth, to enable them to accomplish certain activities in the outer world, and Life establishes that Way and Means of doing it, then it is well to co-operate with what Life has considered a wise Way and Means of producing manifestation.

But one attribute does not take the place of another. I want to explain. Your Cosmic Flame of Cosmic Love's Perfection is really the Sum total of all Attributes; but Wisdom is the Conscious Use of everything in Creation in Perfect Balance with everything else in its right place at the right time and in full co-operation with that which is Harmonious. So when you call forth the Cosmic Flame of Cosmic Wisdom from My Heart, I shall at the same time pour forth the Cosmic Flame of Cosmic Love from My Heart to be the Protection of the Knowledge which you draw forth. That can be the Illumination which shows you how to go forth and give all your time and energy to the Fulfillment of the Divine Plan and for the Limitless Supply, the Joyous Activity and the Ever-Expanding Health and Perfection in your physical forms, until the moment of your Ascension.

The health becomes impaired because the balance is not maintained; and that balance is not maintained because of the feeling of struggle. Do you think the Seven Mighty Elohim of Creation struggled when They built a Planet? Wouldn't that be a strange, strange condition in this Universe, when the Law of Creation is the Great Outpouring of that Love within which is the need made manifest? That is the Great Cosmic Love of producing Beauty and Perfection and using It all for the Purity and enjoyment of all Life for all time to come.

My Dear Ones, as you learn more and more of the Great Cosmic Activities in this Universe, you will realize that your daily lives were meant to be lifted in the Freedom and the Joy with which the birds sing. They go where they please! Food is provided, they sing and give their Life back to the Universe in

the way they know how, and you should at least be as happy and free as the birds of the air. They were the original messengers created by the Ascended Masters and given to mankind as an Example of Freedom. What bad qualities they have they took on from mankind, because originally they were never discordant nor destructive nor distorted in any way.

So if you will ask, you shall receive! If you shall call, I will answer! If you will knock upon the Door of My Temple of Light, I will give you of the Treasures which are the Wisdom of Creation! The Wisdom of Infinite space, My Beloved Ones, is yours, if you so call to Life. There is nothing you may not know! There is nothing you cannot do! There is nothing you cannot have! There is nothing you cannot enjoy! There is not one thing in this Universe which cannot come into this World in outer manifestation when the Divine Plan is fulfilled — Love, Wisdom and Power held in perfect Balance and the great Outpouring or Purpose of that Manifestation is to establish a Permanent Blessing on this Earth for all Life so long as Eternity lasts. When you fulfill those Requirements of the Cosmic Law, every Ascended Master and Cosmic Being will give you everything They have drawn forth by Their Activities of Life, in order to assist you to a like Perfection and the Blessing which is the Song of Happiness to the Universe forever.

My Dear Ones, it is the Wisdom of the Seven Mighty Elohim of Creation which is required in this physical octave, in order to shut off that which has been such a frightful distortion of Life's Blessings. Call forth Wisdom! Call forth Illumination! Call forth everything from the Ascended Masters' Octave of Light which your Hearts desire, and if you will give the attention there — Oh, I do not mean in a corner sitting down hours at a time, that is not balance — but the remembrance in whatever you are doing which your Glorious, Adorable "Presence" wants to fulfill Its Divine Plan through you to make you the Perfection of Itself and release through you Its Love and Its Blessings of Perfection and purify and raise all on this Earth into Its Own Freedom and Glory.

When you remember the Divine Purpose of your journey in

this World, you will recall that your duty here is to produce Perfection which blesses all and expands for Eternity. Then you will be in right relationship to the rest of the Universe.

May I say to you, you cannot get along without Wisdom! Just as the Mighty Arcturus is the Authority for the balancing of the Flame within the Heart and the Flame within the forehead, so AM I the Balancing Power of Wisdom of the faculties in the brain. Your reason, your discrimination, your insight, your foresight, your directing intelligence, your memory and the use of your perceptive faculties within the brain structure come under My Control; for the Perfect Balance and Perfect Use of all those faculties at all times, are the Wisdom which hold the outer things with which you deal in Divine Order, and enable them to be at your service when you need them for use in the Action of the Divine Plan.

Your Mighty Cyclopea governs the Activity of the All-Seeing-Eye, the All-Hearing-Ear and the All-Knowing-Voice of God, your "Mighty I AM Presence." The "Presence" releases Its Attributes through you and We enfold each one of those Attributes in the Flame of Love from Our Hearts in Its Cosmic Action, to affect the whole World.

What your "Mighty I AM Presence" gives you is for manifestation of and through your physical forms, but when the Cosmic Beings and Ascended Masters clothe the Action of your own "Presence" with Their Cosmic Outpouring and Their Cosmic Powers, it is because then you, the individual in your Service to Life and your Fulfillment of Its Divine Plan, are expanding Its Own Mighty Powers in Action through yourself for Cosmic Service to the rest of Life.

We are that Cosmic Pressure of the Sacred Fire and the Cosmic Light to enfold your individual Life Stream so that It may become a Being of Cosmic Service to all upon the Earth and to the whole System. Then the individual atom eventually becomes a Sun and the Sun becomes the Center of a System of Worlds. Your own individual world is your Universe and you cannot have Perfection in your Universe without Wisdom. So if your affairs have been in chaos and the struggle has been great,

call to Me and ask for the Cosmic Flame of Cosmic Love and Wisdom to set your world into Divine Order and make it a Blazing Sun of Ever-Expanding Light, Perfection and Happiness and all that is and all that is yet to be, and let you do that magnificent Service which is worthy of being made eternally Self-Luminous and blazingly All-Powerful.

When We can get the individual to live for the Perfection of the whole, then all the Perfection of Creation can blaze through the individual and there is no more limitation. Unto that end do I stand and offer My Love. I offer the Seven-Fold Flame of Cosmic Wisdom from the Cosmic Flame of Love in My Heart. It is yours as freely as the air you breathe. It is Almighty in Its Knowledge! It is the Explanation of the cause and effect of all things and It is the Master Authority and Scepter of Power which enables you to move forward and not longer be subject to the mistakes you have made in the past.

May I say to you, it is the part of Wisdom, Cosmic Wisdom if you please, to forgive and forget your mistakes and never again call them forward into today's energy. Won't you please let go of your own mistakes of the past? And will you be just as willing to forgive and forget everyone else's mistakes so Happiness and Perfection may build anew a World in which the Divine Plan can be fulfilled and a World which is worthy of being made Imperishable and Self-Luminous, so that It may give of Its Ever-Expanding Perfection to illumine all the Universe today and forever.

Make your America the "Cup of Light." You become the Seven-Fold Flame of My Wisdom to Life and clothe all that you desire with the Cosmic Flame of Cosmic Love and Joy, and you shall have the Perfection and the Happiness which is Heaven on Earth. The Power and Authority of the Sacred Fire shall once again take Its Dominion throughout the Manifestations of this World; and mankind awakens as from a dream and sees the Goal for which they came here and moves forward consciously to Its Attainment.

Call that your Beloved America as a Nation be now made the Seven-Fold Flame of My Cosmic Wisdom to the Earth, and

the Seven-Fold Flame of Cosmic Wisdom forms a Mantle about every human being within Her Borders and especially those in Her Government and positions of National Trust. Command and compel the Cosmic Wisdom shall come forth here to take Its Dominion now and shut off all that wants to use anything on this Planet to create another war. You as "I AM" Students have the Authority of Life to prevent that. Let no more of this thing go on. Call into outer Action these Magnificent Activities of the Sacred Fire which have been explained to you. Live for the Freedom of your Nation! BE the Victory of Light to mankind! Call the Seven-Fold Flame of Cosmic Wisdom to clothe all you see in the Cosmic Flame of Cosmic Love's Perfection and you shall know no more struggles, problems and limitations of anything; but while yet unascended, you may go forth among mankind as Examples of the Fulfillment of the Law, by which all may live and like a Mighty Magnet will draw the Hearts of mankind to you with irresistible force and obedience unto their Freedom — not that they will obey you personally, but you will be the Light which draws their attention up unto their "Mighty I AM Presence" and all the Ascended Masters, unto the Fulfillment of Life's Victory.

I have long been waiting to give this Information to you which has come forth this afternoon. Now that all Seven of the Elohim have dictated at least once, and since your Love comes to Us through your Song, We trust We may come back to you often with a Love and every Attribute at Our Command to move you forward, My Beloved, Beloved, Beloved Ones of the Light, Brave Defenders of the Law, who have cut your way through the jungle of human viciousness thus far.

Now let Us be the Blazing Flame of Dazzling Perfection which forms the Pathway to lead you up and out of every problem and every condition of human qualities, until you stand upon a mountaintop and looking back upon your fellow man, pour forth to them the Flame of Love from your Heart, and like a Mighty Magnet draw all up into that Freedom which is Beloved Saint Germain's Victory and the Glory Life intends all to experience.

I have one more thing to say, then We must leave. Each One of the Elohim is a masculine and feminine activity. Your Beloved Cyclopea in many activities pours forth the Great Enfolding Love which governs the substance of this World. I have many things I can give you. You might call them Feminine Accomplishments, but I say to you, They are the Cosmic Balance of those fine Qualities which enable Life to become more and more magnificent, to produce more and more magnificent Manifestations in greater Beauty, but with the Wisdom to fulfill the Divine Plan which shall beautify the Earth and one day make this blessed World as beautiful as the Planet Venus.

Beauty and Love and Wisdom charged with a Power of the Blue Ray can go forth and reveal to mankind that which will give you Happiness for Eternity and take out of your daily existence the struggle and limitations under which you have labored so long. Now let Me free you from that struggle by the Cosmic Wisdom and Cosmic Love of the Seven Mighty Elohim and help you to be the Fulfillment of the Law to every one you contact. It is so well worth every effort you make and It contains not one thing of human distress longer. Won't you let Me give you the Freedom of the Cosmic Wisdom and Love which "I AM"? I offer It as freely as the air you breathe! Turn your attention to the Seven Mighty Elohim and call forth Their Gifts and Powers of Life's Perfection to the Earth to bless all upon it and you shall become Their Perfection in that Service to all mankind.

My Brave Defenders of the Light, may I make you all My Enfolding Flame of Cosmic Wisdom and Victory and Freedom which is your complete Release from all human struggle forever!

I thank you and clothe you in That which it is My Privilege to give and may I help you up and out of connection with the distress of this Earth until your Ascension!

Thank you so much!
