

**Beloved Lady Master Nada's Discourse**  
**Through Mr. G. W. Ballard**  
**New York, New York                      December 5, 1938**  
**— Musical —**

Beloved Students, how great is the joy that is for mankind in this Great Freedom of the Light of the "Mighty I AM." Can you imagine Our Rejoicing when We, having so long ago, through the identical Application which you have, set Ourselves Free, enabling Us to render a Service that has grown throughout the ages—and the civilizations that We have been able to assist to their height—and now, We trust, the last Golden Age for the Earth to come forth, and surely quickly!

With the ever-increasing power of the Beloved "I AM" Students throughout America and the world, and with the speed with which the attention of the ever-increasing number is drawn to this "Great Presence of Life," how magnificent it is! Only as you would see it from Our Height could you quite realize as We do how Magnificent it is! Therefore I say to you tonight, rejoice, Beloved Ones who have been privileged to receive this Understanding of the "Mighty I AM," for there is no understanding that has ever been brought to mankind that can hold them sustained in their great Freedom. Mankind, through various activities, have had temporary freedom; but they have not held it because they had no Sustaining Power without the "Presence of Life," the "Mighty I AM."

How I wish tonight you might all see and know all that has been accomplished in the past six months. Seeing all that has been done, is it not extremely encouraging—all that

is before you? All that which is before Us? For We have made Ourselves a part of you, and you have made yourselves a part of Us—of Our Great Octave of Light—and in your ever-expanding Light within your Heart, one day you too will stand with Us in that Great Freedom of Life. And Life is so great! Life is so beneficent, never finding fault with Its children. What an example to all the world who can see that Life never complains—just waits.

You who are learning Infinite Patience will find that when things seem not to have culminated, by just waiting a little, in great, calm serenity, will you find the Achievement there! In the Power of the Great Silence is God's Greatest Action; and that Silence—do you quite realize just what it means? To enter the Great Silence, you must still all action of your feeling world or emotional body, and many are learning to do that very rapidly. First, to still the outer, or physical activity which allows the emotional body to quiet, and then, like a great mirror, to receive the Mighty Outpouring of Life as It flows through that world, untouched by any discordant qualification. That is what makes the mastery of substance and energy in the human octave; and oh, how rapidly you are approaching it, Blessed Ones of the Light! Be not discouraged—ever! Be not dismayed that you have not achieved all you would like, but in that great serenity, remember often, in the intervals past, you have yielded to that feeling which set the feeling world or emotional body into a very great turmoil.

You know how angry the waters of the stream or your seashores get in a great storm—you see how it beats upon the rocks, and even beats away concrete foundations. Then if in your human octave the storms of Life beat upon a physical

structure to dismantle it, then how great, how much greater are the storms of human emotion beating upon the shores of the feeling world, throwing it into a seething turmoil in which all poise is lost for the time being; then again, regaining itself, mankind tries again.

Now you are fast coming to that point where no longer will there be emotional storms in the feeling world of mankind—or in their activity—but just the full glory of that calm serenity, which means the steady movement forward into the Perfection of Life. How We rejoice with you as We see the ever-gaining Strength and Power of the great, great body of Students—and can you imagine—in seeing the vast increase of the numbers whose attention has been drawn to the “Mighty I AM” through your broadcasts here, you will remember that Saint Germain once said in the early part of the Dictations that one day, over the radio would come the amazing means of reaching mankind! That is coming into action with great speed and power. We have great hopes of a mighty, completed Victory before the close of the great Shrine Class.

I wish you could see the change in the atmospheric condition over South America, Central America and Mexico tonight. The atmosphere of those countries was not charged, as the substance of your America has been. Therefore the great Power and speed of action, in the releasing and dissolving from the atmosphere immediately—upon the releasing and seizing and removing of the black magicians—it has been marvelous.

You must have a few hours rest—We do not require any. Therefore, according to your time, hour after hour, day after day, week after week, month after month, year after year,

We serve—on and on and on—in a great rhythmic motion, or action of the Full Power of Life. The Beauty of It is supreme; the continuity is magnificent, because when you start an action, you follow it up until it is achieved; and then that moves right into another, and you go on and on and on in Its ever-expanding Beauty and Perfection. Once you can forget your bodies, how much more quickly is the achievement! We scarcely ever think of Our bodies, because it is not required. May I say to you ladies and gentlemen, We never have to look in the mirror, because all in Our Octave of the Ascended Masters, the Octave of Light, is Beauty and Perfection. Each one knows that, so They do not require mirrors.

Now, coming into your human octave, is that Great Perfection; and can you realize it—you will notice I do not say, can you “believe” it, for we are passing out of the field of belief into the Great and Mighty Reality. Therefore when I say, “can you realize” what it means for humanity—you who have come now to understand the “Great Presence of Life,” to be a part of calling that Great Perfection that is in those Great Octaves of Light into the Earth—can you realize, as the Great Ones have recently told you, that you will come to that point when you can mold the substance of your bodies as you wish!

As the density is consumed by the expansion of the Light within the cells of the body, then you will find it so much easier to govern the substance of your body; and will you try to realize, and I say this to all of you, regardless, won't you try to realize that the Light within the cells of your body has expanded to the point where you can, in the Call to the “Presence of Life,” mold your form into that which you

desire—that you may change the features of your face into that which you desire if you are not satisfied with them—and that the wrinkles of worry will have disappeared from mankind.

Do you know that it is only anxiety that brings lines upon the face? Anxiety, of course, is a lesser form of fear or doubt. Mankind have doubted themselves so tremendously, and many times without cause, because they have been accustomed to believing in the power of the appearance world. Isn't it strange that mankind would have so far forgotten the "Presence of Life" as to have given complete power into the hands of the appearance world? And yet it has been done! Until this Great Light brought forth by Beloved Saint Germain came, mankind, and you know without My calling your attention to it, was driven with a speed of lightning almost from even a belief in God. Look at the nations of the world who are making the most tremendous effort to wipe the thought and feeling of God out of their people! That is no imagination, Beloved Friends. That is real; but We still believe that it will not succeed. We believe that the Power of Life and the ever-increasing Intensity of the Cosmic Light being released into the Earth will at last take Command and restore mankind to their own Birthright and Dominion.

Let us trust and call with all at our Command in the Call to Life! And oh, may I remind you tonight again, Beloved Ones, your Infinite Power that you have, even in these human forms. Won't you try to more fully realize it, that in your Call to this "Great Presence of Life," it is the *Presence of Life* that is acting at your Call, not what you might have in human effort. Do you not see that? Therefore, in the great number whose attention has now been called to this Mighty

Activity, the “Mighty I AM,” if all would come into that Mighty Activity with the Full Power, realizing that at every Call—lesser or greater—that they make to the “Presence of Life,” Great and Mighty Light Rays go into action, rendering that Service for which They are called, and That is Infinite Power! There is no condition that can limit it. There is no condition that can prevent it or delay it, for a Light Ray moves through anything—no matter what! You know that the power of vibratory action goes through a steel wall as rapidly as a sheet of paper. All you have to do is to test it with your radio. Put your radio within great walls of steel—three feet thick, if you like—and yet your radio will act with even greater accuracy than in the outer world of its vibratory action, showing you that the Light and vibratory action goes through any substance. Then cannot you understand how the Ascended Masters may pass through walls or any substance, because of the great rate of vibratory action that is there naturally?

When you come to understand these simple, majestic Laws of Life, Substance and Vibration in the Full Power of Their Action, you will see quite easily and clearly how the Ascended Masters and the Great Cosmic Beings are not limited—as you have been accustomed—in human qualities. You have a density here which cannot pass one substance through the other, but when you take that which is without the human octave, that substance will pass through any density that is in the human octave quite naturally.

Therefore tonight, as you realize this Magnificent Harmony which has been released, and how We have rejoiced, and how grateful We have been for Its Use, then you, in your joy, happiness and enthusiasm, in releasing that Mighty Energy,

I think I shall tell you, it has made certain things possible in Europe that could not have been, except for this recital. (*applause—audience rising*)

I call your attention to this, Beloved Ones, for one specific reason, and that is: when you have entered into the Consciousness of the “Mighty I AM” and these humble Melodies that have been drawn thus far—they are drawing you closer and closer into that Mighty Expansion of that Light—those Mighty Harmonies that are the Governing Activities of the Spheres of Light. Therefore, when you have entered into that Great Harmony with your understanding of the “Great Presence of Light,” and your happiness, enthusiasm, and the release of the energy and substance from your human forms—in that joy—you have enabled Us to do things quite impossible.

I want you to have the joy, and realize you have rendered a Service tonight quite beyond your comprehension as yet, although We endeavor in words to give you some idea, to try to realize *that every movement that goes through the Messengers and the Students has a definite Power of Action and an Assistance in the Release of the Powers of Light*. Then your rejoicing can be indeed great! You see, Beloved Ones, you are coming to a point now where your comprehension is becoming anchored. You are realizing and holding your anchorage against disturbances that will ere long bring your feeling world into that great calmness which I mentioned, and give you that Great Victory that through many lives you have sought. And will you keep yourselves reminded how short the time has been in comparison with the time required with physical achievement?

I see how greatly you Precious Ones are realizing your

Assistance in the Music of the “Great I AM.” I rejoice with you, because as you come to realize that, more and more will the Great and Mighty Release continue to expand with great Power, until you will find yourselves acting wholly from the Great Inner Power that is not limited to the human structure. O Beloved Ones, the field of Activity before mankind today in the great understanding of the “Presence” is so Magnificent! Every Heart’s Desire that is constructive may be fulfilled quickly, if only the Blessed Students realize it. There is not one thing that can be withheld from you in your Call to the “Presence of Life.”

Be sure you are calling for the Fullness of the “Presence”! Many times We see Students calling for things that, if released to them, they would be reminded, was not just the right thing at the time. Watch out, Precious People, when you begin to call for things, that those things do not carry with them some things which you do not want; but when you call for the “Fullness of the ‘Presence,’ ” all things are compelled to be added which fulfill your Great Divine Plan. You remember that wondrous, wondrous Statement: Seek ye first the Kingdom of God, and all things shall be added unto you. Oh how magnificent, truly that is—with understanding. The Kingdom is the “Mighty I AM.” Seek ye first the Fullness of the “Mighty I AM,” and all things are truly added, because It is the *Compelling Power of Life*, Beloved Ones.

Do you quite understand what a *Compelling Power of Life* would mean in your individual Stream of Life and Energy? That is what it means when your feeling world has become calm as a great mill pond, as a great mirror, and there is no longer any requalification of Life; then as Life pours Itself

out at your Call, It goes forth into Its Purity and Perfection, and all conditions bow before It—because everything of human creation knows the Supremacy of Life. If you only quite understood, you would see that there is no “battle” in gaining the Supremacy of Life. You sometimes feel that you have to battle individuals, or you have to battle conditions. Well, you do need to be positive, but not that which you term “battle” today, because Life never battles anything. It just moves in, and the other thing moves out, or in other words, disappears.

Now that is the Mighty Action of Life, the Mighty Action of Light, and as you stand calm and serene before the face of human appearances, then in that great, calm serenity, keep pouring the Power of Life and Light forth into the condition, it must dissolve and disappear, and human beings—should I remind you of this? I think I shall—Beloved Students, think of your Student Body in America today; and then think of any vicious individual—how you could all turn your Light Rays upon that individual and dissolve within an hour every bit of viciousness that was there. You could do it, if you only realized it! That Light would go into action, and if held sustained, or in other words, held the individual sustained within that Ray of Light—which is the Focus of the “Presence of Life”—human discord would be compelled to dissolve and disappear. So in your governmental activities; so in your city, and your capital. You, Beloved Students, are the Power of the Light, and once you become aware of that, all human discord will disappear. Remember then to what a mighty degree you are cooperating with the Great Cosmic Light as It pours Its Mighty Action forth into the Earth!

I call your attention again—you don't all have the opportunity to see this—but wherever the Messengers have been throughout the United States and these activities have taken place, there has been abundant physical evidence of people who knew nothing about this Activity who felt the Power of the Action of the Release of the Light and the change of the atmospheric conditions. Just as you were informed here, by the Outpouring of this Great Light, the great number of suicides has ceased. A great service! Now then, you can sustain that and keep it ever increasing in your Call to the "Presence" to prevent all such activities, to prevent treachery and deceit in your government, and hold the Power of Diplomacy in Divine Order and Divine Action.

And I say to you, friends of Canada, you are going to be able to do a Mighty Work there! So be dauntless to the appearance world as you call the Mighty Power of the "Presence" into action. A Great Master—I may not tell you tonight who—has been placed over Canada (*applause—audience rising*), and you will find through that many wonderful things coming about, and some things that have been in the Desire of your Hearts for quite some time will begin to find their outpicturing. Oh what a glorious thing it is to be one Great Family of Light! O Precious Students, allow me to plead with you tonight to call forth, every night before you close your eyes in slumber, the Blessing upon every other "I AM" Student in the world. O My Dear Ones, if you knew what a Blessing that would bring you! Oh, not that you do it for that purpose—but the very Law that would be set into action by that would bring you such Happiness and Release! And there is no one that could not render that Service.

You see, we have believed that we had to do some miraculous thing, noticeable to the world, but oh no! Sometimes that is very needful, but at the same time, the greatest Service at the present is in the Mighty Silent Activity, calling forth these Mighty Light Rays to take Command of the conditions of the Earth and hold Their Dominion there and produce Their Perfection. Everyone, the humblest one in the world, can call to that “Presence of Life,” and that “Presence of Life” will send Its Mighty Light Rays forth to render a Service indescribable.

Therefore I say to you tonight, Beloved Ones, rejoice as never before in the Glory and the Privilege and the Blessing that is yours in rendering this Service. As you see the ever-increasing happiness and health within yourselves, oh just think of it, you only hear of just a few instances, but We see hundreds of instances where individuals have been helpless, have been bed-fast for years, and arise and walk—free and happy again. Conditions of abnormal growths dissolve and disappear within a few hours, and even the x-ray shows both conditions. No longer can there be question under that proof.

So mankind is entering in, and Children of the Light, you have only just begun. Even in the outpicturing today, it is only a fragment of what will come in the next few years with your ever-increasing intensity and power in the acceptance of Life. Therefore I say to you, rejoice as never before, and *never allow yourselves to be affected by conditions or appearances*. The reason We keep holding that before you is because you must say and feel to all appearances less than Perfection: *You have no power! You cannot and shall not enter my world. You have no power to touch me or any*

*other "I AM" Student in the world!*

I say this night to every "I AM" Student in the world who wants to be free from drink and the use of tobacco: *By the Sword of Blue Flame, this night I cut you free! (ap-  
plause)* May you here in this room who have been desiring it accept that freedom tonight and feel all desire gone from your body and feeling world forever of those habits. *I say they are dissolved this moment and replaced by the Ascended Masters' Desire and Substance of Light holding Its Dominion there. Great Powers of Light! See that this reaches every "I AM" Student this hour, and by the Sword of Blue Flame there, cut them free from every wrong desire! We accept that in the Name and the Authority and the Limitless Power of the Great and Mighty Cosmic Light that is flooding the Earth with such Power; and may the whole body of the Students be enabled to accept this at once!*

I thank you, Beloved Ones, with the Fullness of My Heart's Love, and may I clothe you, both ladies and gentlemen tonight, in My Pink Garment of Light. May you wear That and absorb Its Great Blazing Presence, and as I spread over you that Wondrous Substance of Light, may you absorb It to give you your Happiness and Beauty and Strength and Courage and Perfection; and one day, through your Call, will that Mantle of Pink Light be spread over your America, and then will the Perfection of Life find Its Full Action—in the beauty of your buildings, in the simplicity of your power, in the magnificence of your beauty and adornment and decorations. May the Fullness of that come quickly into your use, that all cumbersome instruments for your comforts soon be replaced by the simplicity of Life—Its Beauty, Its Perfection, Its Power

of Light—that will one day enable you to hold forth your hand and receive the Jewel of Light to adorn your forehead and carry Its Radiance in Its Impelling Power of Divine Love to the rest of the world.

I thank you and bless you, and may the Full Power and Action of your “Mighty I AM Presence” take Its Dominion tonight, and hold It there sustained forever to produce Its Perfection, Its Happiness, Its Limitless Supply, and your Ascension in the Light. I thank you.
