

“I AM” ASCENDED MASTER YOUTH

BELOVED HERCULES

You know, in Life when one person accomplishes something worthwhile, if someone else sees that and is constructive, there comes the Desire in the other person to try to make effort to a like attainment. You know when the automobile was first invented, all kinds of things were prophesied that were destructive; but it didn't take long after it got into action until many other minds began to think about the same thing and began to build other automobiles, didn't they? You've all lived to see that!

Well, that is what one person's example does for the rest of Life. As you set an ideal that is worth striving for and you go forth and fulfill that, it gives courage to the rest of mankind to make a similar effort to see if they, too, can attain the same Victory. Now this is what the Beloved Master Jesus hoped for when He left the Etheric Record of His Ascension over the Hill of Bethany; but since the destructive forces beclouded mankind's memory of that and did everything possible to destroy It, it has taken some time now for the Cosmic Law to move into outer action other Activities of the Sacred Fire to awaken mankind again to the Realization of the Fulfillment of their Destiny.

So every aspiration that you have to reach up and do something greater and better with the Life of this Universe becomes a magnet of power to stimulate a similar Desire in the rest of mankind to also make conscious effort to reach up and do something greater and better. At first it sometimes antagonizes the destructive feelings in mankind. Jealousy arises, destructive activities try to prevent the greater accomplishment; but as time goes on and the spiral of mankind's Life on this world ever rises higher in its Mighty Ascent into the Ascended Masters' Octave, the rest of mankind will respond to the upward Pull of that which produces only Happiness and makes you master over the conditions that bind the rest of mankind in distress.

So your privilege is very, very great, Beloved Ones. Your opportunity is very great, and your responsibility will make you Master and Victor over all in this world as you carry it forward and make your Conscious Call to draw forth the Power of your own Life in dynamic action to accomplish that which you know will produce Perfection.
