

BELOVED MIGHTY NEPTUNE

When you hear Us speak of the Great Light Rays, the Personal Rays of certain Cosmic Beings who are watching the Earth, try to understand that those Cosmic Light Rays are a Flow of Substance from the Great Central Sun just exactly as a river of water flows through a field. Both are substance. The Inner Essence of the Cosmic Light, I assure you, can be drawn into the waters of the planet; and wherever that Inner Essence flows, I assure you, Purification will be manifest for Eternity. And it's time it came to pass! *(applause)* Thank you so much, Precious Ones.

Now for the benefit that it will be to you and the Blessings you can call forth into the outer world's activities of the Water Element, don't hesitate to call forth the Inner Essence of the Violet Consuming Flame and the Cosmic Light to pass through all water that is contaminated in this world and

force the Annihilation of the contamination. Those of you who are so blessed by the water, surely you owe a blessing back to the water of the planet because of its blessing to you. And you will complete the Great Balance of Life if you will call forth into the waters of the planet—the Water Element of the planet—the Inner Essence of the Great Cosmic Light and the Inner Essence of the Cosmic Violet Consuming Flame’s Cosmic Action. In this Purification will come a Balancing Activity that does not allow any of the activities of the Water Element to ever do any damage, ever get out of control, or ever do anything that produces discord.

Oh, great are the Blessings of Life! Life has given you so much! Life’s great Love of the “Mighty I AM Presence” has placed in manifestation such Transcendent Blessing that only Love can create, that, My Dear Ones, if I were you, I would spend no more time with anything that does not let that Love come into you and bless you and make you Its Master Presence as you move among conditions of the outer world—and yet, you will not feel their discord. You can do this!
