

## *Gems of Light*

Tonight, for your Blessing, I wish you to accept within yourselves, if you will, if you care to, the *Power Flame of Our Peace from the Great Central Sun*. Tonight I want you to experience the Pressure of the Power Flame of Peace. I have many reasons for this, and it will bless you infinitely forever. . . .

We want you to gather a Tremendous Power of This within your Electronic Circle of Life—not only within you—but everywhere you move in your Electronic Circle; because if you do gain This with enough intensity, you will find, by Conscious Command, you will be able to hold control of action of the elements around you. It was this Momentum within and around the Beloved Master Jesus that was the Power He exerted when He commanded the waves to be still. He used the Words, “*Peace, be still!*” and the Pressure of that Power Flame within and around Him—which was His Love to Life—stilled the actual turmoil in the water element. . . .

After you have gained a certain Momentum of This, you can try it on the winds. Try It on yourselves when you are near a body of water. You can try It on the Fire Element. You can try It on the Powers of Nature—I mean the trees, plants, and so on.

Practice sending *Intense Feeling of the Power Flame of the Peace from the Great Great Silence, which is a Love so great nothing can disturb It*, because It is the Central Powerhouse of the Universe. When you draw This within yourself and hold It within your Electronic Circle, as you intensify and expand That, you will find It is a tremendous Health-giving, Strengthening, Illuminating Power within and around you, and will enable you

to accomplish many, many things, with almost no effort.

You will have very great results from using This in a very short time, because there isn't a human being who will keep the body still for a few moments, just completely relaxed—but not go to sleep, keep the mind alert and the feelings alert, and then *command the body to feel the Power Flame of the Great Great Silence*—the minute you do this, there is a certain Essence which comes from your Higher Mental Body into the outer self; and the Power Flame of Peace for which you call from the Great Central Sun sheds Its Radiance in and around the outer self and begins to condense Its Substance within you. You can build This to such Power that the Substance becomes solidified around you; and It will bring such Peace to all Life that you will feel like a Pillar of Steel against disturbing conditions, and that which approaches you will have to be still and harmonious. . . .

You must form the habit and clear the way and receive That within you—the Power Flame—into yourself, until It builds within you Its own Blazing Presence, Its Inner Essence, Its Substance from the Heights of Creation. And in doing that, It raises the vibratory action of the atomic structure of your bodies into greater and greater nearness to the Higher Mental Body, and nearer to your Ascension. . . .

It is Infinite in Its Blessings, and We do hope you will take time enough and just feel It come into you several times a day. Then, after you have made the Call, hold That Quiet and That Loving Peace within you as long as possible. . . .
