Beloved Saint Germain's
Talk to the Group Leaders

APRIL 22, 1939

I have mentioned many times . . . the great Blessing of your Mighty Decrees going forth. There are thousands and thousands and thousands of people today who are receiving the Activity in the mental and feeling world of these Mighty Decrees that have gone forth; and I tell you, Beloved Group Leaders, if you saw just once your Magnificent Activity as It goes forth from your Group, you would be satisfied forever with your efforts even though they seem humble.

And if your Group is small, oh, please do not mind! Go on with all your earnest sincerity and determination and dynamic power. And if it is a large Group, so much the better. You release more volume, of course, just the same as a group of fifty people release more volume than an individual as a rule. But when you have come to the point of the Messengers today where there is no qualification going forth from your feeling world to obstruct the Power of Light called forth, then you become a dynamic Power and your Calls will be answered with the power and speed of lightning. But all human qualification must be stopped before you will get the continuous, instantaneous Answer to your Calls; and you can only stop that by ceasing discord for any reason whatsoever in your feeling.
