**B**ELOVED ONES OF LIGHT, I come to you this morning to bring a Radiance of that Great Purification for America's future that must always precede the outer manifestation. I come to bring you the Cosmic Flame of My Heart's Love to build our Beloved America into that Great Permanent Civilization of Light that is to be the permanent Golden Age to the Earth.

America this hour stands upon the threshold of the release of Mighty Cosmic Powers, if Her people will turn their eyes unto the Heights and hold their attention There with a fierce, relentless determination that America shall be *Free* from the claws of the dictators of the World forever.

I come this morning to anchor in, through, and around each of you That which will enable you to build permanently those imperishable Focuses of Mighty Power—both of the Cosmic Light and the Sacred Fire—which you are to build in the outer world in America, from whence there pours forth a Mighty Cosmic Radiation to penetrate the mental and feeling world of mankind with the Cosmic Light and the Illumination of the Cosmic Plan of Her Destiny, and to compel the revealment to mankind of the Destiny of their Ascension.

We have waited a long time to bring This to the attention of the outer world, and because of the cycles in which mankind was passing at the time which did not permit the use of the Violet Flame, it was impossible to reveal the Destiny of mankind's existence upon this Earth, except as the individual drew It forth from within their own determination to know the Truth. But there must come now into the outer world those of mankind who stand dauntless and fearless before all mankind, announcing

and stating the Truth of this Law, and blazing with It now an Action of the Cosmic Fire that will burn away more rapidly the feeling of doubt and fear in the mental and feeling world of the mass of mankind, because all doubt and fear, My Dear Ones, is substance. Doubt, while it affects the feelings, is substance in the brain that does not allow the acceptance of the Illumination or the Idea from the “Presence” that would annihilate all doubt; and fear is a substance in the emotional body at the solar plexus which does not allow the Peace and the Love and the Harmony of Cosmic Action to hold within and around the individual the Light that makes them feel secure.

After your Call to the “Mighty I AM Presence” and the Cosmic Beings or the Ascended Masters, were you able to see instantly the release of Their Light-Substance and Their Flame anchored in and around you, and see It stand in the atmosphere on the instant, and then remain there in answer to your Calls, your fear would vanish—because as long as you saw that Light and Flame standing there, you would feel secure within Their Outpouring, because within that Flame and in that Substance is Their Feeling of absolute Protection and absolute Mastery over conditions in the physical world. That is why, as you call forth the consuming of more of the substance in and around yourselves that is not self-luminous, the more will you be able to see on the instant the Release that the Great Ones give to you in response to your Decrees and your Calls to Them.

The moment the Luminosity of the Substance and Flame for which you call is made instantly visible in the atmosphere about you, there will be no more doubt in your feelings and the Instantaneous Fulfillment of your Calls. When, through your own recognition of the Light within yourselves in the greater intensity and pressure of drawing It within and around you, you issue a Decree to send forth Assistance to an individual, and you see the Hand of your “Presence” flash the Flame or send the Light-Substance, or the Being to whom you call blaze the Flame or

Substance on the instant, and you are able to see, as it were, through a Tunnel of Light, and the object to which you wish to send It, the moment you see That, and you see It anchored there permanently whenever you think of the individual or condition, and you still yourself and look through that Tunnel of Light, again you see It in manifestation, holding Its Command—My Dear Ones, manifestation then will be instantaneous to your every Call. I mean instantly visible and tangible to the physical senses.

This is the point We wish you to come to, and you must visualize It and have It deep within your feeling world before It will outpicture in the physical. It is time some of you came to this Freedom. Now it does not take so much time, nor do you go off and sit in the corner and do this thing—not at all. These Cosmic Powers of the Greater Freedom of Life are to be drawn in, through, and around you while you are acting in the outer world, because you can be just as aware of a Flame within and around you, or a Light-Substance, or the Luminosity in the atmosphere, you can be just as accustomed to feeling and seeing That—particularly through your feelings—as you are of your hands and your feet. You are conscious of your hands, but you don't have to keep looking at them and acknowledging them all the time to be aware of their existence. The same is true of these Inner Activities.

I want you to feel that in the use of the Greater Powers of Life's Freedom there comes the time when you must see Them. Be just as aware of Their Presence in and around you, or to where you send Them, as you are of your hands and feet.

Now, I am going to turn your attention to something you have all experienced. In your Call and use of the Violet Consuming Flame, how many of you—when you begin an intense Acknowledgment of the Violet Consuming Flame—become very warm physically, almost to the point of perspiration? Many of you have felt that heat. All right then, that Manifestation was

very real. If you felt the heat, it was surely tangible. Now these Manifestations come first of all through the feeling, then the next step is the sight and hearing. So sometimes the heat you get with the Violet Flame—then you will come to the point of seeing It the next time. I want you to feel you are progressing, because you are.

We have been so grateful for your fierce, relentless determination to stand with this Light and give your Decrees. And My Dear Ones, let Me tell you, the outer world that a few months or a few years ago criticized, blamed, and condemned you, stand now observing you and admiring the courage you have had to stand and give those Decrees which they did not want to give, which they know very well is your greater Perfection, and would be theirs if they had the backbone to come out and do it. So go on—someone has to be the first, the vanguard to cut through the human viciousness; and when you blaze the trail a little while, others will find it.

You Blessed Ones will have your Hearts' Call fulfilled, as sure as Creation exists, as you go on with this Acknowledgment. I want you to feel what it is to build a momentum in your own atmosphere of anything, whether it be good or bad. Of course, We want the good. You must know the Law, and if there is an accumulation of habit in the past that is wrong, don't imagine you don't need to keep working on that. You should stay with them continually. Command each day the annihilation of all that does not fulfill the Divine Plan, and all obstruction you have ever placed in the pathway of Life's Perfection; and as you continue to call, the Manifestations will appear, as sure as you speak or write Them.

Let Me show you what a continued vibratory action of one kind of vibration does in your mental and feeling world. You do not yet know how deep that registers in all of you. How many of you have gone to the theater, heard a melody for the first time, come home and either sung or whistled it? The next day

it sings and sings inside of you; maybe for a week that tune will hammer back. My Dear Ones, that happened from just hearing it once. What do you think is the accumulation and vibratory action of the pressure—now I am coming right home—of speaking words that you have spoken through habit of centuries into your own flesh body, into the mental and feeling world around you?

Now, if hearing a melody once registers deeply enough in your mental body to enable you to hear it again the next day, or whistle or sing it, and it goes on for days or weeks, what do you imagine can be the accumulation then in the mental and feeling world and in your atmosphere of words and thoughts and feelings that are nothing but habits—things that you have done uncountable billions of times, or said and done the same thing, not only in this lifetime but in many? That is the necessity for calling forth the annihilation of all destructive etheric records in your flesh body, in the mental and feeling world, and in the atmosphere about you.

Now, that is why you need this daily Application of the use of your Violet Consuming Flame, the Law of Forgiveness, the annihilation of all your mistakes and obstruction you have placed in the pathway of Life's Perfection—cause, effect, record, and memory. When you set about with determination to call forth the annihilation of all those, and you gain a momentum of that, then you have established a permanent Action of the Fire Element in, through, and around your atomic structure and the atmosphere about you, with a positive enough force to be the Action of the Flame that keeps consumed then anything that might approach from without. That will enable you to let go of habits that are not altogether constructive, that many times have become your limitation, and you scarcely realize you have them.

It is not wise to just look into yourselves all of the time with an analytical—"Well, is this wrong or that wrong?" Just in a

wholesale manner, so to speak, clean your Life Stream with your Decrees; then acknowledge your Cosmic Powers, and move into action the Builders of the Perfection of your Heart's Desire.

In that way the attention of the future will be held upon the Perfection that is to become your permanent Focus of Activity, even after your Ascension—because these magnificent homes and Temples of Light, schools and activities that you all want to bring forth as the future Golden Age in America to beautify and perfect this World, every one of these can be made as beautiful as you desire now. And if you will charge into them your Heart's Desire for mankind's Freedom, and insist that in each one stands the Unfed Flame and all Cosmic Powers for the Freedom and Purification of all Life, then if the Divine Plan of your Life Stream is your Ascension and is to be completed, maybe, tomorrow morning—suppose you do that today, and you only use it a short time, but you dedicated it to that service of Life, and suppose you make the Ascension the next day, you have that Focus here which was your Life's Decree for the Perfection in your world. Then from the Ascended Masters' Estate you pour forth the Greater Power of the Fire Element and Substance of Light into that, and like a Sun It spreads Its Radiance, and Its Blessings go on until your command from That goes forth which sets all mankind Free, and that has to one day produce that Manifestation in this World.

The Great Ones have worked for century upon century from these physical Retreats. Your Beloved Saint Germain long after His Ascension, has worked from the Retreat in the Swiss Alps, and from His Family Estate in Transylvania. He has worked from the Cave of Symbols for centuries. Your Mighty Cyclopea has worked from the Royal Teton for centuries. Those are physical places in this World where—mark you—the Life of the individual, or group of them, who have poured forth through those Retreats, has been still anchored within this World for its Freedom.

Do you realize what the Retreats of the Ascended Masters mean? Do you know your Beloved Cyclopea, in order to pour forth the Power that goes forth from the Royal Teton throughout these centuries, has given the Flame of His own Life's Energy through that Eye in the Royal Teton once every hundred years, up to the time your Good Messenger had this experience with Saint Germain, and since then, every six months! Do you realize that just as you give your energy into anything that you are building as a physical body, that lives because you have given it your Life's energy, and that is its manifestation. So do these Great Ones give Their Life's Energy, Their Flame of Love through those Retreats, and that goes on and spreads all over the World, because They are Cosmic Beings of Majesty and Power inconceivable.

Do you know what your Beloved Tabor, your Beloved Meru mean to the Americas? They have been called the Gods of the Mountains—haven't They?—as well as your Beloved Himalaya and the God of the Swiss Alps. They are called the Guardians of the Life Streams' energy in the mountain ranges in this World. Well, does it not take Their Life Streams' Energy to guard other energy that is placed under Their Protection? If you are the parent of a child, and the child gets in danger and you go and assist that child out of the danger, do you not have to give your energy to enfold the energy of the child's body in order to protect it from danger? You most certainly do. Then do you not realize from the Cosmic angle what must be the Majesty and the Power of those Great Beings who govern the energy in the entire mountain range.

Do you wonder that the God Tabor has that magnificent Retreat whose Beauty is so great no human eyes have ever beheld it. Those Great Beings do not live in hovels. They have within the Focus of that which They are guarding, They have Their own Life anchored. They give Their Substance from Their Ascended Masters' Octave. And it might interest you to know that

Beloved Tabor's Retreat, that is so extremely Beautiful, contains within It actual Substance from His Cosmic Temple of Light. That is why there is the Illumination and the Beauty that mankind are not accustomed to.

If Life is so willing to give you the Electronic Force and Light that comes from the Physical Sun, so much that you can only absorb that for half a day, I mean for twelve hours—mankind could not stand in the present state of their bodies, they could not stand the Sunlight twenty-four hours out of twenty four, because so much comes within the daylight hours. There is more that comes than mankind can absorb during the sleeping hours. When the vibratory action of the mass of mankind's bodies has been raised to the point where there are no more impurities within and around them, and the structure of the Earth itself becomes more purified, then the Light within and the Light without become One and there are no more shadows, because all Substance emits—lets flow naturally—the Light that is within it.

Now then, when you come to the purification of whether it be your atomic structure, your mental and feeling world, a locality, or a condition, just remember this: You whose Calls have been for Perfection and the Fulfillment of the Divine Plan, and the Freedom and Victory of Light in America, My Dear Ones, your Decrees charged into the atmosphere of Earth must register within the mental and feeling world of these people exactly as a melody in the theater would register in the mental and feeling world of you who heard it once, and you felt and sang it for a week. It had its effect upon you, didn't it? The same is true of your Decrees, and do not discount your Decrees—they register in the mental and feeling world of a lot of people in this Country that don't want to admit it, and there is going to be some more register.

Since We are concerned—I, with Beloved Saint Germain and the Beloved Godfre—are definitely concerned with the

rebuilding of America into that great Nation which She must become, then the things—now mark you—the things of Beauty, Purity, Perfection, and Cosmic Power from the Ascended Masters' Retreats throughout the World, and from the Etheric Cities in the atmosphere of Earth, and from Our own Temples of Light, can be lowered into your hands and use for the Freedom of your Nation and the World. That is no more effort for Us than it is for you to go to your pantry, take down a plate, put some food on it, and give it to your guests. It is no great effort to Us to bring these Manifestations to delight you and beautify your worlds and your activities in your Service to America, than it is for you to feed your guests.

You are Our Guests! You are the Guests of Life, the Guests of God wherever you go. Will you remember that? And you know a well-bred guest does not do anything to his host or hostess that is not courteous. The guest pours his blessings upon his host and hostess, the same as the host and hostess does upon his guests; and after all, you are all the Guests of Life.

But I want you to remember frequently that words and thoughts and feelings that you just constantly send forth, just like that (*motion of hand*) day after day, many times a day, pile up their rates of vibration—first of all into your atomic structure as it passes through, then into the atmosphere about you; and that becomes a pressure upon others around you, and that stays there until you change its quality. You either burn it up with the Violet Consuming Flame, or compel it to be changed into something that will bring Happiness and Perfection.

That is why you have heard the phrase, "Thou shalt give account of every idle word." Do you know there is no such thing, really, as an idle word. An idle word means an inactive thing, but all words sent forth are vibration that continues to act, unless you change its rate by some Action of the Fire Element.

So much of this, My Dear Ones, is just habit that you do not even know is acting. It is not only habit in this lifetime, it

is habit from many lifetimes. It is a race momentum. We are trying to cut you free from that. Now then, do you quite realize your privilege? Do you quite comprehend the Assistance these Magnificent Cosmic Beings and Ascended Masters are ready to give you?

Do you know that there are fourteen Etheric Cities in the atmosphere of Earth—seven over the principal deserts, seven over the principal seas! You have fourteen Etheric Cities in the upper atmosphere of this Earth. What do you think that is for? Why do you think They are there? Because there have been those groups of mankind, Ascended Masters, and Cosmic Beings who, seeing what the Earth's destruction—I mean the destruction of mankind—would bring about ultimately, have focused Their Qualities and Their Powers of Life's Perfection at a certain point; as if you had a Sun or Sphere, and you placed certain Lights upon It in the upper atmosphere to hold a certain amount of control over the destructively qualified energy that continually arises from the surface of the Earth up to a certain altitude, and that forms, as it were, almost as a layer. Those fourteen Etheric Cities form like a layer of Light outside of that discordantly qualified substance in the atmosphere. Pelleur's Power of the Cosmic Sun of Even Pressure, at the Heart Center of the Earth, forms a Pressure of that Light against the crust of the Earth, the upper layer, to keep it from completely disintegrating.

Now then, when Life, the "Mighty I AM Presence" of all mankind, and your Seven Mighty Elohim of Creation, the Seven Kumaras, the Seven Chohans, and the Gods of the Mountains are so mindful of sustaining this Earth and mankind upon it in order to fulfill the Divine Plan, that They place under the Action of the Cosmic Law certain intense Centers of Light in the center of the Earth and in the upper atmosphere of the Earth, then do you think that any human being or group of them on this Earth are going to be allowed to wreck everything that is of modern civilization? Isn't it absurd when the upper

atmosphere of your World holds within it these Etheric Cities, which are Centers of Mighty Cosmic Light and Action of the Sacred Fire! Do you not think when the Cosmic Law says, “Thus far and no further,” that there will be an Action of Light and the Electronic Force of the Elements that will prove to mankind who is the Master?

Now you are privileged to be held in this locality within this great Purity and concentrated Electronic Force of these Mountains under the Mighty God Tabor’s Direction, who will dictate tonight. Your privilege is very great, My Dear Ones; do not discredit it. Do not just become so accustomed to taking so much for granted of what is around you that you think it is never going to change. With your assistance, We will change a great deal of it for the better; but the greater change must come within each one of you, as you realize and determine that every rate of vibration within and around you shall be dissolved, consumed, and changed into that which emits Light. Then when We see you are gaining headway to a certain point, then the Cosmic Law says, “All right, We will give Assistance and bring this to pass very much more quickly, because that Life Stream is through and will have no more of the shadows.” The moment the Cosmic Law—which means the Great Cosmic Beings, and of course that always acts through your “Presence” too—sees that you are relentless in your determination to consume everything that is not Self-Luminous, whether it be in yourselves or the atmosphere about you, then as soon as you have proven to Life that you are not going to have anything except this Purity, Perfection, and Luminosity, then when you have reached a certain intensity of that Light, the Cosmic Law sweeps in and takes the rest of it out of your world. And may I say, as soon as you render one-third of the assistance, the Cosmic Law will release you of the other two-thirds. Now, that is rather generous and rather kind after centuries of misuse of Life’s Energy.

Now don't let anybody in this Activity or out ever tell you that those Etheric Cities are not there; I know They are! Who is there down here that is an authority to prove to the contrary? Your airplanes can fly high enough to become invisible, can't they? Then who is to say what is in the upper stratum enveloping the Earth! Just the same as the skin of an orange to a certain thickness covers the fibers in the pulp and the liquid in the cells, so does that upper atmosphere in which there are those Etheric Cities, so do They hold all the substance in the atmosphere of Earth close to the structure of the Earth; and Pelleur, like the center of the orange, blazing His Light, holds a pressure against the surface of the Earth to keep mankind from destroying themselves and the Handiwork of Cosmic Beings.

This would be well for you to remember more frequently, because were you to call forth the Cosmic Pressure from those fourteen Etheric Cities right onto the surface of the Earth and into the atmosphere, into the brains and bodies of the people, you would find many of them changing their minds about wanting to do destructive things.

Now then, since That which belongs to the New Cycle is wholly Pure and wholly Harmonious for the future, then the more you can call forth your Action of the Violet Flame and your Purifying Decrees, the more you keep swept out all substance and rates of vibration that are the delays in the fulfilling of your Decrees or the producing of those Manifestations for which you call. There is only one thing that makes human delay, and that is some kind of substance of doubt and fear.

The substance of fear at the solar plexus, the substance of doubt in the intellect, My Dear Ones, were enough of you to qualify in the Purification of your own mental and feeling world and atmosphere about you, and you just persistently go on with That and demand the Cosmic Purification of everything with which you come in contact for the Fulfillment of the Divine Plan—were enough of you to gain a Momentum of This, you

would find automatically coming into your own hands and use, many Cosmic Channels of Supply over which the outer world has no authority and has no power to control.

Who is there in the outer world that can shut off the Ray of Light through the Royal Teton from Mighty Cyclopea? Who is there that can shut off the answering Flame of Love from Sanat Kumara's Heart to you when you call It into outer action? Who is there who can shut off the Love from your Beloved Saint Germain or Godfre or Jesus or Myself? I will say to you, there is nobody or all on Earth who can prevent My Flame of Love going to Its Destination when I command It. There is not all the substance and all the vibratory action of all discord on the Planet that is stronger than My Power of the Sacred Fire, and when you think on this deeply enough, when you feel It and accept It, you will know when you give those Decrees, calling forth these various Actions of Cosmic Flame, that They burn Their way through all discord of this World.

We want you to come to the point in your feeling world that when you ask Our Flames of Love to go forth, or the Light Rays, or the Cosmic Substance, that That is the Master over anything human and can burn it out of Its Pathway like a streak of lightning. Supposing there is a tremendous electrical storm, and those great streaks of lightning go forth—who can stop it? Well then, the Beings who direct that or release it into the upper atmosphere are certainly the Authority over mankind's discord. Therefore, do not allow thoughts or feelings or words of doubt or fear or disaster to be authority over those channels in the outer world which ought to be obedient to the Cosmic Law.

Go on, My Dear Ones! Just as the melody within the song could reach within you and make you sing it for a week or longer in your physical world's experience and use of energy and substance, so can one Flash of Flame in the Command of an Ascended Master or Cosmic Being go into an individual or a locality and make all feel It and think It and sing It, if need

be for a week or Eternity.

You have some powerful Decrees that you have been giving lately. Stay with Them, and within the next year if you gather your momentum of those, sincerely and determinedly, in the year's time you will be amazed at your own feeling of greater power and mastery over the conditions of the outer world. Do not let that human thing make you feel that it is stronger than these Cosmic Beings to whom you call. It would like to have you believe that—all discord would; but remember this, all discord must one day die, and the Light *never!* The human has got to fail, and it is failing constantly—but the Divine *never!*

The Sun never ceases in the Universe. It is growing greater, My Dear Ones. Don't let any scientists tell you It might run out of Light and Energy and dissolve. They are standing on their hands, thinking in their feet, most of the time when they say those things. I don't say they are all like that, but they have almost everything that is the Truth of Life turned upside down, and then pass it out to mankind as authority. That is what is the matter with mankind. I am trying to reverse that for you and show you about this physical octave.

Even in your own atmosphere of Earth stand those Mighty Centers of Light, Cosmic Power and Authority, that are compelling the dissolving of conditions mankind has generated in the atmosphere of Earth, which stay anchored within it until they change them. The destruction of mankind on this Earth cannot get out of the atmosphere of this Earth, does not, and never will; and since I have helped to bring many civilizations to their height, and I stand by Saint Germain and your Beloved Godfre to build in America the most beautiful things that have yet come forth on the Earth, then We are going to prove some of these things to mankind—only We will educate them through themselves, and thereby let the Illumination become permanent. We are not interested in producing phenomena; although We could produce enough over the Planet to stop everything

mankind is doing this hour, and they would wonder why they could not go on. But that is not what We are concerned with. We are concerned with the Illumination of the individual that makes that individual think inside of himself, again, again, and again, and know in their feelings that there *is* an Authority above them against which the human cannot stand and must one day give way.

I think to make much of your work easier, especially where you are climbing in the mountains, if you would call forth the Action of the Violet Consuming Flame, and feel that from the waistline down you move in a sea of Violet Flame—now watch this—and that between the waistline and the Heart there blazes a Golden Sun that forms a band of Golden Flame around the center part of your body; and then call forth the Expansion of the Unfed Flame to fill the upper part of the body and to go forth in Its great Protecting Radiance, and hold the balance in the atmosphere about you of Love, Wisdom, and Power, and cut you free from all connection with every other pressure of energy that you contact, I think you will have some amazing results. The Golden Band of Flame from the Sun at the solar plexus, that envelops the middle portion of the body, will give you tremendous ease and peace. It will help your digestion a lot, too. It will keep you at peace while you are eating, I hope.

May I say something else—it would be very wise for those under this Radiation to acquire the habit of being at peace while they are eating a meal. You cannot have anything wrong with your bodies if you will visualize, while you are eating, that the energy that is drawn in and around your body for digestive purposes is like a Golden Sun that closes in upon every particle of substance in and around that portion of the body, and blesses it with the Love and the Peace of absolute Perfection. Then just be still and feel it.

In this which My Heart wants to do for America, and especially the United States of America, I have longed for a long

time to bring about in this octave some direct Replicas of the Beauty and Perfection that is in Ours. After a little more of the outer world's viciousness has been removed, mankind will be given an opportunity to see more beautiful materials, and you will see more Manifestations in nature of Supreme Beauty that will be like a magnet to draw forth from within each human being a desire for greater beauty.

As more of your "I AM" Music of the Spheres goes forth into the atmosphere of Earth, you may charge It with the Call for Beauty to go forth in that Flame and photograph Itself upon the substance of the world about you. It will enable many people who have loved beautiful things all their lives to feel a strengthening of their determination to beautify their surroundings. It will be of tremendous courage, or rather it will strengthen the courage in many of them to reach up and bring about greater beauty in your cities and in your surroundings, and this is necessary.

Beauty is just as imperative as food, My Dear Ones. You cannot gaze upon a magnificent sunset and the magnificent colors in the Powers of Nature, you cannot continually contemplate that and not be at peace while you are looking upon it. Therefore, it is a great harmonizing activity of Life, and through those various colors their particular radiation of Healing, Harmonizing, and Illumining go forth and anchor within individuals.

Now then, in regard to your Music Temples and the activity of your music, if just through the use of energy, Life releasing a melody in a theater can affect the thousands of people that come into that place and they go forth and hold that in their mind, no one knows how long, then you have the same Power of Life, you have the same tools of Life through this "I AM" Music of the Spheres to command It to go forth and charge the atmosphere of Earth with That which will make mankind sing for Eternity their love, praise, and gratitude to the "Presence" and the Ascended Host. You can charge into their mental and feeling world these Cosmic Actions of the Sacred

Fire that—mark you—are forever sustained; and this is where you really have an advantage over and tremendously greater power than destructive forces.

While over the radio has come everything in kingdom come mankind can think of to destroy—I do not know of anything more they could invent to come over the radio of a disturbing nature than they have now; but this is to your advantage. They can put on all of the chaotic program activities that go over the radio, but did it ever occur to you that they have to keep that sustained! They have to keep pounding more and more of it all the time, while you can send forth *one* program, charged with the Sacred Fire and your Calls to the Cosmic Beings to take That up, plant It permanently within the minds and bodies of everyone on Earth. You would be in agreement with Life's Perfection and that would be sustained and expanded until the outer had complete Illumination—and the destructive forces cannot do that. You still are the master authority over every bit of these conditions, if you will remember that.

Whatever you send forth in the “I AM” Decrees, command that Perfection to go forth charged with the Sacred Fire as an eternally sustained and ever-expanding Action of Life, if you will so decree it. All the destructive individuals on Earth cannot make destructive rates of vibration Eternal; therefore, you are the *master authority*.

If you will remember that every destructive thing on this Earth has got to come to an end. Why? Because it is energy, and it travels in a circle. It starts out and comes back to its center; and if it be destructive, it blows itself to pieces sooner or later.

That which you send forth qualified with Ascended Master Consciousness, or Cosmic Action of the Sacred Fire, goes forth to bless all creation, goes back eventually to the Great Central Sun, gathers more of Its Beauty and Perfection, and comes back to you with eternally sustained, ever-expanding Manifestations of the Cosmic Scheme.

Now you know why I love to build. This which you are going to bring forth in America, My Dear Ones, is the Beauty of Our Octaves of Light. Charge Them to become imperishable and self-luminous and ever grow more beautiful as the centuries pass by, and increase Their Action of the Cosmic Fire and Cosmic Flame of Love's Perfection, and show mankind God's Way of Life and the Divine Plan fulfilled, and you shall have all the Assistance in Creation that you require, if that be your goal. There is not a thing that your Hearts desire that cannot come into outer manifestation.

Remember this, Beloved Frederick, and anybody concerned with this Music: What mankind has done, you can do, and greater things with your conscious Acknowledgment of your "Presence," the Ascended Masters, and the Cosmic Beings. If someone has brought forth a magnificent organ, or any other magnificent thing of the outer world that was brought forth by mankind, by Life, and if your Hearts desire the same thing or greater, there is still more Life in the Universe that will fulfill your Calls; and I shall stand by until your Hearts' desires are made manifest in the world around you as a blessing to all Life forever. What mankind has done, mankind can do again — never forget that! It but takes continued, persistent attention to the objective.

You who know your "Mighty I AM Presence" and the Ascended Host, you who have been loved by the Mighty Beings who guard the Destiny of a Nation, are surely worthy of all We can do. There is not one thing will be denied you as you hold steady to your purifying activity and your Decrees, and the magnificent Perfection of the Manifestations you want to bring forth. Just feel My encouragement. I shall stand by to lift and to give, to expand and perfect and lift to the heights, until you are all the beauty in this World, until you are in Our Octave of Light, and that is Eternal! That is what We all owe to your Beloved Saint Germain for this Light which He has brought

that has set you free thus far and which, if continued to expand, will claim all back into Its Heart, and the shadows will not even be remembered by Life, the Cosmic Light.

Thank you, My Beloved Ones. There will be a great Outpouring to North America this afternoon from the Mighty Meru. Will you all love Him and accept His Blessing. I am His Messenger. I have come this morning to make you feel His Love and Guarding Presence to assist that which takes place within the mountains under your Beloved God Tabor, Our Beloved God Tabor. Call forth all you desire from Our Octaves of Light, from Our Temples of Light, from the Etheric Cities, and My Dear Ones, you shall have Power and Wealth to beautify this locality, or any you choose to raise into Ascended Master Beauty. The opposition and viciousness must dissolve and the World turn its face to the Light and come back to where it belongs. I am privileged to lead the way to assist in raising the civilization of America into That which will be an Eternal Tribute to your Beloved Saint Germain and Beloved Godfre, and the Beloved Donald and those other early patriots who have wanted mankind to have Freedom so long.

Thank you with all the Love of My Heart. I enfold every Heart's desire of your Life Stream to the Fulfillment of its out-picturing here to bless the World and all Life forever. Thank you, Precious Ones.
