

GEMS OF LIGHT

BLESSED YOUNG PEOPLE

BELOVED MIGHTY VICTORY

Work on this thing with all your might to demand all substance of deceit stripped out of yourselves, out of your pathway, out of everybody you meet; and then, charging yourselves with My Flaming Presence of God's Victory Supreme forever, go forward like a streak of lightning!

And let Me offer an Idea for your acceptance, because one day, if you're going to have Mastery, you'll have to attain it. And that is: Get in the habit at all times of being direct—direct in your question, direct in your answer. Don't hedge! If you do—whenever you try to avoid an issue by hedging or saying a thing that isn't the real answer, Precious Ones, as sure as you do that, you're automatically admitting guilt. There isn't anything that would trap you in a court of law so quick as hedging when you should give a direct answer.

Now if forces or individuals are criminally insane or criminally vicious, it doesn't mean you have to tell everything. You can make a statement of the Truth of the Law that protects yourself. And if you don't choose to answer, say so. Say, "I don't choose—" or "That's none of your business!" But be positive, be direct; and concentrate your energy, because if you don't, your energy just goes "blah" like that!

GEMS OF LIGHT

There is

no focus, no concentrated
focus of your energy when you begin
to waver and hedge.

Now please don't let that quality use you. It's a thing that's used in business. It's used in the medical profession, and one of the frightful claws of the beast in the medical world is the people are taught to lie and think it's all right. People are taught to lie to the patient and, well, they think they avoid fear. Well, in the first place, it's the tool of the most destructive thing in creation. Now let's clean that thing out! If somebody asks you a direct question, give a direct answer. You will either know yes or no, and if you don't know, say so—"I don't know!" And if it isn't any of their business say, "It's none of your business." You can't have Victory otherwise. You've got to make the sinister force know that you know its traps. And when it starts to spring them on you, you just keep ten steps ahead of them. Now that's Victory!

You'll never have any quantity of finance, you'll never have amazing success, you'll never have Invincible Protection until you strip that substance of deceit from everything that is alive, whether it's in yourselves, in your pathway, in the business of the outer world or with individuals with whom you associate. If you don't strip away the substance of deceit, sooner or later you're trapped and you're caught, and failure is there, because that is a tool of the sinister force. And if you use their tools, you come under their law. If you use Our Tools, you come under Our Law. You can't have any bad reactions in that, so don't be afraid to say yes or no right from the shoulder.

There are so many subtle forms in which that
substance keeps the individual in distress
for years because they don't know what's
acting. And that's a thing that
makes uncertainty

GEMS OF LIGHT

and keeps

individuals from deciding a thing that you know instantly what's right and what's wrong. Didn't the Mighty Master Saint Germain say to you in *The "I AM" Discourses*, " 'Mighty I AM Presence,' charge me with Your Directing Intelligence and Your Alertness that always enables me to make quick decisions correctly!" You see, the sinister force is terribly afraid of a person that's brazenly honest, absolutely fearless and can see through causes and effects, because you've got their number before they start. And the sinister force fears worse than anything else on this Earth a person who keeps clean and pure, who's absolutely fearless, who can't be bought, swayed or influenced for any reason whatsoever away from the Perfection of the Ideal.

If people can't be scared or bought or pushed or influenced by this, that, or the other reason, the sinister force knows right then, it has very little hope to swing that individual off the path. And there is not anything so dangerous as to try to play fast and loose with everybody. You just get like—like everybody, that's all. Now We don't do those things. We protect all that's constructive in everybody's Life Stream, but We don't let their human fool Us one second; and We see cause and effect in absolute relationship to energy.

So in order to be clothed with the greatest Activity of the Sacred Fire, you will have to take your stand and you will have to strip away—and demand that it be stripped out of your Life Stream—all substance of deceit, known or unknown, because many times people have habits that are acting and they don't even know they're acting in their emotional world.

But I plead with you as young people who are going forward in the business activities of the outer world: be right straight and square from the shoulder, and give it to them until they are

GEMS OF LIGHT

afraid to

do anything wrong to you.

Now that's the only way you can have
Invincible Protection. And when We see a person
that is adamant on that quality, why, We many times
can take them forward a thousand times faster than
otherwise would be, because We know We can depend on
the individual who just will not compromise with that force.

And I plead with you—I'm going to illumine this statement
Myself—Beloved Master Jesus never said, "Agree quickly with
thine adversary." That's silly nonsense! If you're going to agree
with a destructive force, well then, you'll be like them, that's
all. If you agree with Us, of course, you'll be like Us, too. But
We're not your adversary, that's the difference! But I plead with
you, as you go forward, you're going to make a reputation for
yourselves, and in your business activities, take your stand and
yield not! And We'll back you up with all the Power there is in
the Central Sun if need be to mow down the things that would
wreck you or oppose your Perfection to which you are attaining.
