

Nature's Blessings

Lord Maha Chohan

As the Permanent Golden Age comes in, more magnificent blessings of the Powers of Nature and Forces of the Elements will be brought forth. And that all comes from the Ascended Masters' Octave. But the thing We want you to realize is that when you are concerned with the purifying of the Powers of Nature and Forces of the Elements for the blessing of the Nation or the world—We want you to realize that as your blessing goes out there, those Beings of the Elements that are within your own flesh structure, automatically, because you're calling this—your Desire to pour forth Our Sacred Fire Love's Action and Blessing into the Powers of Nature in the world around you to bring greater manifestations and blessings, must of necessity fill you with the same thing—and first! Because when you Call

for Our Purifying Love and Its Blessings to come forth and produce greater Perfection in the Powers of Nature and Forces of the Elements, that Power of Perfection, the very Desire for It within you, enables Us to pour It forth into you and bless you, and bless those Beings and Activities of the Elements within you.

So the flesh structure and the flow of your life and the substance that you use every day through food and the air you breathe bring into you these greater Blessings from the Ascended Masters' Octave and more easily hold balance within you. This is part of the Answer to your Calls for the Overwhelming, Indestructible Purity for which you have called. And when you desire to bless the Powers of Nature and Forces of the Elements with whatever Ascended Master Sacred Fire Purity releases them from the impurity and discord mankind has imposed upon them, you automatically release yourself, the outer self of each one, from the discordant conditions that have been imposed upon the food and the general activities of the outer world in the Powers of Nature that you use every day.

This helps to purify the air. It helps to purify the water. It helps to purify the substance of Earth. It purifies everything within the Powers of Nature and Forces of the Elements, whether they be within you or in the world around you or in the food you eat or in the atmosphere or in the outer world's use and activities of them on which you depend. Now this has also a blessing to come to you through transportation, because you have to use the Powers of Nature and the Forces of the Elements to produce your transportation in the physical world. So when you are really concerned about calling forth the Ascended Masters' Sacred Fire's Purifying Love into all the Powers of Nature and Forces of the Elements

to release them from all impurity and discord mankind has imposed upon them, that Release is a consuming of many, many, many activities that have gathered a momentum of destruction through outer world channels—that mankind accepts as inevitable in their reaction to the individual. But these destructive forces are not inevitable if you'll understand what Our Purifying Love means to Life.

I wish to say this, and I hope you will remember It frequently: Unascended beings haven't the slightest consciousness of how tremendous is the Service to Life of the Ascended Masters' Sacred Fire Love or the Sacred Fire Purifying Love of your "Beloved I AM Presence" and the Powers of Nature and Forces of the Elements. You cannot possibly understand in the unascended state how overwhelmingly wonderful is the Love of the Sacred Fire that has produced the physical manifested Universe, that sustains It and keeps Its Blessings expanding that mankind may embody here, be sustained, and use the Master Powers of Life to create Perfection and become trained to create Perfection wherever you go after your Ascension is attained.

So this is an Eternal Blessing to Life; and I hope you will love to do it, because the Powers of Nature and Forces of the Elements are part of My Being—and My Service and My Love to Life to help individual Life Streams embody in this world and have the Blessings by which We can help each one to the Ascension. And We want that Blessing to go forth everywhere to the Powers of Nature and Forces of the Elements as quickly and powerfully and continuously as We can.
