

## THE GREAT TENOR'S DISCOURSE

*Through Mr. G. W. Ballard*

Pasadena, California

December 19, 1937

**B**ELOVED CHILDREN OF EARTH AND OF THE LIGHT, the Privilege granted Me tonight is the first in many centuries—many centuries—since I have spoken to the Children of Earth. Knowing the Great Law of Harmony and seeing the need of mankind today, it is also My Privilege to add My humble Efforts to the many Others who are striving so earnestly to give mankind the Strength, the Confidence, and the full Feeling of their ability in the Acknowledgment of their “Presence,” to set their worlds into order, and hold that Great, Commanding, Intelligent Energy there for constant use.

I shall try to enable you to feel tonight that it is quite within your grasp, in your Acknowledgment of your “Presence,” to actually have in physical experience the Fullness of that which you require. It is no longer in the remoteness of mankind’s imagination; but you, Beloved Ones, have come to know and to abide in the Fullness of that Great “Presence” and Light which really governs the Universe. It seems quite strange that still mankind does not realize that in the “Presence,” is the Conquering Power of the Universe—*your “Presence,” your own “Presence”*—that gives you Life. Try tonight, while this Radiance is here, to feel definitely that in the Acknowledgment of your “Presence” and the harmony of your feeling world, you are now, today, in command of yourself and your world.

As the Beloved Son of Light (Donald) said to you, one must, by conscious effort, hold the balance in the human octave of the Powers called forth from the “Presence.” It is not sufficient to expect your “Presence” to do it; but by your Self-control, the “Presence” will do wonders beyond your fondest imagination, I assure you.

Beloved Ones, do you not realize the change in your own speaking voice, the change in your voice of song? Do you not see that? Do you not feel it? There are no people in the World who sing so magnificently. I, if you will pardon the expression, am in a position to know. Beloved Ones, do not be confounded—you who are of musical temperament—by your earthly critics. There is far more to the Music which is coming forth than technicalities of human opinions. Therefore, I want the Beloved Ones who have the ability to release this Wondrous Music to just let It pour forth through the Power of your “Presence.” Don’t be in too great a hurry to acknowledge anything that comes forth, but just stand guard and watch that Perfection which will come, and soon you will come to know the very moment that Great Harmony of the Spheres begins to find outer expression.

Shall I touch upon a point which I am sure most of the Great Ones have not mentioned up to the present time? Why do you suppose the advancement has been so great in the Expansion of the Light among the Students under Saint Germain’s Radiation? I think you have not thought of it. *Because of the Great Harmony released through song.* It has been of tremendous help, and all of you know the advance you have made in the world of song. Therefore Beloved Ones, out of the Group—the number of “I AM” Students that are here today, aside from those who will presently come into this Understanding—will arise voices magnificent; and some who don’t even imagine they have those voices today!

Tonight, in bringing this Great Radiance to enfold you, and while your attention is upon the Words flashed to the Beloved Messenger, the Joy fills My Heart in My Privilege to render this Service. This will reach all of the Students tonight. Many of you do feel earnestly the great changes that are taking place through the air currents which have been established. Does that seem strange to you when you are listening to your radio all

the time? Think of it—the Great Ones speaking on the air currents, by which They carry not only the Radiance, but the very Words into the far parts of the Earth to those who are attuned to receive. And in no part of the World is that so definite as in India. They are receiving even the Words of the Great Ones as They give Them forth—a great number of people there.

So today your attention is called to these various Activities that you may become familiar with them, because there are so many things to come forth presently, that unless you are, to some degree aware, you would unknowingly put many obstacles in the Way of that Perfection which must come forth. It is not a matter of *can* It, or *when*, or *shall* It, but It *must* come forth. It is the Demand of the Law of Life that has too long met obstruction. Think of it Beloved Ones, beloved mankind not knowing, not understanding, constantly placing obstruction in the way of the Expansion of their own Light that could so quickly set them Free in every manner whatsoever.

However, one must be patient. Things are not achieved in a moment; and will you hold very definite in your consciousness the difference between the human desire and that of the Great Law of Life that says a thing shall cease? That is quite a different thing from a human desire to have something cease. You cannot perform that Service in your own individual world; but *when this Great Law of Life says all destructive conditions shall cease*, then it means that within the feeling world and the consciousness of mankind must be projected that *Desire for Mastery*, which enables human beings to have self-control, whereby the Great Law performs this Service. For It does not destroy Its own Creation to fulfill Its Command, unless that lack of Obedience becomes so drastic that great measures must be used to bring it about.

In the past—in the many centuries past when this Understanding was not available, civilization after civilization went down under their own destruction. Mankind today are so fast

on the downward trend. While it is not a pleasant thing to touch upon, I want you to realize as never before, the Great Service that has been rendered America and the World, by the removal of the black magicians, and that which We know as the sinister force that has beset mankind through the many, many centuries; seizing unfortunate individuals and compelling them to do their vicious commands; because the creative energy, which has been wrongly qualified by mankind, naturally wants to hold its dominion.

It is a force that is acting, Beloved Ones. You can't call it intelligence, although a certain phase of intelligence is manifested in all destructive activities. Yet you cannot call it intelligence. It is a force, and that is why, today has come forth this Magnificent Understanding of your "Mighty God Presence," because in the requirements of today, mankind is helpless without it. No one would be able to govern themselves in the conditions that exist today under the creations of mankind up to this point. Therefore, the Great Law of Life—and try to feel it—so naturally fulfills every requirement. Sometimes mankind does not understand this and do not take advantage of it; and even today, Beloved Ones, without your Precious Beloved Messengers, few would comprehend.

Think of the many times the Messengers have returned to prompt the Beloved Ones, encourage and strengthen them, when destructive forces swept in. So, today you are all becoming strong enough to stand firm upon your own two feet and say to all human creation and destructive forces, "*You have no power! No longer can you touch me or my world. Get thee hence, and forever!*" Oh Beloved Ones, the moment you feel that Great Power of your "Presence" surge forth through you, you can actually, in your feeling world, take command of that; then how quickly you will set yourself free.

You have seen the activity of the lack of self-control, and the harmonizing of the feelings, and how it prevents mankind

and the Blessed Students many times from attaining the quick Goal they would naturally otherwise attain. Therefore, the Example is before mankind everywhere. Those who demand and hold themselves in self-control and harmony within their feelings, go forward quickly into that Great Freedom.

So tonight, I have come forth through the Power of the Musical Harmony of the Spheres to give that Assistance which alone comes from that Activity. So much depends upon the expansion of the Light of mankind, but I trust it will not be long until I will be able to show you what is meant by the word "Harmony." It is used so often, but who understands what it is? Who really does, Beloved Ones, understand what that magnificent, majestic Word means? Harmony, like Light, is a Self-luminous, Intelligent Substance, and that is why great, beautiful, exquisite musical compositions produce such magnificent effects upon mankind, because in that great, uplifted moment they are clothed with that Self-luminous, Intelligent Substance of Harmony. You have not heard that, have you? In all of your understanding of music, show me anyone that has understood that. But I want you now to begin to think about it, to begin to feel that Harmony of exquisite Music carries Its own Self-luminous, Intelligent Substance into you and your world, for it is needed now.

Think of it, Oh Children of Earth, the many Blessings that are pouring to you like a Great River. These Great Beings coming forth, the Great Goddess of Liberty, the Great Astrea! Do you notice—surely you do Beloved Ones—how each One comes step by step. Do you not see that Service which the Great Divine Director rendered; then came the Mighty Astrea, sweeping from Earth the discarnate individuals and the discordant creation; then again the Great Divine Director, dissolving and consuming the great mass of human creation; and how then, that opened the Door for the Release of the Powers of the Great Goddess of Liberty, who comes forth now to give that Blessing to

mankind; and then Myself, My humble Self. Because of the conditions which have been—behold and notice—I could not have come before. This Work, which It is My Privilege to do, and the Service to be rendered, could not be done until a certain point of consciousness had been attained by the individual, and sufficient Harmony within your feeling world. I could not come.

Tonight is the beginning of that Great Work. You have had very wonderful voices, both masculine and feminine, upon your Earth, but that day when I am able to stand forth in My Tangible Body and show you what the voice can do, you will agree with Me that so far, mankind has touched but a fragment of the Perfection of the voice. I will not say the human voice, because there is no human voice. Oh, that you might all, this hour, understand that! You express yourself in that manner, but the Voice is not yourself, and I mean by that, does not belong to your human form. *You must see that and understand it, and please do it tonight!*

Your Voice, whether you are speaking or singing, is not the voice of your human form, but the Voice of your own “God Presence,” for when that form and its Life has withdrawn, it is inactive. So remember that all of the Achievement, all Magnificent Expression in song or otherwise, comes from that “Great Presence.” That is why today, mankind has before them the most Magnificent Achievement that ever was known since the Second Golden Age, because you are coming to know that *all comes from that “Great Presence of Life”*; and therefore, It has the Powers of all Life to operate through each human form, as soon as the human will give It the opportunity. As soon as the stillness of the human becomes sufficient, then will the Power of that Life express Itself in full Perfection, in Song and Glory of Achievement, in whatever, and upon whatever the attention is directed.

How did I come to be the Authority of the World of

Harmony? Because of the Power of My Attention. How does anyone become an Ascended Being? *By the Power of their Attention!* How do you achieve anything in the outer world? By the power of your attention. If your attention as children was not upon your study and your school work, you would not know anything about it—the subject—would you? And it is so throughout the Universe. Unless your attention is upon an objective, how can you know anything about it, again bringing you back to those simple Activities, so-called, to which the Messengers have called your attention so many times—*the Power of your Attention, your Vision, and Qualification!*

Beloved Ones, you have the most Magnificent Qualities on the face of the Earth, or anywhere else, by which to achieve and attain any Goal of Perfection. Your attention, held unwaveringly on your own “God Presence,” will automatically release, sooner or later, that Perfection which It is. But if you waver—here today, and there tomorrow, now harmonious, then out of harmony—then you are wavering between two forces, and you remain in that wavering condition. Take your firm stand today in your “Presence,” and nothing in Heaven or Earth shall stand between you and the Powers of Its Perfection which It will release through you; but you cannot waver. You must be steady and firm, unyielding in that Power and that “Presence” which gives you Life. Then Its Perfection in every manner of Expression will find Its Action and Dominion through your human form, and bring into the physical octave the Glories of that Perfection which It is.

Will you enjoy This with Me? It is so long since I have made this contact with Earth, I want you to know that I did not remember it was so enjoyable. It would not be so with the outer world, but with you who are fast becoming no part of that outer world, it is enjoyable; and I hope for very Great Results in My humble Efforts. There are those of you present, and many absent from this Meeting tonight, that I could take, and in

twenty-four hours, transform into Angelic Voices. Would you care to give Me your attention sometimes, and We shall see what We shall see?

Beloved Ones, Oh, feel the Happiness which is Ours! Oh, no longer can the outer world of human creations bind you. Oh Beloved Ones, do not let it bind you any more. I see so plainly tonight that you need not. You don't need to allow yourselves to be bound in any manner whatsoever longer. Oh Beloved Ones, try to believe Us. Try to feel how Sincere and how Truthful We are when We give you this Encouragement. Why, do you think the Great Law of Life would permit Us to utter one word of falsehood or false encouragement? Not for all the World. But when We do give It, please understand there is a Mighty Inner Reason for It, which is your Blessing.

So tonight, in the Fullness of that Great "Presence" and Power, and the charged stillness of the atmosphere of this room and the one adjoining, how precious the Hearts of mankind become, when they really begin to give their attention to that Great Source of all Life. Oh, in the Glory of That, *Raise! Oh, Raise! Great, Mighty Energy of Life! Take hold of that Stream of Life and Energy of every one. Raise it! Raise it! Raise it! And hold it there firm in that Great Activity; and then, through that Lifted Consciousness, hold the Balance of the Light. Charge forth then through that Mighty, Prepared Channel of Light, into the body, the mind, the feeling world of each one, and do that Work this hour. Legions, take Command! And as this Way has been prepared, render that Service tonight. See that every particle of the human gives obedience to that Requirement, and let this Preparation for the Great Shrine Class be made Perfect for that Achievement there.*

I clothe you tonight, Beloved Students of the Light, in that Great Harmony which I have drawn forth and anchored here in your city. Rejoice in It! Accept It, if you will. Remember that all Powers that give you Freedom are invisible at first, and

then as the Expansion of your Light continues, all things from the Inner Standpoint are revealed, and then you see the nature of it; then you see how practical all Life is in its Achievement, and Purifying, Freeing Activity for mankind.

Again I assure you, had it not been that you were willing to use—with great earnestness call the “Presence” to use—the Violet Consuming Flame, still would this have been impossible. Step by step, your Victory, Beloved Ones, is becoming more and more certain. Rejoice in It, and feel the full Glory of It!

My Love enfolds you always, and every earnest, sincere Student under Beloved Saint Germain’s Radiation will receive This tonight. I rejoice with you in Its Great Achievement. How wonderful! And may I digress just a moment to let you understand how great is My Gratitude for the Great Harmony that is coming into all Group Leaders everywhere. It means everything to yourselves and the Students, Oh Beloved Group Leaders, for as your Harmony becomes fixed, so shall that same Great Harmony become fixed in the feeling world of every Student; then will the Great Glory burst forth.

Oh, love and bless each other, Students, Group Leaders. All love, and love, and love, and bless each other as never before, and let that Love, that Great Presence and Power of Divine Love take Its Dominion and produce Its Perfection for you. Understand what it means to consciously pour forth Love and Blessings. Oh, I do not mean with just the intellect, but with the Power of the “Presence” through the Heart. Only when a speaker is able to release the full, earnest, honest, sincere Power of Divine Love can that one be successful or hold others. One may be trained technically to the finest point, but if there is no Love coming forth, then the efforts are of no avail.

So today, in the simplicities of the “Presence of Life,” enter into It, and have the Glory of Its Victory and Perfection forever. I love, I thank you, I bless you forever.
