

NEW YEAR'S RESOLUTIONS

Beloved Cyclopea

Now I come to give you Assistance in the control of your attention. So often you want to keep your attention on something that is constructive, and the first thing you know, it's contemplating everything else. If, when you wish to control your attention and there seems to be interference by suggestions of human creation in the atmosphere about you or conditions in which you must function—if you will command your attention to be held on that which is the Fulfillment of the Ascended Masters' Divine Plan Their Way and Invincible forever, and forever sealed within the Protection of the Sevenfold Flame of the Seven Mighty Elohim—you will have very little trouble keeping your attention on that which is constructive and off of the things that have created your discord of the past because they connected you with them and they drew you into it before you knew what had happened.

The attention is just like a weather vane. It just blows everywhere; and if you do not control it, then the destructive forces in the atmosphere about you will control it. But if you want to set the habit of overcoming the pull of human consciousness upon your attention—and not only in the intellect, but the pull of human consciousness upon your feeling, the energy of your emotional body—you will have to have it sealed within the Fiery Christ Blue Lightning Armor, as We've told you, of Fiery Christ Blue Lightning Purity of the Seven Mighty Elohim of Creation as well as your "Beloved Mighty I AM Presence."

This is part of the Great Cosmic Law's Blessing to you when It established the great Law of Embodiment, and the Seven Mighty Elohim of Creation offered Their Love and Sacred Fire to bless and protect every Heart Flame that has come forth from the Great Central Sun to take embodiment in the physical world. So when it seems difficult, Beloved Ones, to overcome habits, whether they be in the emotional body, in the feeling world, or in the intellect, in the mind, remember: Whenever it is difficult and you command and then—you make such good resolutions and you break them so easily—you know that! Well, if you don't want to break them and you make the decision that your intellect, your outer intellectual consciousness, your mind, and your feeling are sealed forever in the Ascended Masters' Fiery Christ Blue Lightning Armor of Indestructible Protection against the acceptance of anything human, no matter where it comes from, you will find a feeling of Peace and Release coming into your outer consciousness. There will be such a relief. It will just be like tons of pressure are taken off of your own physical body, your feeling world, the atmosphere about you; and more than that, it will help to cut away and keep cut away the interference with your affairs.

Now this has a threefold Blessing: It protects your mind, protects your feeling and atmosphere, and It protects your affairs from being contacted by the hordes of evil that seek only to destroy or desecrate anything good that you create. This is the Protection of your creative power—whether it be in the mind or the feeling or the spoken word or the physical things you do, matters not. If you don't protect it before it comes into this world, then it has no Protection. Destructive forces can do anything to interfere with you. They can cause delay or opposition or misinterpretation

or the warping of the consciousness, the distortion of that good which you started out to manifest; then you find it does not come through as successful accomplishment. It is because it is not protected in the beginning!

DECREE

BELOVED MIGHTY I AM PRESENCE AND BELOVED CYCLOPEA, THOU MIGHTY ELOHIM!

I DEMAND the Protection of the Sacred Fire into action, to protect all I have received at the Christmas Class and hold everything sealed in, and charged with, and forever expanding the full Protection of the Sevenfold Flame of the Seven Mighty Elohim, which keeps me untouched by the suggestions of the outer world that would try to cause confusion or divert my attention, so I could not use the Power that has been given me!

(Fill your beings and worlds with this.)
