

“I AM”

A NEW YEAR BLESSING

BELOVED GODFRÉ

DECEMBER 31, 1950

Dear Hearts, you are never left without the right direction from your “Presence.” It doesn’t make any difference what the old human has done, God, at any moment, the “Mighty I AM Presence,” can flash the Light into your feeling world; and there will you begin to understand your

“Presence” in the feeling, before your intellect knows the reason. That is the place to guard! And be very, very, very careful of having a feeling of satisfaction within you of making somebody do your will. O God! Forgive that from every Life Stream on this Earth, and let us go into the New Year resting in the All-Christ Flame that is Immortal Protection and Immortal Command to everything in the physical world forever.

If you want cooperation with people, then I say, learn to let Love from the “Presence” draw to you that which fulfills the Divine Plan. Just as surely as you desire to make somebody else do your will, will the sinister force stand at your side and make you do its will, because the Divine Will of the “Mighty I AM Presence” is paramount, and you may not intrude upon It without penalty. But you, you who are in a directive capacity, can love people into cooperation with you because the Power of the Love that does that is the Flame of Immortal Perfection from your own Higher Mental Body. And the All-Christ acknowledged as the Victory from Our Octave clothes you in a Flame in the atmosphere in which you move that makes everybody and everything love you, even to the Powers of Nature and the Forces of the Elements.

I am determined to root out that thing that has given the sinister force its hold and connection with the energy of your feeling world, and from today We enter into the New Year clothed with the Flame of the All-Christ Victory. You take your stand and It shall manifest everywhere. Often acknowledge, “I AM” the Cosmic Law’s Demand that everything in my being and world is now clothed with the Sun of the All-Christ Flame, and Victory is mine everywhere!
