

BELOVED ORION

Please, I plead with you, when you leave this Conclave, do not feel that you have to go back to this position or that position—you have to go back to your daily activities and leave this Joy behind you. That is not what We want! We want you to take this Victory and Joy with you into the outer world. And if it seems for a time to try to intrude, go by yourself if it is only for one-half minute, and demand with every Power of your being the Invincible, Victorious Authority of your “Mighty I AM Presence” and the Invincible Victory of the Sacred Fire of Our Love to blaze into those conditions and forbid them to live. Because when you call this Sacred Fire into the energy—which is the Life you have given them in the past—and you forbid that energy to allow any sense of struggle or discord to live, well then, My Dear Ones, it is a very simple matter for Us to cleanse your beings and worlds of the limitations under which you have struggled for centuries.

Now this applies to the healing of the body just as well as to your supply of money or food or clothing or opportunity or anything else. Call forth in the midst of every physical condition God’s Invincible Success. And what does that mean? It means God’s Invincible Protection and Activity and Dominion of everything that is constructive. . . . So go forward with happy Hearts! We shall watch—We shall give you every Assistance as soon as you decide and are determined and by Conscious Command forbid anything to live in your being and world that does not glorify your “Mighty I AM Presence” with Its Eternal Victory of Love. Just know that the Hearts of the Seven Mighty Elohim will

ever stand guard and watch you. And the Powers which They bestow upon those who will not yield to the fear and suggestions of the outer world—the Powers of the Seven Mighty Elohim will come into your outer use and bring you the Blessings that will glorify you and the Universe around you with Happiness you've never known, with God's Success in everything you do, and with Freedom that none can take from you. Just know you are held in Our own Hearts' Flame, and We command everything in your world, because you have given Us your Love and Adoration, shall manifest to you the Victory of Our World. And there shall not longer be problems to cause you distress when We have the Boundless Power to remove that distress from the Universe forever. Just go forward and take your Freedom by the Victory of the Heart Flame of your "Blessed I AM Presence" and know that Our Love commands the problems cease; and God's Invincible Success in anything constructive you desire to do must come forth and manifest that which you have a right to have, a right to produce in this world, and a right to enjoy so long as the Universe exists.

Thank you with all My Heart, and may My Heart's Victory of Eternal Love prove to you from tonight what Glory is yours as you cooperate with this which I have called to your attention. And may the Blessings of this Conclave go forth like a Mighty Ocean of Love, enfold the younger generation and the incoming Life Streams, and then enfold the Nation and the world until the Glory of the Seven Mighty Elohim descends to Earth to forever build the Perfection of God's Heart here in outer manifestation to bring all to their Eternal Freedom.
