

OUR BELOVED NADA RAYBORN'S DISCOURSE

Through Mr. G. W. Ballard

Kansas City, Missouri

February 20, 1938

Young People

PRECIOUS, BELOVED YOUTH of Kansas City, and those who are visiting here, how great is Our Joy in having observed not only your outer activity, but the sincerity of the radiance that raises from your feeling world.

Once you understand that your feeling throws forth a radiance that to Us is just as tangible as your physical body, that is always the certain definite indication of what is the reality of the individual.

Recently We have observed among all of the youth who are coming into this Understanding a sudden change. It has been magnificent. I cannot tell you this morning just how or why that change has been produced; however, We will let you know later—but it has been magnificent. Whether it is the Cosmic Light or some of the group of Ascended Masters who have caused that to come about, it is very apparent, and We wish you to know that today for your encouragement and strength. If I may express My Feeling about it, I feel that it is the Activity of the Cosmic Light Itself, because another wave came at the beginning of this Class; and these waves, from this time on, will probably come more often than in the past year or two.

We want you to know that Bob, Pearl, Rex, and Myself are often assisted by David Lloyd and sometimes My Mother. We have sought out and called into action for the Youth of America, and I am so very grateful that the Messenger received the correct name by which you should be known—"The Ascended Master Youth of America." It is the perfect name by which you should be known, I think. Knowing that words are Cups that carry the qualities that you seek, then that name given to you, shall we say, automatically brings to you that quality which they are.

Now you will excuse Me, of course, if I say that We four Children represent the Ascended Master Youth from the Higher Octave. That is why you will find Us often in your midst. With the

release of your own energy through your feeling world, that will enable Us to do for you, with the Assistance of the Great Ones, that which will transform your whole lives, with your cooperation and obedience to the requirements of the Laws of your Life.

Therefore, Our Rejoicing is very great; and recently as Bob and Rex have rendered some very great services for America, We want you to feel—and especially the youth who are contemplating or are taking up aviation, We shall try as their Call comes forth, to surround them wherever they fly, with an Invincible Protection and with the Strength and Power that, no matter what happens to the mechanism of the plane, still would it land safely. That is possible with the governing of the Substance that is about you in the atmosphere. The Ascended Master can throw a Substance about a team of horses running away which are out of control, and stop them almost instantly. It has been done many times. The same way with conditions of mechanics that are out of control of the individual—for instance, a runaway engine or automobile out of control going downhill. I mention these activities to show you how the Ascended Master can throw or draw this Substance about them and compel them to stop.

As your attention is drawn to these various activities which are within the reach of the unascended being—one does not have to become Ascended to utilize these great Laws of the “Presence,” if they are constantly reminded that it is the Powers of the “Presence” that are acting through each one. You but make the Call. You do not physically do this unusual manifestation yourself, but it is the Powers through you and the Intelligence of your “Presence” which know how to govern all the substance and energy which is required to produce certain results. You will come to know that long before you have Ascended; you will be able to draw forth and utilize, or allow your “Presence” to utilize through you the power that is inconceivable today.

When We Children were released from the limitations of Earth, you have no idea the power that surged through Us immediately to bring or to assist the Youth of America to Our place. It is, well, for the sake of expression, the most trying experience when you have found yourselves free from the limitations of the human

form and the conditions of Earth, and then remembering how many lovely individuals you have known, and wonder why they might not have been chosen instead of Ourselves; and that of course causes Us a longing you never could imagine to bring this to every Youth of America. Because in the consciousness of the youth there is not brought forward the discouragements, the trials, the conditions that have confronted and registered in the feeling world of older individuals.

Therefore, let Us say to you from Our standpoint today, with you as the Ascended Master Youth of America, as you use that term and feel it within your being, you must become that; and you can fill your lives with such happiness, which is the open door to the continual Outpouring of the Perfection of the "Presence"; and not only that, but call forth with a definite precision everything you require to produce happiness, supply, and the conditions in your Life Stream and activity that you require for the greatest service.

I urge you, do not try at first to single out what your service will be; but just keep calling the Powers of your "Presence" into action, that Its Great Wisdom directs you and, through your feeling, causes you to know definitely whatever service it is you are to render. Then you will find you will not unknowingly intrude some feeling into your Life Stream that must be changed or transmuted into that which your Life Stream, and I mean by that, your Higher Mental Body, knows exactly what you are to do.

Now then, if there is enough harmony maintained in your feelings, your Higher Mental Body can cause you to know, probably first through the feeling; then even directly through the verbal, spoken word. The reason why many do not hear the Higher Mental Body speak to them is because of the danger in the moving mass of mankind and the charged atmosphere of Earth by discord, and knowing that you are moving in the psychic world—which is but human creations from the surface of the Earth to approximately seven thousand feet. That is but human creation, and if you do not know how to draw the Tube of Light and use the Violet Consuming Flame, you are constantly subject to the impact of that atmospheric thing.

You know the marvel of it is, as We see it today, that mankind have escaped all the destructive forces. Yet, here is the great and mighty point, Beloved Ones: if it were not that the Great Presence of all Life, your “Mighty I AM,” was actually anchored in your physical Heart by Its Rays of Light and Energy, mankind would not exist upon the Earth today because of the accumulation of discord and the destructive forces that are released in the atmosphere of Earth. Mankind are compelled to move in it unless they know the “Presence” and call It to formulate the Tube of Light, which insulates them from the discord, from outer conditions, and even the impact of the atmospheric condition.

Today, may I say to you, no words could ever convey Our Love and Gratitude to the Messengers for having had the courage and the strength to carry forth this Light with the terrific opposition from every angle. But since the Shrine Class, Our Hearts have lifted tremendously, because We know now that even the Cosmic Light Itself can and will draw the Light before destructive individuals and hold their own destruction within their own world. As This is called forth for the protection of people, no longer will innocent individuals be made victims of the viciousness of the atmosphere of mankind.

You today should rejoice with Us tremendously that that time has arrived—the only time that it has ever been on Earth. That is why today when you see what your Calls have done, what it has made possible, it is the most transcendent thing that has ever occurred on Earth; because without your Call and that of thousands of Students in America, it would have been impossible. Even with the flood of the Cosmic Light coming forth, still would it have been impossible for individuals to have been reached as they are being reached today; because even in the Activity of the Cosmic Light, if individuals are not making the Call, they cannot have the Blessing—even which the Cosmic Light Itself would bring outside of your own direct Application. Because until this point was reached in the activity of mankind of Earth, there was no Power of Light that dared intrude upon the Free Will of the individual. Now that that Assistance can be given, We hope for transcendent things beyond the fondest imagination; and if this destructive activity can

be kept out of America, then that Light and that Glory that will bless within the feeling world and mind of mankind will transcend anything the World has ever seen. Then will come forth such Perfection for your comfort, transportation, and blessing as you could not imagine today. Even though some of these things have been touched upon, still does the outer consciousness not comprehend fully what it means.

Now for instance in your general activity about your homes, the conditions that you would be able to produce in the preparation of food and in your utilization of it, in the condition of your environment, the beauty and perfection of the exterior and interior of your buildings and grounds—all that will take on the Perfection and Beauty that is only second to the Octaves of Light.

In the Temples of Light and the Homes which We have visited in the Higher Octaves since Our Freedom—and after My Mother, as we thought at the time, had passed on, I used to have as I thought the most vivid dreams of these places of Beauty and Perfection; I thought then it was just a dream, but it was My Mother impressing upon My consciousness during sleep those great, very great Realities.

You as the youth of today, will you try to feel this because this will become then a great Reality to you: that in the Higher Octaves—for instance, let us take for illustration the Ascended Master Octave from which They operate in the Octave of Light—to you today, It would probably seem to stand up here in the atmosphere, and would seem a rather difficult feat, would it not? But that is not the case. When the vibratory action of your body raises from one point to another, that substance wherein you reached the height or whatever you reach at the time, that is just as solid as the substance is here in this lower vibratory action which you are experiencing today. Will you be kind enough to remember that in all your experiences.

In the Higher Octaves, these buildings, these forms of the Ascended Masters, while they are not a physical substance, yet they are a substance none the less tangible because of their higher rate of vibratory action. You see, once the intellect, the attention will begin to comprehend this Truth, these great Realities, it will

make the feeling—shall we say, *compel* the feeling to accept the truth of things that otherwise it might temporarily repel because the feeling has been charged with the limitations of Earth.

The intellect sees out here all these conditions of limitation, financial and otherwise; and the intellect, thinking it has been the governor of your particular world of activity, has charged into your feeling world the acceptance of these limitations. That is why those continue to exist. Then you realize it and an immediate determined stand is taken to reverse it.

Now this Understanding of the “Mighty I AM Presence” reverses everything unknowingly in the human octave, because as your camera shows you, it takes you upside down. Human beings have turned their whole world upside down because they have accepted the appearance world as the reality, when it is but the effect. Your human bodies that you are wearing today are not reality. They seem tangible, do they not, especially when they have a little pain; but they are constantly changing. There is not one hour of the twenty-four hours in which the atomic structure of your body is not changing—a constant movement or change all the time. Then you know from your physiological standpoint that almost the entire structure of your physical body changes every seven months. It was thought to be longer by your outer world physiologists; still, We must tell them almost a complete change occurs within seven months.

Now then, if that will do that automatically, and not knowing it, of course, you keep imposing the same feeling upon that structure—it seems to be the same, yet it has taken on new qualities. If you understood that—suppose you started today with a firm determination to no longer yield to discord in your feeling, and then in the understanding of your “Presence” kept charging your mind and body with the Perfection of the “Presence”; do you not see that that natural change of the atomic structure taking place would impose that upon the structure of your bodies, and compel your bodies to retain Eternal Youth?

The youth of today can maintain that youth and beauty which they have, with that Understanding; because they will annul, as it were, the atomic consciousness of mankind and refuse its action

upon their body. The natural process of the “Presence” called forth would hold Its Dominion, because there would be nothing of the human qualification to longer act. After all, the only thing that imposes human limitations in your form is your own qualification by discord in your feelings.

Therefore, today, if you as youth will understand this, you will find a blessing that no thing in the whole Universe can bring to you but the Understanding of this “Great Presence” and Its Application.

May I offer a suggestion—I quite well know that you do not comprehend yet but a small fragment of what the Ascended Masters and the Cosmic Beings can do; because everything that acts in Life with a tremendous Call is the Radiation which They pour forth. And as observed in the Classes of the Messengers, the magnificent Radiation that is in those rooms, regardless of the few individuals that might be there who are discordant, as long as the attention is not called to that—only when it is necessary to be corrected—it will not act within the general assembly there. But sometimes it is necessary for the Messengers to mention it in order to correct the condition, and it shows you the power of your attention; yet where the activity has been, the human has been no part of the Radiance released there.

It is so in your individual Life, as you are aware of it today. The Power of your “Presence” called into action is Light-Substance; then you will know as you call That about you, you must hold the Harmony and the Dominion of that “Presence”—which is the Governor of the Universe, as well as your individuality; that makes you a Power Invincible against human, destructive qualities.

I am so very grateful when We have an opportunity to talk to our Precious Youth of America. May I remind you that wherever this opportunity occurs today, those Currents of Energy carrying this Radiation are connected with every Youth of the “I AM” in America and the World, through the currents of the atmosphere. That is an Activity which seems incredible to the outer human intellect, but it has been established; and many of you, or some of you here know of the time the Great Divine Director established

that in connection with the Great God Himalaya from the Himalayan mountains. In India for many, many centuries that has been a natural activity; and that is how India, from one point to another, knew what was going on like a flash. England and the outer world have long wondered how it was they knew everything that was going on in their borders, and that is how. Because the people of India have been taught for centuries how to still themselves, and through these Currents of Energy, can be in perfect contact at any time.

Therefore, you today who learn to still your outer feeling will find that you will have clear, definite, direct impulses that will lead you absolutely unerringly in the Perfect Activity, the Perfect Requirement, and the Promptings of all that is required to bring Purity, Harmony, and Perfection into your lives.

Beloved Ones, may I say just a word in conclusion—when you call forth the Power of Divine Love from your “Presence,” your entire physical being and feeling world about you becomes charged with that All-powerful Activity. It is quite the same, whether it is a masculine or feminine form. If you do not call the Balance in the human octave of all the Love that is called forth, those who do not understand will feel your Outpouring of Divine Love and misinterpret it as a human thing—and I say that especially to the beautiful young ladies. The outer world of mankind has been charged to look upon the beautiful young women with a wrong motive. That is why I shall never lose an opportunity—and Beloved Saint Germain has requested it—that where We have an opportunity, We should talk to the youth to prompt them upon this point; for you do not understand the forces that are acting in the human octave, even with all that has been said. But if you understand this point, that *as you call forth this Power of Divine Love and It goes forth from your feeling world, charge It to convey into the feeling of each one that feels It, the Truth and Power of Divine Love alone, and that It carries no human element in It.*

If you will do that, you will hold about yourselves through your radiance, a Protection that will be magnificent throughout your Life; then will no one with the wrong motive approach you through your Outpouring of Divine Love. Mankind, you see, for

centuries have charged themselves with Divine Love as interpreted in the physical, human sense. Now in the greater calling forth of this, this must be understood if our young men and women are to be protected from the activity of the immoral desires of mankind who don't understand this Law, and even some who do.

Therefore, if you will remember This and utilize It in your activity of your Life Stream, you will find that you will produce a Happiness and Perfection that is unparalleled.

I offer in My humble Services to you, the Love and Blessings from Bob and Pearl and Rex, and from My Father and Mother, Mr. and Mrs. Rayborn. Beloved Ones, can you feel with Me for just a moment how magnificent it is that Our family should have been so fortunate! I marvel at it every day—to have gained Our Freedom so nearly together: My Mother first, then Our Father, then We children, Rex and Myself. And think, Precious Ones, We are no older than you—just children, so to speak; yet today We stand Unlimited in anything that We wish to do, and every one of you who will stand steadfast and firm in, with, and through your “Presence,” call It into action, and keep your feelings harmonized, will find long before you scarcely imagine it, you will stand with Us in that same Eternal Freedom of the Light of your own Wondrous, Wondrous “Mighty I AM Presence.”

I thank you.
