

## **GEMS OF LIGHT**

### **Mighty Vesta**

*The Manifestations on a planet or a Sun or a System of Worlds are created by Cosmic Beings of Immortal Love, Purity, and the Sacred Fire. Those manifestations are placed in a world, that the incoming Life Streams who are to have experience there may dwell in the Happiness and Powerhouse of God's Love. But when the selfishness of human desire demands things for itself and thinks it owns everything, its end is approaching. So the more selfishness builds, the sooner the end comes. There is nothing that binds mankind to poverty and agony and limitation like the demand of the outer self to just demand everything for itself, instead of understanding everything is loaned to it in this world. And the outer self is expected to place the "Mighty I AM Presence" first, and return everything in the outer world after it is used back to the Possession and Control and Love and Blessing of that "Mighty I AM Presence" that gave it.*
