

ACTIVITIES OF THE
BLUE FLAME

Beloved Goddess of Light

When We removed the discarnates from New York City . . . I asked for the privilege of going in there first—and alone! And in those dives in the East Side of New York where crime and viciousness was so great and the discarnates so thick, I threw a Lake of Blue Flame over them to stop their howling. And then We ordered them out of the atmosphere of Earth.

Beloved Hercules

If you are surrounded by turmoil and you want to remain at Peace within yourself, call forth My Herculean Peace, because My Power is Peace. Therefore, My Power is Invincible Peace. It is the Power of the Blue Ray to expand that Peace until It spreads over the surrounding discord, controls it, and consumes it. The same thing where hate is manifesting: Call forth My Herculean Purifying Love to spread the Blue Ray over it until it is stilled. Then the Violet Consuming Flame within the Blue Ray consumes it; for I assure you, the Violet Consuming Flame abides within the Blue Ray. It abides within every Activity of the Sacred Fire, because It is the great All-perfecting Activity of the Love from the Central Sun. If you want Protection, call My Herculean Protection of the Blue Ray. . . .

If the Elohim of Peace is trying to bring Peace to the Earth and is pouring forth the great Rivers of Golden and Pink Flame, the rest of Us stand enfolding that; and the Power of the Blue Ray both surrounds It and is the Controlling Pressure around It until It reaches Its destination and is permanently established. If the Great Elohim of Purity is pouring forth the Cosmic Action of the Sacred Fire Purity from the Great Central Sun, again would I stand and pour the Blue Ray around that, and hold It steady until It had accomplished the Fulfillment of the Desire of the Elohim of Purity.

Beloved Sanat Kumara

I wish to bring you some awareness of who the Seven Great Archangels are that govern the Blue Ray to this System of Worlds, and especially to this world itself. And when you think of It, don't think of just force—electronic force of tremendous Power—think of It as the most Terrific Love from the Great Central Sun that is great enough to create every planet in this system and the Sun Itself, and keep all in balanced action harmoniously, and throughout uncountable aeons of time. This is the Cosmic Action of the Blue Ray; and you can have the Individualized Action of that in and around yourselves in the most amazing Victory and Miracles of Perfection without limit you could ever ask for . . . I have many Reasons for bringing this to your attention tonight, because out of the Blue Ray comes the “I AM” Ascended Master Master Miracle Music of the Spheres.
