

You may not be aware of it, Dear Ones, but how often We have been in your midst in answer to your great, sincere Calls; and We have heard every one of them. Rex and Bob, Pearl and I have often been with you, more often than you know, and We shall be happy to continue to come into your midst and pour forth that Radiation which gives you strength and courage—if you will make your earnest, sincere Application. By that I mean your Call to your “Beloved Mighty I AM Presence” to take command of your mind and body, produce Its Perfection, hold Its Dominion, and direct you with Its Mighty Intelligence, enfolding you in Its Invincible Protection, and clothing you in Its Outpouring of Divine Love.

There isn’t anything that your Heart can ask for, which the “Presence” will not do for you; and of course, that applies to everyone, as well as the children. The great, imperative need of all mankind today is continued harmony in the feelings, which enables the Powers to flow through. As you look at your Chart and see the “Presence” above you, Its Currents of Light and Energy flow into your body through your head and anchor within your Heart, supplying Life to your body. Then you know that Power, that Intelligence, and that “Presence” is the Infinite Power of the Universe. It contains within that Stream of Light

everything that is required for the perfecting of your world, your body, your mind, and the supplying of everything that is required in your Life Stream of activity.

The reason for that is this: the Stream of Life that beats your Heart is Self-Luminous, Intelligent Substance—It is more than just a principle. While It is the Principle of Life, It is more than that, because It is Substance. The children perhaps have not seen what is called death, yet there is no death in the whole world. We change bodies, that is true, but that does not mean death. Therefore, the Life Stream which comes into your body has, from the human sense, what you might call accidents; but there are no accidents, really. The Life span is cut off from the physical body. Everything has to have a cause. There is not one thing in Life without an underlying cause, and that cause is within the feeling world of the individual. Therefore, Beloved Ones, when you realize that in your feeling world is the cause of all that is or has been, then when you know you have the power of controlling your feeling world harmoniously, and holding it maintained in that harmony, then your Call to the “Presence” releases that greater Energy of the “Presence.” Its Perfection goes forth and manifests that Perfection which It is in you and your world.

If you are requiring greater health, more perfect health, your “Presence,” which is the Life flowing through your veins, through your nerves, is the Mightiest Power of Health and Healing there is in the Universe. Now the day will come when mankind will require no outer assistance of any kind, so far as the health of their bodies is concerned, and its governing activity, because the individual will be able to call to the “Presence” and release such an instantaneous flood of that Pure Energy and Perfect Activity of the “Presence” that any discord will just be swept out of the body as quick as the Call is made—just as you

draw your hands down like that—and sweep it out. There are many of the Students in America today who are approaching that point, and it will be a glorious day. In *materia medica*—and great has been the blessing of its use—yet in thousands of cases the remedy given to relieve a condition established some other discord in the body of which no one was aware. Yet the individual is a Law—every individual is a Law unto himself or herself—and that Law is the “Presence.” If the “Presence” were left alone without any discord in the feelings, the “Presence” would keep the body absolutely Perfect all the time! So as quick as discord begins to register in the body, the Law of your physical being is, while the discord cannot penetrate this Stream of Life that flows into the body, it does clothe It, and that Stream of Life and Energy carries the discord in the feelings and expands it in your body and out into your world. That is why failures of every description occur in the business world. Health is shattered because the discord registers in the feelings, and there is no other reason.

The “Presence of Life,” just think for a moment, think of it, Dear Ones, your “Presence” is the “Presence of Infinite Life” which beats your Heart. Then is there any Greater Power in the Universe than That which is supplying Life to your body to govern your body and hold it in perfect order? Mankind has so forgotten, wholly forgotten, there is a “Presence” there; then how could they have but a fragmentary benefit of this “Great Presence.” That is the need of humanity today. That is the Magnificence of that which Beloved Saint Germain has brought forth in calling the attention of mankind to this Great God Presence, the “Beloved Mighty I AM,” that is making it possible—out of the three hundred thousand or more Students today—at least two hundred and fifty thousand are having their Complete Freedom! It is a magnificent thing, never heard of

before. As the Beloved Nada said today—the Ascended Lady Master Nada, who made the Ascension two thousand seven hundred years ago—not for four hundred thousand years has This been done!

Think of your Privilege today! And the beloved young people, I want to say to these precious ones: just think of it, Rex and I, Bob and Pearl, his sister, were little more than children when this good Messenger came into our home in Wyoming. We had just returned from school. It is marvelous, Dear Ones, when you think about it; and think how, by that Blessed Presence of Saint Germain, We did not have to go through the experience life of the outer world. In our Life Streams was that which made it possible for Him to render that Service—because He had taught our mother. And in blessed New York where He first came to our mother, it was a magnificent thing, even the memory of that which started this great, magnificent Achievement. When our mother, who never had stage fright, suddenly became so frightened—for no apparent reason—that she thought it would be impossible to go on stage in the opera in which she was singing, then Beloved Saint Germain came in His Visible Body, visible to her. He touched her hand with His Hand—like that—and all fear vanished. From that time on He taught her these Great Laws and enabled her to apply Them; and from that moment on her success was boundless—her voice far more magnificent.

If He chose, He could come here, tangible, in His Tangible Body, in this room, and seeing within you that quality of voice which He could utilize, or call forth into action, He could, by touching your head, release the entire Power of the voice into action at that moment, and free it into your use for all time.

I wonder if you quite realize the Magnificent Privilege which is yours in the Understanding of this “Great Presence.” There

is no imaginary thing about it. It is the most practical thing in the world—in all the Kingdom of God in Heaven or Earth. All mankind must understand this “Presence” if they are ever to be Free! It is the *only* means in the world of being Free, and It is the *only* means of stabilization to any human being on Earth. We can have temporary results—as all know in the previous occult and metaphysical application—everyone has had, sometimes, for some period, magnificent results; and all of a sudden it does not operate, because in most instances, those were mental operations and emptied the reservoir of Power which the “Presence” had gathered; and not knowing of the “Presence,” did not know how to recuperate, or fill it with that which had been exhausted.

So in the individual life today, individuals need more strength, more courage, and they need more Power of Action; but they cannot have It—it is impossible to have It—without the Knowledge of the “Presence.” If Students would call forth the Powers of the “Presence” which act through the human form—rather than exhausting the energy that has been gathered within their world, which is a radius that extends around your human form as far as your hands extend in a circle around your body; that is your feeling world, that is your emotional body, and when that energy is exhausted, it requires your Call—but if you do not know the “Presence,” you cannot replace it. That is why We call your attention to those blessed people today who are expressing that very identical thing. They have exhausted their energy and will go down and pass out of the body because they do not know how to replenish that energy. Do you know, Dear Ones, that with all the energy necessary, your body could go on for an indefinite period—if you knew how to release That! Now, in the Understanding of the “Presence,” you do know how, and if you will not do it, then the fault is yours. But you

have the Knowledge, the Understanding of this “Presence” which you can call to release a greater volume, greater intensity of Its Energy to flow in, through, and out into your world, and perform any given service. Notice, Beloved Ones, I say, “any given service,” because there is not one thing the “Presence” cannot do for you—not one—no matter how small or how great.

Remember, your feeling world is the decreer of how this energy is going to act, and once you learn to keep the feelings calm, serene, and harmonious, then call the Powers of your “Presence” forth into Action, soon you will gain a momentum. Every time you call your “Presence” into Action, It acts with the speed of dynamite to accomplish the thing. I do not mean with any explosive sense, but with a Power that, in the human sense, you think of as speed or accomplishment. Therefore, today, yours is the Greatest Privilege ever known to mankind. All who have applied It earnestly and notice these activities, those who will refuse to give power to human appearance in your feelings—you can do a thing with your intellect, but if your feeling is not cooperating, you are not having results; but if you will call the “Presence” into Action, and then the feelings respond to that immediately—anything can be accomplished.

I want today, and the One who will dictate tonight, will endeavor to make so clear to you these simple, Majestic Qualities and Activities that are acting every moment in your Life. Dear Ones, it is no idle thing. You are dealing with the Mightiest Law in the Universe—every moment of your Life It is acting! If you do not know what is acting, how can you govern it? When you call forth energy, it does not discriminate. Therefore, the Intelligence is within that Energy when you call to your “Presence.” The difference between That and the ordinary projection of energy is this: you, yourself, from the human standpoint, always carry that accumulated energy about you.

Suppose you call for a release of power and force, that force would not discriminate. It would go forth to its objective, but no telling what it would do, because there was not the Discriminative Intelligence of the "Presence" acting in that energy going forth. That is what occurs in the use of mental powers, and blessed mankind have not understood. They have been using mental power, and the recoil has been terrific.

In calling the "Presence" into Action, Its Power is a thousandfold what any mental power, or shall I say, *continued use of mental power* would be. Yet, within that energy, because of your Call to the "Presence," is the *Intelligence* of the "Presence" that is always acting within the energy. You see how Magnificent it is, and how you cannot produce inharmonious results in your Call to the "Presence," because Divine Wisdom is always acting. That is why We say to you, Beloved Ones, today, in this Great Privilege which is before mankind, let us observe for a moment, Rex and Pearl, Bob and myself. We were children, just children, when this Great Freedom came. Rex and I were in school, and Pearl had been taught by Beloved Saint Germain for a number of years; and when the time arrived, He brought her to visit Bob, as she thought; and then we all met, and you know the rest.

Now Precious Ones, and the precious young people who are here today, who of you know what Beloved Saint Germain, or any One of the Ascended Masters might do for you, in giving you the same Freedom that We have, if you will but give your attention to the "Presence" that gives Them the opportunity to do for you whatever They may see is possible to be done. The same with the grown-ups. Who of you could say to Me tonight, in this room, what your "Presence" might do for you, even within the hour. Can any one of you tell Me? I think not, because only your "Presence" knows! I say to you, the Blessed Messenger

is an example of what the “Presence” can do for you at any given moment. His Experience on the side of Mount Shasta in the Ascension of Beloved David Lloyd is an outstanding Activity forever before mankind. He did not know one minute before the Release of that Mighty Power what would or could be done. But now notice! Notice, Dear Ones, and this is why We keep your attention on the Power of Momentum gained through your Application and constant Call to the “Presence.” Now this was not within this good brother when that was done, but in the *accumulated energy* of David Lloyd—who was told in India that on a great mountain in America He would meet this man with the Crystal Cup—who would assist Him in making the Ascension. David Lloyd had, through those long years of search, gained that Momentum, because He believed every Word of It. He searched for many years; then when He finally met this good brother, and when he gave Him the drink of water and the Crystal Cup appeared in his hand, he said—even after David Lloyd had explained to him, he said—“What am I supposed to do?” Then Beloved David Lloyd said to him, “Ask the God in you who does know!” The full, complete volume of that *accumulated energy through expectancy* was released upon him, and his human was compelled to dissolve and recede out of the way, and the Light of his “Presence” came down and rendered that Service through him at his Call.

That is the actual Truth of what occurred, and I say that to you, that you may be reminded, and do not limit your “Presence” ever in what It may do for you. But never be disappointed if you are making the Call to your “Presence,” and the Answer does not come as quickly and powerfully as you think it should—never be discouraged. Go serenely on and on, again and again, in the Application. Then your Call to the “Presence” cannot fail to be answered. There is no Power in the Universe

that can stop the Answer of your Call but your own self. Remember that your Call to the “Presence” will always be answered, and do not let anything ever cause you to feel otherwise, because *your feeling* is the Decree, and if you allow your feeling to doubt the Power of your “Presence,” you but retard and delay the Freedom which would quickly come to you.

Our Experience has not been like “the Great Nada,” as We call Her, and the Beloved Saint Germain, the Great Divine Director and Beloved Jesus, because Our Achievement was so easily and quickly accomplished in comparison with the great, great struggle They had. Can you imagine, just for a few moments, Dear Ones, can you imagine Our depth of Gratitude, when We know now, from the Higher Standpoint, and see the struggle of mankind, even among many of the precious, wonderful Students—when We see the battle that goes on between the intellect and the feeling which We did not have to experience—do you not think Our Gratitude is boundless?

Yet We can help you—Oh so limitlessly—if you will just understand the imperative thing is harmony maintained in your feelings, which allows the Currents of the “Presence” to flow through unqualified by the discord or any disturbing element that would prevent It going forth and doing Its quick and Perfect Work for you. That is why Saint Germain has pled with the Students for three years, no matter what the outer provocation, to hold harmony in the feeling world until the whole volume of the “Presence,” at your Call, will go forth and do Its Perfect Work for you. And It will do it quickly!

You see, the Light, the Power of your “Presence,” is always instantly active. Therefore, as you realize that, and keep calling It forth, and you gain momentum, and the complete dissolving of all accumulation of your own human accumulation, which is the pressure of discord which weighs upon every human

being, then you will see what Magnificent Activity is yours, and how quickly you can be free as the birds; because there is no power that can stand before the Light of this "Presence." We want you to feel that so earnestly. Then you will understand how it is that your Call cannot fail to be answered, you see.

Dear Ones, tonight I must not take more time, but I want you to know, and to you blessed young people, remember that We stand ready, as do all the Ascended Masters, to render every Service possible to you, if you will earnestly and sincerely make your Call to the "Presence." Know It is All-Wise and All-Powerful, and do not become impatient if sometimes you call for something and it is not quickly accomplished. Just go serenely on in your Call to the "Presence." Then it will be done.

Now tonight, Beloved Ones, in the Radiance that is here, and that which is prepared for the evening, just try, with all the Joy of your being, to feel your whole being just saturated with that Light of the "Mighty I AM Presence" flowing in, through and about you, just sweeping out every imperfection from your mind, your body, your world; and filling you with such Peace, such Harmony, that the Glory of your "Presence" just flows forth like a mighty river into your world and activity—therefore harmonizing it. Then everything and every person you contact feels that Love and Harmonious Activity and wants to serve you; and whatever you need or require then will be yours in action.

You know, today, in the need of service to each other, you cannot go among mankind without an interlacing activity of service everywhere. You must give; you must receive; and therefore the interlacing activity—as your love goes out and is amplified by the Great Ascended Masters—it is a constant enfolding activity in you and your world; for remember, there is but one Intelligence, one Presence, one Power, one Substance, one Light, one Activity, which is the Power of your "Presence."

The “Beloved Mighty I AM Presence” in every one of you is All-Wise and All-Powerful. Therefore, what affects one affects all, to some degree.

In closing, I want to say this to the young people, as well as the older ones: In your Call to the “Presence,” do not ever fail to call the “Presence” to formulate this Tube of Light, as shown on the Chart, about you. Make It Invincible, that no discordant thing can penetrate It. Then call the “Presence” to pass the Violet Consuming Flame through your body, from your feet up, through your physical body, your emotional body—which extends around your physical and your mental world—and cause It to rush forth like a blowtorch. That gives you quick Application and Power of Action! Keep calling, morning and evening, for your “Presence” to pass that Violet Consuming Flame through your physical, emotional, and mental world, dissolving and consuming every discord that has ever been accumulated there; and the results will be magnificent beyond your fondest hopes, because then the “Presence” releases you from the pressure of the human creations, which is the pressure upon all mankind. Remember, in your schoolwork, you can easily realize what this means.

Beloved Saint Germain has repeatedly said, as have many Others, that the pressure of one’s own human creation—I mean before this Understanding came forth—was ten times that of the atmospheric pressure of the Earth! Then can you imagine how great that has been, and what a release it is to mankind in being released from that pressure. It is a magnificent thing! And of course, the Assistance the Great Divine Director is giving is unparalleled.

As They continue this, you will find how, within your grasp, is your Freedom from all human creation or limitations of the appearance world that have frightened mankind so long.

Remember, the greatest thing in the world that you can do is to harmonize, beautify, and perfect yourselves and your world; and then your Radiance that goes forth will bless every one of mankind you contact.

Beloved Ones, it has been thought that the feminine element of mankind was vanity—to desire to be beautiful—but I say it is not. It is the Law, and every human being, of course, the men would not admit it, but every human being wants to be beautiful. Why? Because their Hearts know that beauty is theirs and belongs to them, whether it is man or woman. Everyone's Heart knows that Beauty and Perfection belongs to it, and craves it naturally. There is no wrong in desiring to be beautiful and perfect, and as you beautify yourselves and your world, then you will begin to understand that there is no vanity in it, unless it was to impose something upon someone else less beautiful. Then that might be vanity; but if it represents Perfection in your world, then there could be no vanity in that. That is why We are endeavoring to release mankind from the inhibitions that have beset all mankind. And remember, your Heart is the Heart of your "Mighty I AM Presence." It is Its Point of Anchorage in your human form. It is that Point which gives you Life and action to the body. Therefore, Dear Ones, give It all the Authority, all the Power that your world requires, and It will rejoice you by producing Its Perfection in your world. I thank you.
