

BELOVED MR. RAYBORN'S DISCOURSE

Through Mr. G. W. Ballard

Washington, D.C.

October 30, 1938

BELOVED MINUTE MEN of Saint Germain and Daughters of Light, It is My Joy today to convey into your feeling world the Power of Achievement, the Power of Success. As you will remember the Mighty Victory has said to you, that He would charge His Power of Victory—for He had not known anything else through many, many centuries—into your feeling world for Action.

Gentlemen and ladies in the business world among the Students today, I have now become ready to charge into your feeling world the Power of Success, of Achievement in the world of human action. I have ascertained the Full Inner Action of the Law, as applied in My own Life, during those years when My attention was not yet drawn to the Presence of Life. Although in perhaps eighty-percent of My activities, through the Inner Impelling Power, I was actually living the Life; and by that, the Full Harmony that is required for the Achievement, as you think of success in the outer world.

I could point to you thousands among the "I AM" Students today, who, with a clearness of comprehension of what success means, would be able to go forward like a rocket into the outer achievement. For remember, all of the Students are not yet ready to take up this Work, so far as teaching is concerned; and even if they were, the commercial world needs mankind more than anything else in America today.

Therefore, whatever your activity is, keep charging, decreeing, and pouring forth the Mighty Light Rays into the commercial activity of the World, that that Service may be rendered to mankind in the world of industry, because you are not yet to the point where you can do away with these things. Even

after the Golden Age has come in, in a large degree in Its Perfection, still will you be using thousands of the commercial activities in a more advanced state than you have them today. The heavy, cumbersome machinery will disappear, and in its place will come that of greater power, but all requiring less space and less weight, just as the great airplanes of the future will go unlimited distances, because they will not have to carry their fuel in containers.

That is the condition that is facing the World today, in all the world of industry. The millions of dollars that are in machinery that has rendered a marvelous service to mankind, yet, as sure as I am telling you, the Outpouring of the Cosmic Light will cause it to be replaced, and no human individual or group of them, can much longer withhold from mankind this great Perfection that must come forth.

You will find in your Capital such changes taking place as must come for the Perfection that is to reach through your government, and then to the World. You have no idea, and I did not Myself, until Beloved Saint Germain recently asked Me to go with Him and see what the requirement was for the future of America, and I mean the near future. To My utter amazement—and do you think We have amazement in the Ascended State—yes! You don't know a thing, no matter how great your Wisdom is, until your attention is called to it. Remember that! That same activity of your Attention, Vision, and Qualification acts throughout the whole Universe. But, of course, *in the Ascended Masters' Octave, your Qualification is always acting in Divine Order, but your Power of Attention is still required for you to know the Secrets of the Universe!* That is why many of the Students have labored under great difficulty, because they believed the Ascended Beings know everything instantly. Well, that is quite foolish.

Using your Ripley expression, "Believe it or not!" everything in Life is normal, is practical, and the power of the attention

acts throughout the Universe. That is how you know things. *If you want the Secrets of Life revealed to you, you must hold your attention upon the Secrets of Life, knowing that the Presence of your Life and Its Intelligence will reveal Them to you!* Otherwise, how are you going to call Them forth into your outer consciousness?

Now everything exists in what We term the Inner Consciousness. You have a Divine Memory constantly in Action within your feeling world, but you don't know that until you bring It forth—and how are you going to bring It forth? *By the Power of your Attention!* For you know, in your feeling world is the Divine Memory, not because somebody says it may be true, but in this instance it is true. But how are you going to know anything about It until you fix your attention upon that thing, and bring It forth into action?

You can believe a thing is true, but unless you have its action, how are you going to know anything about it? You may do individuals the honor to believe they speak the truth, but unless you prove these things to yourself, how are you going to know it by actual experience? Do you not see, gentlemen and ladies, why experience is such a powerful, invincible teacher? Experience never failed in its life to bring to you the full realization. It is not a task-master. Experience is the Law of Life acting to prove, to convince you, of Its Infinite Powers; and once you will give your attention to your “Presence” above you, which is the Heart Center of all Activity of the Universe then, one day, you will have the Power of that Perfection, flowing forth into your world Its Revelation, Its Full Activities of Revealing Power to bring to you that upon which your attention is fixed.

Now you might think I sound ridiculous, if I were to say to you who are sitting in this room, *it is within your province, your power, within your order, to call forth any particular Secret of Life upon which you might fix your attention, and hold It there in firm, unyielding contemplation!* I say, it is within the

reach of any one of you sitting in this room, to bring forth any point of the Secrets of Life, if you would hold your attention unwaveringly.

Now that is what I want you to know. I want you to understand that in your attention to your “Presence” you are building a Power and Momentum that is the Victory of Life! You who have unknowingly released or wasted the energy of your Life through various feelings, have exhausted your Reservoir of Power, of Energy, of Life. Now then, even though that mistake was made, you can *call on the Law of Forgiveness* for the mistake that has emptied that Reservoir of Life. Then recharge It, just the same and as practical as you charge the battery of your car. You know, for one reason or another, when your battery becomes exhausted you put it on the charger, and recharge it as good as ever.

You are a battery of Life, I mean your physical bodies. That is what you need to understand. Your physical body is in the same position to Life that the battery is to the charger; because your body is a battery which can be charged and recharged with Limitless Energy. I mean by that, first your world, which with the average individual extends as far as your hands extend around you. Of course, as you come to understand the “Presence,” it extends very much further. That is why, as you keep charging That and It begins to expand and expand, then any discord that touches your world will cease to be, because it is absorbed by the Power of Light called forth from your Radiance, which the “Presence” projects.

Don’t you see how your “Presence” becomes the Master of your world through this Radiation, and It does not even require a spoken word. But when that Radiance gets Powerful enough, *anything* that gets powerful enough becomes like It, because there is no opposition to That. It is Light Substance!

As you are asked in all the Classes of the Messengers, start in and call: “*‘Mighty I AM Presence,’ charge my mind and*

body, my feeling world, with Your Mighty Directing Intelligence, with Your Invincible Protection, with Your Limitless Energy, with Your Outpouring of Divine Love that harmonizes everything that my feeling world touches!" Don't you see, as you do That, you keep calling forth and charging It into your feeling world, until It becomes an Invincible Power of Action, which knows no resistance nor interference.

Now that is why all the vicious forces directed at the Messengers, have no power to touch them. Anybody can be accused of anything, but that does not mean that it is true. Every human being—now I call your attention to this, and I happen to know this very directly—the calamity that happened a few years ago, when millionaire after millionaire was swept into so-called poverty through the crash in New York; had those men refused to accept that, had they remembered that the same ability that had acquired that wealth was still there acting all-powerfully within them, they should have said, "I call on the Law of Forgiveness for any mistake I may have made that allowed this to enter my world!" Had they said, "Now I go into action"—I mean this, without having yet known the "Presence" very well—*"I call on the Law of Forgiveness for whatever was my mistake for this, and I go into action with the same power I had before"*; do you not see they would have reversed everything then and there. The way would have opened that they could not have believed possible at the time, and they would have gone forward to success again.

That is just the position mankind has been in. But *the moment you accept that you are licked, then you are licked*, because you have so decreed it for yourself. Do you not see, if you are starting some commercial activity, and you accept that someone has power to limit or harm you, you have opened the door to let that very thing come in—the very quality?

Now this good Messenger, who has stood against the most diabolical forces ever generated by mankind, has refused

acceptance to it, and it has not been able to touch him or his world, and never will, because the Power of Light he is able to call forth is greater than all humanly created viciousness.

That is why I say to you Gentlemen, if somebody has done you an apparent wrong financially, or in any way, I plead with you, *call on the Law of Forgiveness* for having had an unkind feeling about it, because that is the thing that will prevent your success, will prevent the Expansion of your Light, which will make you a success in the future.

Now, there are many among the “I AM” Students in America that before many years, are going to be called upon for very direct action in the commercial fields, in the government, in activities which you would not believe were possible today. If someone were to tell you that you were to do certain things, you would throw up your hands and say, “That is impossible!” I say to you, there is not one thing that is impossible for that Stream of Life flowing through your physical bodies—not one thing. It is only as you limit It to pour forth like a Mighty River into your world of action, will It be subject to those conditions.

Your Life Stream is All-Powerful! It is All-Wise, and if you say to that Life, “Oh, you cannot do this, you cannot do that,” how is It going to do it; because *you are the Decreeer, the Power of Qualification that is clothing that Life Stream as It flows forth!*

Oh Gentlemen, it is the most Beautiful, Magnificent Thing, the simplicity of this Understanding of Life and Its Almighty Power of Action. While, of course, in My own experience I acted largely involuntarily, yet, I was really acting the Law of Life. I did not know it consciously, but because of the harmony in My feeling world, I naturally did this.

That is why I say to you today, the first objective in the world is to keep your feelings completely harmonious; have no opinion about what someone else is doing. Then you will so

charge your world with complete Harmony, that the very out-pouring of your Life, as you call It forth, will give you the Directing Intelligence, will give you the Power of Action, to hold Harmony in the Radiance that goes forth for you to achieve; and you cannot achieve in any other way. All struggle will cease then. There will no longer be struggle in your activity and in the conditions that exist today.

Think of the thousands and hundreds of thousands in your America, in a world of plenty, that are deprived of employment, deprived of service they would so gladly render, just by vicious selfishness of individuals in your commercial world and in your government, who are cat's-paws of the destructive forces generated in Russia.

The conditions that have driven into your Beloved America are a pitiful thing to behold, and yet I say to you, that the conditions which exist today in your America are Heaven. It is a paradise on the face of this Earth in comparison to Europe, where, with Saint Germain, I have been these many months. You have no idea the conditions that exist there—how they are nations imprisoned—as much as if they were in prison walls.

Now Gentlemen, that kind of condition will take place in your America as sure as this Protection is not given. This Understanding of the “Mighty I AM” is the only thing in the World that can do it. Physical force will not do it. It might win a temporary victory, but you will have, sooner or later, the same thing to repeat. It has repeated itself throughout the centuries. Physical force is not the winning Power of Life. Only as mankind understands the Presence of Life, and harmonizes themselves, and calls that Power forth into action, will they be able to give the assistance to America and mankind, that is absolutely imperative to America today.

Now, when We continue to call your attention to these things, it is to stimulate you to greater and more Powerful Action in the Call to your “Presence.” Gentlemen, We are achieving

incredible things. I cannot take the time, nor can Saint Germain, nor the others take the time, in the time allotted for the Class Work, to go into detail in these things; but someday in the near future We hope to be able to do that, that you may see and understand how Almighty is this Action of Life. But let it be sufficient in Our calling this to your attention.

Do you realize that We, today, by the Outpouring of Life through these Mighty Decrees, are doing a Work unparalleled in the history of the World? Now, will you not understand, that in the mental and feeling world of mankind, the *action is one*. All qualities gravitate to their own kind. Therefore, when you send a Decree forth into the mental and feeling world, that goes forth with the Full Power of Action, because It is the Substance of Light; and It keeps driving Itself forward, because It is sent forth with the Decree that It goes forth in a ceaseless, relentless Energy, until the thing for which It is sent is accomplished. Therefore, this Power and Force going forth, is the Power of Light!

You know, you who have seen mining activities, and have seen that mighty power of the water break down even the hardest rock, then you will know that this Power of Light, called forth by a mighty intensity of feeling, produces exactly the same result in the mental and feeling world of mankind.

Now, *all there is to you, is your mental and feeling world*, isn't it? Of course, you have those physical bodies, but what would they do without your mental and feeling power? They would be helpless, would they not? Therefore, these physical bodies are a channel of outpouring for Life. As you hold that mighty hydraulic Power of the Light Rays going forth, It is just as Invincible, It is just as All-Powerful as that hydraulic power of water sent forth through that channel, that breaks down the physical creation of the Earth.

Don't you see, that same Activity of the Light Rays going forth will break down, dissolve and consume, all human

creation, which is discord and limitation. In the same Mighty Power, these Light Rays go forth; and now notice the difference! The Messenger, four years ago, had to apply days, weeks, or months for a given result. The same thing he can produce today in one Call. Now he has gone from the faucet to the hydraulic pressure of Life, hasn't he? Isn't that practical? Therefore, in one Call today, he can do what he could not do in weeks, four years ago. Now that is the Momentum of the Power of Life called forth, which becomes the hydraulic Power of the Action of Light sent forth, and there is not anything that resists it in human structure.

You know quite as well as I do, that you can take a hydraulic pressure and keep it focused against one of your strongest buildings in the city, and absolutely break in the wall of that building. Therefore, the hydraulic Power of Light called forth, which goes into action at your Call, will break down and dissolve every discordant, limiting condition that has ever been created, or attached itself to your world.

Now then, won't you make yourself a channel as that great hose—the avenue through which the hydraulic pressure flows—of making your body a channel, and making the Power of Light from your “Presence,” that hydraulic Pressure of Light flowing through your bodies, and see how quickly all limitations and discord will disappear within your bodies and your world of action. It is a Mighty Thing! It is so practical! And if you only understand it, you can release at your Call to the “Presence” that same hydraulic Pressure of Light from your “Presence” that will flow in and through your body, and sweep out every imperfection, and charge you with the Happiness, Courage and Strength of the Presence of Life to hold Its Dominion there. Then you will fear no person, place or condition. Then everywhere you move Life responds to you through other individuals, and they want to serve you. They want to help you, because it is the Decree of Life acting through them as well as yourself,

by Harmony maintained in your own feelings.

I say to you Gentlemen, if you have so-called friends or relatives that, through constant discordant suggestions, pour through you the influence that makes you do the wrong thing, then call your “Presence” to dissolve and cut you free from that at once. When the sinister force wants to use an individual, and he is just a little too strong for it, then sometimes they will get those nearest and dearest to him to just encourage it a little bit, and make the individual who is strong for the Light do the wrong thing. So stand guard over that, and don’t let it act in your world. Every human being in this World now is compelled to stand upon his own two feet. Your loved ones, your wives, your husbands, your children, everyone has to stand these days upon his own two feet. Don’t ever defend a thing that is wrong! If it is creating inharmony, it is wrong. It is easy to determine. If a thing creates inharmony, then it is wrong, it is a mistake. If it is adding to the harmony of mankind and the World, then it is the Action of Life in its true, unqualified Action, by the qualification of mankind.

These things are so important. It is not a condemnation of individuals, or anything of the kind, but it is a power, a quality that is acting, and if the individual does not see that, he cannot correct it. That is the pitiful thing, as We look upon the Students—and some whose Hearts are so good, that would so quickly go forth in the Light—that allow themselves to be influenced by so-called friends or others, who constantly cause them to do the things that become discordant. They must be firm enough to stand unyielding against that. Then how quickly Life will pour forth Its Great Perfection and Happiness of every good thing.

One more word Gentlemen. Remember, you have heard this so often, but it has to be done until it becomes a part of you. Your Presence of Life, your “Mighty I AM,” is your Treasure-house. There is no other place in this Universe for your

money supply to come from, no place for your supply of good to come from, except through your own Stream of Life—that Ray of Light and Energy from your “Presence.”

Now then, you will say to Me, *“Well, my ‘Presence’ so far has not produced coined money that I require for use here!”* Perhaps not, but the very Intelligence, the Energy that draws that money into your use is the Power of Life—your “Presence”; and when you call to your “Presence” for your money supply, accept It as your Treasure-house. Its Love, Wisdom, and Power goes into Action in the human octave by the Light Rays projected, and It harmonizes persons, places and conditions, and *will bring into your hands and use the money supply that you require; and there is nothing in Heaven or Earth that can stop that thing but your own feeling!*

I want you to please feel That, with All-Powerful Action today. You have heard these Words, but you have not made them a part of yourself for All-Powerful Action. We have to keep at it until That becomes an All-Powerful Action in your feeling world, then there is nothing to resist It, because It is Life. There is no resistance to Life in Its Purity and Perfection anywhere in the Universe, and only as mankind has requalified It by their thought or feeling, does It act by and with the feeling you impose upon It.

Therefore, in your financial supply, there is not any one of you who needs to be deprived of anything you need, no matter how much, because *Life is All!* Individuals are very proud of their achievement, their financial achievement, and take credit to the human as being unusually intelligent or cunning in having achieved; but what would that physical form do without Life flowing through it? It was Life acting there, and in their intense desire for financial accumulation, the whole force of that Life went into action through their Power of Qualification to produce that result, and it could not fail, of course.

It is the same way with anything, an artist, a musician,

or any phase of human achievement, with the attention focused upon it, unyielding with the balance of the Power of Life flowing forth into it, would make it a positive, certain, definite achievement, and nothing could stop it in the World.

Therefore, Gentlemen, I thank you, and I have charged into your feeling world My Feeling of Success! I said to Saint Germain only a few days ago, would it not be wise to begin to charge into the Students of the "I AM" that feeling of commercial success? For until We have accomplished certain things in the commercial world, I feel, Myself, definitely, that more intensity must be charged into the feeling world of the individuals and into the feeling world of the industrial world to produce that confidence, and the absolute, unyielding action to—We use the word communistic element, because We refer to that as the discordant activity of mankind, because it was the origination of it in America and the World. Then it has taken on various phases of action called Nazism, Fascism, and all that kind of thing, but it is all one and the same thing. It is the destructive forces that are acting in mankind and through them, and unfortunate individuals, and there are thousands and thousands in America, fine, honest, sincere young men, who temporarily believed that that thing was the solution. Well, it cannot be, and it has proven that it cannot be, and it has created such privation and disturbance in the feeling world and the commercial world of mankind. One of the pitiful things that has been witnessed in your America was the ghost cities, that through intrigue and treachery, the great industries of America crippled.

Therefore, the world of industry in your America needs protection. Your aerial service needs protection as you little realize today. It is not a matter of human desire, but *the aerial transportation is the action of the future*; and before another forty years have passed over your heads, you will have commercial transportation that will be beyond your fondest dreams today.

You will carry great weights through the air, and your vegetable markets will be supplied to all parts of the World in a few hours, and then all of America will become a garden spot. Your middle man will disappear, which is the treachery in mankind today—its human selfishness. Then will the producer and his products come direct to the consumer, and then will your taxation cease to eat up all that you produce.

In every country of the World, the final throes of destruction come through its exorbitant taxation, and that is the downfall of every nation that has ever fallen in the World, because it deprives the consumer of everything, the producer of everything, and soon there will be no one to produce.

It is in your power today to keep it forever out of America. One day, not so far distant, We will be able to speak these Words to thousands and thousands over your America, because there will not be a limitation over the radio for the Truth of Life. Mankind has to be reached. They have to understand the Truth that is facing them. The cunning scheme of the intrigue of mankind is to get mankind's attention off the important thing at hand, and onto something else, until that thing is achieved. Then suddenly mankind awakens to the fact that while their attention is over here, a nefarious action is going on over there, and it reaches its climax before they knew it was in existence.

That is why mankind must be alert, and why in your city, the Capital of your glorious Nation, the greatest intrigue the World has ever known exists, because it is a focus for the entire World. If they can corrupt your Capital, they think they have their dominion over your America. So, I say Gentlemen, don't fail to see your ability, your authority to call these Mighty Powers of Life into Action to prevent these things in your America!

I thank you.
