

## **BELOVED CHARITY**

hose of you, especially the young people in this Activity who have been taught this Law from childhood, you do not know the Blessing you have. You do not know the effort the Cosmic Law has gone to, to give you this Knowledge that you might be protected against the desires of the outer world. Until this Knowledge came forth, the rest of those under this Radiation had to go through the world's experiences and just find their way by their feelings and hold to God close enough to attain this Light. But those of you who have been taught

It from childhood—if you deliberately choose the desires of the outer, your suffering will be infinitely greater than those who did not know the Law.

It's one thing not to know the Law; and it's another thing, knowing the Law, and you deliberately choose to misuse It. Therefore, if I were you and I wanted Protection against the human desires that produce nothing but destruction everywhere about you, I would call and call and call as if my next breath depended upon it, to the "Beloved I AM Presence" and the Ascended Host to fill you with Their Hearts' Flame, make It live in you forever, command It to possess and rule everything in and around you—and have the Freedom and the Peace and the Divine Justice that your Blessed Master Saint Germain has explained throughout the years. . . .

I leave the Heart's Flame of My Perfection in and around you, ever abiding as a living Friend to raise everything that comes to your attention that is less than Perfection into the Perfection that can expand for Eternity Its Eternal Happiness to Life—and that is Freedom!
