

BLESSED DANIEL RAYBORN'S DISCOURSE

CHICAGO, ILLINOIS

FEBRUARY 13, 1944

MINUTE MEN

BELoved MINUTE MEN OF SAINT GERMAIN, I bring you greetings from the Ascended Ones Who are pouring through you this morning the Power of the Sacred Fire which must be released for the protection of constructive business in America. Therefore, I bring you, if you will accept It, the Flame of Love from the Hearts of the Ascended Ones, Who work with Me to give Assistance through those channels.

Since your Beloved Saint Germain is a businessman of considerable importance, not to mention His Wisdom, He naturally has at His disposal limitless assistance for the correction of business conditions, first of all throughout America, then through the rest of the World.

In My Capacity of assisting in those avenues, I wish to say to you this morning that I want you to feel that every effort on your part to hold Honesty and Honor and constructive business activities victorious and successful is an open door through which Beloved Saint Germain can expand Freedom which reaches into the homes of the people, as well as into the other channels of their activities.

I want to remind you that every constructive effort in business channels is an expansion of Beloved Saint Germain's Freedom of Life. You have already entered into the Cycle wherein destructive business cannot longer survive. A thing that is planned along business channels from now on will either sincerely and truly serve the Highest Good of the people or it will collapse utterly about those who are its creators. The cycle has closed wherein business dishonesty and trickery and that which is wholly selfish in its intent are any longer to be given any outer expression. The Cosmic Law is rapidly withdrawing from the business world the Life Streams of those who will not

clean up. Many of them are well along in years at the present time, but they are like weeds in a garden, and the Cosmic Law is plucking them out so that their roots may no longer grow and contaminate the Beauty, Perfection and Success of Life.

Therefore, regardless of any temporary opposition you might seem to have, stand immovable on your demands for Right, Honor and Divine Justice; and may I say, first of all to your customers and then to yourselves. If your motive is to give Divine Justice and honest consideration to and service to Life which will bring more Harmony, more Beauty and greater ease to the mass of mankind – when your motive is Right and you give Obedience through discrimination and the Law of Balance in your outer activities, then will you have success beyond your fondest dreams.

Don't let down on your Calls for Invincible Protection of all your business activities, for as yet the momentum of the constructive side, while it is growing greater, it has not yet become enough of a momentum to guard you against the unscrupulous, unless you hold to powerful application for your Protection in those channels.

One after another of the destructive business activities will fail, collapse utterly. There are many coalitions, so to speak, among certain financial channels and business activities who think they are going to hold control of everything and run everybody to fill their own pockets for debauch. That is a thing of the past. You will find them tripped up and they will fail one time after another until they understand that they can no longer succeed unless they conduct the business in agreement with Life's Perfection in the Universe.

The outer activities of business for some time to come yet are necessary to keep mankind's energy used up in constructive channels which build Beauty and Perfection which can be permanently maintained on the Earth. So that which is to act in the business world in the future will either fulfill the Divine Plan or will not be given any more energy and substance with which to build anything. It does not mean that the vicious ones are going to let go in the next fifteen minutes, but you will find

one after another, they will fail and there will be raised up in their place those who really have the good of mankind at heart, and who are strong enough to insist that that good be maintained and brought forth to bless all.

Selfishness will become a thing of the past, for that Fiat has been issued three times concerning America's future. The Beloved Goddess of Liberty, the Mighty Arcturus and the Beloved Jesus all Three said: "IF NECESSARY FOR THE PROTECTION OF AMERICA, THE JEWEL IN THE HEART OF GOD, THEN THAT LIGHT AS OF A THOUSAND SUNS SHALL DESCEND INTO THE EARTH AND DISSOLVE AND CONSUME ALL HUMAN SELFISHNESS AND DISCORD FROM THE PLANET."

I ask you to guard yourselves very carefully so you do not by any chance take on or accept in any way the habit or this mass hypnotic feeling that has been sweeping over the country in business channels of absolute disregard of any obligation to tell the truth. There has been a mass suggestion of that going through large business activities with absolutely no more regard for the truth to the customer than if there were no such thing. That will very soon take its toll in the heart center of the destructive forces themselves, for their lies to the people will become the lies to each other that will be their own disintegration, for they do not trust each other any too well as it is, and they will do it less as some of their own discord returns.

Now you must stand against that. Do not think it is permissible at any time to tell a lie in order to make a sale. "I AM" going very definitely into business ethics this morning, and I know from personal experience that it does work to obey the Law and to hold the Harmony and you can be kind. You can be harmonious and you can maintain standards of Honesty and Honor in the midst of a world that is charged to the contrary. I did it in My Own business activities. I had Harmony and loving co-operation and yet I did not know This Law, and My men did not know it, yet that was maintained, because I so desired it and My business was charged with the Radiation of My Own Feelings. I naturally loved Harmony. You may do the same.

Remember this, your business activity lives by the energy of your Life which you pour into it; therefore, if the energy of your Life is qualified with Harmony and Blessings and the Power of the Light, with an Inflexible Determination not to yield to anything else, well that quality will radiate to those around you, and they will pour it to the public and that will draw back to you trust from the public, because the public is very rapidly losing its faith in big business, so-called.

The Great Cosmic Law does not permit the selfishness of any group of individuals to interfere with the Right of any Life Stream to grow according to the free will of its own Divine Plan. Mass bargaining is soon to be a thing of the past. Every individual must make his own decision on his own judgment, be it good or bad, and carry the necessary consequences in order to become educated to what is permanently Right. Collective bargaining will not last in the future. It gives the unscrupulous the tool they desire to continue their selfish activities; and since those are diametrically opposed to the Law of the Incoming Cycle they cannot survive against the pressure of the Cosmic Light which is the Law of the future as well as the present.

Wherever you move, develop an inflexible standard of Honesty, Honor and compelled Respect, because as people of the outer world know that they cannot sway you from your decisions of Honesty, Honor and Right Doing, then you will compel their Respect. And while they might not be strong enough to do as you do, yet they will admire you and they will give you their trust, and then you will be able to assist them to arise out of the things that are not of the Law.

There are many, many marvelous things to come through the business world before a great while, but they will not be held in just the hands of a few; because if they do not release those blessings which they now have ready to release to bless the people and they hold them past a certain point, then We shall bring forth something better through many others who are younger than themselves which will make obsolete that which they think is advanced now. If they think they can outwit the Great Infinite Law of Creation, then they must be educated by

experience to the contrary.

There is vast wealth and marvelous substances within the crust of the Earth which as yet mankind has never held the right to use, because it is marvelously beautiful and much of it tremendously powerful, but it will not be released into the outer use of mankind until selfishness has been dissolved.

So you as Minute Men of Saint Germain have the obligation of dissolving selfishness wherever you move, and don't fail to keep charging the atmosphere around you with every Power of the Sacred Fire required to burn out everything from your business and the business world in which you move, if it be not constructive.

We are going into a very definite concentrated Action of the Fire Element this year, and since it is the year of the Power of the Three times Three released in Its fullness, and since the Power of the Three times Three is the Activity of the Unfed Flame brought to Its Highest Power at each point of the triangle, then the more you use the Power of the Fire Element, the quicker will the substance be dissolved that has been causing the destruction or the delay in your own affairs.

Do not let down your Calls for Protection in your business activities and do not fail to keep calling forth Ascended Master Love, Wisdom, Power and Discrimination in everything you do in business channels; for that will keep you aware by the Illumination of your own Higher Mental Body and the Assistance from the Ascended Ones of the things you need to do to both protect and to expand your channels of service through business.

Do not allow any discouragement from those who do not know This Law to strike into your affairs, regardless of appearances. Appearances today may be one thing in the business world and tomorrow they can be the opposite. Do not allow yourself to step into the swing of that pendulum, for one day people in the outer world are happy and enthusiastic and the next day they are in the depths of despair, and you get nowhere. You know This Law. Stand within Its Light and BE Its Authority, Its Power of Honesty and Honor and Inflexible

Determination to give Perfection to Life and to hold Freedom and Victory of every constructive thing in America serving her people. As you are determined to give that to Life everywhere you move, all Life will be determined to bless you with the same thing and each wave will be greater than the one before.

You will find a network of constructive business people interwoven into the business activities of the outer world and those people will come more and more into positions of authority and of channels that give their blessings to the Nation. Do not fear destructive individuals. Their time is short, but the nearer they come to the moment of their removal from the Earth, the more vicious they become because of their own fear. They become panic-stricken with fear as more and more of their own viciousness returns upon them. So guard yourselves well against association or against trusting any of those channels.

Wherever you see those vicious practices in business accumulating or trying to be expressed, keep calling forth the Action of the Sword of Blue Flame, both from your "Presence," the Mighty Archangel Michael, from the Blessed Messenger, from Beloved Saint Germain, Jesus and the Goddess of Light, Myself; all of Those Who wield the Sword of Blue Flame; and the Beloved Nada is quite an authority in some business channels in addition to Her Healing Power. She wields the Sword of Blue Flame very effectively. Do not fail to call It into action. She looks very delicate and very dainty, but Her Sword of Blue Flame is Victorious always.

The reason "I AM" asking you to call the Sword of Blue Flame into action is because the accumulation that has been created through vicious business practices hangs heavily around those whose motives are selfish; therefore, when you call for the annihilation of all that accumulation around every one whom you meet, you prevent their momentum from both expanding and touching any other part of Life.

Wherever you move, keep commanding the annihilation of all human accumulation so it does not touch any other part of Life. You automatically protect your own world; you give assistance to the Higher Mental Body of the individual who

might be tempted to do wrong and you give protection to the mass. So It has a Three-Fold Blessing, but it means to go on like you were cutting your way through a jungle. You might have to cut every inch of your pathway freeing yourself by your Sword of Blue Flame, but when you get through there will be a pathway for others to get out of their distress also. That is why you have taken embodiment at this time. Of your own volition, your Life Streams have chosen to give this assistance, as you have given it many times in past centuries before.

There are so many marvelous improvements We want to bring through business channels. They are things of such Beauty, such convenience and such Power which could bless people with such Joy and such Freedom, but the Cosmic Law will not permit that to be done at the present time until the selfishness and a certain amount of it has been released from the Earth and the warmongers have been taken into custody in the Compound.

We could show you ways and means of building a city of Beauty and Perfection in five years which can be made imperishable throughout the centuries and whose very Radiance would be a Song of Praise to the Universe for the Perfection of Life; but the way and means of bringing that into the outer contains Power of tremendous pressure. While the way and means is very simple, yet if destructive forces became aware of the ease with which they could draw that power, they would use it only to create more destruction, and the Law will not permit that. So the building We hope will be very rapid and joyous when the Earth has been cleansed of those who at this time are so vicious and who will not turn and do that which is constructive.

Try everywhere you move in the business world to give encouragement to constructive people. Tell them this debauch is not going to last forever and that the God-Life of the Universe is still greater than the accumulation of selfishness of those who won't serve Life's Perfection.

There is to come forth through certain natural channels of wealth — I mean by that, channels of Nature's Blessings — lovely, lovely, wonderful things which will just be a great Joy to

bring forth. Every step of the way will be an enjoyment to those who work in those channels, and what might seem like work in the outer world today under those conditions would just become the great joyous activities which Life intends in the building or creating in the outer world's activities of those things of Beauty and service which are to last throughout the centuries, and to — notice now — increase their Beauty and service to Life instead of crumbling and being discarded, because something better takes their place. That which comes forth is to be permanently sustained because it is the Fulfillment of the Divine Plan of service and activity which lifts everybody and all Life wherever it acts and does not injure anything.

If mankind understood the right use of energy there would be no such thing as exhaustion or weariness of any kind in your activities through the waking consciousness. You are working — if you want to call it that — or you are very active when you are out of the body at night. You are using a body of substance and you are using a great deal of energy and those Inner Bodies do not become exhausted at what you do when the body sleeps. If you could maintain Happiness and Harmony in your feelings every moment of the waking consciousness — just release the energy through your body in the outer activities — this should not give you a sense of exhaustion. You could let it flow and bless it and sing and the next moment a dozen times more could take its place. So the more you were active the stronger you got.

You know an athlete gets his strength by giving his strength in the muscles. The same is true in your daily activities, but it is the discord, the sense of strain and struggle and sense of interference that sets up a feeling of resistance that — notice — makes you feel that you cannot have your own way. The moment the feelings don't see everybody doing everything you think they should do, the feelings don't like that, and that is the barrier. It is that flare of resistance and displeasure about what some other part of Life is doing that becomes the resistance in your own world, that is the sense of exhaustion, or else it is the feeling that the human is doing it, instead of just singing and

letting the acknowledgment come forth that it is the Light just flowing through which is acting.

I might say this in regard to your transportation. Certain channels are having quite a battle to decide just which one is going to own everything, and if they don't look out they will find something so much better coming forth everywhere at once that they will have lost their business completely. It might be a good lesson. Some of them may see the handwriting on the wall soon enough to change their minds, but selfishness is a very unfortunate accumulation of energy.

Those who are blinded by their own selfishness forget that within the Life of every human being, and particularly within the Heart, is a resourcefulness co-existent within all Life which will begin to release action and compel the drawing forth of ideas of solving any situation in which Life finds Itself; because Life is all-powerful and is fundamentally free. The more limitations that are imposed upon human beings, the more that power of Life surges to find some means to overcome them. This is the reason for the phrase: "Necessity is the mother of invention."

There is no condition that human selfishness can build that the Flame within the Heart of an individual cannot overcome through Its Call to the "Mighty I AM Presence" and the Flame in the Hearts of the Ascended Masters, the Cosmic Beings or the Great Central Sun, or even the Physical Sun. For through the Flame in the Heart reaching to the Flame in the Hearts of those portions of Life Who are wholly Ascended and Free, It can draw back into any situation that which will change the condition into Perfection for that is the nature of the Flame. The accumulation of substance or energy which is a destructive condition is never greater than the Action of the Flame; because the Flame can change the quality around all substance or around all energy.

So to continue to draw forth the full Power of the Sacred Fire means that you are drawing into the outer activity in which you move the Eternally Pure and All-Powerfully Perfect Activity of Life which is in the Ascended Masters' Octave. For the Flame in the Heart of your Higher Mental Body or your "Mighty I AM

Presence" is the same Fire Element which is in the Ascended Masters' Octave. The same Flame is in the Hearts of the Ascended Masters.

Since the Flame in your own Heart is so tiny and yet releases such energy through the body that It enables you to carry on your daily activities and yet sustain Its own processes, do you not see how your Calls to expand that Flame is an automatic expansion of Its Energy and Its Radiation into the Substance in the world about you? So the more you call forth the Power of the Fire Element, the greater the Flame becomes until the Flame in the Heart and the Flame in the head and the Flame at the throat have become One Three-Fold Flame. Then there are no more mistakes. The intellect and the feelings and the Focus of Power of Pressure have become One Three-Fold Flame and all substance automatically gives obedience to the Three-Fold Flame. That is the reason for the acknowledgment since the first of the year of these Oceans of the Flame to sweep into outer activity; because Fire can burn through everything and change its quality into something new. It is the great crucible of the Cosmic Powers of Life.

Now each one of you represents a Three-Fold Flame in the business world; and if you will continue to call forth Oceans of the Flame of Eternal Invincible Purity, Eternal Invincible Peace, Eternal Invincible Music of the Spheres and every other quality you desire — you can say: "Oceans of the Flame of Eternal Invincible Success in everything I touch in the business world," and then the Flame from the Hearts of the Ascended Masters join your Flame and as that is given attention each day through your Calls, It grows brighter and brighter and more and more powerful, extends around you and wherever It blazes It automatically compels Perfection to come forth.

The Ascended Masters will not give the Flame of Love from Their Hearts to the sustaining of business activities where the motive is selfish. The Law does not permit it, so those things will not be sustained; but there is no Ascended Master in the Universe Who would withhold from you the Flame from His Own Heart when you desire to give to Life the Perfection which

that Master is. That would be concerned with His World, if you are calling forth His Perfection into this octave, and therefore, He would gratefully co-operate with you to expand the Perfection of His Qualities throughout this World.

So you have all Assistance from all the Ascended Beings to whom you care to direct your attention and They really become your business partners. There is no Ascended Master Who would refuse you one instant the full release of all the Power of the Sacred Fire at His command when you say to Him: "THROUGH THE FLAME IN MY HEART, I CALL FORTH THE FULL POWER OF THE FLAME IN YOUR HEART TO HELP ME HERE COMPLETE THAT WHICH WILL SET THE FLAME FREE IN EVERY HEART. THIS WILL GIVE YOUR PERFECTION TO THE PEOPLE OF THIS WORLD TO RAISE THEM MORE QUICKLY."

You really yet do not comprehend that you have Friends of Mighty Power, although many of the Ascended Masters have said that phrase to you repeatedly, but you do not yet FEEL it. You all have marvelous manifestations when you get into a crisis and you make your Call and the Master's Assistance comes through, or you call intensely enough for the "Presence" to release more of Its Power. You do have these Manifestations day after day after day, but in your feelings you do not always realize how right at hand is the Flame from the Hearts of the Ascended Masters to Whom you call that can rush into a situation and burn out of it everything that is not Perfection, if you will call, but They cannot intrude. The Law does not permit it. It must have your Call.

You can say to any Ascended Master: "GIVE ME MORE OF THE FLAME FROM YOUR HEART AND MAKE THIS CONDITION BECOME THE PERFECTION I DESIRE AND COMMAND IT INTO THE SERVICE OF THE LIGHT AND SET IT FREE FOREVER." If just the amount of men in this room this morning were to call to the Heart of One Ascended Master, or Several, or the same Group of Masters, to give more of the Flame from Their Hearts into these business activities with which you are connected, with your conscious

command to burn out every bit of selfishness and dishonesty, why there would be like a River of Flame go through you and into those activities and one thing right after another which was constructive would be strengthened and everything that was destructive would be gone. As you maintain that, you give Them the opening to take command of this business, that business or some other business and bring about the changes so those channels could serve the people with permanent Perfection.

Within every selfish motive is its own disintegration. I know sometimes it is a long, weary road when human selfishness seems so stubborn and it is without question, but nevertheless the Flames from the Hearts of the Ascended Masters are billions of times more powerful than all the human selfishness and stubbornness on the Planet put together.

Say to the Ascended Host of Light or the Cosmic Beings, or any Specific Individual or Great Beings from Whom you wish to call assistance, with all the intensity of your being: "GIVE ME MORE POWER OF THE SACRED FIRE IN THIS CONDITION TO BURN OUT ALL THAT SELFISHNESS AGAINST LIFE! GIVE ME MORE HELP TO ANNIHILATE THAT THING SO NONE OF LIFE MAY EVER BE TOUCHED BY IT IN THE FUTURE! GIVE ME YOUR HAND AND GIVE ME YOUR POWER TO RIGHT THIS CONDITION AND SEND YOUR LEGIONS OF THE SACRED FIRE TO BURN OUT ALL OPPOSITION TO THE PERFECTION I WANT TO RELEASE TO BLESS LIFE!" If you will say that with all the intensity of your being, the Ascended Host will give you assistance which will astonish the World.

It takes this, Precious Ones, to shatter the accumulation of the centuries. You are moving in an ocean of energy that has been qualified with every vicious feeling that mankind can generate and it is like a swimmer trying to swim against an undertow. You have to have Herculean Strength to break through; but when you get through, you have a strength and courage and power that you did not have when you started. It is your way really of releasing the Master Powers of your own Life Stream, and every time you overcome a selfish activity of the

outer world, then there is an authority of Joy in you, is there not? Every time you hold dominion by the Power of your Calls to the "Presence" and the Ascended Host and you attain your Victory, isn't there greater Joy, greater strength and determination to do something still greater and break down more of that which has bound Life? Certainly! That is the great enjoyment of overcoming the forces of darkness. All forces of darkness on the Planet cannot stand against the Fire Element, only just so long, until It burns through. Just as you would take an acetylene torch and burn through a solid plate of steel and melt away the debris, so can you, through your Calls for the Flame from the Hearts of the Ascended Masters, the Flame from the Hands of the Ascended Masters to be concentrated into an activity until all that is destructive has been consumed and your way is clear.

It is well to make a Call for the business world for an Action of the Fire Element to be drawn into business channels that burn away the way and means of carrying on any destructive lines of business. That covers many things. You can call to the Flame in the Heart of every human being on the Earth, the Flame in the Heart of the "Mighty I AM Presence" and Higher Mental Bodies of unascended beings and the Heart of the Ascended Masters and Cosmic Beings and every Action of the Flame from the Great Central Sun, to go into destructive business channels and burn away all ways and means of existing longer; but it takes concentration and power in your determination and a decision within you to release that Call until the outer has been dissolved.

You are not the doer in those Calls, remember that. Then you will not get into the feeling of physical fight or resistance against destructive individuals who have destructive creations. As you call forth the Power of the Flame in the Hearts of humanity and the Hearts of the Ascended Masters and the "Mighty I AM Presence" of every Life Stream to burn away those conditions, then in your feelings KNOW that it is the Flame which is doing the consuming; then you will not feel that personally you are having a battle or a resistance through which

you have to drive. You are rather standing on a mountaintop and calling that Three-Fold Action of the Flame into those conditions to burn the pathway ahead of you and release mankind from that imposition upon Life.

Do not accept for one instant that the Flame in your Heart, the Flame in the Heart of your "Presence" and the Higher Mental Body or the Flame in the Hearts of the Ascended Masters won't go forth at your Call instantly. It will. That Flame has created the Universe and if the Power in It is so great that It keeps your body warm and gives you energy to do what you want to do and sustain you throughout the years from a tiny little Flame not an eighth of an inch in height — if It is so powerful and all of that comes forth from It through you for years and releases tons of energy at your command, then if you call forth Its Full Power, you will begin to comprehend something of the Power of the Sacred Fire. It is the Cleansing, Purifying Activity of Life.

Charge this Flame around you, inside of your Tube of Light, and outside of your Tube of Light, so your feelings become aware of the Fire Element around you; all the time as aware of It as you are your hands and feet. For if in your mind were the picture of the Flame around you as clearly as you know your hands are always with you, your feeling would automatically know that That Flame was consuming anything that was not like Itself before it could approach. If suddenly some desire came forth that was not as constructive as it should be from within yourself, you would know — well I am surrounded by the Fire and I had better consume that desire before it burns out and comes through.

Your Violet Consuming Flame is this Activity around you. The Three-Fold Flame in your Heart, the Unfed Flame is the complete Power. It is Love, Wisdom and Power which creates Beauty and Perfection. The Violet Flame around you would keep consumed everything that was wrong that might attempt to come forth, and consume it before it could act. If you will hold these pictures in your minds, Precious People, the picture in the mind is the Cup into which Life pours the energy which makes

the picture become a physical thing in the outer world.

I might say this to you and I hope you all get the analogy clearly, for this Messenger had an opportunity to see these Crystal Cups made by the Glass Company that produces them. There is the pattern of that Crystal Cup within the mind of the glass blower, and when he touches his tube in the molten glass and draws it forth, swings it and manipulates it until it comes forth and he blows into it his own Life, his breath is the Fire Breath of the Almighty which he gives into the pattern in his mind and together with the substance of the outer world he brings forth a physical Crystal Cup.

Just so with the patterns in your mind of Perfection through your Decrees you give the Fire Breath of your own Life's energy and through your physical actions in the outer world, you gather the substance and you build out here the thing that is the fulfilling of the picture in your mind. So as you hold or feel a picture of the Violet Consuming Flame constantly passing through your body and your atmosphere, the hour will strike when you could make that visible around you, but if you always see it around you and unfortunately send forth something that is not right, you can command the Violet Flame to go after that, consume it, so it never touches any other part of Life and does no damage. In that way you could recall much of what goes forth and never have to face its reactions, if it were wrong.

Oh, I could go on for the next twenty-four hours showing you the Actions of that Flame, but you can only absorb so much at a time and rest assured as your attention goes to the Power of the Sacred Fire more and more of the Knowledge of Its Inner Actions will come forth to assist you. If you will maintain It you will find one day the outer has become the Inner and there are no human qualities left. That is the way you rise into Perfection through the Use of the Fire Element.

Together with My Beloved Twin Ray and My two Precious Children Who are still rendering tremendous assistance to America, I enfold you in the Love of the Flame from Our Hearts; for it is to that Blessed Flame of Life in Our Hearts that

We have become free. That Fire has burned away all that was mistaken human accumulation of the centuries and, therefore, do you not think that We adore the Sacred Fire? Do you not think We love the Unfed Flame which enables Us to do everything in the Universe wherever We wish to go. Do you not think We love deeply and for Eternity that Violet Consuming Flame which set Us free, which Our Beloved Saint Germain gave Us? He gave It to Us to become free and you will never know until He stands before you, clothed in that Violet Flame as Angel Deva of the Violet Flame, how All-Powerful He is and how beautiful that Violet Flame is, until He stands before your physical sight and reveals Himself to you and the Action of that Flame.

You cannot possibly imagine how We love that Fire Element, and "I AM" charging you this morning with Our Love and Feeling about It and enough information concerning It to begin to start the Action within you all and an intense love for that Flame, for when you love It enough Its Love within and around you will be all you ever require for your Freedom; but that comes only from the Ascended Masters' Octave of Light. Your "Presence" gives the Flame, but the Ascended Masters' Feeling of all of Its Power to consume your human, can only come to you through the Flame of Love from Their Hearts. This is why no unascended being can accomplish the Ascension in that Great Victory without the Assistance of the Ascended Masters Who give the Flame of Their Own Life from Their Hearts, through Their Love to make you feel what Mastery and Perfection is within your own Life's Flame.

May you never, never forget This, for the Power of the Sacred Fire is tremendous this morning. May It burn out of your Life Stream everything unlike Its Own Purity and Perfection, and move you forward the beings of absolute Freedom of the Sacred Fire that none can put out.

Do you know gentlemen, Minute Men of Saint Germain, do you truly know there is only one business in the Universe and that should be and that is the business of expanding Love and Perfection of Life through the Use of the Sacred Fire. Nothing

less is worth anything except to draw this Flame forth and send It into conditions that are not perfect and stand there and watch the imperfections dissolve, and Perfection come forth and reveal Its Love and Glory and Beauty and Service to Life everywhere. There is no greater Joy in creation than to use the Fire Element to dissolve the shadows and let the Beauty and Manifestation within the Light come forth to serve Life in everlasting Joy.

May the full Ascended Master Consciousness and Feeling of the Beloved Mighty Sacred Fire wrap you in Its Mantle, in Pillars of Its Dazzling Presence, dissolve all unlike Its Perfection and make you Its Living Three-Fold Flame wherever you move, by your Life through the Sacred Fire to dissolve before you all that is not of the Light. May your business from now on be the freeing of all Life from all that is not the Perfection of the Sacred Fire until every Life Stream has Ascended into that Octave where the Inner is all and the outer has ceased to be.

Oh, I could give you so much about the Lords of the Flame, of each special activity, for it is limitless — this Action of the Fire Element. Just love It and let It blaze through you Its Freedom and make you feel the Eternal Invincible Mastery and Powers and Power of your Life Stream's own Flame forever.

I thank you. I bless you. I clothe you in the Flame of Love and Victory and Freedom from My Heart, from Mighty Victory's Heart, from the Heart of Beloved Saint Germain, and your Beloved Messenger — the Flame of His Obedience — Who brought you This Light.

I thank you.
