**Beloved Saint Germain's
Talk to the Group Leaders**

**New York City, New York • April 22, 1939
Through Mr. G.W. Ballard**

Now then, may I have the great pleasure, while I cannot use this hand to do it, will you please accept My Stream of Light and Energy shaking hands with you—every one—that My Power, My Love, My Strength and My Happiness and My Victory of the Light may pour into and fill your being; and then charge into your world of action to give you the Mastery over every condition that confronts you, yourselves and those of your Groups, in holding such harmonious dominion, great calm strength, determination and courage that lets the Power of Life flow forth through you and keeps yourselves perfectly harmonious to pour that great loving kindness and harmony into the Groups, into the Students.

O My Dear Ones, only if you saw as We do could you know how greatly that is needed. The blessed ones not yet stabilized enough to hold their anchorage in the Power of Light—oh how they need the encouragement and strength of those more firmly anchored to lift them out of those limitations and conditions. So won't you feel a greater firmness—a greater outpouring or kindness to those who sometimes you might feel impatient with. You know, one not Ascended cannot possibly judge what is the condition within the Life Stream of individuals to be handled, to be governed. And after all, We can, without knowing that, give infinite assistance almost, by pouring out loving kindness and blessings on the individual.
