

THE NEW YEAR

Beloved Saint Germain

As We enter into the New Year, may you feel the Fiery Love of the Violet Consuming Flame ever about you with Authority and Power to produce Purity and Perfection that you have never yet experienced in the outer. You have used the Violet Consuming Flame at times; but I say if you love It enough with that Fiery Devotion that draws It to you in outer action, It automatically consumes anything that would be your limitation or your distress. From the Great Temples of the Fire Element in the Electronic Belt around the Physical Sun come forth these Great Activities of Fire to the Earth—the Inner Activities of the Sacred Fire as well as the outer activities of the physical fire. And from the Violet Planet comes the Cosmic Action of that Flame to the structure of Earth. And since the Violet Flame Temple in the Electronic Belt around the Physical Sun comes under the Control and the Direction of the Violet Planet, then you, abiding within that Violet Flame, can have Wave after Wave of Its Cosmic Action to go forth into the outer world and help correct conditions. And as that passes through, It automatically consumes the limitations in your own activities.
