

Our Beloved Messengers Mr. and Mrs. G.W. Ballard

Beloved Lotus Speaks

May the Great, Blazing Power of this Light today increase with such pressure as to release each one into that Mighty, Blazing Glory—the full Power of that Light within which we always stand and draw to ourselves our Own. And may everything that is our Own be released now here in the physical octave, and move each one forward in the most Blazing Victory Earth has ever known.

May the Treasure House of the “Mighty I AM Presence,” that of the Ascended Masters’ Octave of Light and that of America! open wide Their Floodgates! Pour forth Their limitless Avalanche and Ocean of Blazing Supply of every good thing including money, for the perfect upkeep of all under this Radiation, the perfect Expansion of this Light, Its Invincible Protection, Its Victorious Defense! Now Its quick, overwhelming Onrush that fills America—floods America, flows over America, and stills forever all that is not of the Light.

May that Burst of Light come now with such Power and Pressure from the Heart of the Great Central Sun that no destructive force can longer move within our America, and America’s Cup of Light o’erflows until It fills the Earth.
