## Power of Qualification, And Charging Our Atmosphere!

As we turn our attention to the “Presence,” I am going to remind you again of your *Power of Qualification*, which means your feeling. I think the Student Body has reached the point where you should more consciously call forth—I mean definitely *charge yourselves three times a day*, when you are some place where you can be alone, with the Threefold Action of these Activities for your Protection. First, the Blue Lightning of God’s Cosmic Love, the Flame and Substance of the Elohim of Purity, then with Mighty Hercules’ Protection. You could also take Saint Germain’s Freedom, Victory’s Victory, Daddy’s Obedience, or each One of the Ascended Masters’ Special Qualities—the Elohim of Peace’ and the Elohim of Purity’s Cosmic Love.

Get in the habit of recognizing these Activities! At first, before you become aware of Them, you would have to do it several times, a few days or weeks, perhaps longer; but get in the habit of *standing and holding your hands to the “Presence,”* and definitely asking It to *charge! charge! charge!* the atmosphere around you, with the Overwhelming Cosmic Action of Its Cosmic Flame, and Cosmic Light Substance of Cosmic Purity, Peace, and whatever other Quality you want. Of course, always call for Invincible Protection, so that wherever you move, you are aware of those Activities—the Blue Lightning of all God’s Cosmic Love, the Flame and Substance of Purity, and Hercules’ Protection; and that Activity of the Fire Element with a Pressure in It that goes before you, and shatters human creation wherever you move, before it can approach. That Flame burns it out, then you move forward, clothed in the Substance

of the Light, which is your Indestructible Harmony.

Now if you get a very clear picture of these three Activities, and definitely charge Them around yourselves, you will be amazed. It is one thing to charge your own body, and the general atmosphere of your own aura, but the thing I want you to become aware of now, is to command that those three Activities form the atmosphere, and fill your homes around you, and your business activities. Now that the atmosphere of your home is composed of three Things: first the Blue Lightning of God's Cosmic Love; then the Flame and Substance of Purity, Saint Germain's Freedom, Hercules' Protection, Victory's Victory—give Conscious Recognition that the air in which you move is always composed of those three Activities.

If you will begin to build This, you would not know what the pressure of the outer world's discord means. If we would all do that, three times a day, privately, then in your Class Work, at least you can do it in the morning and at night, and definitely *command that the atmosphere of your home be forever charged with the Blue Lightning and Flame and Substance of Purity; and the various Qualities that are the Ascended Masters' Perfection. Then command that It is Invincible, ever-expanding, and always Victorious*, so that your homes or your business activities become Focuses of that Charge into the air.

The Mighty Aries, the God of the Air, and Mighty Himalaya will have much to do with This, and you can call to Them for Assistance. I am saying this for several reasons. In the first place, you remember in the “*I AM*” Discourses, Saint Germain said in order to control weather conditions you should know, “*God is my atmosphere, therefore, I am comfortable now!*” Command the air in which you move everywhere to be these Qualities, and that you are always comfortable.

Beloved Kuthumi, when He was in the Himalayan mountains, wrote to one of His students in England in the latter part of the last century, and said: “*I send you greetings from the*

*Height of Eternal Purity, to the depths of iniquity. I am sitting high in the Himalayans where the ink freezes in the bottle, but I have made a hole in the storm clouds, and I am perfectly comfortable. Can you do that?"*

Charge forth the God and Goddess of Harmony's Blue Lightning, Their Cosmic Blue Lightning, the Cosmic Flame and Cosmic Substance of Their Cosmic Harmony, anchored there for Eternity, wherever you move; and *decree that you move only in a Sphere of Their Indestructible Harmony*. In a year's time you could build That to such a momentum around you, that anybody coming near you would automatically become harmonious; and if there is some vicious condition or creation around them, that Blue Lightning coming forth from you, will go out and shatter that discord. It will not only prevent that acting in your world, but It will go out and blast that from the other person. Then you become like a Sun, whose Rays of Light pour forth Streams of such Pressure of the Activity of the Fire Element, that nothing human can approach. Because all destructive forces fear frightfully anything that is of the Light, particularly a sharp, Concentrated Action of the Crystal Rays, or sharp Light that has a lightning effect.

This is going to be necessary for the Student Body as they render service in the outer world in correcting destructive conditions. You need to keep insulated in an Atmosphere into which nothing discordant can come, and your atmosphere becomes so heavily charged with the Ascended Masters' Qualities, these Qualities for which we call—the three Activities of the Blue Lightning, the Flame and Substance—that you move forward, embodying as it were, Their Qualities and those Actions of Life.

Wherever you move you are just like a comet passing through space. You go on your way, and by the Blue Lightning burn your way through any condition, and you leave a Trail of Light that stands as a Pathway on which you can return, or stands as a Pathway pouring forth Its Radiance, consuming

destructive radiation wherever you move.

There are several reasons why we should begin to build This. This is in addition to your own Tube of Light, and the regular Action of the Violet Flame. This is of Cosmic Service to anybody and everybody you contact in the outer world, as well as your radiation to your own; and when It comes to charging forth the Powerful Healing Activities through the Music, if you have a good momentum of This gathered, you will be amazed at how much more pressure there will be to drive forth on your Music and Decrees, these Cosmic Actions from the Ascended Masters, which They can amplify without any limit whatsoever. Now This will also keep you in an atmosphere of your own, wherein you are always comfortable.

These Ascended Masters do that. The only thing They have to do it with is Life. We have the same Life; Life in the air, Life in the atmosphere about us, Life in the Powers of Nature, Life in the atmosphere, under the Direction of Beloved Aries and Mighty Himalaya. We have the Life of the Angels who have offered to help us, the Legions of Light who have offered to help us. We have the Action of the Fire Element, the Blue Lightning, the Flame and Substance of Light. It only means we have to keep It concentrated in Conscious Action around us and the conditions for which we call, whether it be the atmosphere about us, or the food we eat. It means to command these things into outer action, into manifestation, and just stay with It and continue to call, and keep on amplifying It until It compels complete annihilation of all that has opposed the Light.

The war beasts of the World have nothing in this Universe with which to create war, except Life's energy and stolen authority. Because no nation on the Earth, anywhere, ever gave any of its rulers authority to send its people to slaughter, and into the hell of war. You know that as well as I do. It is stolen authority. Just because people in positions of trust have been

entrusted by the mass of the people with the governing power, and they have failed in that trust, does not make them the authority, under God's Law, to utilize anything on the Planet for destructive purposes.

I want to show you how Gracious, how Wonderful Life is, in spite of all these outer conditions. Many of you have seen, or heard of countries where the bombs have wrecked everything in the way of the Powers of Nature—buildings and everything else that has been destroyed, and yet, in one season, there sprung up in some of those countries, new varieties of flowers that have never been seen before, showing what the Lord the Maha Chohan has tried to do to wipe out the viciousness against the Planet Itself. The Blessed Lord the Maha Chohan is a Friend of ours. I know He will enfold us in His Power, and give the Protection to our loved ones for whom we call, if we will build this Momentum around us through our Calls, three times a day.

Thank you, Blessed Ones.
