

THE LAW OF LIFE

The Cosmic Moment has struck, Beloved Ones, when the Ascended Masters call you to Victory and Freedom in the Light! Our subject is “I AM”! “I AM”! “I AM”! THE POWER OF THE GREAT ELOHIM HERCULES. This Great Cosmic Being is referred to in the Bible under one of the Great Activities of Life wherein the Elohim have been mentioned. They are sometimes spoken of as the Seven Great Powers around the Throne. They are Great Cosmic Beings who pour certain Qualities and Attributes of Life to the humanity of this Earth. And They are very real, very tangible, and Almighty in Their Service to the people of this world.

Now when we say that these Great Beings are assisting mankind—and know something of Their Assistance to us in this Activity of the Light—please realize that any human being on the face of this Earth, who with intense Devotion and Call to any Great Being of Light, would continue that Call, and call to his own “I AM Presence” to illumine him completely with the full Blessing and Perfection of that Great Being to whom he calls, that “Presence” will pour forth through him the Power

of Light. And he will begin to receive more and more of the Qualities and the Outpicturing of that Individual's Mighty Life Stream. The same as a child would turn to its mother, and asking the mother for something which the mother could give, the mother, if she loved the child, would be happy and glad to give it, and always does if it is for the good of the child.

Well, since human beings of this Earth need to know something else about what's in the rest of this Universe besides themselves, it is for the good of all mankind when any human being makes the sincere, determined Call from deep within his own Heart with all intensity of his feelings to those Greater Beings in the Universe—the Greater Powers of Intelligence of Life—to illumine all things to that individual concerning that One's Activities. Not that that Knowledge comes in a minute—all of it—but with a determined attention upon those Great Beings and the sincere Call of Love and Gratitude from the Heart of the individual, that individual will be answered as sure as he exists in this Universe, because Life is One, consciousness is One, energy is One, and substance is One throughout the Universe.

The part of Life in the human beings of this Earth that reaches up to the greater portion of Life, the greater Perfection of Life which the "Mighty I AM" of each one is, and these Great Ascended Beings are, then They will answer just as surely as that Call goes forth with sincerity from the Heart of the individual. When you turn your attention to the Great Seven Beings who are considered and called the Elohim to this Earth, and when you turn your attention to the Great Being Hercules, you will find They are ready and willing, and pour forth Their Love to you instantly. And why wouldn't They? What's wrong with the Great Universe that contains something bigger than man, in Its Willingness to answer the Calls from the Hearts of humanity

that are sent up in sincere determination and Love to know more about the greater Perfection which is in this Universe?

You would do it to a child, and so would I. And why wouldn't those who are greater than us answer our Calls if those Calls are sincere and determined and are persistent? Therefore, when the Great Beings who are called the Elohim call forth from within Life to those great Attributes that are given to mankind to hold balance in this world, the Great Being Hercules and those other Great Ones pour forth everything possible to illumine mankind, so they, too, will rise into this greater Perfection. Remember, the Seven Mighty Elohim of Creation who govern certain forces to the humanity of this Earth pour Their Radiation through the individual to hold balance, because Their Attributes of Consciousness are the Balancing Faculties which each of us uses, and which each of us must have in order to maintain constructive activities in the outer world.

The Great Cosmic Being Hercules represents to this Earth that inexhaustible Herculean Strength and Energy, Courage and Power of the Great Infinite Activities of Life that enable all who give their attention to Him to receive His Energy, His Qualities, His Love, and His Light to enfold and penetrate each one's activities of the physical world. And whoever holds his attention upon that Great One absorbs that Energy, His Rates of Vibration, His Consciousness, and His Feeling, His Mighty Love and His Light, exactly as a sponge absorbs water.

And since everything from His Octave of Activity is charged with Eternally sustained Perfection, that can be drawn through, and around an individual through your own Conscious Calls to the "I AM" and to that Great Presence. And that can be held sustained and ever-expanding until each one begins to outpicture—here and now in this physical world, in his activities—those Powers of Life that are greater

than that which the ordinary human being uses. Not that the fullness of that comes in a minute—it does not. But like learning music or anything else, if you hold your attention upon those Greater Beings and call forth Their Consciousness to fill you and your world and to act through you to control your impulses, that you may become as They are, and that is continued—you gain your momentum in the acceptance of that—you will as surely have more of Their Qualities outpicturing in your activities and your world as you make the Call. Exactly as a music teacher gives to the child his or her musical consciousness, and the child, holding its attention there and doing what it is told, becomes a musician as the teacher is, and sometimes far exceeds that teacher.

That is why the attention of human beings has got to be lifted from the destruction and ideas, the human concepts of the human intellect, and placed upon something that is greater than humanity if those greater Qualities are ever to come into action on this Earth. Human beings in this world can only express greater Perfection as they turn their attention to that which is greater than themselves. This Great Cosmic Being Hercules has poured limitless Strength and Energy to anyone who gives Him Conscious Recognition. He is a Being of very great Power, great Wisdom, and great Love. And the most marvelous thing about calling to any Ascended Master for any particular Quality to be intensified in our own activities is because all Power, which means Energy and Substance drawn forth from the Ascended Masters' Octave of Life, is always charged with the Ascended Masters' God-Victorious Self-control and Safety in the use of that Power—which unascended beings do not have when they just draw power from the physical world.

Power is dangerous stuff unless it is qualified by Love and directed by Wisdom. Therefore, all Power called forth from

any Ascended Being always contains within It the Balance of Love, Light, Wisdom, and Power. So no matter how much of that Energy anyone draws into his own activities, It can never produce anything but Perfection and Greater Perfection. And It is at all times Eternally safe to draw whatever intensity is needed to call forth the Control of that energy by which he is surrounded in the discordant activities of the outer world, that will hold them in abeyance and then dissolve all that is vicious and destructive.

Each one who needs Strength and Energy to face the destructive activities of the outer world can do well to hold his attention upon the Great Elohim Hercules; and in all the Love and Gratitude of his Heart, make the Call that that Great Ascended Master Strength, Miracles, and Victories, His Substance and Energy, His Qualities and Power of Eternally sustained Dominion and Strength—to hold all things in Perfect Balance, to hold Control of all things for the Blessings of our fellowman—can flow forth through each one of us who gives our attention to Him, who sincerely makes that Call, and sends the Love to Him that is the Open Door and the Means of Attunement by which He can come back to us and fill our worlds with the Blessings which are in His Octave of Life.

And that is true of any Ascended Master on this planet. The moment you turn your attention to Jesus and send Him your Love and call for His Assistance, He answers that Call instantly—so does Saint Germain—so does the Great Being Hercules, and so does every other Ascended Being in this Universe. The moment we turn our attention and *connect* through the attention with the energy of the world of any one of those Ascended Beings, they will pour back Their Qualities into us; and those come into our activities to serve us and release Their greater Good and Perfection.

And it seems to me, as we look around us in the world at large today, that human beings need to have more Qualities of the Ascended Masters and less of the human beings of the world around us.

So long as we look to the human beings and the conditions of human discord swirling everywhere in the outer world today and seeking to destroy all that is constructive—as we gaze upon that, anyone, it seems to me, can hardly help but realize that we should place our attention on something that is greater than that if we ever expect to have it manifesting through us or give us the Protection against the discord which surrounds us at the present time.

Therefore, the human beings of this Earth need to be made consciously aware of these Ascended Ones and be shown how they can call to their own “Mighty I AM Presence” and these Ascended Beings for the release of whatever Quality and Power is required in any set of circumstances to charge forth the Energy and Light needed to turn all destructive activities into something that will protect mankind and lift them into Happiness—instead of allowing the energy of our minds and bodies to connect with the discord of the outer world, only to feed it and create discord which is greater for tomorrow.

Therefore, we owe to the coming generations this constant Call that will be the Protection for all constructive activities. And the day will soon approach when all mankind will see these Great Ascended Ones and be grateful for the Help They have given. Therefore, call Them into action now to hold Protection, and do for the human beings of this Earth what they cannot do for themselves; for that is the Power of Light which They wield and give without limit. And

“The Light of God Never Fails!” (3)

And the “Mighty I AM Presence” is that Light!
